Independent auditor's report to the unit holders of T. Rowe Price Global High Income Fund

This annual report covers T. Rowe Price Global High Income Fund as an individual entity.

The Responsible Entity of T. Rowe Price Global High Income Fund is Equity Trustees Limited (ABN 46 004 031 298) (AFSL 240975).

The Responsible Entity's registered office is:

Level 1, 575 Bourke Street
Melbourne, VIC 3000.

Directors' report

The directors of Equity Trustees Limited, the Responsible Entity of T. Rowe Price Global High Income Fund (the "Fund"), present their report together with the financial statements of the Fund for the year ended 30 June 2023.

Principal activities

The investment objective of the Fund is to seek high current income and capital appreciation primarily through investment in global fixed income securities rated below investment grade. The Fund also seeks global diversification by targeting North American, European and emerging markets high yield corporate issuers.

The Investment Manager may seek to achieve the Fund's objective through investment of up to 100% of the Fund's assets in one or more managed investment schemes, managed by the Investment Manager or an affiliate of the Investment Manager, that have the same or similar investment objectives as the Fund.

The Fund did not have any employees during the year.

There were no significant changes in the nature of the Fund's activities during the year.

The various service providers for the Fund are detailed below:

Service	Provider
Responsible Entity	Equity Trustees Limited
Investment Manager	T. Rowe Price Australia Limited
Custodian and Administrator	JPMorgan Chase Bank, N.A.
Statutory Auditor	PricewaterhouseCoopers

Directors

The following persons held office as directors of Equity Trustees Limited during or since the end of the year and up to the date of this report:

Philip D Gentry	Chairman
Michael J O'Brien	
Russell W Beasley	
Mary A O'Connor	
David B Warren	(appointed 6 March 2023)

Review and results of operations

During the year, the Fund continued to invest its funds in accordance with the Product Disclosure Statement and the provisions of the Fund's Constitution.

The Fund's performance for Class I was 7.05% (net of fees) and Class S was 6.75% (net of fees) for the year ended 30 June 2023. The Fund's benchmark, the ICE BofA Global High Yield Index (hedged to AUD) returned 7.40% for both the classes for the same period.

The Fund's performance is calculated based on the percentage change in the redemption price in the Fund over the period (with any distributions paid during the period reinvested). Returns are disclosed after fees and expenses but before taxes.

The performance of the Fund, as represented by the results of its operations, was as follows:

	Year ended	
	30 June 2023	30 June 2022
Profit/(loss) before finance costs attributable to unit holders for the year (\$)	30,189	(102,708)

Significant changes in the state of affairs

David B Warren was appointed as a director of Equity Trustees Limited on 6 March 2023.

In the opinion of the directors, there were no other significant changes in the state of affairs of the Fund that occurred during the financial year.

Matters subsequent to the end of the financial year

No matter or circumstance has arisen since 30 June 2023 that has significantly affected, or may have a significant affect on:

- (i) the operations of the Fund in future financial years; or
- (ii) the results of those operations in future financial years; or
- (iii) the state of affairs of the Fund in future financial years.

Likely developments and expected results of operations

The Fund will continue to be managed in accordance with the investment objectives and guidelines as set out in the Product Disclosure Statement and the provisions of the Fund's Constitution.

The results of the Fund's operations will be affected by a number of factors, including the performance of investment markets in which the Fund invests. Investment performance is not guaranteed and future returns may differ from past returns. As investment conditions change over time, past returns should not be used to predict future returns.

Indemnification and insurance of officers

No insurance premiums are paid for out of the assets of the Fund in regards to insurance cover provided to the officers of Equity Trustees Limited. So long as the officers of Equity Trustees Limited act in accordance with the Fund's Constitution and the Law, the officers remain indemnified out of the assets of the Fund against losses incurred while acting on behalf of the Fund.

Indemnification of auditor

The auditor of the Fund is in no way indemnified out of the assets of the Fund.

Fees paid to and interests held in the Fund by the Responsible Entity and its associates

Fees paid to the Responsible Entity and its associates out of Fund property during the year are disclosed in Note 14 to the financial statements.

No fees were paid out of Fund property to the directors of the Responsible Entity during the year.

The number of interests in the Fund held by the Responsible Entity or its associates as at the end of the financial year are also disclosed in Note 14 to the financial statements.

Interests in the Fund

The movement in units on issue in the Fund during the year is disclosed in Note 6 to the financial statements.

The value of the Fund's assets and liabilities is disclosed in the statement of financial position and derived using the basis set out in Note 2 to the financial statements.

Directors' report (continued)

Environmental regulation

The operations of the Fund are not subject to any particular or significant environmental regulations under Commonwealth, State or Territory law.

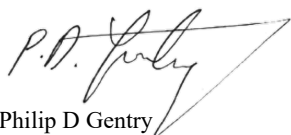

Rounding of amounts to the nearest dollar

Amounts in the Directors' report have been rounded to the nearest dollar in accordance with *ASIC Corporations (Rounding in Financial/Directors' Reports) Instrument 2016/191*, unless otherwise indicated.

Auditor's independence declaration

A copy of the auditor's independence declaration as required under Section 307C of the *Corporations Act 2001* is set out on page 5.

This report is made in accordance with a resolution of the directors of Equity Trustees Limited through a delegated authority given by Equity Trustees Limited's Board.

1 General information

These financial statements cover T. Rowe Price Global High Income Fund (the "Fund") as an individual entity. The Fund is an Australian registered managed investment scheme which was constituted on 14 January 2020 and will terminate in accordance with the provisions of the Fund's Constitution or by Law.

The Responsible Entity of the Fund is Equity Trustees Limited (ABN 46 004 031 298) (AFSL 240975) (the "Responsible Entity"). The Responsible Entity's registered office is Level 1, 575 Bourke Street, Melbourne, VIC 3000. The financial statements are presented in the Australian currency unless otherwise noted.

The investment objective of the Fund is to seek high current income and capital appreciation primarily through investment in global fixed income securities rated below investment grade. The Fund also seeks global diversification by targeting North American, European and emerging markets high yield corporate issuers.

The Investment Manager may seek to achieve the Fund's objective through investment of up to 100% of the Fund's assets in one or more managed investment schemes, managed by the Investment Manager or an affiliate of the Investment Manager, that have the same or similar investment objectives as the Fund.

The financial statements were authorised for issue by the directors on the date the Directors' declaration was signed. The directors of the Responsible Entity have the power to amend and reissue the financial statements.

2 Summary of significant accounting policies

The principal accounting policies applied in the preparation of these financial statements are set out below. These policies have been consistently applied to all years presented, unless otherwise stated in the following text.

(a) Basis of preparation

These general purpose financial statements have been prepared in accordance with Australian Accounting Standards and Interpretations issued by the Australian Accounting Standards Board (AASB) and the *Corporations Act 2001* in Australia. The Fund is a for-profit entity for the purpose of preparing the financial statements.

The financial statements are prepared on the basis of fair value measurement of assets and liabilities, except where otherwise stated.

The statement of financial position is presented on a liquidity basis. Assets and liabilities are presented in decreasing order of liquidity and do not distinguish between current and non-current. All balances are expected to be recovered or settled within 12 months, except for investments in financial assets and liabilities and net assets attributable to unit holders.

The Fund manages financial assets at fair value through profit or loss based on the economic circumstances at any given point in time, as well as to meet any liquidity requirements. As such, it is expected that a portion of the portfolio will be realised within 12 months, however, an estimate of that amount cannot be determined as at reporting date.

In the case of net assets attributable to unit holders, the units are redeemable on demand at the unit holders' option. However, holders of these instruments typically retain them for the medium to long term. As such, the amount expected to be settled within 12 months cannot be reliably determined.

(i) Compliance with International Financial Reporting Standards (IFRS)

The financial statements of the Fund also comply with IFRS as issued by the International Accounting Standards Board (IASB).

(ii) New and amended standards adopted by the Fund

There are no standards, interpretations or amendments to existing standards that are effective for the first time for the financial year beginning 1 July 2022 that have a material impact on the amounts recognised in the prior periods or will affect the current or future periods.

(iii) New standards and interpretations not yet adopted

A number of new standards, amendments to standards and interpretations are effective for annual periods beginning after 1 July 2023 and have not been early adopted in preparing these financial statements.

None of these are expected to have material effect on financial statement of the Fund.

2 Summary of significant accounting policies (continued)

(b) Financial instruments

(i) Classification

- Financial assets

The Fund classifies their financial assets in the following measurement categories:

- those to be measured at fair value through profit or loss; and
- those to be measured at amortised cost.

The Fund classifies their financial assets based on their business model for managing those financial assets and the contractual cash flow characteristics of the financial assets.

The Fund's portfolio of financial assets are managed and their performance is evaluated on a fair value basis in accordance with the Fund's documented investment strategy. The Fund's policy is for the Investment Manager to evaluate the information about these financial assets on a fair value basis together with other related financial information.

Investments in unlisted collective investment schemes are measured at fair value through profit or loss.

For cash and cash equivalents and receivables, these assets are held in order to collect the contractual cash flows. The contractual terms of these assets give rise, on specified dates, to cash flows that are solely payments of principal and interest on the principal amount outstanding. Consequently, these are measured at amortised cost.

- Financial liabilities

For financial liabilities that are not classified and measured at fair value through profit or loss, these are classified as financial liabilities at amortised cost (due to brokers, distributions payable, management fee and cost payable and other payables).

(ii) Recognition and derecognition

The Fund recognises financial assets and financial liabilities on the date it becomes party to the contractual agreement (trade date) and recognises changes in the fair value of the financial assets or financial liabilities from this date.

Financial assets are derecognised when the rights to receive cash flows from the financial assets have expired or the Fund has transferred substantially all the risks and rewards of ownership. Financial liabilities are derecognised when the obligation under the liability is discharged, cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the statement of comprehensive income.

(iii) Measurement

- Financial instruments at fair value through profit or loss

At initial recognition, the Fund measures a financial asset and a financial liability at its fair value. Transaction costs of financial assets and liabilities carried at fair value through profit or loss are expensed in the statement of comprehensive income.

Subsequent to initial recognition, all financial assets and liabilities at fair value through profit or loss are measured at fair value. Gains and losses arising from changes in the fair value of 'financial assets or liabilities at fair value through profit or loss' category are presented in the statement of comprehensive income within 'net gains/(losses) on financial instruments at fair value through profit or loss' in the period in which they arise.

For further details on how the fair value of financial instruments is determined please see Note 4 to the financial statements.

- Financial instruments at amortised cost

For financial assets and financial liabilities at amortised cost, they are initially measured at fair value including directly attributable costs and are subsequently measured using the effective interest rate method less any allowance for expected credit losses.

Cash and cash equivalents and receivables are carried at amortised cost.

2 Summary of significant accounting policies (continued)

(b) Financial instruments (continued)

(iv) Impairment

At each reporting date, the Fund shall estimate a loss allowance on each of the financial assets carried at amortised cost (Cash and cash equivalents and receivables are carried at amortised cost) at an amount equal to the lifetime expected credit losses if the credit risk has increased significantly since initial recognition. If, at the reporting date, the credit risk has not increased significantly since initial recognition, the Fund shall measure the loss allowance at an amount equal to 12-month expected credit losses. Significant financial difficulties of the counter party, probability that the counter party will enter bankruptcy or financial reorganisation, and default in payments are all considered indicators that the asset is credit impaired. If the credit risk increases to the point that it is considered to be credit impaired, interest income will be calculated based on the net carrying amount adjusted for the loss allowance. A significant increase in credit risk is defined by management as any contractual payment which is more than 30 days past due. Any contractual payment which is more than 90 days past due is considered credit impaired.

The expected credit loss (ECL) approach is based on the difference between the contractual cash flows due in accordance with the contract and all the cash flows that the Fund expects to receive. The shortfall is then discounted at an approximation to the asset's original effective interest rate.

The amount of the impairment loss is recognised in the statement of comprehensive income within other expenses. When a trade receivable for which an impairment allowance had been recognised becomes uncollectible in a subsequent period, it is written off against the allowance account. Subsequent recoveries of amounts previously written off are credited against other expenses in the statement of comprehensive income.

(v) Offsetting financial instruments

Financial assets and liabilities are offset and the net amount is reported in the statement of financial position when the Fund has a legally enforceable right to offset the recognised amounts, and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously.

As at the end of the reporting period, there are no financial assets or liabilities offset or with the right to offset in the statement of financial position.

(c) Net assets attributable to unit holders

Units are redeemable at the unit holders' option; however, applications and redemptions may be suspended by the Responsible Entity if it is in the best interests of the unit holders.

The Fund's units are classified as equity when they satisfy the following criteria under AASB132 *Financial instruments: Presentation*:

- the puttable financial instrument entitles the holder to a pro-rata share of net assets in the event of the Fund's liquidation;
- the puttable financial instrument is in the class of instruments that is subordinate to all other classes of instruments and class features are identical;
- the puttable financial instrument does not include any contractual obligations to deliver cash or another financial asset, or to exchange financial instruments with another entity under potentially unfavourable conditions to the Fund, and it is not a contract settled in the Fund's own equity instruments; and
- the total expected cash flows attributable to the puttable financial instrument over the life are based substantially on the profit or loss.

The units in the Fund are classified as financial liabilities as they do not meet the requirements of equity in accordance with AASB 132 *Financial instruments: Presentation*.

The units can be put back to the Fund at any time for cash based on the current redemption price, which is equal to a proportionate share of the Fund's net asset value attributable to the unit holders.

The units are carried at the redemption amount that is payable at the reporting date if the holder exercises the right to put the units back to the Fund.

2 Summary of significant accounting policies (continued)

(d) Cash and cash equivalents

For the purpose of presentation in the statement of cash flows, cash and cash equivalents includes cash on hand, deposits held at call with financial institutions and other short term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

Payments and receipts relating to the purchase and sale of investment securities are classified as cash flows from operating activities, as trading of these securities represents the Fund's main income generating activity.

(e) Investment income

(i) Interest income

Interest income from financial assets at amortised cost is recognised using the effective interest method and includes interest from cash and cash equivalents.

The effective interest method is a method of calculating the amortised cost of a financial asset and of allocating the interest income over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments or receipts throughout the expected life of the financial instrument, or a shorter period where appropriate, to the net carrying amount of the financial asset. When calculating the effective interest rate, the Fund estimates cash flows considering all contractual terms of the financial instruments (for example, prepayment options) but does not consider future credit losses. The calculation includes all fees paid or received between the parties to the contract that are an integral part of the effective interest rate, including transaction costs and all other premiums or discounts.

Changes in fair value of financial instruments held at fair value through profit or loss are recorded in accordance with the policies described in Note 2(b) to the financial statements.

(ii) Dividends and distributions

Dividend income is recognised on the ex-dividend date with any related foreign withholding tax recorded as an expense. The Fund may incur withholding tax that may be imposed by certain countries on investment income. Such income is recorded gross of withholding tax in the statement of comprehensive income.

Trust distributions are recognised on an entitlement basis.

(f) Expenses

All expenses are recognised in the statement of comprehensive income on an accruals basis.

As per the Fund's Product Disclosure Statement (PDS), management fees include ordinary expenses such as the responsible entity fees, investment management fees, custody and administration fees, audit fees and other ordinary expenses, excluding transaction costs. The total of these ordinary expenses are capped at the rate disclosed in the PDS. If the ordinary expenses exceed the disclosed cap then the Investment Manager will cover the shortfall and reimburse this to the Fund.

(g) Income tax

Under current legislation, the Fund is not subject to income tax provided it attributes the entirety of its taxable income to its unit holders.

The Fund currently incurs withholding taxes imposed by certain countries on investment income and capital gains. Such income or gains are recorded gross of withholding taxes in the statement of comprehensive income. Withholding taxes are included in the statement of comprehensive income, as an expense.

(h) Distributions

The Fund may distribute its distributable income, in accordance with the Fund's Constitution, to unit holders by cash or reinvestment. The distributions are recognised in the statement of comprehensive income as finance costs attributable to unit holders.

(i) Increase/decrease in net assets attributable to unit holders

Income not distributed is included in net assets attributable to unit holders. As the Fund's units are classified as financial liabilities, movements in net assets attributable to unit holders are recognised in the statement of comprehensive income as finance costs.

2 Summary of significant accounting policies (continued)

(j) Foreign currency translation

(i) Functional and presentation currency

Balances included in the Fund's financial statements are measured using the currency of the primary economic environment in which it operates (the "functional currency"). This is the Australian dollar which reflects the currency of the economy in which the Fund competes for funds and is regulated. The Australian dollar is also the Fund's presentation currency.

(ii) Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translations at period end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognised in the statement of comprehensive income.

Non-monetary items that are measured at fair value in a foreign currency are translated using the exchange rates at the date when fair value was determined.

The Fund does not isolate that portion of unrealised gains or losses on securities and derivative financial instruments that are measured at fair value through profit or loss which is due to changes in foreign exchange rates. Such fluctuations are included in the net gains/(losses) on financial instruments at fair value through profit or loss.

(k) Due from/to brokers

Amounts due from/to brokers represent receivables for securities sold and payables for securities purchased that have been contracted for but not yet delivered by the end of the year. The due from brokers balance is held for collection and is recognised initially at fair value and subsequently measured at amortised cost.

(l) Receivables

Receivables may include amounts for interest, dividends and trust distributions. Dividends and trust distributions are accrued when the right to receive payment is established. Where applicable, interest is accrued on a daily basis. Amounts are generally received within 30 days of being recorded as receivables.

(m) Payables

Payables include liabilities and accrued expenses owed by the Fund which are unpaid as at the end of the reporting period.

A separate distribution payable is recognised in the statement of financial position.

Distributions declared effective 30 June in relation to unit holders who have previously elected to reinvest distributions are recognised as reinvested effective 1 July of the following financial year.

(n) Applications and redemptions

Applications received for units in the Fund are recorded net of any entry fees payable prior to the issue of units in the Fund. Redemptions from the Fund are recorded gross of any exit fees payable after the cancellation of units redeemed.

(o) Goods and services tax (GST)

The GST incurred on the costs of various services provided to the Fund by third parties such as management, administration and custodian services where applicable, have been passed on to the Fund. The Fund qualifies for Reduced Input Tax Credits (RITC) at a rate of at least 55%. Hence, fees for these services and any other expenses have been recognised in the statement of comprehensive income net of the amount of GST recoverable from the Australian Taxation Office (ATO). Amounts payable are inclusive of GST. The net amount of GST recoverable from the ATO is included in receivables in the statement of financial position. Cash flows relating to GST are included in the statement of cash flows on a gross basis.

(p) Use of estimates and judgments

The Fund makes estimates, assumptions and judgements that affect the reported amounts of assets and liabilities within the current and next financial period. Estimates and judgements are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

2 Summary of significant accounting policies (continued)

(p) Use of estimates and judgments (continued)

Models use observable data, to the extent practicable. However, areas such as credit risk (both own and counterparty), volatilities and correlations, require management to make estimates and judgements. Changes in assumptions about these factors could affect the reported fair value of financial instruments.

The Fund estimates that the resultant expected credit loss (ECL) derived from using impairment model, has not materially impacted the Fund. Please see Note 3 for more information on credit risk.

For more information on how fair value is calculated refer to Note 4 to the financial statements.

(q) Rounding of amounts

The Fund is an entity of a kind referred to in *ASIC Corporations (Rounding in Financial/Directors' Reports) Instrument 2016/191* relating to the "rounding off" of amounts in the financial statements. Amounts in the financial statements have been rounded to the nearest dollar, unless otherwise indicated.

(r) Comparative revisions

Comparative information has been revised where appropriate to enhance comparability. Where necessary, comparative figures have been adjusted to conform with changes in presentation in the current year.

3 Financial risk management

The Fund's activities expose them to a variety of financial risks including market risk (which incorporates price risk and interest rate risk), credit risk and liquidity risk.

The Fund's overall risk management programme focuses on ensuring compliance with the Fund's Product Disclosure Statement and the investment guidelines of the Fund. It also seeks to maximise the returns derived for the level of risk to which the Fund is exposed and seeks to minimise potential adverse effects on the Fund's financial performance. The Fund's policy allows it to use derivative financial instruments in managing its financial risks.

All investments present a risk of loss of capital. The maximum loss of capital on unlisted collective investment schemes is limited to the fair value of those positions.

The investments of the Fund, and associated risks, are managed by a specialist Investment Manager, T. Rowe Price Australia Limited ("TRP" or the "Investment Manager") under an Investment Management Agreement (IMA) approved by the Responsible Entity and containing the investment strategy and guidelines of the Fund, consistent with those stated in the Product Disclosure Statement.

The Fund uses different methods to measure different types of risk to which it is exposed. These methods are explained below.

(a) Market risk

(i) Price risk

The Fund is exposed to price risk on investments held by the Fund for which prices in the future are uncertain. Where non-monetary financial instruments are denominated in currencies other than the Australian dollar, the price in the future will also fluctuate because of changes in foreign exchange rates which are considered a component of price risk.

The Investment Manager uses research and analysis to monitor variables that elevate price risk and to minimize the downside impact of these variables on the Fund's investments. Additionally, the Investment Manager performs regular reviews of both large security positions held across all portfolios and large market exposure for the Fund.

The table at Note 3(b) summarises the sensitivities of the Fund's assets and liabilities to price risk. The analysis is based on the reasonably possible shift that the investment portfolio in which the Fund invests moves by +/- 10% (2022: +/- 10%).

(ii) Foreign exchange risk

The Fund operates internationally and holds both monetary and non-monetary assets denominated in currencies other than the Australian dollar. Foreign exchange risk arises as the value of monetary securities denominated in other currencies fluctuate due to changes in exchange rates. The foreign exchange risk relating to non-monetary assets and liabilities is a component of price risk and not foreign exchange risk. However, the Investment Manager monitors the exposure of all foreign currency denominated assets and liabilities.

3 Financial risk management (continued)

(a) Market risk (continued)

(ii) Foreign exchange risk (continued)

The Investment Manager performs regular reviews of currency exposure within the Fund. The Fund may enter into forward currency contracts designed to either hedge currency exposure from portfolio investments, or alternatively increase exposure to preferred foreign currencies.

(iii) Interest rate risk

Interest rate risk management is undertaken by maintaining as close to a fully invested position as possible thus limiting the exposure of the Fund to interest rate risk.

(b) Summarised sensitivity analysis

The following table summarises the sensitivity of the Fund's operating profit and net assets attributable to unit holders to market risks. The reasonably possible movements in the risk variables have been determined based on management's best estimates, having regard to a number of factors, including historical levels of changes in foreign exchange rates, interest rates and the historical correlation of the Fund's investments with the relevant benchmark and market volatility. However, actual movements in the risk variables may be greater or less than anticipated due to a number of factors, including unusually large market movements resulting from changes in the performance of and/or correlation between the performances of the economies, markets and securities in which the Fund invests. As a result, historic variations in risk variables should not be used to predict future variances in the risk variables.

	Price risk	
	\$	\$
As at 30 June 2023	47,662	(47,662)
As at 30 June 2022	43,634	(43,634)

(c) Credit risk

The Fund is exposed to credit risk, which is the risk that a counterparty will be unable to pay its obligations in full when they fall due, causing a financial loss to the Fund.

The Fund does not have a significant concentration of credit risk that arises from an exposure to a single counterparty or group of counterparties having similar characteristics. The main concentration of credit risk, to which the Fund is exposed, arises from cash and cash equivalents and amounts due from brokers balances. None of these assets are impaired nor past their due date. The maximum exposure to credit risk is the carrying of these balances at the reporting date.

(i) Settlement of securities transactions

All transactions in listed securities are settled/paid for upon delivery using approved brokers. The risk of default is considered low, as delivery of securities sold is only made once the broker has received payment. Payment is made once the securities purchased have been received by the broker. The trade will fail if either party fails to meet its obligations.

(ii) Cash and cash equivalents

The exposure to credit risk for cash and cash equivalents is low as all counterparties have a rating of A-1 (as determined by the S&P) or higher.

3 Financial risk management (continued)

(d) Liquidity risk

Liquidity risk is the risk that the Fund may not be able to generate sufficient cash resources to settle their obligations in full as they fall due or can only do so on terms that are materially disadvantageous.

Exposure to liquidity risk for the Fund may arise from the requirement to meet daily unit holder redemption requests or to fund foreign exchange related cash flow requirements.

Liquidity risk is managed by investing the majority of its assets in investments that can be readily disposed of.

In order to manage the Fund's overall liquidity, the Responsible Entity has the discretion to reject an application for units and to defer or adjust redemption of units if the exercise of such discretion is in the best interests of unit holders. The Fund did not reject or withhold any redemptions during 2023 and 2022.

(i) Maturities of non-derivative financial liabilities

All non-derivative financial liabilities of the Fund in the current period have maturities of less than 1 month.

4 Fair value measurement

The Fund measures and recognises financial assets and liabilities at fair value through profit or loss on a recurring basis.

- Financial assets at fair value through profit or loss (see Note 5)

The Fund has no assets or liabilities measured at fair value on a non-recurring basis in the current reporting period.

AASB 13 *Fair Value Measurement* requires disclosure of fair value measurements by level of the following fair value measurement hierarchy:

- Quoted prices (unadjusted) in active markets for identical assets or liabilities (level 1);
- Inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly or indirectly (level 2); and
- Inputs for the asset or liability that are not based on observable market data (unobservable inputs) (level 3).

The Fund values its investments in accordance with the accounting policies set out in Note 2 to the financial statements.

(a) Fair value in an inactive or unquoted market (level 2)

The fair value of financial assets and liabilities that are not traded in an active market is determined using valuation techniques. These include the use of recent arm's length market transactions, reference to the current fair value of a substantially similar other instrument, discounted cash flow techniques, option pricing models or any other valuation technique that provides a reliable estimate of prices obtained in actual market transactions.

Investments in unlisted collective investment schemes are recorded at the redemption value per unit as reported by the investment managers of such schemes. The Fund may make adjustments to the value based on considerations such as: liquidity of the investee scheme or its underlying investments, the value date of the net asset value provided, or any restrictions on redemptions and the basis of accounting.

Some of the inputs to these models may not be market observable and are therefore estimated based on assumptions. The output of a model is always an estimate or approximation of a value that cannot be determined with certainty, and valuation techniques employed may not fully reflect all factors relevant to the positions the Fund holds. Valuations are therefore adjusted, where appropriate, to allow for additional factors including liquidity risk and counterparty risk.

4 Fair value measurement (continued)

(b) Recognised fair value measurements

The table below presents the Fund's financial assets and liabilities measured and recognised at fair value as at 30 June 2023 and 30 June 2022.

Total financial assets	<u>-</u>	<u>436,337</u>	<u>-</u>	<u>436,337</u>

(c) Transfer between levels

Management's policy is to recognise transfers into and transfers out of fair value hierarchy levels as at the end of the reporting period.

There were no transfers between levels in the fair value hierarchy at the end of the reporting period (2022: nil).

(d) Financial instruments not carried at fair value

The carrying values of receivables and payables approximate their fair values due to their short-term nature.

Net assets attributable to unit holders' carrying value differs from its fair value (deemed to be redemption price for individual units) due to differences in valuation inputs. This difference is not material in the current or prior year.

An overview of the risk exposures and fair value measurements relating to financial assets at fair value through profit or loss is included in Note 3 and Note 4 to the financial statements.

6 Net assets attributable to unit holders - liability

The Fund's units are classified as a liability as they do not meet the definition of a financial instrument to be classified as equity.

Movements in the number of units and net assets attributable to unit holders during the year were as follows:

	Year ended 30 June 2023		Year ended 30 June 2022

Closing balance	294,923	262,250	286,335	251,971
Closing balance		467,896		434,863

As stipulated within the Fund's Constitution, each unit represents a right to an individual share in the Fund and does not extend to a right in the underlying assets of the Fund.

There are two separate classes of units. Each unit within the same class has the same rights as all other units within that class. Each unit class has a different management fee rate and investment restrictions.

Units are redeemed on demand at the unit holders' option. However, holders of these instruments typically retain them for the medium to long term. As such, the amount expected to be settled within twelve months after the end of the reporting period cannot be reliably determined.

Capital risk management

The Fund considers their net assets attributable to unit holders as capital, notwithstanding that net assets attributable to unit holders are classified as a liability. The amount of net assets attributable to unit holders can change significantly on a daily basis as the Fund is subject to daily applications and redemptions at the discretion of unit holders.

Daily applications and redemptions are reviewed relative to the liquidity of the Fund's underlying assets on a daily basis by the Responsible Entity. Under the terms of the Fund's Constitution, the Responsible Entity has the discretion to reject an application for units and to defer or adjust redemption of units if the exercise of such discretion is in the best interests of unit holders.

7 Structured entities

A structured entity is an entity that has been designed so that voting or similar rights are not the dominant factor in deciding who controls the entity, and the relevant activities are directed by means of contractual arrangement.

The Fund considers all investments in unlisted collective investment schemes (the "Schemes") to be structured entities. The Fund invests in Schemes for the purpose of capital appreciation and/or earning investment income.

The exposure to investments in related party Schemes at fair value, and any related party amounts recognised in the statement of comprehensive income is disclosed at Note 14(i) to the financial statements.

The fair value of the Schemes is included in financial assets at fair value through profit or loss in the statement of financial position.

7 Structured entities (continued)

The Fund's maximum exposure to loss from its interest in the Schemes is equal to the fair value of its investments in the Schemes as there are no off-balance sheet exposures relating to any of the Schemes. Once the Fund has disposed of its units in a Scheme, it ceases to be exposed to any risk from that Scheme.

As of 30 June 2023, investment in the Schemes was \$476,623 (2022: \$436,337). During the year ended 30 June 2023, net gains/(losses) on financial instruments at fair value through profit or loss in relation to the Schemes were \$(4,119) (2022: \$(134,669)). The Fund also earned distribution income of \$37,428 (2022: \$35,632) as a result of its interests in the Schemes.

8 Distributions to unit holders

Independent auditor's report

To the unit holders of T. Rowe Price Global High Income Fund

Our opinion

In our opinion:

The accompanying financial report of T. Rowe Price Global High Income Fund (the Fund) is in accordance with the *Corporations Act 2001*, including:

- (a) giving a true and fair view of the Fund's financial position as at 30 June 2023 and of its financial performance for the year then ended
- (b) complying with Australian Accounting Standards and the *Corporations Regulations 2001*.

What we have audited

The financial report comprises:

- the statement of financial position as at 30 June 2023
- the statement of comprehensive income for the year then ended
- the statement of changes in equity for the year then ended
- the statement of cash flows for the year then ended
- the notes to the financial statements, which include significant accounting policies and other explanatory information
- the directors' declaration.

Basis for opinion

We conducted our audit in accordance with Australian Auditing Standards. Our responsibilities under those standards are further described in the *Auditor's responsibilities for the audit of the financial report* section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence

We are independent of the Fund in accordance with the auditor independence requirements of the *Corporations Act 2001* and the ethical requirements of the Accounting Professional & Ethical Standards Board's APES 110 *Code of Ethics for Professional Accountants (including Independence Standards)* (the Code) that are relevant to our audit of the financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

Other information

The directors of Equity Trustees Limited (the Responsible Entity) are responsible for the other information. The other information comprises the information included in the annual report for the year ended 30 June 2023, but does not include the financial report and our auditor's report thereon.

Our opinion on the financial report does not cover the other information and accordingly we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial report, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial report or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

If, based on the work we have performed on the other information that we obtained prior to the date of this auditor's report, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the directors of the Responsible Entity for the financial report

The directors of the Responsible Entity are responsible for the preparation of the financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the directors of the Responsible Entity determines is necessary to enable the preparation of the financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

In preparing the financial report, the directors of the Responsible Entity are responsible for assessing the ability of the Fund to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors of the Responsible Entity either intends to liquidate the Fund or to cease operations, or have no realistic alternative but to do so.

Auditor's responsibilities for the audit of the financial report

Our objectives are to obtain reasonable assurance about whether the financial report as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Australian Auditing Standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of the financial report.

A further description of our responsibilities for the audit of the financial report is located at the Auditing and Assurance Standards Board website at:

https://www.auasb.gov.au/auditors_responsibilities/ar4.pdf. This description forms part of our auditor's report.
