1. About Equity Trustees Limited

The Responsible Entity

Equity Trustees Limited

Equity Trustees Limited ABN 46 004 031 298 AFSL 240975, a subsidiary of EQT Holdings Limited ABN 22 607 797 615, which is a public company listed on the Australian Securities Exchange (ASX: EQT), is the Fund's responsible entity and issuer of this PDS. Established as a trustee and executorial service provider by a special Act of the Victorian Parliament in 1888, today Equity Trustees is a dynamic financial services institution which continues to grow the breadth and quality of products and services on offer.

Equity Trustees' responsibilities and obligations as the Fund's responsible entity are governed by the Fund's constitution ("**Constitution**"), the Corporations Act and general trust law. Equity Trustees has appointed Clearwater Portfolio Management Pty Ltd as the fund manager of the Fund. Equity Trustees has appointed a custodian to hold the assets of the Fund. The custodian has no supervisory role in relation to the operation of the Fund and is not responsible for protecting your interests.

The Investment Manager

Clearwater Portfolio Management Pty Limited (CPM)

CPM has responsibility for the day to day operations and management of the Clearwater Diversified Fund. CPM oversees the portfolio research and the construction process. To assist in portfolio research and construction, CPM has engaged specialists to lead the process. CPM operates an investment committee that includes these parties, along with representatives from DMG Financial Planning Pty Ltd and the CEO of CPM. It has guidelines and a framework to determine how the portfolio is constructed and managed.

CPM is a corporate authorised representative of DMG Financial Planning Pty Ltd (AFS Licensee No. 238354).

2. How the Clearwater Diversified Fund works

The Fund is a registered managed investment scheme governed by the Constitution. The Fund comprises assets which are acquired in accordance with the Fund's investment strategy. Direct investors receive units in the Fund when they invest. In general, each unit represents an equal interest in the assets of the Fund subject to liabilities; however, it does not give investors an interest in any particular asset of the Fund.

If you invest in the Fund through an IDPS (as defined in the Reference Guide) you will not become an investor in the Fund. The operator or custodian of the IDPS will be the investor entered in the Fund's register and will be the only person who is able to exercise the rights and receive the benefits of a direct investor. Your investment in the Fund through the IDPS will be governed by the terms of your IDPS. Please direct any queries and requests relating to your investment to your IDPS Operator. Unless otherwise stated, the information in the PDS applies to direct investors.

Applying for units

You can acquire units by applying online (PFS connect) at www.clearwaterpm.com.au or completing the Application Form that accompanies this PDS. The minimum initial investment amount for the Fund is \$1,000.

Completed Application Forms should be sent along with your identification documents (if applicable) to:

Citi Unit Registry - Clearwater PM
GPO Box 764
Melbourne, VIC 3001
Fax: 1300 153 430

You can pay using direct credit or BPay® (only available online). Please note that cash and cheques cannot be accepted.

We reserve the right to accept or reject applications in whole or in part at our discretion. We have the discretion to delay processing applications where we believe this to be in the best interest of the Fund's investors.

The price at which units are acquired is determined in accordance with the Constitution ("**Application Price**"). The Application Price on a Business Day is, in general terms, equal to the Net Asset Value ("**NAV**") of the Fund, divided by the number of units on issue and adjusted for transaction costs ("**Buy Spread**"). At the date of this PDS, the Buy Spread is 0.20%.

The Application Price will vary as the market value of assets in the Fund rises or falls.

Making additional investments

You can make additional investments, including a regular investment into the Fund at any time online (PFS connect) at www.clearwaterpm.com.au. The minimum additional investment into the Fund is \$100.

You can pay via your Bank using direct credit or BPay®. Cash and cheque cannot be accepted. Please refer to the Reference Guide for more information.

Distributions

An investor's share of any distributable income is calculated in accordance with the Constitution and is generally based on the number of units held by the investor at the end of the distribution period.

The Fund usually distributes income at least annually at the end of June, however, Equity Trustees may change the distribution frequency without notice. Distributions are calculated effective the last day of each distribution period and are normally paid to investors as soon as practicable after the distribution calculation date.

Investors in the Fund can indicate a preference to have their distribution:

- reinvested back into the Fund; or
- directly credited to their AUD Australian domiciled bank account.

Investors who do not indicate a preference will have their distributions automatically reinvested. Applications for reinvestment will be taken to be received immediately prior to the next Business Day after the relevant distribution period. There is no Buy Spread on distributions that are reinvested.

In some circumstances, the Constitution may allow for an investor's withdrawal proceeds to be taken to include a component of distributable income.

Indirect Investors should review their IDPS Guide for information on how and when they receive any income distribution.

Access to your money

Investors in the Fund can generally withdraw their investment via online (PFS connect) at www.clearwaterpm.com.au or by completing a written request to withdraw from the Fund and mailing it to:

Citi Unit Registry - Clearwater PM
GPO Box 764
Melbourne, VIC 3001
Fax: 1300 153 430

The minimum withdrawal amount is \$1,000. Once we receive and accept your withdrawal request, we may act on your instruction without further enquiry if the instruction bears your account number or investor details and your (apparent) signature(s), or your authorised signatory's (apparent) signature(s).

Equity Trustees will generally allow an investor to access their investment within 14 days of acceptance of a withdrawal request by transferring the withdrawal proceeds to such investor's nominated bank account. However, Equity Trustees is allowed to reject withdrawal requests, and also to make payment up to 180 days after acceptance of a request (which may be extended in certain circumstances) as outlined in the Constitution and Reference Guide.

We reserve the right to accept or reject withdrawal requests in whole or in part at our discretion.

The price at which units are withdrawn is determined in accordance with the Constitution ("**Withdrawal Price**"). The Withdrawal Price on a Business Day is, in general terms, equal to the NAV of the Fund, divided by the number of units on issue and adjusted for transaction costs ("**Sell Spread**"). At the date of this PDS, the Sell Spread is 0.20%.

The Withdrawal Price will vary as the market value of assets in the Fund rises or falls.

Equity Trustees reserves the right to fully redeem your investment if your investment balance in the Fund falls below \$1,000 as a result of processing your withdrawal request. In certain circumstances, for example, when there is a freeze on withdrawals, where accepting a withdrawal is not in the best interests of investors in the Fund including due to one or more circumstances outside its control or where the Fund is not liquid (as defined in the Corporations Act), Equity Trustees can deny or suspend a withdrawal request and you may not be able to withdraw your funds in the usual processing times or at all. When the Fund is not liquid, an investor can only withdraw when Equity Trustees makes a withdrawal offer to investors in accordance with the Corporations Act. Equity Trustees is not obliged to make such offers.

If you are an Indirect Investor, you need to provide your withdrawal request directly to your IDPS Operator. The time to process a withdrawal request will depend on the particular IDPS Operator and the terms of the IDPS.

Unit pricing discretions policy

Equity Trustees has developed a formal written policy in relation to the guidelines and relevant factors taken into account when exercising any discretion in calculating unit prices (including determining the value of the assets and liabilities). A copy of the policy and, where applicable and to the extent required, any other relevant documents in relation to the policy will be made available free of charge on request.

Additional information

If and when the Fund has 100 or more direct investors, it will be classified by the Corporations Act as a 'disclosing entity'. As a disclosing entity, the Fund will be subject to regular reporting and disclosure obligations. Investors would then have a right to obtain a copy, free of charge, of any of the following documents:

- the most recent annual financial report lodged with ASIC ("Annual Report");
- any subsequent half yearly financial report lodged with ASIC after the lodgement of the Annual Report; and
- any continuous disclosure notices lodged with ASIC after the Annual Report but before the date of this PDS.

Equity Trustees will comply with any continuous disclosure obligation by lodging documents with ASIC as and when required.

Copies of these documents lodged with ASIC in relation to the Fund may be obtained from ASIC through ASIC's website.

3. Benefits of investing in the Clearwater Diversified Fund

3.1. Significant features

Investing in the Fund is designed to provide a diversified portfolio focusing on growth investments and utilising rigorous portfolio construction and risk management techniques, attempting to enhance the long term return potential. Managing risk and preserving capital is also a high priority.

The Fund is a growth-oriented investment portfolio with the flexibility to be managed more conservatively or aggressively as determined by the manager.

Investors can use the Fund as the core part of their own portfolio, or where appropriate as a total investment solution, if they consider that the holdings, asset allocation and ranges available, suit their tolerance and capacity for risk.

3.2. Significant benefits

Some of the significant benefits of investing in the Fund include:

- improving the diversification of an investor's portfolio,
- the investments are continually reviewed and rebalanced as economic and market conditions change,
- utilising investment, economic and research specialists to provide insight into micro and macro-economic conditions,

- applying systematic risk management and rigorous due diligence processes to better manage risk, and
- accessing wholesale and other investment vehicles not ordinarily available to investors.

4. Risks of managed investment schemes

All investments carry risks. Different investment strategies may carry different levels of risk, depending on the assets acquired under the strategy. Assets with the highest long-term returns may also carry the highest level of short-term risk. The significant risks below should be considered in light of your risk profile when deciding whether to invest in the Fund. Your risk profile will vary depending on a range of factors, including your age, the investment time frame (how long you wish to invest for), your other investments or assets and your risk tolerance.

The Responsible Entity and Investment Manager do not guarantee the liquidity of the Fund's investments, repayment of capital or any rate of return or the Fund's investment performance. The value of the Fund's investments will vary. Returns are not guaranteed, and you may lose money by investing in the Fund. The level of returns will vary and future returns may differ from past returns. Laws affecting managed investment schemes may change in the future. The structure and administration of the Fund is also subject to change.

In addition, we do not offer advice that takes into account your personal financial situation, including advice about whether the Fund is suitable for your circumstances. If you require personal financial or taxation advice, you should contact a licensed financial adviser and/or taxation adviser.

Investment risk

This is the risk that the value of the entire portfolio may change or become more volatile, potentially causing a loss.

Reasons may include changes in an investment's operations, management or business environment, or what people think of the investment.

How is investment risk addressed?

The Fund Investment Committee selects and monitors the underlying investments and managers carefully, and changes them when it thinks it appropriate.

The Fund is diversified, including by setting limits for the amount held in each asset class.

Market risk

This is the risk that an entire market, country or economy changes in value or becomes more volatile, including the risk that the purchasing power of the currency changes (either through inflation or deflation), potentially causing a reduction in the value of the portfolio.

Reasons can include changes in economic, financial, technological, political or legal conditions, natural and man-made disasters, conflicts and changes in market sentiment.

How is market risk addressed?

The Fund Investment Committee monitors markets globally, undertaking its own research as well as analysing leading market research, and uses tools to model Fund behaviour under various conditions. The Fund is diversified across markets and is repositioned strategically as considered appropriate.

Financial instruments risk

This is the risk associated with using sophisticated financial instruments such as derivatives, including swaps and options. Risks associated with using these tools include the value of a derivative failing to move in line with the underlying asset, potential illiquidity of a derivative, the Fund (or the underlying investment) not being able to meet payment obligations as they arise, potential leverage (or gearing) resulting from the position and counterparty risk.

Counterparty risk is where the other party to the derivative cannot meet its obligations.

How is financial instruments risk addressed?

The Fund Investment Committee may use derivatives where it considers it appropriate to reduce Fund risk or to gain exposures to certain types of assets.

Leading professionals are employed and always have a thorough understanding of the financial instruments used. We deal with issuers and counterparties we consider to be reputable. If using a financial instrument brings with it the potential to pay more money, the Fund Investment Committee makes sure it has the money or assets set aside.

Such exposures are monitored frequently, and they may be adjusted to maintain appropriate exposures. To the extent considered appropriate and practicable the Fund Investment Committee aims to ensure that underlying investment managers have derivatives strategies which are considered acceptable.

Unfortunately using derivatives to reduce Fund risk is not always successful, is not always used to offset all relevant Fund risk, and is sometimes not cost effective or practical to use.

Interest rates risk

This is the risk that changes in interest rates can have a negative impact on certain investment values or returns. Reasons for interest rates changes are many and include changes in inflation, economic activity and central bank policies.

How is interest rate risk addressed?

The Fund Investment Committee monitors interest rate impact on the Fund, and adjusts the Fund as it considers appropriate. It may also seek to offset (or hedge) some interest rate exposure where practicable and cost effective.

Inflation risk

Increases in inflation will undermine the performance of the various investment markets in which the Funds invest. As noted above inflation can also have an effect on Central Bank policies.

Reasons for inflation can include (but are not limited to) growth of the money supply and the rising costs of raw materials, labour and/or production.

How is inflation risk addressed?

The Fund Investment Committee monitors inflation rates in key economies that could impact on the Fund. The Fund can invest in assets whose goal is to partly or fully reduce the risk of inflation on the Fund. Such investments can have anti-inflationary characteristics such as inflation linked bonds, gold and products linked to the price of gold.

Currency risk

This is the risk that changes in the value of currencies can have a negative impact on returns.

It arises because investments which are based overseas or which are exposed to other countries are often denominated in other currencies. When currencies change in value relative to one another, the value of investments based on those currencies can change as well.

Investment managers sometimes aim to "hedge" some of this risk. This involves a financial arrangement designed to offset changes in currencies. Derivatives can be used for this purpose.

How is currency risk addressed?

To the extent it is considered appropriate and practicable, the Fund Investment Committee may hedge some foreign currency risk or use investment managers which do so from time to time.

But in spite of some potential hedging, currency risk remains and currency movements will have both a positive and negative impact on the Fund.

Withdrawal risk

This is the risk that your withdrawal requests cannot be met when you expect.

Cash is paid to your account when you withdraw, and as such investments of the Fund may need to be sold to pay you. Depending on factors such as the state of the markets, selling investments is not always possible, practicable or consistent with the best interests of all investors.

This is one of the reasons why the constitution for the Fund specifies limited circumstances where there could be a delay in meeting your withdrawal requests. The law sometimes restricts withdrawals.

The Fund is not listed on any stock exchange, so you cannot sell your units through a stockbroker and, although you may sell your units, you may not find a buyer or a buyer at the price you want.

How is withdrawal risk addressed?

The Fund seeks to meet withdrawal requests soon after the Fund receives them

CPM does this by monitoring Fund liquidity and transaction levels and seeks to ensure it has, or anticipates having access to, enough liquid assets for when it is anticipated they would normally be needed.

Structure risk

This is the risk associated with having someone invest for you.

Risks associated with investing in the Fund include that it could be terminated, there can be changes in the responsible entity or our chosen investment managers (or in investment and management teams or key relationships), someone involved with your investment (even remotely) does not meet their obligations or perform as expected, assets may be lost, not recorded properly or misappropriated, laws may adversely change, insurers may not pay when expected or insurance may be inadequate.

Investment decisions by us or chosen investment managers, although taken carefully, are not always successful.

Investing through an administration platform also brings some risks that the operator of the platform may not perform its obligations properly.

Investing in the Fund may give inferior results compared to investing directly (for example you avoid the impact of others investing and withdrawing).

How is structure addressed?

We diligently comply with laws. Disaster recovery systems and procedures are regularly tested. Insurance is maintained as law requires. We employ a range of people we trust, who are ethical, experienced and professional.

Information risk

We use the internet in operating the Fund, including records that may be stored in remote server locations otherwise known as "the cloud". If stored overseas, different privacy and other standards may apply there. Our Privacy Policy is discussed below and in the RG.

The internet does not always result in a secure information environment.

How is information risk addressed?

We are committed to ensuring that your information is kept secure and protected from misuse and loss and from unauthorised access, modification and disclosure. Although we take steps we consider reasonable to protect your information, we cannot absolutely guarantee its security.

Pandemic and other unforeseen event risk

Health crises, such as pandemic and epidemic diseases, as well as other catastrophes that interrupt the expected course of events, such as natural disasters, war or civil disturbance, acts of terrorism, power outages and other unforeseeable and external events, and the public response to or fear of such diseases or events, have and may in the future have an adverse effect on the economies and financial markets either in specific countries or worldwide and consequently on the value of the Fund's investments. Further, under such circumstances the operations, including functions such as trading and valuation, of the Investment Manager, Fund Manager and other service providers could be reduced, delayed, suspended or otherwise disrupted.

5. How we invest your money

Warning: When choosing to invest in the Fund, you should consider the likely investment returns, the risks of investing and your investment time frame.

Investment objective

Our objectives are to achieve, over rolling 5-year periods:

- Returns, after fees and expenses, of 4% p.a. above the Benchmark, and
- reduce, but not eliminate, the losses and volatility usually experienced in financial markets.

but neither of these are guaranteed, forecast or promised.

Benchmark

30-day RBA one-month average for bank accepted bills/negotiated certificates of deposit.

Minimum suggested time frame

The minimum suggested investment time frame for the Fund is 5 years.

Risk level

Medium.

Investor suitability

The Fund is generally suited for persons seeking a diversified portfolio with a focus on growth-based investments.

Investment style and approach

The investment process is a dynamic one that aims to ensure that the investment objectives of the Fund are met.

In short, the aim is to help investors create wealth carefully over time through a Fund designed to do well in rising markets but also limit major losses in difficult market conditions.

This is sought to be achieved by:

- positioning the Fund with the appropriate asset mix to achieve the investment objectives based on forward looking scenarios, asset class valuation models, and further research material, combining defensive and growth assets in a manner that provides a level of protection, but not immunity, in periods when stock markets fall.
- investing across different markets, investment managers and strategies using a rigorous due diligence process,
- focusing on seeking to preserve capital by aiming to limit major capital losses during difficult market conditions, through the use of alternative investments and portfolio protection strategies, and taking a medium to long term approach.
- using both direct and indirect investments.

Asset allocation

The Fund maintains an exposure to the asset allocation via investments in underlying funds.

In general, approximately 70% of the funds will be invested in growth assets and 30% in defensive assets. However these are approximates and the actual weighting will change and vary from these numbers due to a variety of factors including market movements.

More specifically:

Defensive Assets	Range	Neutral Position
Cash & Fixed Interest	0-40%	30%
Growth Assets		
Alternatives/Oppportunistic (e.g. hedge funds or other funds employing leverage)	0-35%	13.5%
Property & Infrastructure	5-25%	11.5%
Australian shares	10-50%	21.5%
International shares	10-50%	23.5%

Changing the investment strategy

The investment strategy and asset allocation parameters may be changed. If a change is to be made, investors in the Fund will be notified in accordance with the Corporations Act.

Labour, environmental, social and ethical considerations

EQT has delegated investment decisions including ESG considerations to the Investment Manager. CPM does not take into account labour standards, environmental, social and ethical considerations ("ESG") when selecting, retaining or realising investments and in the operation of its business.

Fund performance

Up to date information on the performance of the Fund can be obtained from clearwaterpm.com.au. A free of charge paper copy of the information will also be available on request.

6. Fees and costs

DID YOU KNOW?

Small differences in both investment performance and fees and costs can have a substantial impact on your long-term returns.

For example, total annual fees and costs of 2% of your investment balance rather than 1% could reduce your final return by up to 20% over a 30-year period (for example, reduce it from \$100,000 to \$80,000).

You should consider whether features such as superior investment performance or the provision of better member services justify higher fees and costs.

You may be able to negotiate to pay lower fees. Ask the Fund or your financial adviser.

TO FIND OUT MORE

If you would like to find out more, or see the impact of the fees based on your own circumstances, the **Australian Securities and Investments Commission (ASIC) Moneysmart** website (www.moneysmart.gov.au) has a managed funds fee calculator to help you check out different fee options.

The information in the following Fees and Costs Summary can be used to compare costs between different simple managed investment schemes. Fees and costs can be paid directly from an investor's account or deducted from investment returns. For information on tax please see Section 7 of this PDS.

Additional Explanation of Fees and Costs

Management fees and costs

The management fees and costs include amounts payable for administering and operating the Fund, investing the assets of the Fund, expenses and reimbursements in relation to the Fund and indirect costs if applicable.

Management fees and costs do not include performance fees or transaction costs, which are disclosed separately.

The management fees component of management fees and costs of 0.59% p.a. of the NAV of the Fund is payable to the Responsible Entity of the Fund for managing the assets and overseeing the operations of the Fund. The management fees component is accrued daily and paid from the Fund monthly in arrears and reflected in the unit price. As at the date of this PDS, the management fees component covers certain ordinary expenses such as Responsible Entity fees, investment management fees, custodian fees, and administration and audit fees.

The indirect costs and other expenses component of 0.87% p.a. of the NAV of the Fund may include other ordinary expenses of operating the Fund, as well as management fees and costs (if any) arising from interposed vehicles in or through which the Fund invests. The indirect costs and other expenses component is variable and reflected in the unit price of the Fund as the relevant fees and costs are incurred. They are borne by investors, but they are not paid to the Responsible Entity or Investment Manager. The indirect costs and other expenses component is based on the relevant costs incurred during the financial year ended 30 June 2023.

Actual indirect costs for the current and future years may differ. If in future there is an increase to indirect costs disclosed in this PDS, updates will be provided on Equity Trustees' website at www.eqt.com.au/insto where they are not otherwise required to be disclosed to investors under law.

Performance fees

Performance fees include amounts that are calculated by reference to the performance of interposed vehicles through which the Fund invests. The performance fees for the Fund are 0.28% of the NAV of the Fund. The performance fee figure that is disclosed in the Fees and Costs Summary is generally based on an average of the performance fees over the previous five financial years, where each performance fee relevant to the Fund is averaged and totalled to give the performance fees for the Fund.

In respect of an interposed vehicle that was not in operation for the previous five financial years, the performance fee average is calculated by reference to the number of financial years in which the interposed vehicle was operated.

Please note that the performance fees disclosed in the Fees and Costs Summary is not a forecast as the actual performance fee for the current and future financial years may differ. The Responsible Entity cannot guarantee that performance fees will remain at their previous level or that the performance of the interposed vehicles will outperform their Benchmarks.

It is not possible to estimate the actual performance fee payable in any given period, as we cannot forecast what the performance of the Fund will be. Information on current performance fees will be updated from time to time and available at www.eqt.com.au/insto.

Transaction costs

In managing the assets of the Fund, the Fund may incur transaction costs such as brokerage, Buy-Sell spreads in respect of the underlying investments of the Fund, settlement costs, clearing costs and applicable stamp duty when assets are bought and sold. Transaction costs also include costs incurred by interposed vehicles in which the Fund invests (if any), that would have been transaction costs if they had been incurred by the Fund itself. Transaction costs are an additional cost to the investor where they are not recovered by the Buy-Sell Spread, and are generally incurred when the assets of the Fund are changed in connection with day-to-day trading or when there are applications or withdrawals which cause net cash flows into or out of the Fund.

The Buy-Sell Spread that is disclosed in the Fees and Costs Summary is a reasonable estimate of transaction costs that the Fund will incur when buying or selling assets of the Fund. These costs are an additional cost to the investor but are incorporated into the unit price and arise when investing application monies and funding withdrawals from the Fund and are not separately charged to the investor. The Buy Spread is paid into the Fund as part of an application and the Sell Spread is left in the Fund as part of a redemption and not paid to Equity Trustees or the Investment Manager. The estimated Buy-Sell Spread is 0.20% upon entry and 0.20% upon exit. The dollar value of these costs based on an application or a withdrawal of \$1,000 is \$2 for each individual transaction. The Buy-Sell Spread can be altered by the Responsible Entity at any time and www.eqt.com.au/insto will be updated as soon as practicable to reflect any change. The Responsible Entity may also waive the Buy-Sell Spread in part or in full at its discretion. The transaction costs figure in the Fees and Costs Summary is shown net of any amount recovered by the Buy-Sell Spread charged by the Responsible Entity.

Transaction costs generally arise through the day-to-day trading of the Fund's assets and are reflected in the Fund's unit price as an additional cost to the investor, as and when they are incurred.

The gross transaction costs for the Fund are 0.33% p.a. of the NAV of the Fund, which is based on the relevant costs incurred during the financial year ended 30 June 2023.

However, actual transaction costs for future years may differ.

Can the fees change?

Yes, all fees can change without investor consent, subject to the maximum fee amounts specified in the Constitution. The current maximum management fee to which Equity Trustees is entitled is 2.00% of the GAV of the Fund. However, Equity Trustees does not intend to charge that amount and will generally provide investors with at least 30 days' notice of any proposed increase to the management fees component of management fees and costs. In most circumstances, the Constitution defines the maximum level that can be charged for fees described in this PDS. Equity Trustees also has the right to recover all reasonable expenses incurred in relation to the proper performance of its duties in managing the Fund and as such these expenses may increase or decrease accordingly, without notice.

Payments to IDPS Operators

Subject to the law, annual payments may be made to some IDPS Operators because they offer the Fund on their investment menus. Product access is paid by the Investment Manager out of its investment management fee and is not an additional cost to the investor.

Differential fees

The Investment Manager may from time to time negotiate a different fee arrangement (by way of a rebate of fees) with certain investors who are Australian Wholesale Clients who invest significant amounts. Please contact the Investment Manager on 1300 553 463 for further information.

Example of annual fees and costs for an investment option

This table gives an example of how the ongoing annual fees and costs in the investment option for this product can affect your investment over a 1-year period. You should use this table to compare this product with other products offered by managed investment schemes.

EXAMPLE – Clearwater Diversified Fund		
BALANCE OF \$50,000 WITH A CONTRIBUTION OF \$5,000 DURING THE YEAR		
Contribution Fees	Nil	For every additional \$5,000 you put in, you will be charged \$0
Plus Management fees and costs	1.46% p.a.	And, for every \$50,000 you have in the Clearwater Diversified Fund you will be charged or have deducted from your investment \$730 each year
Plus Performance fees	0.28% p.a.	And, you will be charged or have deducted from your investment \$140 in performance fees each year
Plus Transaction costs	0.27% p.a.	And, you will be charged or have deducted from your investment \$134 in transaction costs
Equals Cost of Clearwater Diversified Fund		If you had an investment of \$50,000 at the beginning of the year and you put in an additional \$5,000 during that year, you would be charged fees and costs of: \$1,004* What it costs you will depend on the investment option you choose and the fees you negotiate.

* Additional fees may apply. Please note that this example does not capture all the fees and costs that may apply to you such as the Buy-Sell Spread.

This example assumes the \$5,000 contribution occurs at the end of the first year, therefore the fees and costs are calculated using the \$50,000 balance only.

Warning: If you have consulted a financial adviser, you may pay additional fees. You should refer to the Statement of Advice or Financial Services Guide provided by your financial adviser in which details of the fees are set out.

ASIC provides a fee calculator on www.moneysmart.gov.au, which you may use to calculate the effects of fees and costs on account balances. The performance fees stated in this table are based on the average performance fee for the interposed vehicles through which the Fund invests, over the previous five financial years. The performance of the Fund for this financial year, and the performance fees, may be higher or lower or not payable in the future. It is not a forecast of the performance of the Fund or the amount of the performance fees in the future.

The indirect costs and other expenses component of management fees and costs and transaction costs may also be based on estimates. As a result, the total fees and costs that you are charged may differ from the figures shown in the table.

Further reading

You should read the important information in the Reference Guide about fees and costs under the "Fees and other costs" section before making a decision. Go to the Reference Guide which is available at www.clearwaterpm.com.au or www.eqt.com.au/insto. The material relating to these matters may change between the time when you read this PDS and the day when you acquire the product.

7. How managed investment schemes are taxed

Warning: Investing in a registered managed investment scheme (such as the Fund) is likely to have tax consequences. You are strongly advised to seek your own professional tax advice about the applicable Australian tax (including income tax, GST and duty) consequences and, if appropriate, foreign tax consequences which may apply to you based on your particular circumstances before investing in the Fund.

The Fund is an Australian resident for tax purposes and does not generally pay tax on behalf of its investors. Australian resident investors are assessed for tax on any income and capital gains generated by the Fund to which they become presently entitled or, where the Fund has made a choice to be an Attribution Managed Investment Trust ("AMIT") and the choice is effective for the income year, are attributed to them.

Further reading

You should read the important information in the Reference Guide about Taxation under the "Other important information" section before making a decision. Go to the Reference Guide which is available at www.clearwaterpm.com.au or www.eqt.com.au/insto. The material relating to these matters may change between the time when you read this PDS and the day when you acquire the product.

Who can invest?

Investors investing through an IDPS should use the Application Form provided by the operator of the IDPS.

Cooling off period

If you are a Retail Client you may have a right to 'cool off' in relation to an investment in the Fund within 14 days of the earlier of:

- confirmation of the investment being received or available; and
- the end of the fifth business day after the units are issued or sold.

No cooling off applies if you are a Wholesale Client.

A Retail Client may exercise this right by notifying Equity Trustees in writing. A Retail Client is entitled to a refund of their investment adjusted for any increase or decrease in the relevant Application Price between the time we process your application and the time we receive the notification from you, as well as any other tax and other reasonable administrative expenses and transaction costs associated with the acquisition and termination of the investment.

The right of a Retail Client to cool off does not apply in certain limited situations, such as if the issue is made under a distribution reinvestment plan, switching facility or represents additional contributions required under an existing agreement. Also, the right to cool off does not apply to you if you choose to exercise your rights or powers as a unit holder in the Fund during the 14 day period, this could include selling part of your investment or switching it to another product.

Indirect investors should seek advice from their IDPS Operator as to whether cooling off rights apply to an investment in a fund by the IDPS. The right to cool off in relation to a fund are not directly available to an indirect investor. This is because an indirect investor does not acquire the rights of a unit holder in a fund. Rather, an indirect investor directs the IDPS Operator to arrange for their monies to be invested in a fund on their behalf. The terms and conditions of the IDPS Guide or similar type document will govern an indirect investor's investment in relation to a fund and any rights an indirect investor may have in this regard.
