## About Pzena

Pzena Investment Management is an independent investment management firm that employs a classic value investment approach and is the sole manager of the Pzena Emerging Markets Value Fund. Since 1996 Pzena has been managing assets for leading endowments, foundations, pension plans and individual investors from its headquarters in New York City; Pzena has a representative client servicing office in Melbourne.

## Strategy

The goal of the Pzena Emerging Markets Value Fund is to achieve long term capital appreciation. To this end, Pzena employs a classic value investment philosophy, seeking to own good businesses at low prices. The investment team at Pzena focuses on companies that are underperforming their historically demonstrated earnings power. Intensive fundamental research is applied to these companies in an effort to determine whether the problems that caused the earnings shortfall are temporary or permanent. After the research process is complete and the company meets all of the investment criteria, the Fund's four portfolio managers may agree to add the name to the portfolio; their decision must be unanimous. The Fund's sell process is equally disciplined. Once a holding reaches the mid-point of the investment universe based on its price to normal earnings valuation it must be sold.
