## 2. HOW THE SGH ICE FUND WORKS

The Fund is a registered managed investment scheme and is governed by the Constitution. The Fund comprises assets which are acquired in accordance with the Fund’s investment strategy. Investors receive Class A units when they invest in the Fund. In general, each unit represents an equal interest in the assets of the Fund subject to liabilities; however it does not give the investor an interest in any particular asset of the Fund.

### APPLYING FOR UNITS

Investors can acquire units by completing the application form (“Application Form”) accompanying this PDS; or by making an application through the mFund settlement service (“mFund”) by placing a buy order for units with your licensed broker. The minimum initial investment amount for this Fund is \$20,000.

The price at which units are acquired is determined in accordance with the Constitution (“Application Price”). The Application Price on a Business Day, in general terms, equal to the Net Asset Value (“NAV”) of the Fund, divided by the number of units on issue and adjusted for transaction costs (“Buy Spread”).

The Application Price will vary as the market value of assets in the Fund rise or fall.

### MAKING ADDITIONAL INVESTMENTS

You can make additional investments into the Fund at any time by sending us your additional investment amount together with a completed Additional Investment Form or by making application for units through mFund. The minimum additional investment into the Fund is \$5,000. Forms are available at [www.sghiscock.com.au](http://www.sghiscock.com.au).

You can also invest via direct debit on a monthly basis using the savings plan. Details of how to invest through the savings plan are in the SGH Reference Guide. The minimum monthly savings plan investment into the Fund is \$500.

### DISTRIBUTIONS

An investor’s share of any distributable income is calculated in accordance with the Constitution and is generally based on the number of units held by the investor at the end of the distribution period. The Fund usually distributes income half yearly at the end of June and December. Distributions are calculated on the last day of each period, and are normally paid to investors as soon as practicable after the distribution calculation date. Equity Trustees may amend the distribution frequency without notice.

In some circumstances, where an investor makes a large withdrawal request (5% or more of the Class A units on issue at the start of the relevant distribution period), their withdrawal proceeds may be taken to include a component of distributable income.

Investors can have their distribution reinvested or paid to a nominated bank account. Investors who do not indicate a preference will have their distributions automatically reinvested. There is no Buy Spread on distributions that are reinvested.

Indirect Investors (as defined in the SGH Reference Guide) should review their IDPS Guide for information on how and when they receive any income distributions.

### ACCESS TO YOUR MONEY

Investors in the Fund can withdraw their investment by completing a Withdrawal Request Form or a written request to withdraw from the Fund and mailing or emailing it to:

Sydney, NSW, 2001  
Email: [SGHinvestorservices@mainstreamgroup.com](mailto:SGHinvestorservices@mainstreamgroup.com)  
Fax: +61 2 9251 3525

To make a withdrawal request through mFund, you must place a sell order for units with your licensed broker.

The minimum withdrawal amount is \$5,000. Withdrawal Forms are available at [www.sghiscock.com.au](http://www.sghiscock.com.au). Once we receive a withdrawal request, we may act on the withdrawal request without further enquiry if the withdrawal request bears an account number or investor details and (apparent) signature(s), or the investor’s authorised signatory’s (apparent) signature(s) or; if the withdrawal is received via mFund.

Equity Trustees will generally allow investors in the Fund to access their investment within 7 days of receipt of a withdrawal request. Withdrawal proceeds will be paid to an investor's nominated bank account or, where the request is received via mFund, to the investor's licensed broker. However, in some circumstances (such as when there is a freeze on withdrawals) you may not be able to withdraw your funds within this usual period. Moreover, the Constitution allows Equity Trustees to make payment up to 30 days after receipt of a request (which may be extended by a further 30 days in certain circumstances).

The price at which units are withdrawn ("Withdrawal Price") is determined in accordance with the Constitution. The Withdrawal Price on a Business Day, is in general terms, equal to the NAV of the Fund, divided by the number of units on issue and adjusted for transaction costs ("Sell Spread"). The Withdrawal Price will vary as the market value of assets in the Fund rise or fall.

We reserve the right to fully redeem your investment upon 30 days notice if your investment balance in the Fund falls below \$20,000 (or as determined by the Responsible Entity) as a result of processing your withdrawal request. Equity Trustees can deny a withdrawal request in certain circumstances, including where accepting the request would cause the Fund to cease to be liquid or where the Fund is not liquid (as defined in the Corporations Act). When the Fund is not liquid, an investor can only withdraw when Equity Trustees makes a withdrawal offer to investors in accordance with the Corporations Act. Equity Trustees is not obliged to make such offers.

If you are an Indirect Investor, you need to provide your withdrawal request directly to your IDPS Operator. The time to process a withdrawal request will depend on the particular IDPS Operator.

#### UNIT PRICING DISCRETIONS POLICY

Equity Trustees has developed a formal written policy in relation to the guidelines and relevant factors taken into account when exercising any discretion in calculating unit prices (including determining the value of the assets and liabilities). A copy of the policy and, where applicable and to the extent required, any other relevant documents in relation to the policy will be made available to investors free of charge on request to Equity Trustees.

#### ADDITIONAL INFORMATION

If and when the Fund has 100 or more direct investors, it will be classified by the Corporations Act as a 'disclosing entity'. As a disclosing entity the Fund will be subject to regular reporting and disclosure obligations. Investors would have a right to obtain a copy, free of charge, of any of the following documents:

- the most recent annual financial report lodged with ASIC ("Annual Report");
- any subsequent half yearly financial report lodged with ASIC after the lodgement of the Annual Report; and
- any continuous disclosure notices lodged with ASIC after the Annual Report but before the date of this PDS.

Equity Trustees will comply with any continuous disclosure obligation by lodging documents with ASIC as and when required. Copies of these documents lodged with ASIC in relation to the Fund may be obtained from ASIC through ASIC's website.

### 3. BENEFITS OF INVESTING IN THE SGH ICE FUND

The Fund is an actively managed Australian Share portfolio that aims to deliver superior medium to long-term returns by investing, either directly or through derivatives, in listed companies which in the opinion of the Investment Manager have, or are creating, a sustainable competitive advantage due to their possession and utilisation of superior intellectual capital. Benefits of investing in the Fund include:

- access to the expertise of a specialist investment boutique structure;
- access to active management aimed at maximising potential for superior returns by investing in companies that the Investment Manager considers to have or are creating an entrenched market position for their products or services;
- potential for growth by investing in businesses based on their prospects rather than their size to accumulate wealth over a long-term;
- significant diversification as it primarily invests in companies that are less affected by the vagaries of the economic cycle; and
- regular reporting to keep you up to date on your investments.

### 4. RISKS OF MANAGED INVESTMENT SCHEMES

All investments carry risk. Different investment strategies may carry different levels of risk, depending on the assets acquired under the investment strategy. Assets with the highest long-term returns may also carry the highest level of short-term risk. The significant risks below should be considered in light of your risk profile when deciding whether to invest in the Fund. Your risk profile will vary depending on a range of factors, including your age, the investment time frame (how long you wish to invest for), your other investments or assets and your risk tolerance.

We do not guarantee the liquidity of the Fund's investments, repayment of capital or any rate of return or the Fund's investment performance. The value of the investments will vary. The level of returns will vary and future returns may differ from past returns. You may lose money by investing in the Fund and your investment in the Fund may not meet your objectives.

Laws affecting managed investment schemes may also change in the future.

In addition, we do not offer advice that takes into account your personal financial situation, including advice about whether the Fund is suitable for your circumstances. If you require personal financial advice, you should contact a licensed financial adviser.

#### COMPANY SPECIFIC RISK

There may be instances where a company or managed investment scheme will fall in value because of company or scheme specific factors (for example, where a company's major product is subject to a product recall). The value of a company's securities can also vary because of changes to management, product, distribution or the company's business environment.

#### CURRENCY RISK

The Fund may invest in securities listed on non-Australian exchanges. Currency movements against the Australian dollar may adversely affect the domestic value of the Fund's investments and the income from those investments. Where considered appropriate, the Investment Manager will hedge currency exposures to reduce the risk of adverse fluctuations in the value of the Australian dollar relative to other currencies.

#### DERIVATIVES RISK

In the case of derivatives, fluctuations in price will reflect movements in the underlying assets, reference rate or index to which the derivatives relate. The use of derivative positions to hedge the risk of physical securities will involve 'basis risk', which refers to the possibility that derivative positions may not move perfectly in line with the physical security. As a consequence, the derivative positions cannot be expected to perfectly hedge the risk of the physical security. Other risks associated with derivatives include that they can lose value because of a sudden price move or because of the passage of time, potential illiquidity of the derivative, that the Fund cannot meet payment obligations as they arise, and that the counterparty to any derivative contract does not meet its obligations under the contract.

#### INVESTMENT SELECTION RISK

The Investment Manager may make poor investment decisions resulting in sub-standard returns (for example where the Investment Manager invests in a company that significantly underperforms the share market). This risk is mitigated to some extent by the knowledge and experience of the Investment Manager.

#### FURTHER READING

Before making a decision to invest, you should read the important information in the SGH Reference Guide "Additional risks of managed investment schemes" section about additional risks that apply to managed investment schemes. Go to the SGH Reference Guide which is available at [www.sghiscock.com.au](http://www.sghiscock.com.au). The material relating to the additional risks may change between the time when you read this PDS and the day when you acquire the product.

## 5. HOW WE INVEST YOUR MONEY

Before choosing to invest in the Fund, you should consider the likely investment returns, the risks of investing and your investment time frame.

#### INVESTMENT OBJECTIVE

The Fund's investment objective is to achieve positive long-term returns over rolling 5 to 7 year periods. Returns are not guaranteed.

#### PERFORMANCE HURDLE

The performance hurdle is the daily percentage movement in the S&P/ASX 300 Accumulation Index plus 1.20% per annum calculated on a daily basis.

#### MINIMUM SUGGESTED TIME FRAME

The minimum suggested investment time frame for the Fund is 5 years.

#### RISK LEVEL OF THE FUND

##### High

There is a risk investors may lose some or all of their initial investment. Higher risk investments tend to fluctuate in the short-term but can produce higher returns than lower risk investments over the long-term.

#### INVESTOR SUITABILITY

The Fund is suited for investors who would like to invest in an index unaware weighted portfolio of listed companies which have or are in the process of creating a sustainable competitive advantage and who seek to achieve a positive long-term return over a rolling 5 to 7 year periods.

#### INVESTMENT STRATEGY

The Fund aims to deliver superior medium to long-term returns by investing, either directly or through derivatives, in listed securities which possess, in the opinion of the Investment Manager, a sustainable competitive edge. The Fund strategy is focused on quality, providing a unique exposure to predominantly mid to small cap Australian industrial franchise companies.

The Fund investment philosophy is that investors achieve superior returns by investing at sensible prices in companies which have a sustainable competitive advantage. The Investment Manager believes that companies can create a sustainable competitive advantage by;

- (1) owning key intangible assets which are difficult to replicate (such as brands, licenses, patents, distribution rights, logistical capability, a captive client base) and
- (2) operating these difficult to replicate assets with the objective of entrenching the company's products/services in the marketplace.

#### INVESTMENT GUIDELINES

An investment's weighting in the Fund will principally be determined by the Investment Manager's view on whether the investment's return is likely to exceed the Fund's investment objective over the 5 to 7 year time frame, not by any index weight. As a result of this strategy, the Fund's investment portfolio is expected to have very different weights to that of the S&P/ASX 300 Accumulation Index.

The assets of the Fund will be invested in accordance with the following guidelines:

- Investment in a portfolio of approximately 30 to 50 securities (with a minimum investment in 15 securities and a maximum investment in no more than 80 securities) that are listed, or due to be listed within the next 12 months, on a recognised stock exchange.
- Investment of up to 100% of the Fund’s assets in securities listed on the ASX. The Fund can also have an investment of up to 30% of its assets in securities listed, or about to be listed, on recognised international stock exchanges. The Fund can have up to 50% of its assets in cash.
- Foreign currency exposures, excluding New Zealand dollar exposures, will be hedged to reduce the impact of adverse fluctuations in the value of the Australian dollar.
- Aggregate exposure to securities will be between 50% and 100% although it is expected that the Fund’s aggregate exposure to securities will typically be at the higher end of this range. It is expected that the Fund’s aggregate exposure to securities will only be at the lower end of this range when attractively valued securities cannot be identified by the Investment Manager.
- Although the Fund is permitted to borrow, it is intended at the date of this PDS that the Fund will not borrow for the purpose of investing the money borrowed. The Fund may, however, use overdraft facilities as and when required.
- The Fund is permitted to use derivatives for non-speculative purposes. It is intended that derivatives be used to adjust exposures to individual securities and markets and not to gear the Fund.
- Generally, the investment in any one company will not be more than 15% of the market value of the Fund’s assets.
- Generally, a holding in any one company will not be more than 10% of the issued capital of a company.
- The Fund is permitted to invest up to 10% of the Fund’s assets in unlisted securities, but those unlisted securities must be expected to be quoted on a recognised stock exchange within 12 months of purchase.

Due to movements in the market or similar events, the guidelines set out above may not be adhered to from time to time. In these circumstances, the Investment Manager will seek to bring the Fund’s investments within the guidelines within a reasonable period of time.

**LABOUR, ENVIRONMENTAL, SOCIAL AND ETHICAL CONSIDERATIONS**

SGH has a formal Board endorsed environmental, social and governance (“ESG”) policy. This incorporates the guidelines from the Australian Council of Superannuation Investors, as well as the framework provided under the Principles for Responsible Investment. SGH regards itself as a responsible investor and takes an active approach to integrating and embedding ESG considerations into its investment decision making process, and engaging with company board’s and management on ESG issues. SGH believes effective governance structures and processes helps reduce risk, and provides insight into company’s culture and intangible assets, and is ultimately reflected in a company’s intrinsic value over the long term.

**FUND PERFORMANCE**

Up to date information on the performance of the Fund will be available by visiting [www.sghiscock.com.au](http://www.sghiscock.com.au), emailing [distribution@sghiscock.com.au](mailto:distribution@sghiscock.com.au) or calling SGH on 1300 555 511 (Australia) or +613 9612 4600.

**6. FEES AND COSTS**

**DID YOU KNOW?**

Small differences in both investment performance and fees and costs can have a substantial impact on your long-term returns.

For example, total annual fees and costs of 2% of your investment balance rather than 1% could reduce your final return by up to 20% over a 30 year period (for example, reduce it from \$100,000 to \$80,000).

You should consider whether features such as superior investment performance or the provision of better member services justify higher fees and costs.

You may be able to negotiate to pay lower contribution fees and management costs where applicable. Ask the Fund or your financial adviser.

**TO FIND OUT MORE**

If you would like to find out more, or see the impact of the fees based on your own circumstances, the Australian Securities and Investments Commission (“ASIC”) website ([www.moneysmart.gov.au](http://www.moneysmart.gov.au)) has a managed funds fee calculator to help you check out different fee options.

The information in the following table can be used to compare costs between this and other simple managed investment schemes. Fees and costs may be paid directly from your investment or deducted from investment returns. For information on how managed investment schemes are taxed please see Section 7 of this PDS.

Type of fee or cost	Amount
Fees when your money moves in or out of the Fund	
Establishment fee	Nil
Contribution fee	Nil
Withdrawal fee	Nil

<sup>1</sup>All fees quoted above are inclusive of Goods and Services Tax (GST) and net of any Reduced Input Tax Credits (RITC). See below for more details as to how management costs are calculated.

<sup>2</sup>Management fees can be negotiated. See “Differential fees” below.

<sup>3</sup>The indirect costs are calculated and incorporate estimated amounts with reference to the relevant costs incurred during financial year ended 30 June 2017. See “Indirect costs” below for more information.

<sup>4</sup>This represents the performance fees which are payable as an expense of the Fund to the Investment Manager. See “Performance fees” below for more information.

## ADDITIONAL EXPLANATION OF FEES AND COSTS

### What do the management costs pay for?

Management costs comprise the additional fees or costs that a unitholder incurs by investing in the Fund rather than by investing directly in the assets.

The management fees of 1.18% p.a. of the NAV of the Fund payable to the Responsible Entity of the Fund for managing the assets and overseeing the operations of the Fund. The management fees are accrued daily and paid from the Fund monthly in arrears. As at the date of this PDS, ordinary expenses such as investment management fees, custodian fees, administration and audit fees, and other ordinary expenses of operating the Fund are covered by the management fees at no additional charge to you.

The management costs shown above do not include extraordinary expenses (if they are incurred in future) such as litigation costs, the costs of convening unitholder meetings and other costs.

In addition, management costs do not include transactional and operational costs (i.e. costs associated with investing the underlying assets, some of which may be recovered through Buy/Sell Spreads).

### Performance fees

Performance fees are payable to the Investment Manager where the investment performance of the Fund exceeds the performance of the S&P/ASX 300 Accumulation Index plus 1.20%. The performance fee is 15.375% of this excess, calculated daily (before Management costs are deducted) and paid annually in arrears from the Fund and calculated based on the beginning NAV of the Fund over the relevant period.

No performance fees are payable until any accrued underperformance (in dollar terms) from prior periods has been made up (this feature is sometimes referred to as a high-watermark).

The Investment Manager does not consider there is any reasonable basis on which it may estimate performance fee expenses for the Fund. To estimate performance fee expenses would involve speculation about the return of the Fund against the Fund's performance hurdle. Based on this the investment manager has chosen to use 2% outperformance net of fees to use as an example.

Based on the current calculation methodology for the performance fees, the Responsible Entity has estimated that the performance fees payable per annum may be \$153.75 assuming an average account balance of \$50,000 during the year. However, this is not a forecast as the actual performance fee for the current and future financial years may differ. The Responsible Entity cannot guarantee that performance fees will remain at their previous level or that the performance of the Fund will outperform the benchmark.

It is not possible to estimate the actual performance fee payable in any given period, as we cannot forecast what the performance of the Fund will be, but it will be reflected in the management costs for the Fund for the relevant year. Information on current performance fees will be updated from time to time and available at [www.sghiscock.com.au](http://www.sghiscock.com.au).

### Indirect costs

Indirect costs include fees and management costs (if any) arising from underlying funds and a reasonable estimate of the cost of investing in over-the-counter derivatives to gain investment exposure to assets or implement the Fund's investment strategy. Indirect costs are reflected in

the unit price of the Fund and borne by Investors, but they are not paid to the Responsible Entity or Investment Manager.

The estimated components of the Fund's indirect costs are based on the financial year ended 30 June 2017. Actual indirect costs for future years may differ. If in future there is an increase to indirect costs disclosed in this PDS, updates will be provided on Equity Trustees' website at [www.eqt.com.au/insto](http://www.eqt.com.au/insto) where they are not otherwise required to be disclosed to investors under law.

### Transactional and operational costs

In managing the assets of the Fund, the Fund may incur transaction costs such as brokerage, settlement costs, clearing costs and applicable stamp duty when assets are bought and sold. This generally happens when the assets of a fund are changed in connection with day-to-day trading or when there are applications or withdrawals which cause net cash flows into or out of a fund.

The Buy/Sell Spread reflects the estimated transaction costs incurred in buying or selling assets of the Fund when investors invest in or withdraw from the Fund. The Buy/Sell Spread is an additional cost to the investor but is incorporated into the unit price and incurred when an investor invests in or withdraws from the Fund and is not separately charged to the investor. The Buy/Sell Spread is paid into the Fund and not paid to Equity Trustees or the Investment Manager. The estimated Buy/Sell Spread is 0.35% upon entry and 0.35% upon exit. The dollar value of these costs based on an application or a withdrawal of \$20,000 is \$70 for each individual transaction. The Buy/Sell Spread can be altered by the Responsible Entity at any time. The Responsible Entity may also waive the Buy/Sell Spread in part or in full at its discretion.

Transactional costs which are incurred other than in connection with applications and redemptions arise through the day-to-day trading of the Fund's assets and are reflected in the Fund's unit price. As these costs are factored into the NAV of the Fund and reflected in the unit price, they are an additional implicit cost to the investor and are not a fee paid to the Responsible Entity. These costs can arise as a result of bid-offer spreads (the difference between an asset's bid/buy price and offer/ask price) being applied to securities traded by the Fund. Liquid securities generally have a lower bid-offer spread while less liquid assets have a higher bid-offer spread.

During the financial year ended 30 June 2017, the total transaction costs for the Fund were estimated to be 0.47% of the NAV of the Fund, of which 42% of these transaction costs were recouped via the Buy/Sell Spread, resulting in a net transactional cost to the Fund of 0.27% p.a. However, such costs for future years may differ.

### Can the fees change?

Yes, all fees can change without investor consent, subject to the maximum fee amounts specified in the Constitution. Equity Trustees has the right to recover all proper and reasonable expenses incurred in managing the Fund and as such these expenses may increase or decrease accordingly. We will generally provide investors with at least 30 days notice of any proposed change to the management costs. In most circumstances, the Constitution defines the maximum fees that can be charged for fees described in this PDS. Expense recoveries may change without notice, for example, when it is necessary to protect the interests of existing members and if permitted by law.

**Differential fees**

The Responsible Entity or Investment Manager may from time to time negotiate a different fee arrangement (by way of a rebate or waiver of fees) with certain investors who are Australian Wholesale Clients.

**Payments to IDPS operators**

Subject to the law, annual payments may be paid to some IDPS Operators because they offer the Fund on their investment menus. Product access is paid by the Investment Manager out of its management fees and is not an additional cost to the investor. If the payment of annual fees to IDPS Operators is limited or prohibited by law, Equity Trustees will ensure the payment of such fees is reduced or ceased.

**mFund**

Warning: if you are transacting through mFund your stockbroker or accredited intermediary may charge you additional fees (see their Financial Services Guide).

**EXAMPLE OF ANNUAL FEES AND COSTS FOR THE FUND**

This table gives an example of how the fees and costs for this managed investment product can affect your investment over a 1 year period. You should use this table to compare this product with other managed investment products.

<b>Example – SGH ICE</b>		
Balance of \$50,000 with a contribution of \$5,000 during the year		
<b>Contribution fees:</b>	Nil	For every additional \$5,000 you put in, you will be charged \$0.
<b>Plus Management costs comprising:</b>	1.18% p.a.	And, for every \$50,000 you have in the fund you will be charged \$590 each year, comprising:
<b>Management fees:</b>	1.18% p.a.	\$590
<b>Indirect costs:</b>	0% p.a.	\$0
<b>Performance fees:</b>	0% p.a.	\$0
<b>Equals cost of fund:</b>	If you had an investment of \$50,000 at the beginning of the year and you put in an additional \$5,000 during that year, you would be charged fees of: \$590 <sup>1</sup>	
What it costs you will depend on the fees you negotiate.		

<sup>1</sup> This example assumes the \$5,000 contribution occurs at the end of the relevant year, therefore management costs are calculated using the \$50,000 balance only. Indirect costs are not a fee earned by or paid to the Responsible Entity or the Investment Manager.

Additional fees may apply. Please note that this example does not capture all the fees and costs that may apply to you such as the Buy/Sell Spread. If you have consulted a financial adviser, you may pay additional fees. You should refer to the Statement of Advice or Financial Services Guide provided by your financial adviser in which details of the fees are set out.

ASIC provides a fee calculator on [www.moneysmart.gov.au](http://www.moneysmart.gov.au), which you may use to calculate the effects of fees and costs on your investment in the Fund.

Indirect costs in this example do not include performance fees.

The performance fees stated in this table shows the actual performance fees for the financial year ended 30 June 2017 as a percentage of the Fund’s average NAV. The performance of the Fund, and the performance fees, may be higher or lower or not payable in the future. As a result, the management costs may differ from the figure shown in the table. It is not a forecast of the performance of the Fund or the amount of the performance fees in the future. See also above (next to the heading "Performance fees") our estimated typical ongoing performance fees fee payable per annum. The actual indirect costs and performance fees for the current financial year and for future financial years may differ. For more information on the performance history of the Fund, visit [www.sghiscock.com.au](http://www.sghiscock.com.au). Past performance is not a reliable indicator of future performance.
