# 1. About Equity Trustees Limited

## The Responsible Entity

### Equity Trustees Limited

Equity Trustees Limited ABN 46 004 031 298 AFSL 240975, a subsidiary of EQT Holdings Limited ABN 22 607 797 615, which is a public company listed on the Australian Securities Exchange (ASX: EQT), is the Fund's responsible entity and issuer of this PDS. Established as a trustee and executorial service provider by a special Act of the Victorian Parliament in 1888, today Equity Trustees is a dynamic financial services institution which continues to grow the breadth and quality of products and services on offer.

Equity Trustees' responsibilities and obligations as the Fund's responsible entity are governed by the Fund's constitution ("Constitution"), the Corporations Act and general trust law. Equity Trustees has appointed Ardevora Asset Management LLP as the investment manager of the Fund. Equity Trustees has appointed a custodian to hold the assets of the Fund. The custodian has no supervisory role in relation to the operation of the Fund and is not responsible for protecting your interests.

## The Investment Manager

### Ardevora Asset Management LLP

Ardevora Asset Management LLP ("Investment Manager" or "Ardevora") is a Limited Liability Partnership (ARBN 164 700 234) based in London, United Kingdom. Ardevora was founded in January 2010 by Jeremy Lang and William Patisson. It acts as investment manager for UCITS funds based in Dublin and the UK, and for segregated mandates, including several based in Australia.

Ardevora is authorised and regulated in the United Kingdom by the Financial Conduct Authority ("FCA"). Ardevora relies on the Australian Securities & Investments Commission ("ASIC") Class Order CO 03/1099 ("Class Order") exemption (whose operation has been extended by the ASIC Corporations (Repeal and Transitional) Instrument 2016/396) for UK FCA regulated firms. This exempts it from the requirement to hold an Australian financial services licence under the Corporations Act 2001 in respect of the financial services Ardevora provides to you. A copy of the Class Order may be obtained at [www.legislation.gov.au](http://www.legislation.gov.au).

## 2. How the Ardevora Global Shares Fund works

The Fund is a registered managed investment scheme governed by the Constitution. The Fund comprises assets which are acquired in accordance with the Fund's investment strategy. Direct investors receive units in the Fund when they invest. In general, each unit represents an equal interest in the assets of the Fund subject to liabilities; however, it does not give investors an interest in any particular asset of the Fund.

If you invest in the Fund through an IDPS (as defined in the Reference Guide) you will not become an investor in the Fund. The operator or custodian of the IDPS will be the investor entered in the Fund's register and will be the only person who is able to exercise the rights and receive the benefits of a direct investor. Your investment in the Fund through the IDPS will be governed by the terms of your IDPS. Please direct any queries and requests relating to your investment to your IDPS Operator. Unless otherwise stated, the information in the PDS applies to direct investors.

## Applying for units

You can acquire units by completing the Application Form that accompanies this PDS. The minimum initial investment amount for the Fund is \$20,000.

Completed Application Forms should be sent along with your identification documents (if applicable) to:

Ardevora Global Shares Fund Unit Registry  
GPO Box 804,  
Melbourne VIC 3001

Please note that cash and cheques cannot be accepted.

We reserve the right to accept or reject applications in whole or in part at our discretion. We have the discretion to delay processing applications where we believe this to be in the best interest of the Fund's investors.

The price at which units are acquired is determined in accordance with the Constitution ("Application Price"). The Application Price on a Business Day is, in general terms, equal to the Net Asset Value ("NAV") of the Fund, divided by the number of units on issue and adjusted for transaction costs ("Buy Spread"). At the date of this PDS, the Buy Spread is 0.15%.

The Buy/Sell Spread will be reviewed on a quarterly basis and may change as a result of the investment strategy of the Fund. The Responsible Entity has the discretion to change the Buy/Sell Spread without providing notice. The most current Buy/Sell Spread can be found in the relevant monthly fund factsheet available at [www.eqt.com.au/insto](http://www.eqt.com.au/insto) and can be viewed prior to making an investment or withdrawal.

The Application Price will vary as the market value of assets in the Fund rises or falls.

## Making additional investments

You can make additional investments into the Fund at any time by sending us your additional investment amount together with a completed Application Form. The minimum additional investment into the Fund is \$20,000.

## Distributions

An investor's share of any distributable income is calculated in accordance with the Constitution and is generally based on the number of units held by the investor at the end of the distribution period.

The Fund usually distributes income semi-annually at the end of June and December, however, Equity Trustees may change the distribution frequency without notice. Distributions are calculated effective the last day of each distribution period and are normally paid to investors as soon as practicable after the distribution calculation date.

Investors in the Fund can indicate a preference to have their distribution:

- reinvested back into the Fund; or
- directly credited to their AUD Australian domiciled bank account.

Investors who do not indicate a preference will have their distributions automatically reinvested. Applications for reinvestment will be taken to be received immediately prior to the next Business Day after the relevant distribution period. There is no Buy Spread on distributions that are reinvested.

In some circumstances, the Constitution may allow for an investor's withdrawal proceeds to be taken to include a component of distributable income.

Indirect Investors should review their IDPS Guide for information on how and when they receive any income distribution.

## Access to your money

Investors in the Fund can generally withdraw their investment by completing a written request to withdraw from the Fund and mailing it to:

Ardevora Global Shares Fund Unit Registry  
GPO Box 804,  
Melbourne VIC 3001

Or sending it by fax to +61 3 8672 7741

The minimum withdrawal amount is \$20,000. Once we receive and accept your withdrawal request, we may act on your instruction without further enquiry if the instruction bears your account number or investor details and your (apparent) signature(s), or your authorised signatory's (apparent) signature(s).

Equity Trustees will generally allow an investor to access their investment within 5 days of acceptance of a withdrawal request by transferring the withdrawal proceeds to such investor's nominated bank account. However, Equity Trustees is allowed to reject withdrawal requests, and also to make payment up to 21 days after acceptance of a request (which may be extended in certain circumstances) as outlined in the Constitution and Reference Guide.

We reserve the right to accept or reject withdrawal requests in whole or in part at our discretion.

The price at which units are withdrawn is determined in accordance with the Constitution ("Withdrawal Price"). The Withdrawal Price on a Business Day is, in general terms, equal to the NAV of the Fund, divided by the number of units on issue and adjusted for transaction costs ("Sell Spread"). At the date of this PDS, the Sell Spread is 0.15%.

The Buy/Sell Spread will be reviewed on a quarterly basis and may change as a result of the investment strategy of the Fund. The Responsible Entity has the discretion to change the Buy/Sell Spread without providing notice. The most current Buy/Sell Spread can be found in the relevant monthly fund factsheet available at [www.eqt.com.au/insto](http://www.eqt.com.au/insto) and can be viewed prior to making an investment or withdrawal.

The Withdrawal Price will vary as the market value of assets in the Fund rises or falls.

Equity Trustees reserves the right to fully redeem your investment if your investment balance in the Fund falls below \$20,000 as a result of processing your withdrawal request. In certain circumstances, for example, when there is a freeze on withdrawals, where accepting a withdrawal is not in the best interests of investors in the Fund including due to one or more circumstances outside its control or where the Fund is not liquid (as defined in the Corporations Act), Equity Trustees can deny or suspend a withdrawal request and you may not be able to withdraw your funds in the usual processing times or at all. When the Fund is not liquid, an investor can only withdraw when Equity Trustees makes a withdrawal offer to investors in accordance with the Corporations Act. Equity Trustees is not obliged to make such offers.

If you are an Indirect Investor, you need to provide your withdrawal request directly to your IDPS Operator. The time to process a withdrawal request will depend on the particular IDPS Operator and the terms of the IDPS.

### Unit pricing discretions policy

Equity Trustees has developed a formal written policy in relation to the guidelines and relevant factors taken into account when exercising any discretion in calculating unit prices (including determining the value of the assets and liabilities). A copy of the policy and, where applicable and to the extent required, any other relevant documents in relation to the policy will be made available free of charge on request.

### Additional information

If and when the Fund has 100 or more direct investors, it will be classified by the Corporations Act as a 'disclosing entity'. As a disclosing entity, the Fund will be subject to regular reporting and disclosure obligations. Investors would then have a right to obtain a copy, free of charge, of any of the following documents:

- the most recent annual financial report lodged with ASIC ("Annual Report");
- any subsequent half yearly financial report lodged with ASIC after the lodgement of the Annual Report; and
- any continuous disclosure notices lodged with ASIC after the Annual Report but before the date of this PDS.

Equity Trustees will comply with any continuous disclosure obligation by lodging documents with ASIC as and when required.

Copies of these documents lodged with ASIC in relation to the Fund may be obtained from ASIC through ASIC's website.

## 3. Benefits of investing in the Ardevora Global Shares Fund

Ardevora's investment team works together because they share a common belief: humans are hardwired to make systematic mistakes (biases). Ardevora believes that these biases especially manifest themselves in the financial markets, where the conflation of very intelligent, ambitious people with lots of information thrown at them creates a ripe environment for bias. Ardevora finds it easier to understand bias in financial markets by looking at company management, sell-side analysts and buy-side investors. This is based on its experience of the type of people who engage in particular activities in markets, and in Ardevora's view, that certain jobs encourage particular behavioural biases. Ardevora believes that these biases create an opportunity for investors who can identify them and know how to position their portfolios to take advantage accordingly. The investment opportunity exists because, although business models and market cycles will change, human behaviour does not: people will always display bias.

The main features and potential benefits of the Fund include:

- access to Ardevora's investment management expertise and experience;
- access to investment opportunities that may not otherwise be available to all investors; and
- access to global equity securities

## 4. Risks of managed investment schemes

All investments carry risks. Different investment strategies may carry different levels of risk, depending on the assets acquired under the strategy. Assets with the highest long-term returns may also carry the highest level of short-term risk. The significant risks below should be considered in light of your risk profile when deciding whether to invest in the Fund. Your risk profile will vary depending on a range of factors, including your age, the investment time frame (how long you wish to invest for), your other investments or assets and your risk tolerance.

The Responsible Entity and Investment Manager do not guarantee the liquidity of the Fund's investments, repayment of capital or any rate of return or the Fund's investment performance. The value of the Fund's investments will vary. Returns are not guaranteed and you may lose money by investing in the Fund. The level of returns will vary and future returns may differ from past returns. Laws affecting managed investment schemes may change in the future. The structure and administration of the Fund is also subject to change.

In addition, we do not offer advice that takes into account your personal financial situation, including advice about whether the Fund is suitable for your circumstances. If you require personal financial or taxation advice, you should contact a licensed financial adviser and/or taxation adviser.

## Market risk

This is the risk that an entire market, country or economy changes in value or becomes more volatile, including the risk that the country's credit rating is downgraded (which reduces the nation's perceived creditworthiness), the purchasing power of currency changes (either through inflation or deflation), and/or other market-wide factors, like economic growth or the unemployment rate, deteriorate (which can cause a reduction in the value of the Fund and increase its volatility).

Amongst many other things, adverse changes in economic, financial, technological, political or legal conditions, as well as natural and manmade disasters, conflicts and shifts in market sentiment, may potentially cause a reduction in the value of the Fund and increase its volatility.

## Interest rate risk

This is the risk that movements in interest rates will adversely affect the price of the Fund's investments and impact investment returns. Typically, the value of a security will decline due to a rise in interest rates.

## Service provider risk

There is a risk that any company providing services such as the safekeeping of assets may become insolvent or cannot or will not otherwise perform in accordance with the terms of the transaction or arrangement.

## Currency risk

The Fund is exposed to currencies other than the base currency and is subject to currency fluctuations which could result in losses to the Fund.

## Emerging markets risk

Exposure to foreign markets, especially emerging markets, through issuers or currencies can involve additional risks relating to market, economic, industry, political, regulatory, geopolitical, and other conditions. These factors can make foreign investments, especially those in emerging markets, more volatile and less liquid than Australian investments. In addition, foreign markets can react differently to these conditions than the Australian market. Emerging markets can have less developed markets, greater custody and operational risk, less developed legal, regulatory, and accounting systems, and greater political, social, and economic instability than developed markets.

## Legal risk

The Fund may be affected by the actions of governments and regulatory bodies. Legislation and regulations may change which may inhibit the Fund from pursuing its strategy or otherwise efficiently operating the Fund. The risk is generally higher in emerging markets.

## Fund risk

As with all managed investment schemes, there are risks particular to the Fund including, the possibility that the Fund could be terminated, the fees and expenses could change, Equity Trustees could be replaced as Responsible Entity, and the Investment Manager could be replaced. There is also risk that investing in the Fund may give different results than investing directly in the underlying securities. This might occur because of income or capital gains accrued in the Fund and the consequences of redemptions by other investors.

## Company/Asset specific risk

Where the value of a company or asset falls because of changes to management, product, distribution or the company's business environment.

## Management risk

There is no guarantee that the investment techniques and risk analyses used in making investment decisions for the Fund will produce the desired results.

## International risk

International investments may be affected by movements in foreign currency exchange rates, interest rates, political and economic uncertainties, lower regulatory supervision and more volatile, less liquid markets compared with Australian investments.

## Investment style and approach

The Investment Manager's approach to investing is fundamental. Ardevora are stock pickers. Ardevora look at many of the same things as other fundamental investors, but believe they do it in a slightly different way. Like most investors Ardevora aim to invest in well managed, low risk businesses. But, unlike most, Ardevora think the best way to do this is to take the results of academic research from cognitive psychology, on errors and biases, and apply them to financial markets. Ardevora believe successful stock picking requires an understanding of how three groups of people interact: company managers, financial analysts and investors. Each group is potentially subject to bias, and the biases affecting each group are different.

Cognitive psychology tells us that company managers, despite being intelligent and well informed, are especially susceptible to over-confidence bias. If the environment they face allows them to, they can take on too much risk. Ardevora take the view that, all things being equal, management are likely to push a business harder than is sensible. This is driven by their self-belief, their shareholders' desire for growth and their companies' remuneration policies. To get a sense of whether a company is being run in a sensible way Ardevora look at how fast the company is growing, how much cash is being generated by the business and what management are saying about their business and the industry conditions they face. All of this helps the Investment Manager make a judgement on management's attitude to risk. If Ardevora think a company is straining too hard for growth or in denial about how difficult conditions are becoming, it will not buy the stock. Once Ardevora has identified those companies it thinks are being well managed, it applies the same lessons from cognitive psychology to financial analysts and investors to find mispriced stocks. In Ardevora's view, financial analysts can often under-appreciate how fast, and for how long, unusual businesses can grow, especially relative to superficially similar businesses. By exploiting this tendency, Ardevora hope to identify interesting 'growth stocks'. Separately, investors can often become sceptical and nervous about companies after a traumatic event. By exploiting this tendency Ardevora hope to identify interesting 'value stocks'.

When the Investment Manager has identified a group of companies which they believe are being well managed, and there is something interesting going on in the way financial analysts or investors are viewing these companies, Ardevora aim to construct a well balanced portfolio with stocks that are adding value.

## Asset allocation

The Fund will have exposure to a broad spread of stocks in most of the major listed equity markets around the world by investing in equity or equity-related securities (such as ordinary and preference shares, global depository receipts and American depository receipts) with large and medium capitalisations on a global basis which are listed or traded on regulated markets. The Fund will typically hold between 170 and 220 stocks. The Fund will typically not invest in stocks with a free float below USD 1 billion. The Fund's exposure to emerging markets is not expected to exceed 35% of NAV. The Fund will not invest in Australian equities.

The Fund will not invest in tobacco equities. The Fund will not invest in controversial weapons equities.

Strategic asset allocation	(% of NAV)
Equities	80-100
Cash	0-20

## Changing the investment strategy

The investment strategy and asset allocation parameters may be changed. If a change is to be made, investors in the Fund will be notified in accordance with the Corporations Act.

## Labour, environmental, social and ethical considerations

Equity Trustees does not generally take into account labour standards or environmental, social or ethical considerations for the purposes of selecting, retaining or realising investments. However, Ardevora is committed to maintaining an investment approach that considers responsible investment and this includes, but is not limited to, incorporating environmental, social and ethical considerations "ESG" in its investment process. Ardevora focus on risk first, and only then on opportunity. This is a key premise of Ardevora's investment process, and feeds into how they view ESG. Ardevora have incorporated ESG in their investment process with the ultimate focus being to help safeguard the interests of their clients. Ardevora does not seek to engage with company management generally but will engage with a company from a responsible investment perspective should they feel it necessary. Full details of Ardevora's approach to ESG can be found in their responsible investment policy available on request from [info@ardevora.com](mailto:info@ardevora.com).

## Fund performance

Up to date information on the performance of the Fund can be obtained from [www.eqt.com.au/insto](http://www.eqt.com.au/insto). A free of charge paper copy of the information will also be available on request.

## 6. Fees and costs

### DID YOU KNOW?

Small differences in both investment performance and fees and costs can have a substantial impact on your long-term returns.

For example, total annual fees and costs of 2% of your investment balance rather than 1% could reduce your final return by up to 20% over a 30-year period (for example, reduce it from \$100,000 to \$80,000).

You should consider whether features such as superior investment performance or the provision of better member services justify higher fees and costs.

You may be able to negotiate to pay lower fees. Ask the fund or your financial adviser.

### TO FIND OUT MORE

If you would like to find out more, or see the impact of the fees based on your own circumstances, the **Australian Securities and Investments Commission (ASIC) Moneysmart** website ([www.moneysmart.gov.au](http://www.moneysmart.gov.au)) has a managed funds fee calculator to help you check out different fee options.

The information in the following Fees and Costs Summary can be used to compare costs between different simple managed investment schemes. Fees and costs can be paid directly from an investor's account or deducted from investment returns. For information on tax please see Section 7 of this PDS.

## Additional Explanation of Fees and Costs

### Management fees and costs

The management fees and costs include amounts payable for administering and operating the Fund, investing the assets of the Fund, expenses and reimbursements in relation to the Fund and indirect costs if applicable.

Management fees and costs do not include performance fees or transaction costs, which are disclosed separately.

The management fees component of management fees and costs of 1.20% p.a. of the NAV of the Fund is payable to the Responsible Entity of the Fund for managing the assets and overseeing the operations of the Fund. The management fees component is accrued daily and paid from the Fund monthly in arrears and reflected in the unit price. As at the date of this PDS, the management fees component covers certain ordinary expenses such as Responsible Entity fees, investment management fees, custodian fees, and administration and audit fees.

The indirect costs and other expenses component of 0.00% p.a. of the NAV of the Fund may include other ordinary expenses of operating the Fund, as well as management fees and costs (if any) arising from interposed vehicles in or through which the Fund invests. The indirect costs and other expenses component is variable and reflected in the unit price of the Fund as the relevant fees and costs are incurred. They are borne by investors, but they are not paid to the Responsible Entity or Investment Manager.

Actual indirect costs for the current and future years may differ. If in future there is an increase to indirect costs disclosed in this PDS, updates will be provided on Equity Trustees' website at [www.eqt.com.au/insto](http://www.eqt.com.au/insto) where they are not otherwise required to be disclosed to investors under law.

### Transaction costs

In managing the assets of the Fund, the Fund may incur transaction costs such as brokerage, buy-sell spreads in respect of the underlying investments of the Fund, settlement costs, clearing costs and applicable stamp duty when assets are bought and sold. Transaction costs also include costs incurred by interposed vehicles in which the Fund invests (if any), that would have been transaction costs if they had been incurred by the Fund itself. Transaction costs are an additional cost to the investor where they are not recovered by the Buy/Sell Spread, and are generally incurred when the assets of the Fund are changed in connection with day-to-day trading or when there are applications or withdrawals which cause net cash flows into or out of the Fund.

The Buy/Sell Spread that is disclosed in the Fees and Costs Summary is a reasonable estimate of transaction costs that the Fund will incur when buying or selling assets of the Fund. These costs are an additional cost to the investor but are incorporated into the unit price and arise when investing application monies and funding withdrawals from the Fund and are not separately charged to the investor. The Buy Spread is paid into the Fund as part of an application and the Sell Spread is left in the Fund as part of a redemption and not paid to Equity Trustees or the Investment Manager. The estimated Buy/Sell Spread is 0.15% upon entry and 0.15% upon exit. The dollar value of these costs based on an application or a withdrawal of \$20,000 is \$30 for each individual transaction. The Buy/Sell Spread can be altered by the Responsible Entity at any time and [www.eqt.com.au/insto](http://www.eqt.com.au/insto) will be updated as soon as practicable to reflect any change. The Responsible Entity may also waive the Buy/Sell Spread in part or in full at its discretion. The transaction costs figure in the Fees and Costs Summary is based on the relevant costs incurred during the financial year ended 30 June 2020 and is shown net of any amount recovered by the Buy/Sell Spread charged by the Responsible Entity during that period (0.13% upon entry and 0.13% upon exit).

Transaction costs generally arise through the day-to-day trading of the Fund's assets and are reflected in the Fund's unit price as an additional cost to the investor, as and when they are incurred.

The gross transaction costs for the Fund are 0.24% p.a. of the NAV of the Fund, which is based on the relevant costs incurred during the financial year ended 30 June 2020.

However, actual transaction costs for future years may differ.

### Can the fees change?

Yes, all fees can change without investor consent, subject to the maximum fee amounts specified in the Constitution. The current maximum management fee to which Equity Trustees is entitled is 2.00% of the GAV of the Fund. However, Equity Trustees does not intend to charge that amount and will generally provide investors with at least 30 days' notice of any proposed increase to the management fees component of management fees and costs. In most circumstances, the Constitution defines the maximum level that can be charged for fees described in this PDS. Equity Trustees also has the right to recover all reasonable expenses incurred in relation to the proper performance of its duties in managing the Fund and as such these expenses may increase or decrease accordingly, without notice.

### Payments to IDPS Operators

Subject to the law, annual payments may be made to some IDPS Operators because they offer the Fund on their investment menus. Product access is paid by the Investment Manager out of its investment management fee and is not an additional cost to the investor.

### Differential fees

The Investment Manager may from time to time negotiate a different fee arrangement (by way of a rebate or waiver of fees) with certain investors who are Australian Wholesale Clients. Please contact the Investment Manager on +44 (0)20 7842 0630 for further information.

### Example of annual fees and costs for an investment option

This table gives an example of how the ongoing annual fees and costs in the investment option for this product can affect your investment over a 1-year period. You should use this table to compare this product with other products offered by managed investment schemes.

## EXAMPLE – Ardevora Global Shares Fund

### BALANCE OF \$50,000 WITH A CONTRIBUTION OF \$5,000 DURING THE YEAR

Contribution Fees	Nil	For every additional \$5,000 you put in, you will be charged \$0
Plus Management fees and costs	1.20% p.a.	And, for every \$50,000 you have in the Ardevora Global Shares Fund you will be charged or have deducted from your investment \$600 each year
Plus Performance fees	Not applicable	And, you will be charged or have deducted from your investment \$0 in performance fees each year
Plus Transaction costs	0.05% p.a.	And, you will be charged or have deducted from your investment \$25 in transaction costs
Equals Cost of Ardevora Global Shares Fund		If you had an investment of \$50,000 at the beginning of the year and you put in an additional \$5,000 during that year, you would be charged fees and costs of: \$625* <b>What it costs you will depend on the investment option you choose and the fees you negotiate.</b>

\* Additional fees may apply. Please note that this example does not capture all the fees and costs that may apply to you such as the Buy/Sell Spread.

This example assumes the \$5,000 contribution occurs at the end of the first year, therefore the fees and costs are calculated using the \$50,000 balance only.

**Warning: If you have consulted a financial adviser, you may pay additional fees. You should refer to the Statement of Advice or Financial Services Guide provided by your financial adviser in which details of the fees are set out.**

ASIC provides a fee calculator on [www.moneysmart.gov.au](http://www.moneysmart.gov.au), which you may use to calculate the effects of fees and costs on account balances.

The indirect costs and other expenses component of management fees and costs and transaction costs may also be based on estimates. As a result, the total fees and costs that you are charged may differ from the figures shown in the table.

#### Further reading

You should read the important information in the Reference Guide about fees and costs under the "Fees and other costs" section before making a decision. Go to the Reference Guide which is available at [www.eqt.com.au/insto](http://www.eqt.com.au/insto). The material relating to these matters may change between the time when you read this PDS and the day when you acquire the product.

## 7. How managed investment schemes are taxed

**Warning: Investing in a registered managed investment scheme (such as the Fund) is likely to have tax consequences. You are strongly advised to seek your own professional tax advice about the applicable Australian tax (including income tax, GST and duty) consequences and, if appropriate, foreign tax consequences which may apply to you based on your particular circumstances before investing in the Fund.**

The Fund is an Australian resident for tax purposes and does not generally pay tax on behalf of its investors. Australian resident investors are assessed for tax on any income and capital gains generated by the Fund to which they become presently entitled or, where the Fund has made a choice to be an Attribution Managed Investment Trust ("AMIT") and the choice is effective for the income year, are attributed to them.

#### Further reading

You should read the important information in the Reference Guide about Taxation under the "Other important information" section before making a decision. Go to the Reference Guide which is available at [www.eqt.com.au/insto](http://www.eqt.com.au/insto). The material relating to these matters may change between the time when you read this PDS and the day when you acquire the product.

## 8. How to apply

To invest please complete the Application Form accompanying this PDS, send funds (see details in the Application Form) and your completed Application Form to:

Ardevora Global Shares Fund Unit Registry  
GPO Box 804,  
Melbourne VIC 3001

Please note that cash and cheques cannot be accepted and all applications must be made in Australian dollars.

#### Who can invest?

Eligible persons (as detailed in the 'About this PDS' section) can invest, however individual investors must be 18 years of age or over.

Investors investing through an IDPS should use the application form provided by the operator of the IDPS.

#### Cooling off period

If you are a Retail Client who has invested directly in the Fund, you may have a right to a 'cooling off' period in relation to your investment in the Fund for 14 days from the earlier of:

- confirmation of the investment being received; and
- the end of the fifth business day after the units are issued.

A Retail Client may exercise this right by notifying Equity Trustees in writing. A Retail Client is entitled to a refund of their investment adjusted for any increase or decrease in the relevant Application Price between the time we process your application and the time we receive the notification from you, as well as any other tax and other reasonable administrative expenses and transaction costs associated with the acquisition and termination of the investment.

The right of a Retail Client to cool off does not apply in certain limited situations, such as if the issue is made under a distribution reinvestment plan, switching facility or represents additional contributions required under an existing agreement. Also, the right to cool off does not apply to you if you choose to exercise your rights or powers as a unit holder in the Fund during the 14 day period. This could include selling part of your investment or switching it to another product.

Indirect Investors should seek advice from their IDPS Operator as to whether cooling off rights apply to an investment in the Fund by the IDPS. The right to cool off in relation to the Fund is not directly available to an Indirect Investor. This is because an Indirect Investor does not acquire the rights of a unit holder in the Fund. Rather, an Indirect Investor directs the IDPS Operator to arrange for their monies to be invested in the Fund on their behalf. The terms and conditions of the IDPS Guide or similar type document will govern an Indirect Investor's investment in relation to a fund and any rights an Indirect Investor may have in this regard.
