Withdrawal restrictions

In such circumstances, you will only be able to withdraw your investment if Equity Trustees makes a withdrawal offer in accordance with the Corporations Act. Equity Trustees is not obliged to make such offers.

The Fund will be deemed liquid if at least 80% of its assets are liquid assets (generally cash and marketable securities). In addition, should Equity Trustees be unable to realise sufficient assets to meet withdrawal payments, it may suspend the calculation of the NAV and withhold withdrawal proceeds.

4. Additional risks of managed investment schemes

The following risks are of a general nature and apply generally to investments in managed funds. You must also read the significant risks specific to the Fund. These are disclosed in the PDS.

Investment Manager risk

There is a risk that the Fund may not achieve its investment objectives or produce returns that are positive. Any enhancements to India Avenue's investment strategy can not be guaranteed to produce favourable outcomes.

Counterparty risk

There is a risk that the Fund may incur a loss arising from the failure of another party to a contract (the counterparty) to meet its obligations. Counterparty risk arises primarily from investments in derivatives. Significant losses can be incurred if a counterparty fails to deliver on its contractual obligations.

Sector/Industry risk

The Fund may hold significant exposure to listed companies within a particular industry. This may lead to industry related risks, which have an impact on the value of your investment. For example, a change in economic reforms, such as a new stringent regulation on mining companies, may adversely impact the materials industry. India Avenue seeks to mitigate this risk by its investment process, which is designed to ensure that there is adequate diversification of sector, or industry specific risk.

Regulatory risk

There is a risk that changes in regulations governing either a security, sector or capital markets could have an adverse impact on the Fund or on any of the Fund's investments. For example, a foreign or local government may introduce a tax change which may affect the value of any security within the fund

Past Performance risk

Past performance is not a reliable indication of future performance and thus should not be the sole basis for your investment decision. It is recommended that you speak to your Financial Planner before making any investment decisions.

Indian Tax Considerations

The following summary is based on the law and practice of the Indian Income Tax Act ("ITA"). The ITA is amended every year by the Finance Act of the relevant year, and this summary reflects the amendments provided in the ITA by the Finance Act 2016 applicable for the Financial Year 2016-17. This summary is not intended to constitute a complete analysis of the tax consequences under the Indian law.

Taxation of the Funds

Under the provisions of ITA, the Fund would be subject to taxation in India only (i) if it is a tax resident of India or (ii) if, as a non-resident, it derives Indian source income through a Permanent Establishment ("PE") or a business connection in India or receives income, including accrued income, in India or transfers a capital asset situated in India or has any other income which accrues or arises or is deemed to accrue or arise in India.

As per the provisions of the ITA, any person other than a company (including a Trust) would be treated as a resident in India unless the 'control and management of their affairs' is situated wholly outside India during the year. It is intended that the activities of the Fund would be organized in a manner so that 'control and management of their affairs' is situated wholly outside India for the entire tenure of the Fund. However, no assurance can be provided in this regards.

Based on the facts that the Fund would be considered as non-resident and has obtained the FPI licence from SEBI, the Fund is expected to derive income in the form of dividend income and capital gains on transfer of equity shares of listed Indian companies.

The taxability of such income in the hands of the Fund under the provisions of the ITA¹ should be as follows:

Dividend Income:

Dividends received from an Indian company on which dividend distribution tax ("DDT") has been paid is exempt from tax in the hands of the Fund / its Contributors. However, the Indian company distributing dividends is subject to a DDT at an effective rate of 20.36% (inclusive of applicable surcharge and cess).

Capital Gains:

Gains earned on the transfer of listed shares held for a period of 12 months or less are termed as "short-term" capital gains and those held for more than 12 months are termed as "long-term" capital gains.

Nature of Income	Tax rates
Dividends declared, distributed and paid by an Indian company ¹	NIL
Short Term Capital Gains ² on the transfer of equity shares that are subject to Securities Transaction Tax ³	15%
Other Short Term Capital Gains ² (i.e. off-market transactions ⁴) in respect of equity shares; or bonds, debentures, derivatives, whether or not subject to Securities Transaction Tax ³	30%
Long Term Capital Gains ² on the transfer of equity shares that are subject to Securities Transaction Tax	NIL
Other Long Term Capital Gains ² (i.e. off-market transactions) in respect of equity shares; or bonds, debentures, derivatives, whether subject to Securities Transaction Tax	10%

The tax rates are further increased by;

- Surcharge @ 10% of tax amount for income more than INR 50 million but less than INR 100 million, and @ 15% of tax amount for income of INR 100 million or more and
- Education cess @ 3% of Tax amount

¹ The Indian company is liable to pay dividend distribution tax.

² In the case of listed securities, gains arising from transfer of such securities held for up to 12 months are regarded as short-term capital gains. Gains from the transfer of listed securities held for more than 12 months are regarded as long-term capital gains. In the case of unlisted shares, the period of holding is increased to 24 months. In case of other securities, the period of holding is increased to 36 months

³ STT is a tax payable in India on the value of securities transacted through a recognized stock exchange

⁴ Off-market transactions are transactions that are not executed through a recognized stock exchange in India

Taxation of the Investors:

Subject to the application of Indirect Transfer Provisions and GAAR (discussed below), no Investor should ordinarily be subject to taxation in India in connection with his investment in the Fund unless such Investor is a resident of India.

Indirect transfer of capital asset:

The ITA also levies capital gains tax on income arising from the transfer of shares/ interest in a company/ entity organized outside India which derives, directly or indirectly, its value substantially from the assets located in India ("Indirect Transfer Provisions" or "ITP").

The Finance Act, 2015 provides that the share or interest of a foreign entity shall be deemed to derive its value 'substantially' from the assets located in India if, the value of such Indian assets (i) exceeds INR 100 Million; and (ii) represents at least fifty per cent of the value of all the assets owned by the company or entity in which shares / interest is being transferred. The value of assets is to be taken as the fair value of such assets, without reduction liabilities, if any, in respect of the asset. The manner of determination of the fair value of the assets has not been prescribed and is to be provided for by amending the Income Tax Rules, 1962., the situations in which the indirect transfer of Indian assets is proposed to be exempted from taxation have also been provided in the Finance Act, 2015:

Where the foreign company / entity in which shares or interest are transferred directly holds the Indian assets and the transferor of shares or interest, along with its related parties does not hold (i) the right of control or management; and (ii) the voting power or share capital or interest exceeding 5% of the total voting power or total share capital in such foreign company or entity.

The above indirect transfer tax-related provisions could impact the redemption and/or the transfer of the Unit holders interests in the Fund and the Fund would be required to withhold taxes in that case. Further, if a Unit holder takes exposure to the Fund indirectly through a feeder vehicle, the indirect transfer tax provision could be triggered on account of redemption and/or transfer of interests in the feeder vehicle.

Please note that, this is an evolving law in India and there are no precedence on the application of the ITP in similar scenarios. Hence, each investor is advised to consult its own tax advisor with respect to the specific implications of the ITP on the basis of facts of each case.

General Anti-Avoidance Rule ("GAAR")

The Finance Act, 2013 had introduced the amended GAAR provisions to be effective from FY 2015-16. However, the Finance Act, 2015 has deferred the GAAR provisions by 2 years and shall be applicable to the income of FY 2017-18 and subsequent years. Further, it is anticipated that investments made upto March 31, 2017 will be grandfathered.

GAAR provisions may be invoked by the Indian income-tax authorities in case arrangements are found to be impermissible avoidance arrangements. A transaction can be declared as an impermissible avoidance arrangement, if the main purpose of the arrangement is to obtain a tax benefit and which satisfies certain other tests. In such cases, the tax authorities are empowered to reallocate the income from such arrangement, or re-characterise or disregard the arrangement.

However, it is provided that the provisions of GAAR would not apply to:

- FPIs (registered with SEBI) investing in the listed securities or unlisted securities in accordance with FPI Regulations and have not availed any treaty benefits;
- Non-resident person investing directly / indirectly in an FPI.

5. Additional information of fees and costs

India Avenue, as the investment manager of the Fund, is entitled to the performance fee detailed in section 6 (Fees and costs) of the PDS for the Fund in respect of each 12 month period ending 30 June ("Performance Fee Period"), being an amount equal to 10% of the investment return above the performance hurdle. Any performance fee is payable to India Avenue as an expense of the Fund.

Equity Trustees does not consider there is any reasonable basis on which it may estimate performance fee expenses for the Fund. To estimate performance fee expenses would involve speculation about the return of the Fund against the Fund's performance hurdle. Equity Trustees therefore considers that to estimate performance fee expenses may potentially be misleading.

Additional explanation of India Avenue Equity Fund – Retail Class performance fee expense

Where the aggregate amount of the daily performance fee balance is negative, no performance fee will be reflected in the daily unit price and no performance fee balance will accrue until the total of the aggregate amount of the daily performance fee amount for the current Performance Fee Period and the negative balance carried forward from previous Performance Fee Periods is a positive amount.

If the aggregate of the daily performance fee amounts at the end of a Performance Fee Period is a positive amount, this positive amount is accrued as an expense and is deducted from the assets of the Fund at the end of each Performance Fee Period. The amount of the performance fee expense is paid to India Avenue.

Importantly, a positive accrued balance of performance fee is not payable unless the absolute return of the Fund is positive for that performance fee period. Therefore, If no performance fee is payable to the Manager for the period, then the accrued performance fee, will be carried forward into the next Performance Fee Period.

Example of how the performance fee may affect your investment in the Fund

The following is an example of the calculation of a performance fee expense for a Performance Fee Period. Terms referred to below have the same meaning as detailed in section 6 (Fees and costs of the PDS for the Fund).

Assumptions:

- The percentage movement in the MSCI India in AUD from the start of the Performance Fee Period to the end of the Performance Fee Period is 6%;
- the Fund's performance hurdle for the Performance Fee Period is hence 6.00%;
- the Fund's 'investment return' for the Performance Fee Period is 8%;
- the Fund's 'investment return' for the Performance Fee Period is assumed to accrue evenly over the course of the Performance Fee Period;
- the Fund's 'investment return' with reference to which the performance fee is calculated is a return after deduction of management costs but excluding performance fees for the Performance Fee Period; and
- there are no negative performance fee amounts for previous Performance Fee Periods to be carried forward.

On the basis of the above assumptions and if you had an investment in the Fund of \$500,000 at the beginning of the Performance Fee Period and no withdrawals were effected during the Performance Fee Period, your investment would bear a performance fee expense of approximately \$1000.00 for the Performance Fee Period.

Please note that the 'investment return' specified in this example:

- is only an example to assist investors to understand how the performance fee is calculated and the effect of the performance fee expense on the investment return of the Fund; and
- Is not a forecast of the expected investment return for the Fund.

The Constitution

The Fund is governed by a Constitution that sets out the Fund's operation (the "Constitution"). This Constitution, together with the Fund's PDS, the Corporations Act and other laws, regulate our legal relationship with investors in the Fund. If you invest in the Fund, you agree to be bound by the terms of the Fund's PDS and the Fund's Constitution. You can request a copy of the Constitution free of charge from Equity Trustees. Please consider these documents before investing in the Fund.

We may amend the Constitution from time to time in accordance with the provisions in the Constitution and the Corporations Act.

Anti-Money Laundering and Counter Terrorism Financing ("AML/CTF")

Australia's AML/CTF laws require Equity Trustees to adopt and maintain an AML/CTF Program. A fundamental part of the AML/CTF Program is that Equity Trustees knows certain information about investors in the Fund.

To meet this legal requirement, we need to collect certain identification information and documentation ("KYC Documents") from new investors. Existing investors may also be asked to provide KYC Documents as part of a re-identification process to comply with AML/CTF laws. Processing of applications will be delayed or refused if investors do not provide the applicable KYC Documents when requested.

Under the AML/CTF laws, Equity Trustees is required to submit regulatory reports to AUSTRAC. This may include the disclosure of your personal information. Equity Trustees may not be able to tell you when this occurs.

The Responsible Entity shall not be liable for any loss you may suffer because of compliance with the AML/CTF laws.

Indirect Investors

You may be able to invest indirectly in the Fund via an IDPS by directing the IDPS Operator to acquire units on your behalf. If you do so, you will need to complete the relevant forms provided by the IDPS Operator. This will mean that you are an Indirect Investor in the Fund and not an investor or member of the Fund. Indirect Investors do not acquire the rights of an investor as such rights are acquired by the IDPS Operator who may exercise, or decline to exercise, these rights on your behalf.

Indirect Investors do not receive reports or statements from us and the IDPS Operator's application and withdrawal conditions determine when you can direct the IDPS Operator to apply or redeem. Your rights as an Indirect Investor should be set out in the disclosure document issued by the IDPS Operator.

Information on underlying investments

Information regarding the underlying investments of the Fund will be provided to an investor of the Fund on request, to the extent Equity Trustees is satisfied that such information is required to enable the investor to comply with its statutory reporting obligations. This information will be supplied within a reasonable timeframe having regard to these obligations.

Foreign Account Tax Compliance Act ("FATCA")

In April 2014, the Australian Government signed an intergovernmental agreement ("IGA") with the United States of America ("U.S."), which requires all Australian financial institutions to comply with the FATCA Act enacted by the U.S. in 2010.

Under FATCA, Australian financial institutions are required to collect and review their information to identify U.S. residents that invest in assets through non-U.S. entities. This information is reported to the Australian Taxation Office ("ATO"). The ATO may then pass that information onto the U.S. Internal Revenue Service.

In order to comply with the FATCA obligations, we may request certain information from you. Failure to comply with FATCA obligations may result in the Fund, to the extent relevant, being subject to a 30% withholding tax on payment of U.S. income or gross proceeds from the sale of certain U.S. investments. If the Fund suffers any amount of FATCA withholding and is unable to obtain a refund for the amounts withheld, we will not be required to compensate unitholders for any such withholding and the effect of the amounts withheld will be reflected in the returns of the Fund.

Common Reporting Standard ("CRS")

The CRS is a standardised set of rules developed by the Organisation of Economic Co-operation and Development that requires certain financial institutions resident in a participating jurisdiction to document and identify reportable accounts and implement due diligence procedures. These financial institutions will also be required to report certain information on reportable accounts to their relevant local tax authorities.

Australia signed the CRS Multilateral Competent Authority Agreement and has enacted provisions within the domestic tax legislation to implement CRS in Australia. Australian financial institutions need to document and identify reportable accounts, implement due diligence procedures and report certain information with respect to reportable accounts to the ATO. The ATO may then exchange this information with foreign tax authorities in the relevant signatory countries.

In order to comply with the CRS obligations, we may request certain information from you. Unlike FATCA, there is no withholding tax that is applicable under CRS. However, penalties may apply for failing to comply with the CRS obligations.
