3. About the Fund Investments

Investment philosophy

Investors face limited choices beyond equities and real assets, which can lead to liquidity and diversification being sacrificed in the hunt for returns. Traditional cash and fixed income products no longer fulfil the needs of investors seeking diversified returns.

Paradyn addresses this problem by modelling the behaviour of constrained investors, and by using these models to inform systematic trading strategies that are designed to generate an absolute return uncorrelated with traditional asset classes. Paradyn monitors markets as well as portfolio asset allocations and investor behaviours to identify portfolio opportunities.

Its models and trading strategies have been developed after many years of portfolio management, research, and observation of the behaviour of institutional investors. Paradyn use systematic trading strategies which exploit market phenomena that are not merely statistical in their nature but causal.

Investment strategy

Paradyn has developed and seeks to implement trading strategies that generate absolute returns of 7% p.a. over the RBA cash rate before fees, taxes and costs in the form of alternative, liquid alpha, principally derived from the currency and derivative markets. Paradyn eschews traditional approaches to investing that typically "buy and hold" assets hoping that realised asset prices will match forecasts.

The Fund's strategy takes positions in the currency market. Paradyn take positions in G10 currencies only, and build a diversified portfolio and use spot and forward foreign exchange contracts, foreign exchange options and listed foreign exchange derivatives to build a portfolio with the desired foreign exchange exposures. Exposures to all other tradable factors (for example interest rates or implied volatilities) will be small, and kept at the minimum required to maintain efficiently our desired currency exposures.

Systematic currency allocations are generated by the model.

The Investment Committee will review the allocations and, subject to their approval, experienced traders will execute trades to achieve the target allocations.

The portfolio managers oversee all implementation and risk management, retaining control via qualitative inputs whenever necessary to maximize returns and minimize total portfolio risk.

Portfolio Construction

Portfolios are constructed using proprietary modelling, which provides diversified positioning across G10 currencies and derivatives. Each currency has individual concentration limits as well as overall portfolio gearing limits. Currency allocations are generated by the use of various inputs that consider liquidity, return, correlation and other portfolio constraints.

Gearing may be used to enhance returns and the Fund may be geared beyond 100% of the Fund's Net Asset Value on occasions, in order to employ investor capital more efficiently. The target portfolio will never exceed 500% in currency long positions vs. 500% short positions. The Investment Manager will closely monitor the Fund's gearing levels.

Concentration limits exist for each currency, which improves diversification and reduces the volatility of returns. The Fund is expected to benefit from increasing volatility in currency and asset prices, providing valuable alpha and diversification when it's needed most.

Implementation

The Fund's strategies will be implemented into the currency markets via listed derivatives traded through the Chicago Mercantile Exchange ("CME"). From time to time, Prime Brokers may be appointed to obtain derivatives exposure for the Fund in whole or part, as determined by the Responsible Entity on the advice of the Investment Manager.

Paradyn will deploy capital via a fully integrated, cloud based, secure, electronic, multilateral dealing platform providing an ideal conduit to execute and implement its trading strategies

4. Key risks

All investments carry risks. Different investment strategies may carry different levels of risk, depending on the assets acquired under the strategy. Assets with the highest long-term returns may also carry the highest level of short-term risk. You should consider the significant risks below when deciding whether to invest in the Fund. You may want to consider these risks in light of your risk profile. Your risk profile will vary depending on a range of factors, including your age, the investment time frame (how long you wish to invest for), your other investments or assets and your risk tolerance.

You may lose money by investing in the Fund and your investment in the Fund may not meet your objectives. The level of returns will vary and future returns may differ from past returns. Laws affecting managed investment schemes may also change in the future.

In addition, we do not offer advice that takes into account your personal financial situation, including advice about whether the Fund is suitable for your circumstances. If you require personal financial advice, you should contact a licensed financial adviser.

Risks of investing in the Paradyn Global Liquid Alpha Fund AU - B

Economic and market conditions

Risks due to exogenous market shocks can impact fund returns. These risks include geopolitical risks, climate change risks, sudden government or central bank actions (such as currency intervention) and events that are beyond the control of Paradyn and which could influence the actions and behaviours of any third parties that may be directly or indirectly impact the managers ability to execute its investment mandate.

Liquidity risk

G10 currency markets are extremely liquid. Therefore, in normal market conditions, Paradyn would expect to be able to liquidate 100% of the Fund's positions in less than one business day. Were current levels of liquidity in the spot foreign exchange market to be withdrawn, this might impact the ability of the Fund to execute its trades profitably. It should be noted, however, that there are credible scenarios where a decrease in market liquidity could enhance the profitability of our trading strategies.

Interest rate risk

Paradyn may take derivative exposures explicitly to capture relative interest rate differentials cross currency and within global forward currency yield curves. The Fund may experience losses due to policy shifts by central banks and governments with respect to global interest rate settings.

Currency risk

The Fund deploys capital into the global currency and derivative markets, which can exhibit episodes of extreme volatility from unexpected sources. The volatility can lead to sharp moves in exchange rates, adverse pricing, and a lack of execution liquidity, consequently resulting in negative Fund performance outside the control of Paradyn.

Derivative risk

The Fund may use derivative instruments such as futures and options that are contracts that derive their value from the price

of an underlying physical asset or market index. Derivatives can be used to manage risks but may expose the Fund to other risks. The use of derivatives can lead to higher gains or losses than a portfolio which does not use derivatives. A derivative may involve gearing, that is, liability for a loss from a change in price of a security, currency or index which exceeds the amount of cash or assets initially required to establish the derivative. The Investment Manager manages this risk through diversification and a careful selection of financial instruments.

Counterparty risk

If key counterparties, especially a derivatives or futures clearing broker or any prime broker, were to experience financial difficulties then they might be unable to meet their contractual obligations to the Fund, including for the holding of collateral. The Fund will be exposed to default risk of parties with whom it trades or invests or that provide services to the Fund where these parties fail to comply with their obligations (including payment obligations) or become insolvent. Margin and collateral systems are in place to reduce the likely impact of such a scenario.

Leverage risk

The risk of leverage is precisely the following: adverse market moves will cause larger losses than if leverage had not been used. Symmetrically, the risk of not using leverage is that favourable market moves will cause smaller gains than if leverage had been used. The total maximum exposure to OTC and listed derivatives is limited by the Fund's mandated risk limits and pre-trade compliance.

Competition Risks

Increased competition – the funds management industry is highly competitive, with a significant number of existing investment firms and new entrants regularly developing new products. Actions of current or future competitors may result in a dilution of returns through strategy replication leading to lower returns to investors. Paradyn has security systems in place to avoid data theft and loss of trade secrets but cannot guarantee these systems and policies will be 100% effective.

Key person risk

The performance of the Fund may be impaired if one or more portfolio managers leaves or is otherwise unable to carry out portfolio management duties. Paradyn manages this risk by codifying and documenting investment and trading processes such that no individual is essential and, furthermore, any individual portfolio manager will be able to continue to implement the Fund strategy with precision.

Regulatory risk

Paradyn's strategies are implemented on OTC and listed environments which are suitably regulated across global jurisdictions. Regulators may introduce new policies that may impact the strategies designed and implemented by Paradyn across its Funds. Paradyn endeavours to manage these risks by closely monitoring the regulatory landscape and any changes under consideration by policy makers.

5. Investing and access to funds

Authorised Investments

The Fund can only invest in assets permitted by the Constitution and the Investment Management Agreement between the Responsible Entity and Paradyn Capital.

Valuations

The Administrator will value and set a unit price monthly.

Applications

You can acquire units by completing the Application Form that accompanies this Information Memorandum together with written notice of the deposit details into the Fund's application account. Refer to Section 7.3 of the Fund Application Form for the account details and instructions on how to instruct your banking institution to facilitate payment to the Fund bank account. Funds need to be deposited into the Fund's application account at the same time you lodge the Application Form with Equity Trustees.

Completed Application Forms should be sent along with your identification documents (if applicable) to:

Boardroom Pty Limited
Level 12, 225 George Street
Sydney NSW 2000

Please note that cash and cheques cannot be accepted.

All applications are processed monthly, using the unit price calculated on the last Business Day for the month for application requests received before 2pm on the last Business Day of the month, where accompanied by cleared funds. The Application Price will vary as the market value of assets in the Fund rises or falls.

Applications may only be made by a wholesale client as defined under the Corporations Act.

The minimum initial application for units is \$500,000. Equity Trustees reserves the right to accept lesser amounts.

The price at which units are acquired is determined in accordance with the Constitution ("Application Price"). The Application Price on a Business Day is, in general terms, equal to the NAV of the Fund, divided by the number of units on issue and adjusted for transaction costs. The Application Price will vary as the market value of assets in the Fund rises or falls.

Additional applications

Unitholders can apply for additional units. The acceptance of additional applications is determined by the Responsible Entity from time to time. Additional applications can be made by post and email.

If payment is made by way of electronic transfer, then you must complete and duly sign the Application Form and mail it to:

Boardroom Pty Limited
Level 12, 225 George Street
Sydney NSW 2000

Or email it to: paradyn@boardroomlimited.com.au or electronically through Boardroom's online application facility.

Terms and conditions for applications

Under the Anti-Money Laundering and Counter-Terrorism Financing Act 2006 and the Foreign Account Tax Compliance Act ("FATCA") applications made without providing all the

information and supporting identification documentation requested on the Application Form cannot be processed until all the necessary information has been provided. As a result, delays in processing your application may occur.

Investors who do not indicate a preference will have their distributions automatically reinvested. Applications for reinvestment will be taken to be received prior to the next valuation time after the relevant distribution period.

Unitholders may access the NAV of the Fund on a monthly basis and monthly performance reviews at www.paradyncapital.com.au and yearly audited Fund reports at www.eqt.com.au/insto.

Access to funds

Unitholders can withdraw their investment in the Fund by written request to:

Boardroom Pty Limited
Level 12, 225 George Street
Sydney NSW 2000

Or by email at: paradyn@boardroomlimited.com.au or electronically through Boardroom's online withdrawal facility. The minimum withdrawal amount is \$250,000. The price at which units are withdrawn is determined in accordance with the Constitution ("Withdrawal Price"). The Withdrawal Price, in general terms, is equal to the NAV of the Fund, divided by the number of units on issue less any transaction costs.

If the Fund is liquid (as defined in the Corporations Act), and upon acceptance of a withdrawal request by the Responsible Entity, the Responsible Entity will generally pay withdrawals within 7 Business Days of receipt of a withdrawal request. However, the Constitution of the Fund allows the Responsible Entity to make payment up to 21 days after its acceptance of a withdrawal request which may be extended or deferred in certain circumstances. These include where it is not possible to calculate the Withdrawal Price, or where it is not in the best interests of Unitholders to allow the withdrawal, due to circumstances outside of its control.

The Responsible Entity reserves the right to fully redeem your investment upon 30 days' notice if your investment balance in the Fund falls below the minimum balance as a result of processing your withdrawal request.

Withdrawals are processed monthly, using the unit price calculated on the last Business Day of the month for withdrawal requests received before 2pm on the last Business Day of the month. The Withdrawal Price will vary as the market value of assets in the Fund rises or falls.

In some circumstances, an investor's withdrawal proceeds may be taken to include a component of distributable income.

Terms and conditions for withdrawals

Once your withdrawal request is accepted, your instruction may be acted on without further enquiry if the instruction bears your account number or investor details and your (apparent) signature(s), or your authorised signatory's (apparent) signature(s).

The Responsible Entity and/or the Unit Registry reserve the right to ask for the production of original documents or other information to authenticate the communication.

6. Fees and other costs

Management costs

Management costs include management fees and other ordinary expense recoveries related to the establishment and operation of the Fund. Management costs do not include transaction costs and abnormal expenses, which may also be charged to the Fund.

The management fees include responsible entity fees, investment management fees, and administration fees. The management fees are 1.20% p.a. (including GST and net of RITC) of the Net Asset Value of the Fund and is reflected in the unit price of the Fund. The management fees will be calculated and accrued monthly and paid monthly in arrears.

Administration fees include but are not limited to custodial and administration costs, accounting and audit expense.

Performance fee

Performance fees are payable to the Investment Manager where the investment performance of the Fund exceeds the performance of the Benchmark. The performance fees are 20% p.a. of this excess, calculated and accrued monthly and payable in arrears at the end of each calendar quarter.

No performance fees are payable until any performance losses from the last performance fee payment date has been made up as adjusted for any distributions, withdrawals and the issue of units (this is sometimes referred to as a high-water mark). It is not possible to estimate the actual performance fee payable in any given period, as we cannot forecast what the performance of the Fund will be and neither the Responsible Entity nor the Investment Manager can guarantee that the performance of the Fund will outperform the Benchmark.

Further information regarding fees and other costs

What do the management costs pay for?

The management fees include responsible entity fees, investment management fees, and administration fees. The management fees are calculated and accrued monthly based on the NAV of the Fund. The accrued fees are paid in arrears from the assets of the Fund within 14 days of the end of each month. The management fees reduce the NAV of the Fund and are reflected in the unit price.

Differential fees

From time to time the Investment Manager may negotiate fees that differ from those above. This will generally relate to the size of your investment in the Fund.

Transaction and other costs

In managing the assets of the Fund, the Fund may incur transaction costs such as brokerage, settlement costs, clearing costs, bank costs and applicable stamp duty when assets are bought and sold. This generally happens when the assets of a fund are changed in connection with day-to-day trading or when there are applications or withdrawals which cause net cash flows into or out of a fund.

All government taxes such as stamp duty and GST will be deducted from the Fund as appropriate. RITCs will also be claimed by the Fund where appropriate to reduce the cost of GST to the Fund.

Buy/Sell Spread

The Buy/Sell Spread reflects the estimated transaction costs associated with buying and selling the assets of the Fund when Unitholders invest in, or redeem from, the Fund. The Buy/Sell Spread is an additional cost to the Unitholder but is included in the unit price and incurred when a Unitholder invests in or redeems units from the Fund and is not charged as an additional fee. Currently there is no Buy/Sell Spread.

Abnormal expenses

In addition to the management fees and ordinary expense recoveries, the Responsible Entity may additionally recover abnormal expenses (such as the costs of Unitholders' meetings, legal advice/proceedings and other irregular expenses). The Constitution does not place any limit on the amount of the abnormal expenses that can be paid from the Fund.

Can the fees change?

All fees can change without Unitholder consent, subject to the maximum fee amounts specified in the Constitution of the Fund. Reasons might include changing economic conditions and changes in regulation. Equity Trustees have the right to recover all proper expenses incurred in managing the Fund and as such these expenses may increase or decrease accordingly. We will notify Unitholders of any changes to fees and expenses in accordance with the law and the Constitution. The Constitution in some circumstances defines the maximum fees that can be charged for some fees described in this Information Memorandum.

7. Other Important Information

Cooling off period

No cooling off period applies to units offered under this Information Memorandum.

Unitholder's liability

The Constitution for the Fund provides that unless there is a separate agreement with a Unitholder, no Unitholder can be called on to contribute to the assets of the Fund or to its creditors if the Fund is liquidated or becomes insolvent. Therefore, it is expected that Unitholders will not be under any obligation if a deficiency in the assets of the Fund was to occur. However, this view has not been fully tested and so it is not possible to give an absolute assurance that a Unitholder's liability will be limited in all circumstances.

In general, the liability of a Unitholder is limited to the amount (if any) which remains unpaid in relation to their subscription for units and certain amounts in respect of tax. The Responsible Entity is permitted to deduct certain amounts owed to the Responsible Entity from amounts payable to Unitholders.

Non-listing of units

The units of the Fund are not listed on any stock exchange and no application will be made to list the units of the Fund on any stock exchange.

Termination of the Fund

The Responsible Entity may resolve at any time to terminate, liquidate and wind up the Fund in accordance with the Fund's Constitution. The Fund may otherwise terminate if required by law. A notice will be provided to Unitholders advising of the Fund's termination. Upon termination and after conversion of Fund assets into cash and payment of, or provision for, all costs and liabilities (actual and anticipated), the net proceeds will be distributed pro-rata amongst all Unitholders according to the number of units they hold in the Fund.

Compliance Plan

Equity Trustees has prepared and lodged a compliance plan for the Fund with ASIC. The compliance plan describes the procedures used by Equity Trustees to comply with the Corporations Act and the Constitution of the Fund. Each year the compliance plan for the Fund is audited and the audit report is lodged with ASIC.

Unit Pricing Discretions Policy

Equity Trustees has developed a formal written policy in relation to the guidelines and relevant factors taken into account when exercising any discretion in calculating unit prices (including determining the value of assets and liabilities). A copy of the policy and, where applicable and to the extent required, any other relevant documents in relation to the policy (such as records of any discretions which are outside the scope of, or inconsistent with, the unit pricing policy) will be made available to investors free of charge on request.

Joint Account Operation

For joint accounts, unless indicated to the contrary on the Application Form, each signatory must sign withdrawal requests. Please ensure all signatories sign the declaration in the Application Form. Joint accounts will be held as joint tenants unless we are advised to the contrary in writing.

Appointment of Authorised Nominee to Operate Account

You can appoint a person, partnership or company as your authorised signatory. To do so, please nominate them on the initial Application Form and have them sign the relevant sections. If a company is appointed, the powers extend to any director and officer of the company. If a partnership is appointed, the powers extend to all partners. Such appointments will only be cancelled or changed once we receive written instructions from you to do so.

Once appointed, your authorised signatory has full access to operate your investment account for and on your behalf. This includes the following:

- making additional investments;
- requesting income distribution instructions to be changed;
- withdrawing all or part of your investment;
- changing bank account details;
- enquiring and obtaining copies of the status of your investment; and
- having online account access to your investment.

If you do appoint an authorised signatory:

- you are bound by their acts;
- you release, discharge and indemnify us from and against any losses, liabilities, actions, proceedings, account claims and demands arising from instructions received from your authorised representatives; and
- you agree that any instructions received from your authorised representative shall be complete satisfaction of our obligations, even if the instructions were made without your knowledge or authority.

Electronic Instructions

If an investor instructs Equity Trustees by electronic means, such as email or via the internet the investor releases Equity Trustees from and indemnifies Equity Trustees against, all losses and liabilities arising from any payment or action Equity Trustees makes based on any instruction (even if not genuine):

- that Equity Trustees receives by an electronic communication bearing the investor's investor code; and
- which appears to indicate to Equity Trustees that the communication has been provided by the investor (for example, it has a signature which is apparently the investor's or an authorised signatory's or it has an email address which is apparently the investor's).

The investor agrees that neither the investor nor anyone claiming through the investor has any claim against Equity Trustees or the Fund in relation to such payments or actions.

There is a risk that a fraudulent withdrawal request can be made by someone who has access to an investor's investor code and a copy of their signature or email address. Please take care.

Constitution of the Fund

You will be issued units in the Fund when you invest. Each unit represents an equal undivided fractional beneficial interest in the assets of the Fund as a whole subject to liabilities but does not give you an interest in any particular property of the Fund.

Equity Trustees' responsibilities and obligations, as the responsible entity of the Fund, are governed by the Constitution as well as the Corporations Act and general trust law.

The Constitution contains a number of provisions relating to the rights, terms, conditions and obligations imposed on both Equity Trustees, as the responsible entity of the Fund, and investors. Some of the provisions of the Constitution are discussed elsewhere in this IM.

Other provisions relate to an investor's rights under the Constitution, and include:

- an investor's right to share in any Fund income, and how we calculate it;
- what you are entitled to receive when you withdraw or if the Fund is wound up;
- an investor's right to withdraw from the Fund - subject to the times when we can cease processing withdrawals, such as if the Fund becomes 'illiquid';
- the nature of the units - identical rights attach to all units; and
- an investor's rights to attend and vote at meetings – these provisions are mainly contained in the Corporations Act.

There are also provisions governing our powers and duties, including:

- how we calculate unit prices, the maximum amount of fees we can charge and expenses we can recover;
- when we can amend the Constitution - generally we can only amend the Constitution where we reasonably believe that the changes will not adversely affect investors' rights. Otherwise, the Constitution can only be amended if approved at a meeting of investors;
- when we can retire as the Responsible Entity of the Fund;
- when we can be removed as the Responsible Entity of the Fund - which is when required by law; and
- our broad powers to invest, borrow and generally manage the Fund.

The Constitution also deals with our liabilities in relation to the Fund and when we can be reimbursed out of the Fund's assets.

For example:

- subject to the Corporations Act we are not liable for acting in reliance and good faith on professional advice;
- subject to the Corporations Act we are not liable for any loss unless we fail to act in good faith, or we act negligently; and
- we can be reimbursed for any liabilities we incur in connection with the proper performance of our powers and duties in respect of the Fund.

As mentioned above, Equity Trustees' responsibilities and obligations as the Responsible Entity of the Fund are governed by the Constitution of the Fund, the Corporations Act and general trust law, which require that we:

- act in the best interests of investors and, if there is a conflict between investors' interests and our own, give priority to investors;
- ensure the property of the Fund is clearly identified, held separately from other funds and our assets, and is valued regularly;
- ensure payments from the Fund's property are made in accordance with the Constitution and the Corporations Act; and
- report to ASIC any breach of the Corporations Act in relation to the Fund which has had, or is likely to have, a materially adverse effect on investors' interests.

Information on underlying investments

Information regarding the underlying investments of the Fund will be provided to a Unitholder in the Fund on request, to the extent Equity Trustees is satisfied that such information is required to enable the Unitholder to comply with its statutory reporting obligations. This information will be supplied within a reasonable timeframe having regard to these obligations.

Collateral

Where collateral is required for trading in listed derivatives by the rules of the CME or otherwise, Fund assets may be held in a custodian account as collateral to minimise residual exposure of the Fund to a derivative.

Foreign Account Tax Compliance Act ("FATCA")

In April 2014, the Australian Government signed an intergovernmental agreement ("IGA") with the United States of America ("U.S."), which requires all Australian financial institutions to comply with the FATCA Act enacted by the U.S. in 2010.

Under FATCA, Australian financial institutions are required to collect and review their information to identify U.S. residents that invest in assets through non-U.S. entities. This information is reported to the Australian Taxation Office ("ATO"). The ATO may then pass that information onto the U.S. Internal Revenue Service.

In order to comply with the FATCA obligations, we may request certain information from you. Failure to comply with FATCA obligations may result in the Fund, to the extent relevant, being subject to a 30% withholding tax on payment of U.S. income or gross proceeds from the sale of certain U.S. investments. If the

Fund suffers any amount of FATCA withholding and is unable to obtain a refund for the amounts withheld, we will not be required to compensate Unitholders for any such withholding and the effect of the amounts withheld will be reflected in the returns of the Fund.

Common Reporting Standard ("CRS")

The CRS is a standardised set of rules developed by the Organisation of Economic Co-operation and Development that requires certain financial institutions resident in a participating jurisdiction to document and identify reportable accounts and implement due diligence procedures. These financial institutions will also be required to report certain information on reportable accounts to their relevant local tax authorities.

Australia signed the CRS Multilateral Competent Authority Agreement and has enacted provisions within the domestic tax legislation to implement CRS in Australia. Australian financial institutions need to document and identify reportable accounts, implement due diligence procedures and report certain information with respect to reportable accounts to the ATO. The ATO may then exchange this information with foreign tax authorities in the relevant signatory countries.

In order to comply with the CRS obligations, we may request certain information from you. Unlike FATCA, there is no withholding tax that is applicable under CRS. However, penalties may apply for failing to comply with the CRS obligations.

Anti-Money Laundering and Counter Terrorism Financing ("AML/CTF")

Australia's AML/CTF laws require Equity Trustees to adopt and maintain a written AML/CTF Program. A fundamental part of the AML/CTF Program is that Equity Trustees must hold up-to-date information about investors (including beneficial owner information) in the Fund.

To meet this legal requirement, we need to collect certain identification information (including beneficial owner information) and documentation ("KYC Documents") from new investors. Existing investors may also be asked to provide KYC Documents as part of an ongoing customer due diligence/verification process to comply with AML/CTF laws. If applicants or investors do not provide the applicable KYC Documents when requested, Equity Trustees may be unable to process an application, or may be unable to provide products or services to existing investors until such time as the information is provided.

In order to comply with AML/CTF Laws, Equity Trustees may also disclose information including your personal information that it holds about the applicant, an investor, or any beneficial owner, to its related bodies corporate or service providers, or relevant regulators of AML/CTF Laws (whether inside or outside Australia). Equity Trustees may be prohibited by law from informing applicants or investors that such reporting has occurred.

Equity Trustees shall not be liable to applicants or investors for any loss you may suffer because of compliance with the AML/CTF laws.

Once provided, your TFN will be applied automatically to any future investments in the Fund/Trust where formal application procedures are not required (e.g. distribution reinvestments), unless you indicate, at any time, that you do not wish to quote a TFN for a particular investment. Exempt investors should attach a copy of the certificate of exemption. For super funds or trusts list only the applicable ABN or TFN for the super fund or trust.
