Equity Trustees' responsibilities and obligations as the Fund's responsible entity are governed by the Fund's constitution ("Constitution"), the Corporations Act and general trust law. Equity Trustees has entered into a three-party agreement appointing SG Hiscock & Company Limited as manager of the Fund and ICE Investors Pty Ltd as the Fund's investment portfolio manager, respectively. Equity Trustees has appointed a custodian to hold the assets of the Fund. The custodian has no supervisory role in relation to the operation of the Fund and is not responsible for protecting your interests.

The Investment Manager

ICE Investors Pty Ltd

ICE Investors Pty Ltd (ICE Investors) specialises in investing in Australian listed industrial companies and the lead portfolio manager has been managing a Fund using the ICE franchise investment style since 2006. ICE Investors applies its franchise investment style to identify quality companies that are suitable investment candidates. Portfolio decisions are underpinned by a valuation-based investment discipline. The ICE MidCap Fund typically invests in mid to small market capitalisation companies in an index unaware manner. ICE Investors is located in the Melbourne CBD and is a Corporate Authorised Representative of SG Hiscock & Company Limited. ICE Investors has been appointed by the Responsible Entity to manage and distribute the Fund including selecting and managing the Fund's assets, instructing the Fund's custodian and administrator in relation to Fund assets, and performing related tasks.

The Fund Manager

SG Hiscock & Company Limited

SG Hiscock & Company ("SGH") is a boutique investment manager specialising in high conviction, actively managed investment strategies and Managed Discretionary Portfolios.

SGH was established in Melbourne in 2001 by six of its principals and is entirely owned by directors, staff and associates. SGH has been appointed by the Responsible Entity to provide oversight and monitoring of the Investment Manager and perform other responsibilities regarding the compliance and management of the Fund.

2. How the ICE MidCap Fund works

The Fund is a registered managed investment scheme governed by the Constitution. The Fund comprises assets which are acquired in accordance with the Fund's investment strategy. Direct investors receive Class A units ("units") when they invest in Class A (Founder Class) of the Fund ("the Class"). In general, each unit in the Class represents an equal interest in the assets of the Fund attributable to the Class subject to liabilities attributable to the Class; however, it does not give investors an interest in any particular asset of the Fund.

If you invest in the Fund through an IDPS (as defined in the Reference Guide) you will not become an investor in the Fund. The operator or custodian of the IDPS will be the investor entered in the Fund's register and will be the only person who is able to exercise the rights and receive the benefits of a direct investor. Your investment in the Fund through the IDPS will be governed by the terms of your IDPS. Please direct any queries and requests relating to your investment to your IDPS Operator. Unless otherwise stated, the information in the PDS applies to direct investors.

Applying for units

You can acquire units by completing the Application Form that accompanies this PDS. The minimum initial investment amount for the Class is \$20,000.

See Section 8 "How to Apply" of this PDS and the Reference Guide for further information.

Please note that all monies deposited by direct credit, direct debit or cheque must match the amount specified on the Application Form for an application to be valid. We reserve the right to accept or reject applications in whole or in part at our discretion. We have the discretion to delay processing applications where we believe this to be in the best interest of the Fund's investors.

Application Price

The price at which units are acquired is determined in accordance with the Constitution ("Application Price"). The Application Price on a Business Day is, in general terms, equal to the Net Asset Value ("NAV") of the Class, divided by the number of units on issue and adjusted for transaction costs ("Buy Spread"). At the date of this PDS, the Buy Spread is 0.25%.

The Application Price will vary as the market value of assets in the Class rises or falls.

Making additional investments

You can make additional investments into the Class at any time by sending us your additional investment amount together with a completed Additional Investment Form. The minimum additional investment into the Class is \$5,000. Forms are available at www.iceinvestors.com.au.

Distributions

An investor's share of any distributable income is calculated in accordance with the Constitution and is generally based on the number of units held by the investor at the end of the distribution period.

The Fund usually distributes income half-yearly at the end of June and December, however, Equity Trustees may change the distribution frequency without notice. Distributions are calculated effective the last day of each distribution period and are normally paid to investors as soon as practicable after the distribution calculation date.

Distribution Options

Investors in the Fund can indicate a preference to have their distribution:

- reinvested back into the Class; or
- directly credited to their AUD Australian domiciled bank account.

Investors who do not indicate a preference will have their distributions automatically reinvested. Applications for reinvestment will be taken to be received immediately prior to the next Business Day after the relevant distribution period. There is no Buy Spread on distributions that are reinvested.

In some circumstances, the Constitution may allow for an investor's withdrawal proceeds to be taken to include a component of distributable income.

Indirect Investors should review their IDPS Guide for information on how and when they receive any income distribution.

Access to your money

Investors in the Fund can generally withdraw their investment by completing a written request to withdraw from the Fund and mailing it to:

Apex Fund Services Pty Ltd
Unit Registry
GPO Box 4968
Sydney, NSW, 2001

You can also email: SGHinvestorservices@apexgroup.com; or send it by fax to +61 2 9251 3525.

The minimum withdrawal amount is \$5,000. Withdrawal forms are available at www.iceinvestors.com.au. Once we receive and accept your withdrawal request, we may act on your instruction without further enquiry if the instruction bears your account number or investor details and your (apparent) signature(s), or your authorised signatory's (apparent) signature(s).

Equity Trustees will generally allow an investor to access their investment within 7 days of acceptance of a withdrawal request by transferring the withdrawal proceeds to such investor's nominated bank account. However, Equity Trustees is allowed to reject withdrawal requests, and also to make payment up to 21 days after acceptance of a request (which may be extended in certain circumstances) as outlined in the Constitution and Reference Guide.

We reserve the right to accept or reject withdrawal requests in whole or in part at our discretion.

Cut-off times for processing transactions

If we receive all required application or redemption documents before or at 2pm (Melbourne time) on a Business day, and your request is accepted by the Fund's administrator, Apex Fund Services Pty Ltd, we will process the transaction using that day's application or redemption price. Requests received after 2pm (Melbourne time) on a Business day or received on a day which is not a Business Day will generally be treated as having been received before the cut-off time on the next Business Day.

Unit Pricing

The price at which units are withdrawn is determined in accordance with the Constitution ("Withdrawal Price"). The Withdrawal Price on a Business Day is, in general terms, equal to the NAV of the Class, divided by the number of units on issue and adjusted for transaction costs ("Sell Spread"). At the date of this PDS, the Sell Spread is 0.25%.

The Withdrawal Price will vary as the market value of assets in the Class rises or falls.

Equity Trustees reserves the right to fully redeem your investment if your investment balance in the Fund falls below \$20,000 as a result of processing your withdrawal request. In certain circumstances, for example, when there is a freeze on withdrawals, where accepting a withdrawal is not in the best interests of investors in the Fund including due to one or more circumstances outside its control or where the Fund is not liquid (as defined in the Corporations Act), Equity Trustees can deny or suspend a withdrawal request and you may not be able to withdraw your funds in the usual processing times or at all. When the Fund is not liquid, an investor can only withdraw when Equity Trustees makes a withdrawal offer to investors in accordance with the Corporations Act. Equity Trustees is not obliged to make such offers.

If you are an Indirect Investor, you need to provide your withdrawal request directly to your IDPS Operator. The time to process a withdrawal request will depend on the particular IDPS Operator and the terms of the IDPS.

Unit pricing discretions policy

Equity Trustees has developed a formal written policy in relation to the guidelines and relevant factors taken into account when exercising any discretion in calculating unit prices (including determining the value of the assets and liabilities). A copy of the policy and, where applicable and to the extent required, any other relevant documents in relation to the policy will be made available free of charge on request.

Additional information

In the event that the Fund receives an application or redemption, the Fund may buy or sell equities on market prior to that application or redemption being reflected in the Net Asset Value of the Fund. This may result in the Fund being temporarily leveraged beyond target ranges. Such temporary leverage may also occur if application monies are equitized and ultimately not received by the Fund.

If and when the Fund has 100 or more direct investors, it will be classified by the Corporations Act as a 'disclosing entity'. As a disclosing entity, the Fund will be subject to regular reporting and disclosure obligations. Investors would then have a right to obtain a copy, free of charge, of any of the following documents:

- the most recent annual financial report lodged with ASIC ("Annual Report");
- any subsequent half yearly financial report lodged with ASIC after the lodgement of the Annual Report; and
- any continuous disclosure notices lodged with ASIC after the Annual Report but before the date of this PDS.

Equity Trustees will comply with any continuous disclosure obligation by lodging documents with ASIC as and when required.

Copies of these documents lodged with ASIC in relation to the Fund may be obtained from ASIC through ASIC's website.

3. Benefits of investing in the ICE MidCap Fund

The Fund is an actively managed Australian and New Zealand share portfolio that aims to deliver superior medium to long-term returns. The Fund aims to achieve this outperformance by investing in companies which have, or are creating, a durable competitive advantage due to their ownership or utilisation of assets that are difficult to replicate. Benefits of investing in the Fund include:

- access to the expertise of a specialist investment boutique structure;
- active management aimed at maximising potential for superior returns by investing in companies that the Investment Manager considers to have or are creating an entrenched market position for their products or services;
- potential for growth by the Fund investing in businesses based on their long term prospects to accumulate wealth over the long-term;
- significant diversification as it primarily invests in companies that are less affected by the vagaries of the economic cycle; and
- regular reporting to keep you up to date on your investments.

4. Risks of managed investment schemes

All investments carry risks. Different investment strategies may carry different levels of risk, depending on the assets acquired under the strategy. Assets with the highest long-term returns may also carry the highest level of short-term risk. The significant risks below should be considered in light of your risk profile when deciding whether to invest in the Fund. Your risk profile will vary depending on a range of factors, including your age, the investment time frame (how long you wish to invest for), your other investments or assets and your risk tolerance.

The Responsible Entity, Fund Manager and the Investment Manager do not guarantee the liquidity of the Fund's investments, repayment of capital or any rate of return or the Fund's investment performance. The value of the Fund's investments will vary. Returns are not guaranteed, and you may lose money by investing in the Fund. The level of returns will vary and future returns may differ from past returns. Laws affecting managed investment schemes may change in the future. The structure and administration of the Fund is also subject to change.

In addition, we do not offer advice that takes into account your personal financial situation, including advice about whether the Fund is suitable for your circumstances. If you require personal financial or taxation advice, you should contact a licensed financial adviser and/or taxation adviser.

Company specific risk

There may be instances where a company or managed investment scheme will fall in value because of company or scheme specific factors (for example, where a company's major product is subject to a product recall). The value of a company's securities can also vary because of changes to management, product, distribution or the company's business environment.

Currency risk

The Fund may also invest in securities listed on the New Zealand Stock Exchange ("NZX"). Currency movements against the Australian dollar may adversely affect the domestic value of the Fund's investments and the income from those investments.

Derivatives risk

In the case of derivatives, fluctuations in price will reflect movements in the underlying assets, reference rate or index to which the derivatives relate. The use of derivative positions to hedge the risk of physical securities will involve 'basis risk', which refers to the possibility that derivative positions may not move perfectly in line with the physical security. As a consequence, the derivative positions cannot be expected to perfectly hedge the risk of the physical security. Other risks associated with derivatives include that they can lose value because of a sudden price move or because of the passage of time, potential illiquidity of the derivative, that the Fund cannot meet payment obligations as they arise, and that the counterparty to any derivative contract does not meet its obligations under the contract.

Investment selection risk

The Investment Manager may make poor investment decisions resulting in sub-standard returns (for example where the Investment Manager invests in a company that significantly underperforms the share market). This risk is mitigated to some extent by the knowledge and experience of the Investment Manager.

Pandemic and other unforeseen event risk

Health crises, such as pandemic and epidemic diseases, as well as other catastrophes that interrupt the expected course of events, such as natural disasters, war or civil disturbance, acts of terrorism, power outages and other unforeseeable and external events, and the public response to or fear of such diseases or events, have and may in the future have an adverse effect on the economies and financial markets either in specific countries or worldwide and consequently on the value of the Fund's investments. Further, under such circumstances the operations, including functions such as trading and valuation, of the Investment Manager and other service providers could be reduced, delayed, suspended or otherwise disrupted.

Further reading...

Before making a decision to invest, you should read the important information in the section of the Reference Guide entitled "Additional risks of managed investment schemes" about additional risks that apply to managed investment schemes. Go to the Reference Guide which is available at www.iceinvestors.com.au. The material relating to the additional risks may change between the time when you read this PDS and the day when you acquire the product.

5. How we invest your money

Warning: When choosing to invest in the Fund, you should consider the likely investment returns, the risks of investing and your investment time frame.

Investment objective

To outperform the S&P/ASX Midcap 50 Industrials Accumulation Index over rolling 5 to 7 year periods.

Performance Hurdle

The performance hurdle is the daily percentage movement in the S&P/ASX MidCap 50 Industrials Accumulation Index after fees calculated on a daily basis ("Performance Hurdle").

Minimum suggested time frame

The minimum suggested investment time frame for the Class is 5 years.

Risk level

High

There is a risk investors may lose some or all of their initial investment. Higher risk investments tend to fluctuate in the short-term but can produce higher returns than lower risk investments over the long-term.

Investor suitability

The Fund is suited for investors who would like to invest in an index unaware weighted portfolio of listed companies which have or are in the process of creating a durable competitive advantage and who seek to achieve returns in excess of the S&P/ASX Midcap 50 Industrials Accumulation Index over rolling 5 to 7 year periods.

Investment strategy

The Fund aims to deliver superior medium to long-term returns by investing, either directly or through derivatives, in listed securities which possess, in the opinion of the Investment Manager, a durable competitive advantage. The Fund strategy is focused on providing a unique exposure to predominantly mid to small cap Australian industrial franchise companies.

The Fund's investment philosophy is that investors achieve superior returns by investing at sensible prices in companies which have a durable competitive advantage. The Investment Manager believes that companies can create a sustainable competitive advantage by;

- (1) owning or utilising key assets which are difficult to replicate (such as brands, licenses, logistical capability, physical infrastructure, a captive client base) and
- (2) operating these difficult to replicate assets with the objective of entrenching the company's products/services in the marketplace.

Investment guidelines

An asset's weighting in the Fund will principally be determined by the Investment Manager's view on whether the return on the asset is likely to exceed the Fund's investment objective over the 5 to 7 year time frame, not by any index weight.

The assets of the Fund will be invested in accordance with the following guidelines:

Stock Restrictions:

1. The Fund may invest in companies that are, at the time of initial investment, listed on the ASX or NZX and are included in the:
 - a. S&P/ASX Midcap 50 Index;
 - b. S&P/ASX Small Industrials Index (but must be within the top 50 largest companies by market capitalisation at the time of initial investment); or
 - c. S&P/ASX 50 Index (but excluding companies in the S&P/ASX 20 Index at the time of initial investment),

or, if outside of the above indices or restrictions, in companies that have a market capitalisation at the time of initial investment that is equivalent to any of the companies in a, b or c above.

2. If subsequent to the date of purchase a company held by the Fund ceases to belong to the above indices or comply with the above restrictions, the following applies:

- a. if a company moves into (and remains in) the S&P/ASX 20 Index, the Investment Manager may continue to hold and/or re-weight that company indefinitely and will not be considered a breach of these stock restrictions;
- b. if a company moves below the top 50 of the S&P/ASX Small Industrials Index, then the Investment Manager may continue to hold and/or re-weight that company indefinitely and will not be considered a breach of these stock restrictions.

3. No more than 10% of the Fund portfolio may be invested in any one company. However if the company is in the S&P/ASX Small Industrials Index, then generally no more than 5% of the Fund may be invested in any one company

4. The Fund may not hold more than 10% of the issued capital of any company.

5. The Fund may invest in companies that are expected to be listed on the ASX or the NZX within 12 months provided the market capitalisation on listing is expected to be equivalent to any of the companies in item 1. above.

Sector ranges:

Generally the following sector ranges apply:

1. ASX listed securities 50 - 100%
2. NZX listed securities 0 - 30%
3. Companies in the S&P/ASX Small Industrials Index 0 – 30%
4. Unlisted securities 0 - 10%
5. Cash 0 - 7%

Due to movements in the market or other events, the guidelines set out above may not be adhered to from time to time. In these circumstances, the Investment Manager will seek to bring the Fund's investments within the guidelines within a reasonable period of time.

Number of stocks within the Fund:

Generally:

1. no less than 20 stocks; and
2. no more than 40 stocks.

Tracking error:

Not followed.

Gearing:

The Portfolio will not be geared.

The investment strategy and asset allocation parameters may be changed. If a change is to be made, investors in the Fund will be notified in accordance with the Corporations Act.

6. Fees and costs

DID YOU KNOW?

Small differences in both investment performance and fees and costs can have a substantial impact on your long-term returns.

For example, total annual fees and costs of 2% of your investment balance rather than 1% could reduce your final return by up to 20% over a 30-year period (for example, reduce it from \$100,000 to \$80,000).

You should consider whether features such as superior investment performance or the provision of better member services justify higher fees and costs.

You may be able to negotiate to pay lower fees. Ask the Fund or your financial adviser.

TO FIND OUT MORE

If you would like to find out more, or see the impact of the fees based on your own circumstances, the **Australian Securities and Investments Commission (ASIC)** Moneysmart website (www.moneysmart.gov.au) has a managed funds fee calculator to help you check out different fee options.

The information in the following Fees and Costs Summary can be used to compare costs between different simple managed investment schemes. Fees and costs can be paid directly from an investor's account or deducted from investment returns. For information on tax please see Section 7 of this PDS.

² The management fee component of management fees and costs can be negotiated. See "Differential fees" in the "Additional Explanation of Fees and Costs" below.

³ The indirect costs component of management fees and costs and transaction costs is based on a reasonable estimate of the costs for the current financial year to date, adjusted to reflect a 12 month period. Please see "Additional Explanation of Fees and Costs" below.

⁴ This represents the performance fee of the Fund which is payable as an expense of the Fund to the Investment Manager. The performance fee is calculated by reference to a reasonable estimate of the performance fee for the current financial year, adjusted to reflect a 12-month period. See "Performance fees" below for more information.

Additional Explanation of Fees and Costs

Management fees and costs

The management fees and costs include amounts payable for administering and operating the Fund, investing the assets of the Fund, expenses and reimbursements in relation to the Fund and indirect costs if applicable.

Management fees and costs do not include performance fees or transaction costs, which are disclosed separately.

The management fees component of management fees and costs of 0.70% p.a. of the NAV of the Fund is payable to the Responsible Entity of the Fund for managing the assets and overseeing the operations of the Fund. The management fees component is accrued daily and paid from the Fund monthly in arrears and reflected in the unit price. As at the date of this PDS, the management fees component covers certain ordinary expenses such as Responsible Entity fees, investment management fees, custodian fees, and administration and audit fees.

The indirect costs and other expenses component of 0.00% p.a. of the NAV of the Fund may include other ordinary expenses of operating the Fund, as well as management fees and costs (if any) arising from interposed vehicles in or through which the Fund invests. The indirect costs and other expenses component is variable and reflected in the unit price of the Fund as the relevant fees and costs are incurred. They are borne by investors, but they are not paid to the Responsible Entity or Investment Manager.

The indirect costs and other expenses component is based on a reasonable estimate of the costs for the current financial year to date, adjusted to reflect a 12 month period. In relation to the costs that have been estimated, they have been estimated on the basis of relevant information for a similar investment.

Actual indirect costs for the current and future years may differ. If in future there is an increase to indirect costs disclosed in this PDS, updates will be provided on Equity Trustees' website at www.eqt.com.au/insto where they are not otherwise required to be disclosed to investors under law.

Performance fees

Performance fees include amounts that are calculated by reference to the performance of the Fund. The performance fee figure that is disclosed in the Fees and Costs Summary is generally based on an average of the performance fees over the previous five financial years, where each performance fee relevant to the Fund is averaged and totalled to give the performance fees for the Fund. The estimated performance fees for the Fund are 0.31% of the NAV of the Fund calculated based on the methodology below.

As the Fund is first offered in the current financial year, the performance fee figure that is disclosed in the Fees and Costs Summary is calculated by reference to a reasonable estimate of the performance fee for the current financial year, adjusted to reflect a 12 month period. In relation to the performance fees that have been estimated, they have been estimated on the basis of information provided by the Investment Manager assuming a Fund return of 2% above the benchmark Performance Hurdle.

In terms of the performance fees payable to the Investment Manager, subject to meeting the high watermark test described below a performance fee is payable in relation to a one-year period ending 30 June ('Performance Fee Period') where the investment performance (after management fees and costs) for that Performance Fee Period exceeds the performance of the S&P/ASX MidCap 50 Industrials Accumulation Index (the Performance Hurdle). The amount of performance fees payable in relation to Class A is 15.375% of this excess multiplied by the NAV of the Fund attributable to Class A (after deduction of management costs, but before any performance fee accrual). Performance fees in relation to Class A units are calculated and accrued daily and paid annually in arrears from the Fund and are calculated based on the Class A unit price at the beginning of the relevant Performance Fee Period and reflected in the unit price. Performance fees are subject to a high watermark which means no performance fees are payable until any accrued underperformance as against the Performance Hurdle from prior Performance Fee Periods has been made up.

Please note that the performance fees disclosed in the Fees and Costs Summary are not a forecast as the actual performance fee for the current and future financial years may differ. The Responsible Entity cannot guarantee that performance fees will remain at their previous level or that the performance of the Fund will outperform the Performance Hurdle.

It is not possible to estimate the actual performance fee payable in any given period, as we cannot forecast what the performance of the Fund will be. Information on current performance fees will be updated from time to time and available at www.eqt.com.au/insto.

Transaction costs

In managing the assets of the Fund, the Fund may incur transaction costs such as brokerage, buy-sell spreads in respect of the underlying investments of the Fund, settlement costs, clearing costs and applicable stamp duty when assets are bought and sold. Transaction costs also include costs incurred by interposed vehicles in which the Fund invests (if any), that would have been transaction costs if they had been incurred by the Fund itself. Transaction costs are an additional cost to the investor where they are not recovered by the Buy/Sell Spread, and are generally incurred when the assets of the Fund are changed in connection with day-to-day trading or when there are applications or withdrawals which cause net cash flows into or out of the Fund.

The Buy/Sell Spread that is disclosed in the Fees and Costs Summary is a reasonable estimate of transaction costs that the Fund will incur when buying or selling assets of the Fund. These costs are an additional cost to the investor but are incorporated into the unit price and arise when investing application monies and funding withdrawals from the Fund and are not separately charged to the investor. The Buy Spread is paid into the Fund as part of an application and the Sell Spread is left in the Fund as part of a redemption and not paid to Equity Trustees or the Investment Manager. The estimated Buy/Sell Spread is 0.25% upon entry and 0.25% upon exit. The dollar value of these costs based on an application or a withdrawal of \$20,000 is \$50 for each individual transaction. The Buy/Sell Spread can be altered by the Responsible Entity at any time and www.iceinvestors.com.au will be updated as soon as practicable to reflect any change. The Responsible Entity may also waive the Buy/Sell Spread in part or in full at its discretion. The transaction costs figure in the Fees and Costs Summary is shown net of any amount recovered by the Buy/Sell Spread charged by the Responsible Entity.

Transaction costs generally arise through the day-to-day trading of the Fund's assets and are reflected in the Fund's unit price as an additional cost to the investor, as and when they are incurred.

The gross transaction costs for the Fund are 0.25% p.a. of the NAV of the Fund, which is based on a reasonable estimate of the costs for the current financial year to date, adjusted to reflect a 12 month period.

In relation to the costs that have been estimated, they have been estimated on the basis of relevant information for a similar investment.

However, actual transaction costs for future years may differ.

Can the fees change?

Yes, all fees can change without investor consent, subject to the maximum fee amounts specified in the Constitution. The current maximum management fee to which Equity Trustees is entitled is 2.00% of the GAV of the Fund. However, Equity Trustees does not intend to charge that amount and will generally provide investors with at least 30 days' notice of any proposed increase to the management fees component of management fees and costs. In most circumstances, the Constitution defines the maximum level that can be charged for fees described in this PDS. Equity Trustees also has the right to recover all reasonable expenses incurred in relation to the proper performance of its duties in managing the Fund and as such these expenses may increase or decrease accordingly, without notice.

Payments to IDPS Operators

Subject to the law, annual payments may be made to some IDPS Operators because they offer the Fund on their investment menus. Product access is paid by the Investment Manager out of its investment management fee and is not an additional cost to the investor.

Differential fees

The Investment Manager may from time to time negotiate a different fee arrangement (by way of a rebate or waiver of fees) with certain investors who are Australian Wholesale Clients. Please contact ICE Investors on +613 9491 8001 for further information.

Example of annual fees and costs for an investment option

This table gives an example of how the ongoing annual fees and costs in the investment option for this product can affect your investment over a 1-year period. You should use this table to compare this product with other products offered by managed investment schemes.

EXAMPLE – ICE MidCap Fund		
BALANCE OF \$50,000 WITH A CONTRIBUTION OF \$5,000 DURING THE YEAR		
Contribution Fees	Nil	For every additional \$5,000 you put in, you will be charged \$0
Plus Management fees and costs	0.70% p.a.	And , for every \$50,000 you have in the ICE MidCap Fund you will be charged or have deducted from your investment \$350 each year
Plus Performance fees	0.31% p.a.	And , you will be charged or have deducted from your investment \$155 in performance fees each year
Plus Transaction costs	0.00% p.a.	And , you will be charged or have deducted from your investment \$0 in transaction costs
Equals Cost of ICE MidCap Fund		If you had an investment of \$50,000 at the beginning of the year and you put in an additional \$5,000 during that year, you would be charged fees and costs of: \$505* What it costs you will depend on the investment option you choose and the fees you negotiate.

* Additional fees may apply. Please note that this example does not capture all the fees and costs that may apply to you such as the Buy/Sell Spread.

This example assumes the \$5,000 contribution occurs at the end of the first year, therefore the fees and costs are calculated using the \$50,000 balance only.

Warning: If you have consulted a financial adviser, you may pay additional fees. You should refer to the Statement of Advice or Financial Services Guide provided by your financial adviser in which details of the fees are set out.

ASIC provides a fee calculator on www.moneysmart.gov.au, which you may use to calculate the effects of fees and costs on account balances. The performance fees stated in this table are based on the average performance fee for the Fund, over the previous five financial years. The performance of the Fund for this financial year, and the performance fees, may be higher or lower or not payable in the future. It is not a forecast of the performance of the Fund or the amount of the performance fees in the future.

The indirect costs and other expenses component of management fees and costs and transaction costs may also be based on estimates. As a result, the total fees and costs that you are charged may differ from the figures shown in the table.

Further reading

You should read the important information in the Reference Guide about fees and costs under the "Fees and other costs" section before making a decision. Go to the Reference Guide which is available at www.iceinvestors.com.au. The material relating to these matters may change between the time when you read this PDS and the day when you acquire the product.

7. How managed investment schemes are taxed

Warning: Investing in a registered managed investment scheme (such as the Fund) is likely to have tax consequences. You are strongly advised to seek your own professional tax advice about the applicable Australian tax (including income tax, GST and duty) consequences and, if appropriate, foreign tax consequences which may apply to you based on your particular circumstances before investing in the Fund.

The Fund is an Australian resident for tax purposes and does not generally pay tax on behalf of its investors. Australian resident investors are assessed for tax on any income and capital gains generated by the Fund to which they become presently entitled or, where the Fund has made a choice to be an Attribution Managed Investment Trust ("AMIT") and the choice is effective for the income year, are attributed to them.

You should read the important information in the Reference Guide about Taxation under the "Other important information" section before making a decision. Go to the Reference Guide which is available at www.iceinvestors.com.au. The material relating to these matters may change between the time when you read this PDS and the day when you acquire the product.

8. How to apply

Before completing the Application Form or Additional Investment Form, please ensure you have read this PDS together with the Reference Guide available from www.iceinvestors.com.au.

New investors:

- Complete the Application Form accompanying the PDS (details are in the Application Form) and post it to Apex Fund Services Pty Ltd, Unit Registry, GPO Box 4968, Sydney, NSW 2001 or email the Application Form to: SGHinvestorservices@apexgroup.com together with your payment by:
 - Transferring the application money electronically to the bank account designated in the Application Form
 - Direct Debit (for initial investment only)
 - Cheque

Existing investors and additional applications:

Additional investment can be made into an existing account at any time. The process for existing investors or making an additional investment is to complete an Additional Investment Form available at www.sghiscock.com.au; and post or email it to Apex Fund Services Pty Ltd with your payment by:

- Transfer the application money electronically to the Fund
- Cheque

Please note that cash cannot be accepted and all applications must be made in Australian dollars. All monies deposited by direct credit, direct debit or cheque must match the amount specified on the Application Form or the Additional Investment Form (as applicable) for the application to be valid.

Who can invest?

Eligible persons (as detailed in the 'About this PDS' section) can invest, however individual investors must be 18 years of age or over. Investors investing through an IDPS should use the application form provided by their IDPS Operator.

Cooling-off rights

If you are a Retail Client who has invested directly in the Fund, you may have a right to a 'cooling off' period in relation to your investment in the Fund for 14 days from the earlier of:

- confirmation of the investment being received; and
- the end of the fifth Business Day after the units are issued.

A Retail Client may exercise this right by notifying Equity Trustees in writing. A Retail Client is entitled to a refund of their investment adjusted for any increase or decrease in the relevant Application Price between the time we process your application and the time we receive the notification from you, as well as any other tax and other reasonable administrative expenses and transaction costs associated with the acquisition and termination of the investment.

The right of a Retail Client to cool off does not apply in certain limited situations, such as if the issue is made under a distribution reinvestment plan, switching facility or represents additional contributions required under an existing agreement. Also, the right to cool off does not apply to you if you choose to exercise your rights or powers as an investor in the Fund during the 14 day period. This could include selling part of your investment or switching it to another product. No cooling off period applies if you are a Wholesale Client.

Indirect Investors should seek advice from their IDPS Operator as to whether cooling off rights apply to an investment in the Fund by the IDPS. The right to cool off in relation to the Fund is not directly available to an Indirect Investor. This is because an Indirect Investor does not acquire the rights of an investor in the Fund. Rather, an Indirect Investor directs the IDPS Operator to arrange for their monies to be invested in the Fund on their behalf. The terms and conditions of the IDPS Guide or similar type document will govern an Indirect Investor's investment in relation to the Fund and any rights an Indirect Investor may have in this regard.
