Directors' declaration

Independent auditor's report to the unit holders of Dalton Street Market Neutral Trust (formerly known as "Watermark Market Neutral Trust")

This annual report covers Dalton Street Market Neutral Trust as an individual entity.

The Responsible Entity of Dalton Street Market Neutral Trust is Equity Trustees Limited (ABN 46 004 031 298) (AFSL 240975).

The Responsible Entity's registered office is:

Level 1, 575 Bourke Street
Melbourne, VIC 3000.

Directors' report

The directors of Equity Trustees Limited, the Responsible Entity of Dalton Street Market Neutral Trust (formerly known as "Watermark Market Neutral Trust") (the "Fund"), present their report together with the financial statements of the Fund for the year ended 30 June 2021.

Principal activities

The Fund invests in, or short sells, shares of companies listed on exchanges including, but not limited to, the Australian Securities Exchange (ASX) in accordance with the Product Disclosure Statement and the provisions of the Fund's Constitution.

The Fund did not have any employees during the year.

There were no significant changes in the nature of the Fund's activities during the year.

The various service providers for the Fund are detailed below:

Service	Provider
Responsible Entity	Equity Trustees Limited
Investment Manager	Mantis Funds Pty Ltd
Sub-Investment Manager	Dalton Street Capital Pty Ltd
Prime Brokers	Morgan Stanley & Co. International plc UBS AG, Australia Branch
Custodian	Morgan Stanley & Co. International plc
Administrator and Registrar	Link Fund Solutions Pty Limited
Statutory Auditor	Pitcher Partners Sydney

Directors

The following persons held office as directors of Equity Trustees Limited during or since the end of the year and up to the date of this report:

Philip D Gentry (Chairman)
Harvey H Kalman (resigned 1 September 2020)
Ian C Westley (resigned 3 July 2020)
Michael J O'Brien
Russell W Beasley (appointed 1 September 2020)

Review and results of operations

During the year, the Fund continued to invest its funds in accordance with the Product Disclosure Statement and the provisions of the Fund's Constitution.

The Fund's performance was 15.14% (net of fees) for Class A and 15.33% (net of fees) for Class C for the year ended 30 June 2021. The Fund's benchmark, the Reserve Bank of Australia (RBA) cash rate returned 0.15% for the same period.

The performance of the Fund, as represented by the results of its operations, was as follows:

	Year ended	
	30 June	30 June
	2021	2020
Profit/(loss) before finance costs attributable to unit holders for the year (\$)	1,533,555	1,277,454

Review and results of operations (continued)

	Year ended	
	30 June 2021	30 June 2020
<i>Distributions - Class A</i>		
Distributions paid and payable (\$)	1,645,883	-
Distributions (cents per unit)	18.6663	-
<i>Distributions - Class C</i>		
Distributions paid and payable (\$)	5,337	-
Distributions (cents per unit)	6.9635	-

There were no distributions declared for Class B for the years ended 30 June 2021 and 30 June 2020.

Significant changes in the state of affairs

Ian C Westley resigned as a director of Equity Trustees Limited on 3 July 2020.

Harvey H Kalman resigned as a director of Equity Trustees Limited on 1 September 2020.

Russell W Beasley was appointed as a director of Equity Trustees Limited on 1 September 2020.

On 14 September 2020 the Responsible Entity communicated to unit holders that Watermark Funds Management Pty Limited would retire as the Investment Manager of the Fund and would be replaced by Mantis Funds Pty Ltd effective October 2020. At the same time, Dalton Street Capital Pty Ltd an affiliate of Mantis would become the sub-investment manager of the Fund.

On 12 October 2020, the Fund changed its name from Watermark Market Neutral Trust to Dalton Street Market Neutral Trust.

On 19 October 2020, the Responsible Entity issued a new Product Disclosure Statement for the Fund.

In the opinion of the directors, there were no other significant changes in the state of affairs of the Fund that occurred during the financial year.

COVID-19

In March 2020, the COVID-19 outbreak was declared a pandemic by the World Health Organization. The outbreak and the response of Governments in dealing with the pandemic has continued to evolve over the course of time. The prior year saw an increase in financial market volatility and corresponding fluctuations in the fair value of the Fund's investment portfolio. There is still some uncertainty around the impact of COVID, the potential for further outbreaks and the COVID vaccine and its roll out both in Australia and around the world.

The Responsible Entity and Investment Manager are monitoring the situation closely, noting that with the ongoing developments, there is still a degree of uncertainty; therefore it is not possible at this time to predict the extent and nature of the overall impact on the Fund. The Investment Manager however, actively manages the financial risks that the Fund is exposed to, and the Net Asset Values of the Fund continue to be valued in accordance with the frequency set out in the Fund's Offer Documents, applying valuation policies reflective of the prevailing market conditions.

Matters subsequent to the end of the financial year

No matter or circumstance has arisen since 30 June 2021 that has significantly affected, or may have a significant effect on:

- (i) the operations of the Fund in future financial years; or
- (ii) the results of those operations in future financial years; or
- (iii) the state of affairs of the Fund in future financial years.

Likely developments and expected results of operations

The Fund will continue to be managed in accordance with the investment objectives and guidelines as set out in the Product Disclosure Statement and the provisions of the Fund's Constitution.

The results of the Fund's operations will be affected by a number of factors, including the performance of investment markets in which the Fund invests. Investment performance is not guaranteed and future returns may differ from past returns. As investment conditions change over time, past returns should not be used to predict future returns.

Indemnification and insurance of officers

No insurance premiums are paid for out of the assets of the Fund in regards to insurance cover provided to the officers of Equity Trustees Limited. So long as the officers of Equity Trustees Limited act in accordance with the Fund's Constitution and the Law, the officers remain indemnified out of the assets of the Fund against losses incurred while acting on behalf of the Fund.

Indemnification of auditors

The auditors of the Fund are in no way indemnified out of the assets of the Fund.

Fees paid to and interests held in the Fund by the Responsible Entity and its associates

Fees paid to the Responsible Entity and its associates out of Fund property during the year are disclosed in Note 15 to the financial statements.

No fees were paid out of Fund property to the directors of the Responsible Entity during the year.

The number of interests in the Fund held by the Responsible Entity or its associates as at the end of the financial year are disclosed in Note 15 to the financial statements.

Interests in the Fund

The movement in units on issue in the Fund during the year is disclosed in Note 8 to the financial statements.

The value of the Fund's assets and liabilities is disclosed in the statement of financial position and derived using the basis set out in Note 2 to the financial statements.

Environmental regulation

The operations of the Fund are not subject to any particular or significant environmental regulations under Commonwealth, State or Territory law.

Rounding of amounts to the nearest dollar

Amounts in the Directors' report have been rounded to the nearest dollar in accordance with *ASIC Corporations (Rounding in Financial/Directors' Reports) Instrument 2016/191*, unless otherwise indicated.

Auditor's independence declaration

A copy of the Auditor's independence declaration as required under section 307C of the *Corporations Act 2001* is set out on page 6.

This report is made in accordance with a resolution of the directors of Equity Trustees Limited through a delegated authority given by Equity Trustees Limited's Board.

A handwritten signature in blue ink, appearing to read 'P. D. Gentry', with a stylized flourish at the end.

**Auditor's Independence Declaration
To the Directors of Equity Trustees Limited
As Responsible Entity of Dalton Street Market Neutral Trust
ARSN 603 495 692**

In relation to the independent audit of Dalton Street Market Neutral Trust for the year ended 30 June 2021, I declare to the best of my knowledge and belief there have been:

- (i) no contraventions of the auditor's independence requirements of the *Corporations Act 2001*; and
- (ii) no contraventions of APES 110 *Code of Ethics for Professional Accountants (including Independence Standards)*.

1 General information

These financial statements cover Dalton Street Market Neutral Trust (formerly known as "Watermark Market Neutral Trust") (the "Fund"), as an individual entity. The Fund is an Australian registered managed investment scheme which was constituted on 24 May 2012 and will terminate in accordance with the provisions of the Fund's Constitution or by Law.

The Responsible Entity of the Fund is Equity Trustees Limited (ABN 46 004 031 298) (AFSL 240975) (the "Responsible Entity"). The Responsible Entity's registered office is Level 1, 575 Bourke Street, Melbourne, VIC 3000. The financial statements are presented in the Australian currency unless otherwise noted.

The Fund invests in, or short sells, shares of companies listed on exchanges including, but not limited to, the Australian Securities Exchange (ASX) in accordance with the Product Disclosure Statement and the provisions of the Fund's Constitution.

In March 2020, the COVID-19 outbreak was declared a pandemic by the World Health Organization. The outbreak and the response of Governments in dealing with the pandemic has continued to evolve over the course of time. The prior year saw an increase in financial market volatility and corresponding fluctuations in the fair value of the Fund's investment portfolio. There is still some uncertainty around the impact of COVID, the potential for further outbreaks and the COVID vaccine and its roll out both in Australia and around the world.

The Responsible Entity and Investment Manager are monitoring the situation closely, noting that with the ongoing developments, there is still a degree of uncertainty; therefore it is not possible at this time to predict the extent and nature of the overall impact on the Fund. The Investment Manager however, actively manages the financial risks that the Fund is exposed to, and the Net Asset Values of the Fund continue to be valued in accordance with the frequency set out in the Fund's Offer Documents, applying valuation policies reflective of the prevailing market conditions.

The financial statements were authorised for issue by the directors on the date the Directors' declaration was signed. The directors of the Responsible Entity have the power to amend and reissue the financial statements.

2 Summary of significant accounting policies

The principal accounting policies applied in the preparation of these financial statements are set out below. These policies have been consistently applied to all years presented, unless otherwise stated in the following text.

(a) Basis of preparation

These general purpose financial statements have been prepared in accordance with Australian Accounting Standards and Interpretations issued by the Australian Accounting Standards Board (AASB) and the *Corporations Act 2001* in Australia. The Fund is a for-profit entity for the purpose of preparing the financial statements.

The financial statements are prepared on the basis of fair value measurement of assets and liabilities, except where otherwise stated.

The statement of financial position is presented on a liquidity basis. Assets and liabilities are presented in decreasing order of liquidity and do not distinguish between current and non-current. All balances are expected to be recovered or settled within 12 months, except for investments in financial assets and liabilities and net assets attributable to unit holders.

The Fund manages financial assets at fair value through profit or loss based on the economic circumstances at any given point in time, as well as to meet any liquidity requirements. As such, it is expected that a portion of the portfolio will be realised within 12 months, however, an estimate of that amount cannot be determined as at reporting date.

In the case of net assets attributable to unit holders, the units are redeemable on demand at the unit holder's option. However, holders of these instruments typically retain them for the medium to long term. As such, the amount expected to be settled within 12 months cannot be reliably determined.

2 Summary of significant accounting policies (continued)

(a) Basis of preparation (continued)

(i) Compliance with International Financial Reporting Standards (IFRS)

The financial statements of the Fund also comply with IFRS as issued by the International Accounting Standards Board (IASB).

(ii) New and amended standards adopted by the Fund

There are no standards, interpretations or amendments to existing standards that are effective for the first time for the financial year beginning 1 July 2020 that have a material impact on the amounts recognised in the prior periods or will affect the current or future periods.

(iii) New standards and interpretations not yet adopted

A number of new standards, amendments to standards and interpretations are effective for annual periods beginning after 1 July 2021 and have not been early adopted in preparing these financial statements.

None of these are expected to have a material effect on the financial statements of the Fund.

(b) Financial instruments

(i) Classification

- Financial assets

The Fund classifies its financial assets in the following measurement categories:

- those to be measured at fair value through profit or loss; and
- those to be measured at amortised cost.

The Fund classifies its financial assets based on its business model for managing those financial assets and the contractual cash flow characteristics of the financial assets.

The Fund's portfolio of financial assets is managed and performance is evaluated on a fair value basis in accordance with the Fund's documented investment strategy. The Fund's policy is for the Investment Manager to evaluate the information about these financial assets on a fair value basis together with other related financial information.

For equity securities and derivatives, the contractual cash flows of these instruments do not represent solely payments of principal and interest. Consequently, these investments are measured at fair value through profit or loss.

For cash and cash equivalents and receivables, these assets are held in order to collect the contractual cash flows. The contractual terms of these assets give rise, on specified dates, to cash flows that are solely payments of principal and interest on the principal amount outstanding. Consequently, these are measured at amortised cost.

- Financial liabilities

The Fund makes short sales in which a borrowed security is sold in anticipation of a decline in the market value of that security, or it may use short sales for various arbitrage transactions. Short sales are held for trading and are consequently classified as financial liabilities at fair value through profit or loss. Derivative contracts that have a negative fair value are presented as liabilities at fair value through profit or loss.

For financial liabilities that are not classified and measured at fair value through profit or loss, these are classified as financial liabilities at amortised cost (due to brokers, distributions payable, management fees payable, redemptions payable, short dividends payable, management fee reimbursement payable and other payables).

(ii) Recognition and derecognition

The Fund recognises financial assets and financial liabilities on the date it becomes party to the contractual agreement (trade date) and recognises changes in the fair value of the financial assets or financial liabilities from this date.

2 Summary of significant accounting policies (continued)

(b) Financial instruments (continued)

(ii) Recognition and derecognition (continued)

Financial assets are derecognised when the rights to receive cash flows from the financial assets have expired or the Fund has transferred substantially all the risks and rewards of ownership. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the statement of comprehensive income.

(iii) Measurement

- Financial instruments at fair value through profit or loss

At initial recognition, the Fund measures a financial asset and a financial liability at its fair value. Transaction costs of financial assets and financial liabilities carried at fair value through profit or loss are expensed in the statement of comprehensive income.

Subsequent to initial recognition, all financial assets and liabilities at fair value through profit or loss are measured at fair value. Gains and losses arising from changes in the fair value of 'financial assets or liabilities at fair value through profit or loss' category are presented in the statement of comprehensive income within 'net gains/(losses) on financial instruments at fair value through profit or loss' in the period in which they arise.

For further details on how the fair value of financial instruments is determined, please see Note 4 to the financial statements.

- Financial instruments at amortised cost

For financial assets and financial liabilities at amortised cost, they are initially measured at fair value including directly attributable costs and are subsequently measured using the effective interest rate method less any allowance for expected credit losses.

Cash and cash equivalents, due from brokers and receivables are carried at amortised cost.

(iv) Impairment

At each reporting date, the Fund shall estimate a loss allowance on each of the financial assets carried at amortised cost (cash and cash equivalents, due from brokers and receivables) at an amount equal to the lifetime expected credit losses if the credit risk has increased significantly since initial recognition. If, at the reporting date, the credit risk has not increased significantly since initial recognition, the Fund shall measure the loss allowance at an amount equal to 12-month expected credit losses. Significant financial difficulties of the counter party, probability that the counter party will enter bankruptcy or financial reorganisation, and default in payments are all considered indicators that the asset is credit impaired. If the credit risk increases to the point that it is considered to be credit impaired, interest income will be calculated based on the net carrying amount adjusted for the loss allowance. A significant increase in credit risk is defined by management as any contractual payment which is more than 30 days past due. Any contractual payment which is more than 90 days past due is considered credit impaired.

The expected credit loss (ECL) approach is based on the difference between the contractual cash flows due in accordance with the contract and all the cash flows that the Fund expects to receive. The shortfall is then discounted at an approximation to the asset's original effective interest rate.

The amount of the impairment loss is recognised in the statement of comprehensive income within other expenses. When a receivable for which an impairment allowance had been recognised becomes uncollectible in a subsequent period, it is written off against the allowance account. Subsequent recoveries of amounts previously written off are credited against other expenses in the statement of comprehensive income.

2 Summary of significant accounting policies (continued)

(c) Net assets attributable to unit holders

Units are redeemable at the unit holders' option; however, applications and redemptions may be suspended by the Responsible Entity if it is in the best interests of the unit holders. The units are classified as financial liabilities.

The units can be put back to the Fund at any time for cash based on the redemption price, which is equal to a proportionate share of the Fund's net asset value attributable to the unit holders.

The units are carried at the redemption amount that is payable at the reporting date if the holder exercises the right to put the units back to the Fund.

(d) Cash and cash equivalents

For the purpose of presentation in the statement of cash flows, cash and cash equivalents includes cash on hand, deposits held at call with financial institutions, and other short term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value. Bank overdrafts are shown within borrowings in the statement of financial position.

Payments and receipts relating to the purchase and sale of investment securities are classified as cash flows from operating activities, as trading of these securities represents the Fund's main income generating activity.

(e) Investment income

(i) Interest income

Interest income from financial assets at amortised cost is recognised using the effective interest method and includes interest from cash and cash equivalents. Interest from financial assets at fair value through profit or loss is determined based on the contractual coupon interest rate and includes interest from debt securities measured at fair value through profit or loss.

The effective interest method is a method of calculating the amortised cost of a financial asset or liability and of allocating the interest income or expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments or receipts throughout the expected life of the financial instrument, or a shorter period where appropriate, to the net carrying amount of the financial asset or liability. When calculating the effective interest rate, the Fund estimates cash flows considering all contractual terms of the financial instruments (for example, prepayment options) but does not consider future credit losses. The calculation includes all fees paid or received between the parties to the contract that are an integral part of the effective interest rate, including transaction costs and all other premiums or discounts.

Interest income on financial assets at fair value through profit or loss is also recognised in the statement of comprehensive income. Changes in fair value of financial instruments at fair value through profit or loss are recorded in accordance with the policies described in Note 2(b) to the financial statements.

(ii) Dividends and distributions

Dividends income is recognised on the ex-dividend date with any related foreign withholding tax recorded as an expense. The Fund currently incurs withholding tax imposed by certain countries on investment income. Such income is recorded gross of withholding tax in the statement of comprehensive income.

Trust distributions are recognised on an entitlement basis.

(f) Expenses

All expenses are recognised in the statement of comprehensive income on an accruals basis.

Dividends declared on securities sold short are recorded as short dividend expense on the ex-dividend date.

2 Summary of significant accounting policies (continued)

(g) Income tax

Under current legislation, the Fund is not subject to income tax provided it attributes the entirety of its taxable income to its unit holders.

The Fund currently incurs withholding taxes imposed by certain countries on investment income and capital gains. Such income or gains are recorded gross of withholding taxes in the statement of comprehensive income. Withholding taxes are included in the statement of comprehensive income as an expense.

(h) Distributions

The Fund may distribute its distributable income, in accordance with the Fund's Constitution, to unit holders by cash or reinvestment. The distributions are recognised in the statement of comprehensive income as finance costs attributable to unit holders.

(i) Increase/decrease in net assets attributable to unit holders

Income not distributed is included in net assets attributable to unit holders. When the Fund's units are classified as financial liabilities, movements in net assets attributable to unit holders are recognised in the statement of comprehensive income as finance costs.

(j) Foreign currency translation

(i) Functional and presentation currency

Balances included in the Fund's financial statements are measured using the currency of the primary economic environment in which it operates (the "functional currency"). This is the Australian dollar, which reflects the currency of the economy in which the Fund competes for funds and is regulated. The Australian dollar is also the Fund's presentation currency.

(ii) Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translations at year end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognised in the statement of comprehensive income.

Non-monetary items that are measured at fair value in a foreign currency are translated using the exchange rates at the date when fair value was determined.

The Fund does not isolate that portion of unrealised gains or losses on financial instruments at fair value through profit or loss which is due to changes in foreign exchange rates. Such fluctuations are included in the net gains/(losses) on financial instruments at fair value through profit or loss.

(k) Due from/to brokers

Amounts due from/to brokers represent receivables for securities sold and payables for securities purchased that have been contracted for but not yet delivered by the end of the year. The due from brokers balance is held for collection and is recognised initially at fair value and subsequently measured at amortised cost.

(l) Receivables

Receivables may include amounts for interest, dividends and trust distributions. Dividends and trust distributions are accrued when the right to receive payment is established. Where applicable, interest is accrued on a daily basis. Amounts are generally received within 30 days of being recorded as receivables.

2 Summary of significant accounting policies (continued)

(m) Payables

Payables include liabilities and accrued expenses owed by the Fund which are unpaid as at the end of the reporting period.

A separate distributions payable is recognised in the statement of financial position.

The Fund usually distributes income semi-annually at the end of June and at the end of December.

Distributions declared effective 30 June in relation to unit holders who have previously elected to reinvest distributions are recognised as reinvested effective 1 July of the following financial year.

(n) Applications and redemptions

Applications received for units in the Fund are recorded net of any entry fees payable prior to the issue of units in the Fund. Redemptions from the Fund are recorded gross of any exit fees payable after the cancellation of units redeemed.

(o) Goods and services tax (GST)

The GST incurred on the costs of various services provided to the Fund by third parties such as management, administration and custodian services where applicable have been passed on to the Fund. The Fund qualifies for Reduced Input Tax Credits (RITC) at a rate of at least 55%. Hence, fees for these services and any other expenses have been recognised in the statement of comprehensive income net of the amount of GST recoverable from the Australian Taxation Office (ATO). Amounts payable are inclusive of GST. The net amount of GST recoverable from the ATO is included in receivables in the statement of financial position. Cash flows relating to GST are included in the statement of cash flows on a gross basis.

(p) Use of estimates and judgements

The Fund makes estimates, assumptions and judgements that affect the reported amounts of assets and liabilities within the current and next financial year. Estimates and judgements are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

For the majority of the Fund's financial instruments, quoted market prices are readily available.

The Fund estimates that the resultant expected credit loss (ECL) derived from using impairment model has not materially impacted the Fund. Please see Note 3 for more information on credit risk.

For more information on how fair value is calculated, please refer to Note 4 to the financial statements.

(q) Rounding of amounts

The Fund is an entity of a kind referred to in *ASIC Corporations (Rounding in Financial/Directors' Reports) Instrument 2016/191* relating to the "rounding off" of amounts in the financial statements. Amounts in the financial statements have been rounded to the nearest dollar, unless otherwise indicated.

(r) Comparative revisions

Comparative information has been revised where appropriate to enhance comparability. Where necessary, comparative figures have been adjusted to conform with changes in presentation in the current year.

3 Financial risk management

The Fund's activities expose it to a variety of financial risks including market risk (which incorporates price risk, foreign exchange risk and interest rate risk), credit risk and liquidity risk.

The Fund's overall risk management programme focuses on ensuring compliance with the Fund's Product Disclosure Statement and the investment guidelines of the Fund. It also seeks to maximise the returns derived for the level of risk to which the Fund is exposed and seeks to minimise potential adverse effects on the Fund's financial performance. The Fund's policy allows it to use derivative financial instruments in managing its financial risks.

All investments present a risk of loss of capital. The maximum loss of capital on long equity securities is limited to the fair value of those positions. The maximum loss of capital on long futures is limited to the notional contract values of those positions. On equities sold short, the maximum loss of capital can be unlimited.

The investments of the Fund, and associated risks, are managed by a specialist Investment Manager, Mantis Funds Pty Ltd together with Dalton Street Capital Pty Ltd, as Sub-Investment Manager, under an Investment Management Agreement ("IMA") approved by the Responsible Entity, and containing the investment strategy and investment guidelines of the Fund, consistent with those stated in the Product Disclosure Statement.

The Fund uses different methods to measure different types of risk to which it is exposed. These methods are explained below.

(a) Market risk

(i) Price risk

The Fund is exposed to price risk on equity securities listed or quoted on recognised securities exchanges and debt securities measured at fair value. Price risk arises from investments held by the Fund for which prices in the future are uncertain. Where non-monetary financial instruments are denominated in currencies other than the Australian dollar, the price in the future will also fluctuate because of changes in foreign exchange rates which are considered a component of price risk.

Price risk is managed by investing in well diversified portfolios across sectors and industries in line with the guidelines of the IMA. The Fund will typically hold between 40-80 positions in each of the long and short portfolios. The Fund may also hold up to 20% of its gross exposure in international securities.

The table at Note 3(b) summarises the sensitivities of the Fund's assets and liabilities to price risk. The analysis is based on the reasonably possible shift that the investment portfolio in which the Fund invests moves by +/- 5% (2020: +/- 5%).

(ii) Foreign exchange risk

The Fund operates internationally and holds both monetary and non-monetary assets denominated in currencies other than the Australian dollar. Foreign exchange risk arises as the value of monetary securities denominated in other currencies fluctuate due to changes in exchange rates. The foreign exchange risk relating to non-monetary assets and liabilities is a component of price risk and not foreign exchange risk. However, the Investment Manager monitors the exposure of all foreign currency denominated assets and liabilities.

Foreign exchange risk is managed by the Investment Manager through its treasury management framework. Where the Investment Manager invests in international securities, it will aim to broadly manage the Fund's exposure to currency movements by balancing long and short exposures in foreign currencies.

The table below summarises the fair value of the Fund's financial assets and liabilities, monetary and non-monetary, which are denominated in a currency other than the Australian dollar.

3 Financial risk management (continued)

(a) Market risk (continued)

(ii) Foreign exchange risk (continued)

	US Dollars	New Zealand Dollars	Hong Kong Dollars	Japanese Yen	Other currencies
As at 30 June 2021	A\$	A\$	A\$	A\$	A\$
Cash and cash equivalents	29,329	-	-	-	190
Due from brokers - receivable for securities sold	-	-	-	3,483	-
Borrowings	(17,714)	(312,796)	(553,663)	(569,294)	-
Due to brokers - payables for securities sold	-	-	(5,172)	-	-
Net exposure	11,615	(312,796)	(558,835)	(565,811)	190
As at 30 June 2020					
Cash and cash equivalents	496,456	410,048	-	-	-
Borrowings	(143,530)	-	-	-	(98,584)
Net exposure	352,926	410,048	-	-	(98,584)

The table at Note 3(b) summarises the sensitivities of the Fund's monetary assets and liabilities to foreign exchange risk. The analysis is based on the reasonably possible shift that the Australian dollar weakened and strengthened by 10% (2020: +/- 10%) against the material foreign currencies to which the Fund is exposed.

(iii) Interest rate risk

The Fund is exposed to cash flow interest rate risk on financial instruments with variable interest rates. Financial instruments with fixed rates expose the Fund to fair value interest rate risk.

The Fund's interest bearing financial instruments expose it to risks associated with the effects of fluctuations in the prevailing market interest rates on its financial position and cash flows. The risk is measured using sensitivity analysis.

Interest rate risk is actively managed by the Investment Manager. The majority of the Fund's interest bearing assets are held on term deposit with an Australian bank. These investments are actively managed to ensure the Fund obtains competitive rates of return while ensuring sufficient liquidity to meet cash flow requirements. Cash may also be held with the Prime Broker as margin collateral. The Investment Manager has negotiated favourable terms with the Prime Broker in respect of interest earned on the Fund's cash.

3 Financial risk management (continued)

(a) Market risk (continued)

(iii) Interest rate risk (continued)

The table below summarises the Fund's exposure to interest rate risk at the end of the reporting period.

	Floating interest rate	Fixed interest rate	Non- interest bearing	Total
As at 30 June 2021	\$	\$	\$	\$
Financial assets				
Cash and cash equivalents	428,414	-	-	428,414

3 Financial risk management (continued)

(a) Market risk (continued)

(iii) Interest rate risk (continued)

	Floating interest rate \$	Fixed interest rate \$	Non- interest bearing \$	Total \$
As at 30 June 2020				
Financial assets				
Cash and cash equivalents	37,860,703	-	-	37,860,703
Receivables	-	-	289,721	289,721
Due from brokers - receivable for securities sold	-	-	2,450,019	2,450,019
Financial assets at fair value through profit or loss	-	-	18,992,001	18,992,001
Total financial assets	37,860,703	-	21,731,741	59,592,444
Financial liabilities				
Borrowings	242,114	-	-	242,114
Payables	-	-	332,206	332,206
Due to brokers - payable for securities purchased	-	-	2,788,694	2,788,694
Financial liabilities at fair value through profit or loss	-	-	17,473,111	17,473,111
Total financial liabilities	242,114	-	20,594,011	20,836,125
Net exposure	37,618,589	-	1,137,730	38,756,319

The table at Note 3(b) summarises the impact of an increase/decrease in interest rates on the Fund's operating profit/(loss) and net assets attributable to unit holders through changes in fair value or changes in future cash flows. The analysis is based on the reasonably possible shift that interest rates changed by +/- 75 basis points (2020: +/- 75 basis points) from the year end rates with all other variables held constant.

3 Financial risk management (continued)

(c) Credit risk (continued)

(i) Settlement of securities transactions

All transactions in listed securities are settled/paid for upon delivery using approved brokers. The risk of default is considered low, as delivery of securities sold is only made once the broker has received payment. Payment is made once the securities purchased have been received by the broker. The trade will fail if either party fails to meet its obligations.

(ii) Cash and cash equivalents

The exposure to credit risk for cash and cash equivalents is low as all counterparties have a rating of BBB+ (2020: BBB+) (as determined by Standard and Poor's) or higher.

(iii) Other

The Fund is not materially exposed to credit risk on other financial assets.

(d) Liquidity risk

Liquidity risk is the risk that the Fund may not be able to generate sufficient cash resources to settle its obligations in full as they fall due or can only do so on terms that are materially disadvantageous.

Exposure to liquidity risk for the Fund may arise from the requirement to meet daily unit holder redemption requests or to fund foreign exchange related cash flow requirements.

In order to manage the Fund's overall liquidity, the Responsible Entity has the discretion to reject an application for units and to defer or adjust any redemption of units if the exercise of such discretion is in the best interests of unit holders. The Fund did not reject or withhold any redemption during 2021 and 2020.

(i) Maturities of non-derivative financial liabilities

All non-derivative financial liabilities of the Fund in the current and prior year have maturities of less than 1 month.

(ii) Maturities of net settled derivative financial instruments

The table below analyses the Fund's net settled derivative financial instruments based on their contractual maturity. The Fund may, at its discretion, settle financial instruments prior to their original contractual settlement date, in accordance with its investment strategy, where permitted by the terms and conditions of the instruments.

	Less than 1 month	1 to 6 months	6 to 12 months	Over 12 months

Australian share price index futures	-	(2,775)	-	-
Total net settled derivatives	-	(2,775)	-	-

4 Fair value measurement

The Fund measures and recognises financial assets and liabilities at fair value through profit or loss on a recurring basis.

- Financial assets/liabilities at fair value through profit or loss (see Note 5 and Note 6)
- Derivative financial instruments (see Note 7)

The Fund has no assets or liabilities measured at fair value on a non-recurring basis in the current reporting period.

AASB 13 *Fair Value Measurement* requires disclosure of fair value measurements by level of the following fair value measurement hierarchy:

- Quoted prices (unadjusted) in active markets for identical assets or liabilities (level 1);
- Inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly or indirectly (level 2); and
- Inputs for the asset or liability that are not based on observable market data (unobservable inputs) (level 3).

The Fund values its investments in accordance with the accounting policies set out in Note 2 to the financial statements. For the majority of its investments, the Fund relies on information provided by independent pricing services for the valuation of its investments.

(a) Fair value in an active market (level 1)

The fair value of financial assets and liabilities traded in active markets (such as listed equity securities) is based on quoted market prices at the close of trading at the end of the reporting period without any deduction for estimated future selling costs.

The quoted market price used for financial assets held by the Fund is the current bid price; the quoted market price for financial liabilities is the current asking price. When the Fund holds derivatives with offsetting market risks, it uses mid-market prices as a basis for establishing fair values for the offsetting risk positions and applies this bid or asking price to the net open position, as appropriate.

A financial instrument is regarded as quoted in an active market if quoted prices are readily and regularly available from an exchange, dealer, broker, industry group, pricing service, or regulatory agency, and those prices represent actual and regularly occurring market transactions on an arm's length basis.

An active market is a market in which transactions for the asset or liability take place with sufficient frequency and volume to provide pricing information on an ongoing basis.

(b) Fair value in an inactive or unquoted market (level 2)

The fair value of financial assets and liabilities that are not traded in an active market is determined using valuation techniques. These include the use of recent arm's length market transactions, reference to the current fair value of a substantially similar other instrument, discounted cash flow techniques, option pricing models or any other valuation technique that provides a reliable estimate of prices obtained in actual market transactions.

Where discounted cash flow techniques are used, estimated future cash flows are based on management's best estimates and the discount rate used is a market rate at the end of the reporting period applicable for an instrument with similar terms and conditions.

4 Fair value measurement (continued)

(c) *Recognised fair value measurements*

The table below presents the Fund's financial assets and liabilities measured and recognised at fair value as at 30 June 2021 and 30 June 2020.

As at 30 June 2021	Level 1	Level 2	Level 3	Total
	\$	\$	\$	\$
Financial assets				
Australian share price index futures	4,724	-	-	4,724
Australian listed equity securities	2,589,759	442,082	-	3,031,841
Australian listed property trusts	899,611	-	-	899,611
International listed equity securities	2,176,925	-	-	2,176,925
Total financial assets	5,671,019	442,082	-	6,113,101
Financial liabilities				
Australian share price index futures	3,483	-	-	3,483
Australian listed equity securities	543,859	-	-	543,859
International listed equity securities	711,913	-	-	711,913
Total financial liabilities	1,259,255	-	-	1,259,255
As at 30 June 2020				
Financial assets				
Australian listed equity securities	17,436,815	146,007	-	17,582,822
Australian listed property trusts	1,409,179	-	-	1,409,179
Total financial assets	18,845,994	146,007	-	18,992,001
Financial liabilities				
Australian share price index futures	2,775	-	-	2,775
Australian listed equity securities	14,976,345	-	-	14,976,345
Australian listed property trusts	778,065	-	-	778,065
Australian listed unit trusts	1,715,926	-	-	1,715,926
Total financial liabilities	17,473,111	-	-	17,473,111

The investments included in level 2 of the hierarchy as at 30 June 2021 and 30 June 2020 represent amounts in relation to equity securities suspended from official quotation on the ASX as at year end. These equity securities were valued at last traded price.

4 Fair value measurement (continued)

(d) Transfers between levels

Management's policy is to recognise transfers into and transfers out of fair value hierarchy levels as at the end of the reporting period.

The following table presents the transfers between levels for the years ended 30 June 2021 and 30 June 2020.

Year ended 30 June 2021	Level 1	Level 2	Level 3
	\$	\$	\$
Transfer between levels 1 and 2:			
Australian listed equity securities	-	442,082	-
Year ended 30 June 2020			
Transfer between levels 1 and 2:			
Australian unlisted equity securities	205,335	-	-
Australian listed equity securities	-	146,007	-

At the end of the current reporting period, management has transferred the Fund's investments amounting to \$442,082 from level 1 to level 2 (2020: \$146,007) on the fair value hierarchy as a result of suspension of these securities from official quotation on the ASX. At the end of the prior reporting period, management has transferred the Fund's investments amounting to \$205,335 from level 2 to level 1 on the fair value hierarchy relating to the listing of an unlisted equity security in 2019. There were no other transfers between levels in the fair value hierarchy at the end of the reporting period.

(e) Financial instruments not carried at fair value

The carrying values of receivables and payables approximate their fair values due to their short-term nature.

Net assets attributable to unit holders' carrying value differs from its fair value (deemed to be redemption price for individual units) due to differences in valuation inputs. This difference is not material in the current or prior year.

5 Financial assets at fair value through profit or loss

	As at	
	30 June 2021	30 June 2020
	\$	\$
Australian share price index futures	4,724	-
Australian listed equity securities	3,031,841	17,582,822

International listed equity securities	2,176,925	-
Total financial assets at fair value through profit or loss	6,113,101	18,992,001

An overview of the risk exposures and fair value measurements relating to financial assets at fair value through profit or loss is included in Note 3 and Note 4 to the financial statements.

6 Financial liabilities at fair value through profit or loss

	As at	
	30 June 2021	30 June 2020
	\$	\$
International share price index futures	3,483	-
Australian share price index futures	-	2,775
Australian listed equity securities	543,859	14,976,345
Australian listed property trusts	-	778,065
Australian listed unit trusts	-	1,715,926
International listed equity securities	711,913	-
Total financial liabilities at fair value through profit or loss	1,259,255	17,473,111

An overview of the risk exposures and fair value measurements relating to financial liabilities at fair value through profit or loss is included in Note 3 and Note 4 to the financial statements.

7 Derivative financial instruments

In the normal course of business the Fund enters into transactions in various derivative financial instruments which have certain risks. A derivative is a financial instrument or other contract which is settled at a future date and whose value changes in response to the change in a specified interest rate, financial instrument price, commodity price, foreign exchange rate, index of prices or rates, credit rating or credit index or other variable.

Derivative financial instruments require no initial net investment or an initial net investment that is smaller than would be required for other types of contracts that would be expected to have a similar response to changes in market factors.

Derivative transactions include many different instruments such as forwards, futures and options. Derivatives are considered to be part of the investment process and the use of derivatives is an essential part of the Fund's portfolio management. Derivatives are not managed in isolation. Consequently, the use of derivatives is multifaceted and includes:

- hedging to protect an asset or liability of the Fund against a fluctuation in market values or to reduce volatility;
- a substitution for trading of physical securities; and
- adjusting asset exposures within the parameters set in the investment strategy, and adjusting the duration of fixed interest portfolios or the weighted average maturity of cash portfolios.

7 Derivative financial instruments (continued)

While derivatives are used for trading purposes, they are not used to gear (leverage) a portfolio. Gearing a portfolio would occur if the level of exposure to the markets exceeds the underlying value of the Fund.

Futures

Futures are contractual obligations to buy or sell financial instruments on a future date at a specified price established in an organised market. The futures contracts are collateralised by cash or marketable securities. Changes in futures contracts' values are usually settled net daily with the exchange. Interest rate futures are contractual obligations to receive or pay a net amount based on changes in interest rates at a future date at a specified price, established in an organised financial market.

The Fund's derivative financial instruments measured at fair value at year end are detailed below:

As at 30 June 2021	Contractual/ notional \$	Assets \$	Liabilities \$
Australian share price index futures	541,725	4,724	-
International share price index futures	1,789	-	3,483
Total	543,514	4,724	3,483

As at 30 June 2020

Australian share price index futures	3,240,600	-	2,775
Total	3,240,600	-	2,775

Information about the Fund's exposure to credit risk, foreign exchange, interest rate risk and about the methods and assumptions used in determining fair values is provided in Note 3 and Note 4 to the financial statements. The maximum exposure to credit risk at the end of the reporting period is the carrying amount of each class of derivative financial instruments disclosed above.

8 Net assets attributable to unit holders - liability

Movements in the number of units and net assets attributable to unit holders during the year were as follows:

	Year ended		Year ended

Closing balance	76,639	72,961	2,790,858	2,512,802
			Year ended	
			30 June	30 June
			2021	2020
			\$	\$
Total net assets attributable to unit holders			3,351,099	38,756,319

As stipulated within the Fund's Constitution, each unit represents a right to an individual unit in the Fund and does not extend to a right to the underlying assets of the Fund.

There are two separate classes of units and each unit has the same rights attaching to it as all other units of the Fund. Except for different management fee rates, the two classes have the same preferences and restrictions.

Capital risk management

The Fund considers its net assets attributable to unit holders as capital, notwithstanding that net assets attributable to unit holders are classified as a liability. The amount of net assets attributable to unit holders can change significantly on a daily basis as the Fund is subject to daily applications and redemptions at the discretion of unit holders.

Daily applications and redemptions are reviewed relative to the liquidity of the Fund's underlying assets on a daily basis by the Responsible Entity. Under the terms of the Fund's Constitution, the Responsible Entity has the discretion to reject an application for units and to defer or adjust any redemption of units if the exercise of such discretion is in the best interests of unit holders.

9 Distributions to unit holders

The distributions declared during the year were as follows:

	Year ended			
	30 June 2021	30 June 2021	30 June 2020	30 June 2020
Class A	\$	CPU	\$	CPU
September*	1,378,688	8.1485	-	-
June (payable)	267,195	10.5178	-	-
	<u>1,645,883</u>	<u>18.6663</u>	-	-
Class C				
June (payable)	5,337	6.9635	-	-
	<u>5,337</u>	<u>6.9635</u>	-	-

	Year ended	
	30 June 2021	30 June 2020
	\$	\$
Total distributions	<u>1,651,220</u>	-

* The September distribution for Class A represents a special distribution paid by the Fund due to a unit holder redemption of greater than 5% of the net assets of the Fund. Due to this redemption, as outlined in the Product Disclosure Statement, a portion of the withdrawal proceeds represented distributable income to the redeeming unit holder. Refer to the Fund's Product Disclosure Statement for details on special distributions.

There were no distributions declared for Class B for the years ended 30 June 2021 and 30 June 2020.

10 Cash and cash equivalents

Cash at bank	428,414	37,860,703
Total cash and cash equivalents	<u>428,414</u>	<u>37,860,703</u>

(a) Reconciliation to statement of cash flows

The above figures reconcile to the amount of cash shown in the statement of cash flows at the end of the year as follows:

	As at	
	30 June 2021	30 June 2020
	\$	\$
Balance per above	428,414	37,860,703
Bank overdraft	(1,468,592)	(242,114)
Balance per statement of cash flows	<u>(1,040,178)</u>	<u>37,618,589</u>

11 Reconciliation of profit/(loss) to net cash inflow/(outflow) from operating activities

(a) Reconciliation of profit/(loss) to net cash inflow/(outflow) from operating activities

	Year ended	
	30 June 2021	30 June 2020
	\$	\$
Profit/(loss) for the year	-	-
Increase/(decrease) in net assets attributable to unit holders	(117,665)	1,277,454
Distributions to unit holders	1,651,220	-
Proceeds from sale of financial assets at fair value through profit or loss	84,156,426	361,523,417
Payments for purchase of financial assets at fair value through profit or loss	(70,557,808)	(317,120,260)
Proceeds from re-purchase of financial liabilities at fair value through profit or loss	49,922,542	377,087,117
Payments for settlement of financial liabilities at fair value through profit or loss	(65,075,035)	(416,258,397)
Net (gains)/losses on financial instruments at fair value through profit or loss	(2,170,582)	(3,736,292)
Net foreign exchange (gain)/loss	(44,316)	10,354
Short dividends reinvested	46,936	154,594
Management fee rebate reinvested	-	347,464
Net change in receivables	216,112	824,133
Net change in payables	5,335	(630,814)
Net cash inflow/(outflow) from operating activities	(1,966,835)	3,478,770

(b) Non-cash operating and financing activities

	Year ended	
	30 June 2021	30 June 2020
	\$	\$
The following short sale of investments were satisfied by the participation in distribution reinvestment plan	46,936	154,594
The following management fee rebates were reinvested into units of the Fund	-	347,464
Total non-cash operating and financing activities	46,936	502,058

As described in Note 2(i), income not distributed is included in net assets attributable to unit holders. The change in this amount for the year (as reported in (a) above) represents a non-cash financing cost as it is not settled in cash until such time as it becomes distributable.

Dalton Street Market Neutral Trust

16 Events occurring after the reporting period

No significant events have occurred since the end of the year which would impact on the financial position of the Fund as disclosed in the statement of financial position as at 30 June 2021 or on the results and cash flows of the Fund for the year ended on that date.

17 Contingent assets and liabilities and commitments

There were no outstanding contingent assets, liabilities or commitments as at 30 June 2021 and 30 June 2020.

Directors' declaration

In the opinion of the directors of the Responsible Entity:

- (a) The financial statements and notes set out on pages 7 to 35 are in accordance with the *Corporations Act 2001*, including:
 - (i) complying with Australian Accounting Standards, the *Corporations Regulations 2001* and other mandatory professional reporting requirements; and
 - (ii) giving a true and fair view of the Fund's financial position as at 30 June 2021 and of its performance for the financial year ended on that date.
- (b) There are reasonable grounds to believe that the Fund will be able to pay its debts as and when they become due and payable; and
- (c) Note 2(a) confirms that the financial statements also comply with the International Financial Reporting Standards as issued by the International Accounting Standards Board.

This declaration is made in accordance with a resolution of the directors of Equity Trustees Limited through a delegated authority given by Equity Trustees Limited's Board.

**Independent Auditor's Report
To the Unitholders of Dalton Street Market Neutral Trust
ARSN 603 495 692**

Report on the Audit of the Financial Report

Opinion

We have audited the financial report of Dalton Street Market Neutral Trust ("the Fund"), which comprises the statement of financial position as at 30 June 2021, the statement of comprehensive income, statement of changes in equity and statement of cash flows for the year then ended, notes comprising a summary of significant accounting policies and the Directors' Declaration.

In our opinion:

- a. the financial report of the Fund has been prepared in accordance with the *Corporations Act 2001*, including:
 - i. giving a true and fair view of the Fund's financial position as at 30 June 2021 and of its financial performance for the year then ended; and
 - ii. complying with Australian Accounting Standards and *Corporation Regulations 2001*; and
- b. the financial report also complies with International Financial Reporting Standards as disclosed in Note 2(a).

Basis for Opinion

We conducted our audit in accordance with Australian Auditing Standards. Our responsibilities under those standards are further described in the Auditor's Responsibility for the Audit of the Financial Report section of our report. We are independent of the Company in accordance with the auditor independence requirements of the *Corporations Act 2001* and the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 *Code of Ethics for Professional Accountants (including Independence Standards)* "the Code" that are relevant to our audit of the financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

We confirm that the independence declaration required by the *Corporations Act 2001*, which has been given to the directors of the Responsible Entity of the Fund, would be in the same terms if given to the directors as at the time of this auditor's report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Other information

The Directors of Equity Trustees Limited, the Responsible Entity of the Fund, are responsible for the other information. The other information comprises the information in the Fund's annual report for the year ended 30 June 2021, but does not include the financial report and the auditor's report thereon.

Our opinion on the financial report does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial report, our responsibility is to read the other information and, in doing so, consider whether the other information is materially consistent with the financial report or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Directors' of the Responsible Entity's Responsibility for the Financial Report

The Directors of the Responsible Entity of the Fund are responsible for the preparation of the financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001*. In Note 2(a), the Directors of the Responsible Entity also state, in accordance with applicable Australian Accounting Standards and Interpretations that the financial statements comply with International Financial Reporting Standards. The Directors of the Responsible Entity's responsibility also include such internal control as they determine is necessary to enable the preparation of a financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

In preparing the financial report, the Directors of the Responsible Entity are responsible for assessing the Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Directors of the Responsible Entity either intends to liquidate the Fund or to cease operations, or has no realistic alternative but to do so.

Auditor's Responsibilities for the Audit of the Financial Report

Our objectives are to obtain reasonable assurance about whether the financial report as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with Australian Auditing Standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of the financial report.

As part of an audit in accordance with the Australian Auditing Standards, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial report, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Directors.
- Conclude on the appropriateness of the Directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial report or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Fund to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial report, including the disclosures, and whether the financial report represents the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the Directors of the Responsible Entity regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.
