This annual report covers Milford Diversified Income Fund (AU) as an individual entity.

The Responsible Entity of Milford Diversified Income Fund (AU) is Equity Trustees Limited (ABN 46 004 031 298) (AFSL 240975).

The Responsible Entity's registered office is:

Level 1, 575 Bourke Street,
Melbourne, VIC 3000.

DIRECTORS' REPORT

The directors of Equity Trustees Limited, the Responsible Entity of Milford Diversified Income Fund (the "Fund"), present their report together with the financial statements of the Fund for the year ended 30 June 2023.

Principal activities

The Fund invests primarily in a variety of income generating assets, such as Australian and global shares, fixed interest securities, property and infrastructure trusts. Derivatives may be used for efficient portfolio management and foreign currency hedging in accordance with the Product Disclosure Statement and the provisions of the Fund's Constitution.

The Fund did not have any employees during the year.

There were no significant changes in the nature of the Fund's activities during the year.

The various service providers for the Fund are detailed below:

Service	Provider
Responsible Entity	Equity Trustees Limited
Investment Manager	Milford Australia Pty Limited
Custodian	National Australia Bank Limited
Administrator and Registrar*	Apex Fund Services Pty Ltd (an Apex Group Company)**
Statutory Auditor	PricewaterhouseCoopers

* Effective on 12 September 2022, Apex Fund Services Pty Ltd replaced National Australia Bank Limited as Administrator of the Fund.

** Effective on 21 October 2022, Mainstream Fund Services Pty Ltd changed its name to Apex Fund Services Pty Ltd.

Directors

The following persons held office as directors of Equity Trustees Limited during or since the end of the year and up to the date of this report:

Philip D Gentry	Chairman
Michael J O'Brien	
Russell W Beasley	
Mary A O'Connor	
David B Warren	(appointed 6 March 2023)

Review and results of operations

During the year, the Fund continued to invest its funds in accordance with the Product Disclosure Statement and the provisions of the Fund's Constitution.

The Fund's performance and benchmark returns for the year ended 30 June 2023 were as follows:

	Benchmark	Return (net of fees) %	Benchmark (net of fees) %
Milford Diversified Income Fund (AU) C 1	RBA Cash Rate + 3.5% p.a.	4.32	6.43
Milford Diversified Income Fund (AU) C 2	RBA Cash Rate + 3.5% p.a.	5.10	6.43

The performance return is calculated daily as a percentage by dividing the unit price (cum-distribution) by the previous day's unit price (ex-distribution) minus 1; the daily returns are then compounded to produce longer period returns.

DIRECTORS' REPORT (CONTINUED)

Review and results of operations (continued)

The performance of the Fund, as represented by the results of its operations, was as follows:

Significant changes in the state of affairs

David B Warren was appointed as a director of Equity Trustees Limited on 6 March 2023.

In the opinion of the directors, there were no other significant changes in the state of affairs of the Fund that occurred during the financial year.

Matters subsequent to the end of the financial year

Effective 8 August 2023, HSBC Bank Australia Limited replaced National Australia Bank Limited as custodian of the Fund.

No other matter or circumstance has arisen since 30 June 2023 that has significantly affected, or may have a significant effect on:

- i. the operations of the Fund in future financial years; or
- ii. the results of those operations in future financial years; or
- iii. the state of affairs of the Fund in future financial years.

Likely developments and expected results of operations

The Fund will continue to be managed in accordance with the investment objectives and guidelines as set out in the Product Disclosure Statement and the provisions of the Fund's Constitution.

The results of the Fund's operations will be affected by a number of factors, including the performance of investment markets in which the Fund invests. Investment performance is not guaranteed and future returns may differ from past returns. As investment conditions change over time, past returns should not be used to predict future returns.

Indemnification and insurance of officers

No insurance premiums are paid for out of the assets of the Fund in regards to insurance cover provided to the officers of Equity Trustees Limited. So long as the officers of Equity Trustees Limited act in accordance with the Fund's Constitution and the Law, the officers remain indemnified out of the assets of the Fund against losses incurred while acting on behalf of the Fund.

Indemnification of auditor

The auditor of the Fund is in no way indemnified out of the assets of the Fund.

Fees paid to and interests held in the Fund by the Responsible Entity and its associates

Fees paid to the Responsible Entity and its associates out of Fund property during the year are disclosed in Note 17 to the financial statements.

No fees were paid out of Fund property to the directors of the Responsible Entity during the year.

The number of interests in the Fund held by the Responsible Entity and its associates as at the end of the financial year are disclosed in Note 17 to the financial statements.

DIRECTORS' REPORT (CONTINUED)

Interests in the Fund

The movement in units on issue in the Fund during the year is disclosed in Note 10 to the financial statements.

The value of the Fund's assets and liabilities is disclosed in the statement of financial position and derived using the basis set out in Note 2 to the financial statements.

Environmental regulation

The operations of the Fund are not subject to any particular or significant environmental regulations under Commonwealth, State or Territory law.

Rounding of amounts to the nearest thousand dollars

Amounts in the Directors' report have been rounded to the nearest thousand dollars in accordance with *ASIC Corporations (Rounding in Financial/Directors' Reports) Instrument 2016/191*, unless otherwise indicated.

Auditor's independence declaration

A copy of the Auditor's independence declaration as required under section 307C of the *Corporations Act 2001* is set out on page 5.

This report is made in accordance with a resolution of the directors of Equity Trustees Limited through a delegated authority given by Equity Trustees Limited's Board.

1. GENERAL INFORMATION

These financial statements cover Milford Diversified Income Fund (AU) (the "Fund") as an individual entity. The Fund is an Australian registered managed investment scheme which was constituted on 31 January 2020 and will terminate in accordance with the provisions of the Fund's Constitution or by Law.

The Responsible Entity of the Fund is Equity Trustees Limited (ABN 46 004 031 298) (AFSL 240975) (the "Responsible Entity"). The Responsible Entity's registered office is Level 1, 575 Bourke Street, Melbourne, VIC 3000. The financial statements are presented in the Australian currency unless otherwise noted.

The Fund invests primarily in a variety of income generating assets, such as Australian and global shares, fixed interest securities, property and infrastructure trusts. Derivatives may be used for efficient portfolio management and foreign currency hedging in accordance with the Product Disclosure Statement and the provisions of the Fund's Constitution.

The financial statements were authorised for issue by the directors on the date the Directors' declaration was signed. The directors of the Responsible Entity have the power to amend and reissue the financial statements.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The principal accounting policies applied in the preparation of these financial statements are set out below.

a. Basis of preparation

These general purpose financial statements have been prepared in accordance with Australian Accounting Standards and Interpretations issued by the Australian Accounting Standards Board (AASB) and the *Corporations Act 2001* in Australia. The Fund is a for-profit entity for the purpose of preparing the financial statements.

The financial statements are prepared on the basis of fair value measurement of assets and liabilities, except where otherwise stated.

The statement of financial position is presented on a liquidity basis. Assets and liabilities are presented in decreasing order of liquidity and are not distinguished between current and non-current. All balances are expected to be recovered or settled within 12 months, except for investments in financial assets and liabilities and net assets attributable to unit holders.

The Fund manages financial assets at fair value through profit or loss based on the economic circumstances at any given point in time, as well as to meet any liquidity requirements. As such, it is expected that a portion of the portfolio will be realised within 12 months, however, an estimate of that amount cannot be determined as at reporting date.

In the case of net assets attributable to unit holders, the units are redeemable on demand at the unit holders' option. However, holders of these instruments typically retain them for the medium to long term. As such, the amount expected to be settled within 12 months cannot be reliably determined.

i. Compliance with International Financial Reporting Standards (IFRS)

The financial statements of the Fund also comply with IFRS as issued by the International Accounting Standards Board (IASB).

ii. New and amended standards adopted by the Fund

There are no standards, interpretations or amendments to existing standards that are effective for the first time for the financial year beginning 1 July 2022 that have a material impact on the amounts recognised in the prior periods or will affect the current or future periods.

iii. New standards, amendments and interpretations not yet adopted

A number of new standards, amendments to standards and interpretations are effective for annual periods beginning after 1 July 2023 and have not been early adopted in preparing these financial statements.

None of these are expected to have a material effect on the financial statements of the Fund.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

b. Financial instruments

i. Classification

- Financial assets

The Fund classifies its financial assets in the following measurement categories:

- those to be measured at fair value through profit or loss; and
- those to be measured at amortised cost.

The Fund classifies its financial assets based on its business model for managing those financial assets and the contractual cash flow characteristics of the financial assets.

The Fund's portfolio of financial assets is managed and its performance is evaluated on a fair value basis in accordance with the Fund's documented investment strategy. The Fund's policy is for the Investment Manager to evaluate the information about these financial assets on a fair value basis together with other related financial information.

For equity securities and derivatives, the contractual cash flows of these instruments do not represent solely payments of principal and interest. Consequently, these investments are measured at fair value through profit or loss.

For debt securities, the contractual cash flows are solely payments of principal and interest, however they are neither held for collecting contractual cash flows nor for collecting contractual cash flows and for sale. The collection of contractual cash flows is only incidental to achieving the Fund's business objective. Consequently, the debt securities are measured at fair value through profit or loss.

For cash and cash equivalents, due from brokers, receivables and margin accounts, these assets are held in order to collect the contractual cash flows. The contractual terms of these assets give rise, on specified dates, to cash flows that are solely payments of principal and interest on the principal amount outstanding. Consequently, these are measured at amortised cost.

- Financial liabilities

Derivative contracts that have a negative fair value are presented as liabilities at fair value through profit or loss.

For financial liabilities that are not classified and measured at fair value through profit or loss, these are classified as financial liabilities at amortised cost (due to brokers, distributions payable, withholding tax payable and management fees and costs payable).

ii. Recognition and derecognition

The Fund recognises financial assets and financial liabilities on the date it becomes party to the contractual agreement (trade date) and recognises changes in the fair value of the financial assets or financial liabilities from this date.

Financial assets are derecognised when the rights to receive cash flows from the financial assets have expired or the Fund has transferred substantially all the risks and rewards of ownership. Financial liabilities are derecognised when the obligation under the liability is discharged, cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the statement of comprehensive income.

iii. Measurement

- Financial instruments at fair value through profit or loss

At initial recognition, the Fund measures a financial asset and a financial liability at their fair value. Transaction costs of financial assets and liabilities carried at fair value through profit or loss are expensed in the statement of comprehensive income.

Subsequent to initial recognition, all financial assets and liabilities at fair value through profit or loss are measured at fair value. Gains and losses arising from changes in the fair value of 'financial assets or liabilities at fair value through profit or loss' category are presented in the statement of comprehensive income within 'net gains/(losses) on financial instruments at fair value through profit or loss' in the period in which they arise.

For further details on how the fair value of financial instruments is determined please see Note 5 to the financial statements.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

b. Financial instruments (continued)

iii. Measurement (continued)

- Financial instruments at amortised cost

For financial assets and financial liabilities at amortised cost, they are initially measured at fair value including directly attributable costs and are subsequently measured using the effective interest rate method less any allowance for expected credit losses.

Cash and cash equivalents, due from brokers, receivables and margin accounts are carried at amortised cost.

iv. Impairment

At each reporting date, the Fund shall estimate a loss allowance on each of the financial assets carried at amortised cost (cash and cash equivalents, due from brokers, receivables and margin accounts) at an amount equal to the lifetime expected credit losses if the credit risk has increased significantly since initial recognition. If, at the reporting date, the credit risk has not increased significantly since initial recognition, the Fund shall measure the loss allowance at an amount equal to 12-month expected credit losses. Significant financial difficulties of the counter party, probability that the counter party will enter bankruptcy or financial reorganisation, and default in payments are all considered indicators that the asset is credit impaired. If the credit risk increases to the point that it is considered to be credit impaired, interest income will be calculated based on the net carrying amount adjusted for the loss allowance. A significant increase in credit risk is defined by management as any contractual payment which is more than 30 days past due. Any contractual payment which is more than 90 days past due is considered credit impaired.

The expected credit loss (ECL) approach is based on the difference between the contractual cash flows due in accordance with the contract and all the cash flows that the Fund expects to receive. The shortfall is then discounted at an approximation to the asset's original effective interest rate.

The amount of the impairment loss is recognised in the statement of comprehensive income within other expenses. When a trade receivable for which an impairment allowance had been recognised becomes uncollectible in a subsequent period, it is written off against the allowance account. Subsequent recoveries of amounts previously written off are credited against other expenses in the statement of comprehensive income.

v. Offsetting financial instruments

Financial assets and liabilities are offset and the net amount is reported in the statement of financial position when the Fund has a legally enforceable right to offset the recognised amounts, and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously.

Financial assets and liabilities that have been offset are disclosed in Note 4.

c. Net assets attributable to unit holders

Units are redeemable at the unit holders' option; however, applications and redemptions may be suspended by the Responsible Entity if it is in the best interests of the unit holders. The units are classified as financial liabilities.

The units can be put back to the Fund at any time for cash based on the redemption price, which is equal to a proportionate share of the Fund's net asset value attributable to the unit holders.

The units are carried at the redemption amount that is payable at the reporting date if the holder exercises the right to put the units back to the Fund.

d. Cash and cash equivalents

For the purpose of presentation in the statement of cash flows, cash and cash equivalents includes cash on hand, deposits held at call with financial institutions and other short term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

Payments and receipts relating to the purchase and sale of investment securities are classified as cash flows from operating activities, as trading of these securities represents the Fund's main income generating activity.

e. Margin accounts

Margin accounts comprise cash held as collateral for derivative transactions. The cash is held by the broker and is only available to meet margin calls. It is not included as a component of cash and cash equivalents.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

f. Investment income

i. Interest income

Interest income from financial assets at amortised cost is recognised using the effective interest method and includes interest from cash and cash equivalents. Interest from financial assets at fair value through profit or loss is determined based on the contractual coupon interest rate and includes interest from debt securities measured at fair value through profit or loss.

The effective interest method is a method of calculating the amortised cost of a financial asset and of allocating the interest income over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments or receipts throughout the expected life of the financial instrument, or a shorter period where appropriate, to the net carrying amount of the financial asset. When calculating the effective interest rate, the Fund estimates cash flows considering all contractual terms of the financial instruments (for example, prepayment options) but does not consider future credit losses. The calculation includes all fees paid or received between the parties to the contract that are an integral part of the effective interest rate, including transaction costs and all other premiums or discounts.

Interest income on financial assets at fair value through profit or loss is also recognised in the statement of comprehensive income. Changes in fair value of financial instruments at fair value through profit or loss are recorded in accordance with the policies described in Note 2(b) to the financial statements.

ii. Dividends and distributions

Dividend income is recognised on the ex-dividend date with any related foreign withholding tax recorded as an expense. The Fund currently incurs withholding tax imposed by certain countries on investment income. Such income is recorded gross of withholding tax in the statement of comprehensive income.

Trust distributions are recognised on an entitlement basis.

g. Expenses

All expenses are recognised in the statement of comprehensive income on an accrual basis.

Management fees and costs covers certain ordinary expenses such as investment management fees, Responsible Entity fees, custodian and administration fees, audit fees and other operating expenses.

h. Income tax

Under current legislation, the Fund is not subject to income tax provided it attributes the entirety of its taxable income to its unit holders.

The Fund currently incurs withholding taxes imposed by certain countries on investment income and capital gains. Such income or gains are recorded gross of withholding taxes in the statement of comprehensive income. Withholding taxes are included in the statement of comprehensive income as an expense.

i. Distributions

The Fund may distribute its distributable income, in accordance with the Fund's Constitution, to unit holders by cash or reinvestment. The distributions are recognised in the statement of comprehensive income as finance costs attributable to unit holders.

j. Increase/decrease in net assets attributable to unit holders

Income not distributed is included in net assets attributable to unit holders. As the Fund's units are classified as financial liabilities, movements in net assets attributable to unit holders are recognised in the statement of comprehensive income as finance costs.

k. Foreign currency translation

i. Functional and presentation currency

Balances included in the Fund's financial statements are measured using the currency of the primary economic environment in which it operates (the "functional currency"). This is the Australian dollar which reflects the currency of the economy in which the Fund competes for funds and is regulated. The Australian dollar is also the Fund's presentation currency.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

k. Foreign currency translation (continued)

ii. Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translations at year end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognised in the statement of comprehensive income.

Non-monetary items that are measured at fair value in a foreign currency are translated using the exchange rates at the date when fair value was determined.

The Fund does not isolate that portion of unrealised gains or losses on financial instruments at fair value through profit or loss which is due to changes in foreign exchange rates. Such fluctuations are included in the net gains/(losses) on financial instruments at fair value through profit or loss.

l. Due from/to brokers

Amounts due from/to brokers represent receivables for securities sold and payables for securities purchased that have been contracted for but not yet delivered by the end of the year. The due from brokers balance is held for collection and are recognised initially at fair value and subsequently measured at amortised cost.

m. Receivables

Receivables may include amounts for interest, dividends and trust distributions. Dividends and trust distributions are accrued when the right to receive payment is established. Where applicable, interest is accrued on a daily basis. Amounts are generally received within 30 days of being recorded as receivables.

n. Payables

Payables include liabilities and accrued expenses owed by the Fund which are unpaid as at the end of the reporting period.

A separate distribution payable is recognised in the statement of financial position.

Distributions declared effective 30 June in relation to unit holders who have previously elected to reinvest distributions are recognised as reinvested effective 1 July of the following financial year.

o. Applications and redemptions

Applications received for units in the Fund are recorded net of any entry fees payable prior to the issue of units in the Fund. Redemptions from the Fund are recorded gross of any exit fees payable after the cancellation of units redeemed.

p. Goods and services tax (GST)

The GST incurred on the costs of various services provided to the Fund by third parties such as management, administration and custodian services where applicable, have been passed on to the Fund. The Fund qualifies for Reduced Input Tax Credits (RITC) at a rate of at least 55%. Hence, fees for these services and any other expenses have been recognised in the statement of comprehensive income net of the amount of GST recoverable from the Australian Taxation Office (ATO). Amounts payable are inclusive of GST. The net amount of GST recoverable from the ATO is included in receivables in the statement of financial position. Cash flows relating to GST are included in the statement of cash flows on a gross basis.

q. Use of estimates and judgements

The Fund makes estimates, assumptions and judgements that affect the reported amounts of assets and liabilities within the current and next financial year. Estimates and judgements are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

For the majority of the Fund's financial instruments, quoted market prices are readily available. However, certain financial instruments, for example over-the-counter derivatives, are fair valued using valuation techniques. Where valuation techniques (for example, pricing models) are used to determine fair values, they are validated and periodically reviewed by experienced personnel of the Investment Manager.

Models use observable data, to the extent practicable. However, areas such as credit risk (both own and counterparty), volatilities and correlations, require management to make estimates and judgements. Changes in assumptions about these factors could affect the reported fair value of financial instruments.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

q. Use of estimates and judgements (continued)

The Investment Manager estimates that the resultant expected credit loss (ECL) derived from using impairment model, has not materially impacted the Fund. Please see Note 3 for more information on credit risk.

For more information on how fair value is calculated refer to Note 5 to the financial statements.

r. Rounding of amounts

The Fund is an entity of a kind referred to in *ASIC Corporations (Rounding in Financial/Directors' Reports) Instrument 2016/191* relating to the "rounding off" of amounts in the financial statements. Amounts in the financial statements have been rounded to the nearest thousand dollars, unless otherwise indicated.

s. Comparative revisions

Comparative information has been revised where appropriate to enhance comparability. Where necessary, comparative figures have been adjusted to conform with changes in presentation in the current year.

3. FINANCIAL RISK MANAGEMENT

The Fund's activities expose it to a variety of financial risks including market risk (which incorporates price risk, foreign exchange risk and interest rate risk), credit risk and liquidity risk.

The Fund's overall risk management programme focuses on ensuring compliance with the Fund's Product Disclosure Statement and the investment guidelines of the Fund. It also seeks to maximise the returns derived for the level of risk to which the Fund is exposed and seeks to minimise potential adverse effects on the Fund's financial performance. The Fund's policy allows it to use derivative financial instruments in managing its financial risks.

All investments present a risk of loss of capital. The maximum loss of capital on long equity and debt securities is limited to the fair value of those positions. The maximum loss of capital on long and short futures and forward currency contracts is limited to the notional contract values of those positions.

The investments of the Fund, and associated risk, are managed by a specialist Investment Manager, Milford Australia Pty Ltd under an Investment Management Agreement (the "IMA") approved by the Responsible Entity, and containing the investment strategy and guidelines of the Fund, consistent with those stated in the Product Disclosure Statement.

The Fund uses different methods to measure different types of risk to which it is exposed. These methods are explained below.

a. Market risk

i. Price risk

The Fund is exposed to price risk on equity securities listed or quoted on recognised securities exchanges and debt securities measured at fair value. Price risk arises from investments held by the Fund for which prices in the future are uncertain. Where non-monetary financial instruments are denominated in currencies other than the Australian dollar, the price in the future will also fluctuate because of changes in foreign exchange rates which are considered a component of price risk.

Price risk is managed by Milford Australia Pty Ltd, the Fund's Investment Manager. Through active management, the price of any given security held is monitored on a daily basis by the Investment Manager's investment team. Price risk management is achieved through a range of metrics, including adequate portfolio diversification, compliance limits and fundamental valuation techniques.

The table at Note 3(b) summarises the sensitivities of the Fund's assets and liabilities to price risk. The analysis is based on the reasonably possible shift that the investment portfolio in which the Fund invests moves by +/- 15% (2022: +/- 15%).

ii. Foreign exchange risk

The Fund operates internationally and holds both monetary and non-monetary assets denominated in currencies other than the Australian dollar. Foreign exchange risk arises as the value of monetary securities denominated in other currencies fluctuates due to changes in exchange rates. The foreign exchange risk relating to non-monetary assets and liabilities is a component of price risk and not foreign exchange risk. However, the Investment Manager monitors the exposure of all foreign currency denominated assets and liabilities.

As part of the Fund's risk management strategies, the Fund may use derivatives, including forward currency contracts, to manage exposures resulting from changes in foreign currencies.

3. FINANCIAL RISK MANAGEMENT (CONTINUED)

a. Market risk (continued)

ii. Foreign exchange risk (continued)

The Investment Manager has established hedging policies for the Fund, for which foreign exchange exposures are held. The Fund has prescribed target exposures to foreign currencies. The Fund is actively managed by the Investment Manager on a daily basis around this target, subject to the Investment Manager's views on potential currency risks and limits.

The table below summarises the fair value of the Fund's financial assets and financial liabilities, monetary and non-monetary, which are denominated in a currency other than the Australian dollar.

The table at Note 3(b) summarises the sensitivities of the Fund's monetary assets and liabilities to foreign exchange risk. The analysis is based on the reasonably possible shift that the Australian dollar weakened and strengthened by 10% (2022: 10%) against the material foreign currencies to which the Fund is exposed.

iii. Interest rate risk

The Fund is exposed to cash flow interest rate risk on financial instruments with variable interest rates. Financial instruments with fixed rates expose the Fund to fair value interest rate risk.

The Fund's interest bearing financial instruments expose it to risks associated with the effects of fluctuation in the prevailing market interest rate on its financial positions and cash flows. The impact of interest rate risk on the profit and net assets attributable to unit holders is considered immaterial to the Fund.

The Fund's main interest rate risk arises from cash and its investments in fixed interest bonds and floating rate notes.

Interest rate risk is managed by creating a diversified portfolio of fixed interest investments to minimise the impact of any changes in the market rates. Additionally, derivative contracts are used to adjust interest rate exposures of the portfolio depending on current market conditions and forward looking views of interest rates.

The table at Note 3(b) summarises the impact of an increase/decrease in interest rates on the Fund's operating profit and net assets attributable to unit holders through changes in fair value of changes in future cash flows. The analysis is based on the reasonably possible shift that the interest rates changed by +/- 100 basis points (2022: +/- 100 basis points) from the year end rates with all other variables held constant.

b. Summarised sensitivity analysis

The following table summarises the sensitivities of the Fund's operating profit and net assets attributable to unit holders to market risks. The reasonably possible movements in the risk variables have been determined based on management's best estimate, having regard to a number of factors, including historical levels of changes in foreign exchange rates, interest rates and the historical correlation of the Fund's investments with the relevant benchmark and market volatility. However, actual movements in the risk variables may be greater or less than anticipated due to a number of factors, including unusually large market movements resulting from changes in the performance of and/or correlation between the performances of the economies, markets and securities in which the Fund invests. As a result, historic variations in risk variables should not be used to predict future variances in the risk variables.

	Impact on operating profit/net assets attributable to unit holders

As at 30 June 2022	892	(892)	(381)	381	(56)	56

c. Credit risk

The Fund is exposed to credit risk, which is the risk that a counterparty will be unable to pay its obligations in full when they fall due, causing a financial loss to the Fund.

The main concentration of credit risk, to which the Fund is exposed, arises from the Fund's investment in debt securities. The Fund is also exposed to counterparty credit risk on derivative financial instruments, cash and cash equivalents, amounts due from brokers, receivables and margin accounts.

The Investment Manager determines credit risk and measures expected credit losses for financial assets measured at amortised cost using probability of default, exposure at default and loss given default. Management considers both historical analysis and forward looking information in determining any expected credit loss. At 30 June 2023 and 30 June 2022, all receivables, amounts due from brokers, margin accounts and cash are held with counterparties with a credit rating of AA- or higher and are either callable on demand or due to be settled within 90 days. Management considers the probability of default to be close to zero as these instruments have a low risk of default and the counterparties have a strong capacity to meet their contractual obligations in the near term. As a result, no loss allowance has been recognised based on 12-month expected credit losses as any such impairment would be wholly insignificant to the Fund.

Counterparty risk in trade execution is managed via continual monitoring of broker performance for trade settlement. All instruments held by the portfolio are liquid and primarily traded on recognised global exchanges.

i. Debt securities

The Fund invests into debt securities subject to its limits on fixed interest securities as set out in the Product Disclosure Statement. The overall credit risk of the debt securities held is actively monitored by the Investment Manager. The credit rating used for debt securities is based on the following order, where available: Standard & Poor's Rating Services, Moody's Investors Service and Fitch Ratings. Where a credit rating is not provided by the credit rating agencies, the security issuer's own credit rating may be used, or otherwise the security is treated as unrated. Investment into unrated debt securities is decided within the context of the overall risk of the portfolio. The Fund may require collateral or other security to support financial instruments with credit risk. The Fund invests cash with banks registered in New Zealand and Australia. The Fund also restricts their exposure to credit losses on the trading of derivatives it holds by entering into master netting arrangements with counterparties. Credit risk associated with favourable contracts is reduced by a master netting arrangement to the extent that if an event of default occurs, all amounts with the counterparty are terminated and settled on a net basis.

An analysis of debt by rating is set out in the table below:

	AAA to AA	BBB to BB-	Unrated	Total
	\$'000	\$'000	\$'000	\$'000
As at 30 June 2023

Loans	-	111	-	111
Total	914	5,195	-	6,109

3. FINANCIAL RISK MANAGEMENT (CONTINUED)

c. Credit risk (continued)

ii. Derivative financial instruments

The Investment Manager has counterparty limits such that there is no greater individual counterparty exposure, as specified in the table below. This includes the fair value of any outstanding derivative contracts.

Counterparty rating	Exposure limit % NAV
AAA-AA band	25%
A band	15%
BBB band	10%
Unrated	5%

The Fund also restricts its exposure to credit losses on the trading of derivative instruments it holds by entering into master netting arrangements with counterparties (approved brokers) with whom it undertakes a significant volume of transactions. Master netting arrangements do not result in an offset of financial assets and liabilities, as transactions are usually settled on a gross basis. However, the credit risk associated with favourable contracts is reduced by master netting arrangement to the extent that if an event of default occurs, all amounts with the counterparty are closed and settled on a net basis. The Fund's overall exposure to credit risk on derivative instruments subject to a master netting arrangement can change substantially within a short period, as it is affected by each transaction subject to the arrangements. Refer to Note 4 to the financial statements for further analysis of the Fund's master netting arrangements.

iii. Settlement of securities transactions

All transactions in listed securities are settled/paid for upon delivery using approved brokers. The risk of default is considered low, as delivery of securities sold is only made once the broker has received payment. Payment is made once the securities purchased have been received by the broker. The trade will fail if either party fails to meet its obligations.

iv. Cash and cash equivalents

The exposure to credit risk for cash and cash equivalents is low as all counterparties have a rating of AA- (as determined by Standard & Poor's Rating Services) or higher.

v. Other

The Fund is not materially exposed to credit risk on other financial assets.

vi. Maximum exposure to credit risk

The maximum exposure to credit risk before any credit enhancements at the end of each reporting period is the carrying amount of the financial assets. None of these assets are impaired nor past due but not impaired.

d. Liquidity risk

Liquidity risk is the risk that the Fund may not be able to generate sufficient cash resources to settle its obligations in full as they fall due or can only do so on terms that are materially disadvantageous.

Exposure to liquidity risk for the Fund may arise from the requirement to meet daily unit holder redemption requests or to fund foreign exchange related cash flow requirements. Liquidity risk is managed by holding liquid investments to enable the Fund to meet liabilities as they fall due and reasonably foreseeable withdrawals under normal market conditions. The Investment Manager monitors the Fund's liquidity position on a daily basis.

In order to manage the Fund's overall liquidity, the Responsible Entity has the discretion to reject an application for units and to defer or adjust redemption of units if the exercise of such discretion is in the best interests of unit holders. The Fund did not reject or withhold any redemptions during 2023 and 2022.

i. Maturities of non-derivative financial liabilities

All non-derivative financial liabilities of the Fund in the current period have maturities of less than 1 month.

3. FINANCIAL RISK MANAGEMENT (CONTINUED)

d. Liquidity risk (continued)

ii. Maturities of net settled derivative financial instruments

The table below analyses the Fund's net settled derivative financial instruments based on their contractual maturity. The Fund may, at its discretion, settle financial instruments prior to their original contractual settlement date, in accordance with its investment strategy, where permitted by the terms and conditions of the relevant instruments.

4. OFFSETTING FINANCIAL ASSETS AND FINANCIAL LIABILITIES

Financial assets and liabilities are offset and the net amount reported in the statement of financial position when there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously. The gross and net positions of financial assets and liabilities that have been offset in the statement of financial position are disclosed in the first three columns of the tables below.

4. OFFSETTING FINANCIAL ASSETS AND FINANCIAL LIABILITIES (CONTINUED)

Master netting arrangement - not currently enforceable

Agreements with derivative counterparties are based on the International Swaps and Derivatives Association (ISDA) Master Agreement. Under the terms of these arrangements, only when certain credit events occur (such as default), the net position owing/receivable to a single counterparty in the same currency will be taken as owing and all the relevant arrangements terminated. As the Fund does not presently have a legally enforceable right of set-off, these amounts have not been offset in the statement of financial position but have been presented separately in the above table.

5. FAIR VALUE MEASUREMENT

The Fund measures and recognises financial assets and liabilities at fair value through profit or loss on a recurring basis.

- Financial assets/liabilities at fair value through profit or loss (see Note 6 and Note 7)
- Derivative financial instruments (see Note 8)

The Fund has no assets or liabilities measured at fair value on a non-recurring basis in the current reporting period.

AASB 13 *Fair Value Measurement* requires disclosure of fair value measurements by level of the following fair value measurement hierarchy:

- Quoted prices (unadjusted) in active markets for identical assets or liabilities (level 1);
- Inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly or indirectly (level 2); and
- Inputs for the asset or liability that are not based on observable market data (unobservable inputs) (level 3).

The Fund values its investments in accordance with the accounting policies set out in Note 2 to the financial statements. For the majority of its investments, the Fund relies on information provided by independent pricing services for the valuation of its investments.

a. Fair value in an active market (level 1)

The fair value of financial assets and liabilities traded in active markets (such as publicly traded derivatives and listed equity securities) is based on quoted market prices at the close of trading at the end of the reporting period without any deduction for estimated future selling costs.

The quoted market price used for financial assets held by the Fund is the current bid price; the quoted market price for financial liabilities is the current asking price. When the Fund holds derivatives with offsetting market risks, it uses mid-market prices as a basis for establishing fair values for the offsetting risk positions and applies this bid or asking price to the net open position, as appropriate.

A financial instrument is regarded as quoted in an active market if quoted prices are readily and regularly available from an exchange, dealer, broker, industry group, pricing service, or regulatory agency, and those prices represent actual and regularly occurring market transactions on an arm's length basis.

An active market is a market in which transactions for the asset or liability take place with sufficient frequency and volume to provide pricing information on an ongoing basis.

b. Fair value in an inactive or unquoted market (level 2)

The fair value of financial assets and liabilities that are not traded in an active market is determined using valuation techniques. These include the use of recent arm's length market transactions, reference to the current fair value of a substantially similar other instrument, discounted cash flow techniques, option pricing models or any other valuation technique that provides a reliable estimate of prices obtained in actual market transactions.

Where discounted cash flow techniques are used, estimated future cash flows are based on management's best estimates and the discount rate used is a market rate at the end of the reporting year applicable for an instrument with similar terms and conditions.

For other pricing models, inputs are based on market data at the end of the reporting period. Fair values for unquoted equity investments are estimated, if possible, using applicable price/earnings ratios for similar listed companies adjusted to reflect the specific circumstances of the issuer.

The fair value of derivatives that are not exchange traded is estimated at the amount that the Fund would receive or pay to terminate the contract at the end of the reporting period taking into account current market conditions (volatility and appropriate yield curve) and the current creditworthiness of the counterparties. The fair value of a forward contract is determined as a net present value of estimated future cash flows, discounted at appropriate market rates as at the valuation date. The fair value of an option contract is determined by applying the Black-Scholes option valuation model.

5. FAIR VALUE MEASUREMENT (CONTINUED)

d. Transfer between levels

Management's policy is to recognise transfers into and transfers out of fair value hierarchy levels as at the end of the reporting period.

There were no transfers between levels in the fair value hierarchy at the end of the reporting period (30 June 2022: nil).

e. Financial instruments not carried at fair value

The carrying value of cash and cash equivalents, receivables and payables approximate their fair values due to their short-term nature.

Net assets attributable to unit holders' carrying value differs from its fair value (deemed to be redemption price for individual units) due to differences in valuation inputs. This difference is not material in the current or prior year.

5. FAIR VALUE MEASUREMENT (CONTINUED)

e. Financial instruments not carried at fair value (continued)

The financial instruments not measured at fair value through profit or loss include:

- i. Cash and cash equivalents, balances due from/to brokers and receivables/payables under sale and repurchase agreements. These are short-term financial assets and financial liabilities whose carrying amounts approximate fair value, because of their short-term nature and the high credit quality of counterparties; and
- ii. Net assets attributable to unit holders. The Fund routinely redeems and issues the units at the amount equal to the proportionate share of net assets of the Fund at the time of redemption, calculated on a basis consistent with that used in these financial statements. Accordingly, the carrying amount of net assets attributable to unit holders approximates their fair value.

An overview of the risk exposures and fair value measurements relating to financial liabilities at fair value through profit or loss is included in Note 3 and Note 5 to the financial statements.

8. DERIVATIVE FINANCIAL INSTRUMENTS

In the normal course of business, the Fund enters into transactions in various derivative financial instruments which have certain risks. A derivative is a financial instrument or other contract which is settled at a future date and whose value changes in response to the change in a specified interest rate, financial instrument price, commodity price, foreign exchange rate, index of prices or rates, credit rating or credit index or other variable.

The Fund is subject to International Swaps and Derivatives Association (ISDA) arrangements with their derivative counterparties; ANZ, BNZ, Deutsche Bank, Westpac Banking Corporation, UBS and CBA. According to the terms of the ISDA arrangements with the respective counterparties all the derivatives are settled on a net basis.

Derivative financial instruments require no initial net investment or an initial net investment that is smaller than would be required for other types of contracts that would be expected to have a similar response to changes in market factors.

8. DERIVATIVE FINANCIAL INSTRUMENTS (CONTINUED)

Derivative transactions include many different instruments such as forwards, futures and options. Derivatives are considered to be part of the investment process and the use of derivatives is an essential part of the Fund's portfolio management. Derivatives are not managed in isolation. Consequently, the use of derivatives is multifaceted and includes:

- hedging to protect an asset or liability of the Fund against a fluctuation in market values, foreign exchange risk or to reduce volatility;
- a substitution for trading of physical securities; and
- adjusting asset exposures within the parameters set in the investment strategy and adjusting the duration of fixed interest portfolios or the weighted average maturity of cash portfolios.

While derivatives are used for trading purposes, they are not used to gear (leverage) a portfolio. Gearing a portfolio would occur if the level of exposure to the markets exceeds the underlying value of the Fund.

The Fund holds the following derivatives:

a. Futures

Futures are contractual obligations to buy or sell financial instruments on a future date at a specified price established in an organised market. The futures contracts are collateralised by cash or marketable securities. Changes in futures contracts' values are usually settled net daily with the exchange. Interest rate futures are contractual obligations to receive or pay a net amount based on changes in interest rates at a future date at a specified price, established in an organised financial market.

b. Options

An option is a contractual arrangement under which the seller (writer) grants the purchaser (holder) the right, but not the obligation, either to buy (a call option) or sell (a put option) at or by a set date or during a set period, a specific amount of securities or a financial instrument at a predetermined price. The seller receives a premium from the purchaser in consideration for the assumption of future securities price risk. Options held by the Fund are exchange-traded. The Fund is exposed to credit risk on purchased options to the extent of their carrying amount, which is their fair value. Options are settled on a gross basis.

c. Forward currency contracts

Forward currency contracts are primarily used by the Fund to economically hedge against foreign currency exchange rate risks on its non-Australian dollar denominated trading securities. The Fund agrees to receive or deliver a fixed quantity of foreign currency for an agreed upon price on an agreed future date. The fair value of a forward contract is determined as a net present value of estimated future cash flows, discounted at appropriate market rates as at the valuation date. The Fund recognises a gain or loss equal to the change in fair value at the end of each reporting period.

The Fund's derivative financial instruments measured at fair value at year end are detailed below:

	Contractual/ notional \$'000	Assets \$'000	Liabilities \$'000
As at 30 June 2023			
Futures	44	32	46
Options	833	4	-
Forward currency contracts	4,983	9	53
Total derivatives	5,860	45	99
As at 30 June 2022			
Futures	2,938	45	21
Forward currency contracts	4,595	5	30
Total derivatives	7,533	50	51

Information about the Fund's exposure to credit risk, foreign exchange, interest rate risk and about the methods and assumptions used in determining fair values is provided in Note 3 and Note 5 to the financial statements. The maximum exposure to credit risk at the end of the reporting period is the carrying amount of each class of derivative financial instruments disclosed above.

9. STRUCTURED ENTITIES

A structured entity is an entity that has been designed so that voting or similar rights are not the dominant factor in deciding who controls the entity, and the relevant activities are directed by means of contractual arrangement.

The Fund considers the investment in a managed investment scheme (the "Scheme") to be a structure entity. The Fund invests in the Scheme for the purpose of capital appreciation and/or earning investment income.

The exposure to investment in a related party Scheme at fair value, and any related party amounts recognised in the statement of comprehensive income is disclosed in Note 17(i) to the financial statements.

10. NET ASSETS ATTRIBUTABLE TO UNIT HOLDERS - LIABILITY

The Fund's units are classified as a liability as they do not meet the definition of a financial instrument to be classified as equity.

Movements in the number of units and net assets attributable to unit holders during the year were as follows:

	Year ended		Year ended	
	30 June 2023 Units '000	30 June 2023 \$'000	30 June 2022 Units '000	30 June 2022 \$'000
Milford Diversified Income Fund (AU) C 1				
Opening balance	3,454	3,325	1,308	1,363
Applications	203	203	2,605	2,739
Redemptions	(1,306)	(1,292)	(523)	(537)
Reinvestment of distributions	96	93	64	68
Increase/(decrease) in net assets attributable to unit holders	-	36	-	(308)
Closing balance	2,447	2,365	3,454	3,325
Milford Diversified Income Fund (AU) C 2				
Opening balance	11,407	10,980	10,695	11,129
Applications	20	20	6	6
Reinvestment of distributions	572	557	706	738
Increase/(decrease) in net assets attributable to unit holders	-	159	-	(893)
Closing balance	11,999	11,716	11,407	10,980
Closing balance		14,081		14,305

As stipulated within the Fund's Constitution, each unit represents a right to an individual share in the Fund and does not extend to a right in the underlying assets of the Fund.

There are two separate classes of units. Each unit within the same class has the same rights as all other units within that class. Each unit has a different management fee.

Units are redeemed on demand at the unit holders' option. However, holders of these instruments typically retain them for the medium to long term. As such, the amount expected to be settled within twelve months after the end of the reporting period cannot be reliably determined.

Capital risk management

The Fund considers its net assets attributable to unit holders as capital, notwithstanding that net assets attributable to unit holders are classified as a liability. The amount of net assets attributable to unit holders can change significantly on a daily basis as the Fund is subject to daily applications and redemptions at the discretion of unit holders.

Daily applications and redemptions are reviewed relative to the liquidity of the Fund's underlying assets on a daily basis by the Responsible Entity. Under the terms of the Fund's Constitution, the Responsible Entity has the discretion to reject an application for units and to defer or adjust redemption of units if the exercise of such discretion is in the best interests of unit holders.

Independent auditor's report

To the unit holders of Milford Diversified Income Fund (AU)

Our opinion

In our opinion:

The accompanying financial report of Milford Diversified Income Fund (AU) (the Fund) is in accordance with the *Corporations Act 2001*, including:

- (a) giving a true and fair view of the Fund's financial position as at 30 June 2023 and of its financial performance for the year then ended
- (b) complying with Australian Accounting Standards and the *Corporations Regulations 2001*.

What we have audited

The financial report comprises:

- the statement of financial position as at 30 June 2023
- the statement of comprehensive income for the year then ended
- the statement of changes in equity for the year then ended
- the statement of cash flows for the year then ended
- the notes to the financial statements, which include significant accounting policies and other explanatory information
- the directors' declaration.

Basis for opinion

We conducted our audit in accordance with Australian Auditing Standards. Our responsibilities under those standards are further described in the *Auditor's responsibilities for the audit of the financial report* section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence

We are independent of the Fund in accordance with the auditor independence requirements of the *Corporations Act 2001* and the ethical requirements of the Accounting Professional & Ethical Standards Board's APES 110 *Code of Ethics for Professional Accountants (including Independence Standards)* (the Code) that are relevant to our audit of the financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

Other information

The directors of Equity Trustees Limited (the Responsible Entity) are responsible for the other information. The other information comprises the information included in the annual report for the year ended 30 June 2023, but does not include the financial report and our auditor's report thereon.

Liability limited by a scheme approved under Professional Standards Legislation.

Our opinion on the financial report does not cover the other information and accordingly we do not express any form of assurance conclusion thereon through our opinion on the financial report.

In connection with our audit of the financial report, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial report or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

If, based on the work we have performed on the other information that we obtained prior to the date of this auditor's report, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the directors of the Responsible Entity for the financial report

The directors of the Responsible Entity are responsible for the preparation of the financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the directors of the Responsible Entity determines is necessary to enable the preparation of the financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

In preparing the financial report, the directors of the Responsible Entity are responsible for assessing the ability of the Fund to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors of the Responsible Entity either intends to liquidate the Fund or to cease operations, or have no realistic alternative but to do so.

Auditor's responsibilities for the audit of the financial report

Our objectives are to obtain reasonable assurance about whether the financial report as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Australian Auditing Standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of the financial report.

A further description of our responsibilities for the audit of the financial report is located at the Auditing and Assurance Standards Board website at: http://www.auasb.gov.au/auditors_responsibilities/ar4.pdf. This description forms part of our auditor's report.
