1. About Equity Trustees Limited

The Responsible Entity

Equity Trustees Limited

Equity Trustees Limited ABN 46 004 031 298 AFSL 240975, a subsidiary of EQT Holdings Limited ABN 22 607 797 615, which is a public company listed on the Australian Securities Exchange (ASX: EQT), is the Trust's responsible entity and issuer of this PDS. Established as a trustee and executorial service provider by a special Act of the Victorian Parliament in 1888, today Equity Trustees is a dynamic financial services institution which continues to grow the breadth and quality of products and services on offer.

Equity Trustees' responsibilities and obligations as the Trust's responsible entity are governed by the Trust's constitution ("Constitution"), the Corporations Act and general trust law. Equity Trustees has appointed Heitman Real Estate Securities, LLC as the investment manager of the Trust. Equity Trustees has appointed a custodian to hold the assets of the Trust. The custodian has no supervisory role in relation to the operation of the Trust and is not responsible for protecting your interests.

The Investment Manager

Heitman Real Estate Securities, LLC

Heitman Real Estate Securities, LLC ("Heitman" or "Investment Manager") is a wholly owned subsidiary of Heitman LLC and is a global real estate investment management firm, which was established in 1966. The firm invests in commercial real estate directly and in publicly traded real estate securities. Heitman is one of the most experienced public real estate securities investment managers, having continuously managed portfolios in the United States since 1989 and globally since 2006. Heitman is registered with the U.S. Securities and Exchange Commission ("SEC") as an investment adviser. The Investment Manager is regulated by the SEC under US laws, which differ from Australian laws, and is exempt from the requirement to hold an AFSL in respect of the financial services it provides.

Heitman's dedicated Global Public Real Estate Securities team has offices in Chicago, London, Melbourne, Tokyo and Hong Kong. An additional research resource available to the Global Public Real Estate Securities team is Heitman's Research team, which consists of professionals located across several global offices who perform in-house, proprietary, in-depth research on property sectors in various markets. This data is communicated to Heitman's Public Real Estate Securities group in both formal and informal meetings and is used to frame investment strategies to capitalize on capital and property market opportunities.

2. How the Heitman Global Prime Real Estate Trust - Class B works

The Trust is a registered managed investment scheme governed by the Constitution. The Trust comprises assets which are acquired in accordance with the Trust's investment strategy. Direct investors receive units in the Class when they invest. In general, each unit represents an equal interest in the assets of the Class subject to liabilities; however, it does not give investors an interest in any particular asset of the Class.

If you invest in the Trust through an IDPS (as defined in the Reference Guide) you will not become an investor in the Trust. The operator or custodian of the IDPS will be the investor entered in the Trust's register and will be the only person who is able to exercise the rights and receive the benefits of a direct investor. Your investment in the Trust through the IDPS will be governed by the terms of your IDPS. Please direct any queries and requests relating to your investment to your IDPS Operator. Unless otherwise stated, the information in the PDS applies to direct investors.

Applying for units

You can acquire units by completing the Application Form that accompanies this PDS. The minimum initial investment amount for the Class is \$500,000.

Completed Application Forms should be sent along with your identification documents (if applicable) to:

Heitman Global Prime Real Estate Fund - Class B
c/o Link Fund Solutions
GPO Box 5482
Sydney NSW 2001

Please note that cash and cheques cannot be accepted.

We reserve the right to accept or reject applications in whole or in part at our discretion. We have the discretion to delay processing applications where we believe this to be in the best interest of the Trust investors.

The price at which units are acquired is determined in accordance with the Constitution ("Application Price"). The Application Price on a Business Day is, in general terms, equal to the Net Asset Value ("NAV") of the Class, divided by the number of units on issue for that Class and adjusted for transaction costs ("Buy Spread"). At the date of this PDS, the Buy Spread is 0.20%.

The Application Price will vary as the market value of assets in the Class rises or falls.

Making additional investments

You can make additional investments into the Class at any time by sending us your additional investment amount together with a completed Application Form. The minimum additional investment into the Trust is \$100,000.

Distributions

An investor's share of any distributable income is calculated in accordance with the Constitution and is generally based on the number of units held by the investor in the Class at the end of the distribution period.

The Trust usually distributes income quarterly at the end of June, September, December and March, however, Equity Trustees may change the distribution frequency without notice. Distributions are calculated effective the last day of each distribution period and are normally paid to investors as soon as practicable after the distribution calculation date.

Investors in the Trust can indicate a preference to have their distribution:

- reinvested back into the Trust; or
- directly credited to their Australian domiciled bank account.

Investors who do not indicate a preference will have their distributions automatically reinvested. Applications for reinvestment will be taken to be received immediately prior to the next Business Day after the relevant distribution period. There is no Buy Spread on distributions that are reinvested.

In some circumstances, the Constitution may allow for an investor's withdrawal proceeds to be taken to include a component of distributable income.

Indirect Investors should review their IDPS Guide for information on how and when they receive any income distribution.

Access to your money

Investors in the Trust can generally withdraw their investment by completing a written request to withdraw from the Trust and mailing it to:

Heitman Global Prime Real Estate Fund - Class B
c/o Link Fund Solutions
GPO Box 5482
Sydney NSW 2001

Or sending it by fax to +61 2 9221 1194

The minimum withdrawal amount in the Class is \$100,000. Once we receive and accept your withdrawal request, we may act on your instruction without further enquiry if the instruction bears your account number or investor details and your (apparent) signature(s), or your authorised signatory's (apparent) signature(s).

Equity Trustees will generally allow an investor to access their investment within 5 days of acceptance of a withdrawal request by transferring the withdrawal proceeds to such investors' nominated bank account. However, Equity Trustees is allowed to reject withdrawal requests, and also to make payment up to 21 days after acceptance of a request (which may be extended in certain circumstances) as outlined in the Constitution and Reference Guide.

We reserve the right to accept or reject withdrawal requests in whole or in part at our discretion.

The price at which units are withdrawn is determined in accordance with the Constitution ("Withdrawal Price"). The Withdrawal Price on a Business Day is, in general terms, equal to the NAV of the Class, divided by the number of units on issue for that Class and adjusted for transaction costs ("Sell Spread"). At the date of this PDS, the Sell Spread is 0.20%.

The Withdrawal Price will vary as the market value of assets in the Class rises or falls.

Equity Trustees reserves the right to fully redeem your investment if your investment balance in the Class falls below \$100,000 as a result of processing your withdrawal request. In certain circumstances, for example, when there is a freeze on withdrawals, where accepting a withdrawal is not in the best interests of investors in the Trust including due to one or more circumstances outside its control or where the Trust is not liquid (as defined in the Corporations Act), Equity Trustees can deny or suspend a withdrawal request and you may not be able to withdraw your funds in the usual processing times or at all. When the Trust is not liquid, an investor can only withdraw when Equity Trustees makes a withdrawal offer to investors in accordance with the Corporations Act. Equity Trustees is not obliged to make such offers.

If you are an Indirect Investor, you need to provide your withdrawal request directly to your IDPS Operator. The time to process a withdrawal request will depend on the particular IDPS Operator and the terms of the IDPS.

Unit pricing discretions policy

Equity Trustees has developed a formal written policy in relation to the guidelines and relevant factors taken into account when exercising any discretion in calculating unit prices (including determining the value of the assets and liabilities). A copy of the policy and, where applicable and to the extent required, any other relevant documents in relation to the policy will be made available free of charge on request.

Additional information

If and when the Trust has 100 or more direct investors, it will be classified by the Corporations Act as a 'disclosing entity'. As a disclosing entity, the Trust will be subject to regular reporting and disclosure obligations. Investors would then have a right to obtain a copy, free of charge, of any of the following documents:

- the most recent annual financial report lodged with ASIC ("Annual Report");
- any subsequent half yearly financial report lodged with ASIC after the lodgement of the Annual Report; and
- any continuous disclosure notices lodged with ASIC after the Annual Report but before the date of this PDS.

Equity Trustees will comply with any continuous disclosure obligation by lodging documents with ASIC as and when required.

Copies of these documents lodged with ASIC in relation to the Trust may be obtained from ASIC through ASIC's website.

3. Benefits of investing in the Heitman Global Prime Real Estate Trust - Class B

The Trust seeks to provide investors with access to a real estate securities portfolio consisting of listed property securities, with professional management teams that own top-tier properties in the world's dominant cities.

'Prime' markets and cities include some of the world's top metro areas, which are regarded as 'global gateway' markets that benefit from global trade including financial trade, have high barriers to entry, dominate their countries or regions, or provide high value niche goods and services. 'Prime' assets in prime markets are consistently in high demand for a number of reasons, such as locational advantage, prestige, attractive leases to quality tenants, stable income and stable or increasing value over long periods.

The Trust offers access to these markets and assets by only investing in securities that have at least 75% of their gross asset value in prime markets and over 50% invested in prime assets. As Heitman's research shows, this level of concentration in the targeted cities and properties is achievable in the listed market.

Significant benefits

Benefits of investing in the Trust include:

- the opportunity to benefit from the proprietary research and expertise of one of the industries most experienced real estate securities managers;
- offers focused exposure to a diverse portfolio of prime properties in prime markets that would otherwise be difficult or impossible for an individual investor to achieve via direct ownership;
- investors can benefit from diversification across markets, property types and professional management teams. Heitman has identified 30 prime markets primarily across North America, Europe and Asia-Pacific in which investments will be made in office, retail, residential, lodging/leisure and logistics property types;
- the ability to access your funds more quickly than if investing in direct property;
- aims to distribute quarterly; and
- governance of the Trust in accordance with its Constitution and the Corporations Act.

4. Risks of managed investment schemes

All investments carry risks. Different investment strategies may carry different levels of risk, depending on the assets acquired under the strategy. Assets with the highest long-term returns may also carry the highest level of short-term risk. The significant risks below should be considered in light of your risk profile when deciding whether to invest in the Trust. Your risk profile will vary depending on a range of factors, including your age, the investment time frame (how long you wish to invest for), your other investments or assets and your risk tolerance.

The Responsible Entity and the Investment Manager do not guarantee the liquidity of the Trust's investments, repayment of capital or any rate of return or the Trust's investment performance. The value of the Trust's investments will vary. Returns are not guaranteed and you may lose money by investing in the Trust. The level of returns will vary and future returns may differ from past returns. Laws affecting managed investment schemes may change in the future. The structure and administration of the Trust is also subject to change.

In addition, we do not offer advice that takes into account your personal financial situation, including advice about whether the Trust is suitable for your circumstances. If you require personal financial or taxation advice, you should contact a licensed financial adviser and/or taxation adviser.

Company specific risk

The value of the investment in a company may vary because of change to management, changes to its financial or operating circumstances, actions of regulators or competitors or changes to the market environment the company operates in. These factors may cause a company's share price to perform differently to that of the broader market. The Trust may therefore underperform the market and/or its peers due to its company specific exposures. The Investment Manager aims to reduce these risks by conducting thorough analysis and research of the Trust's investments.

Currency risk

The assets of the Trust will be denominated in a variety of foreign currencies, and the exchange rates of those currencies compared to each other and the Australian dollar may change over time. Any changes to exchange rates will therefore affect the Trust when its assets are valued in Australian dollars. For example, a change in the value of the Australian dollar relative to other currencies may negatively impact the value of an investment in the Trust. No management of the foreign currency exposure relative to the Australian dollar is undertaken for the Trust.

Cyber security risk

This is the risk that the information technology systems used by us and our service providers when managing and operating the Trust may expose the Trust to potential cyber security breaches including but not limited to unauthorised access to and/or erroneous use of proprietary information, unitholder's personal information or Trust data.

Trust risk

Risks particular to the Trust include the risk that it could be terminated, the fees and expenses could change, GSFS could be replaced as Responsible Entity and Heitman could be replaced as Investment Manager and its portfolio managers could change. There is also a risk that investing in the Trust may give different results from holding the underlying assets because of income or capital gains accrued in the Trust at the time of investing and the consequences of investment and withdrawal by other investors. You could receive back less than you invested and there is no guarantee that you will receive any income. GSFS aims to keep Trust risk to a minimum by monitoring how these risks may impact on the Trust and by acting in the unit holders' best interests.

Interest rate risk

Changes in interest rates can have a positive or negative impact directly or indirectly on investment values or returns.

International investments risk

Investing in international securities poses additional risks. The performance of international securities can be adversely affected by the different political, regulatory and economic environments in countries where the Trust invests, and fluctuations in foreign currency exchange rates may also adversely affect the value of foreign securities.

Investment Manager risk

The risk that in implementing the Trust's investment strategy the Investment Manager's investment decisions will not achieve the Trust's return objectives.

Liquidity risk

Liquidity risk is the risk that due to abnormal or extreme market conditions it may be difficult to sell an asset quickly without adversely impacting the price received. The Trust invests in securities listed on stock exchanges in various countries, and if there is an interruption of regular trading in a market, or for a particular asset of the Trust, there may be delays in processing withdrawal requests. Similarly, for some securities in the Trust where the volume of trading is low, the ability to liquidate those securities in a timely manner may be impacted. The Investment Manager closely monitors cash levels in the Trust to manage this risk and ensure that there is adequate liquidity to meet the needs of unit holders in ordinary circumstances.

Market risk

Changes in legal, tax and economic conditions, political events, investor sentiment and market variables such as interest rates and exchange rates can all directly or indirectly create an environment that may influence (negatively or positively) the value of your investments.

Operational risk

The Trust's day to day operations may be adversely affected by circumstances beyond the reasonable control of the Responsible Entity, such as failure of technology or infrastructure, or natural disasters.

Real estate investment risk

The Trust invests in companies in the real estate industry, which subjects it to the risks involved with investing in real estate. These may include, but are not limited to fluctuations in the values of the underlying properties; changes in general and local economic conditions; decreases in market rates for rents; defaults by borrowers or tenants; increases in competition; property taxes, capital expenditures, or operating expenses and other economic, political and regulatory occurrences affecting companies in the real estate industry. In addition, the Trust invests in Equity Real Estate Investment Trusts (REITs), which involves certain other risks related to their structure and focus, including but not limited to dependency upon management skills; limited diversification; the risks of locating and managing financing for projects; heavy cash flow dependency; the costs and potential losses from selling property holdings; property vacancies; increases in property taxes and operating expenses; changes to zoning laws; rising interest rates; the risk of lack of mortgage funds and financing; and changes in demographics, which could influence supply and demand for certain types of properties. The Investment Manager aims to reduce these risks by conducting thorough analysis and research of the Trust's investments.

Regulatory risk

Regulatory risk is the risk that a change in government policies, laws and regulations (including taxation) may adversely affect the value of an investment in the Trust or its underlying assets.

Sector concentration risk

The Trust invests solely in the real estate sector as classified by the Global Industry Classification Standard (GICS). This means that compared with funds that are broadly diversified and invest across several sectors and industry groups, the Trust may be subject to increased volatility in the Trust's unit price and poor performance, as an individual sector or industry can be more strongly affected by changes in the economic climate, broad market shifts, price movements in a dominant stock or stocks in the sector, or regulatory changes.

Service provider risk

The risk that third party service providers engaged by the Responsible Entity to provide certain services to the Trust including for example, administration, custody and valuation services, do not properly perform their obligations and duties and cause harm to the Trust.

5. How we invest your money

Warning: Before choosing to invest in the Trust you should consider the likely investment returns, the risks of investing and your investment time frame.

Investment objective

The Trust aims to achieve an annual total return of the G7 CPI plus 5% over rolling 3 year periods.

Benchmark

Performance is referenced to G7 CPI plus 5% over rolling 3 year periods.

Minimum suggested time frame

5 years

Risk level of the Trust

High

Compared to an investment in funds that have invested in assets such as fixed interest or cash there is a relatively high risk of the value of your investment going down in any year. See Section 4 'Risks of managed investment schemes' for further information on the risks of an investment in the Trust.

Investor suitability

The Trust is designed for investors who want a medium to long term exposure to a portfolio of high quality global real estate securities with the potential for income and capital gains, and who are prepared to accept the risks of the Trust set out in Section 4 'Risks of managed investment schemes.'

Investment style and approach

The Trust seeks to provide investors with access to a portfolio of liquid real estate securities consisting of shares of listed property companies that own top-tier properties in the world's dominant cities.

Heitman believes that over the long term, prime real estate markets and prime assets will outperform other segments of the real estate market. By applying its knowledge gained over decades in the industry Heitman seeks to uncover mispricing opportunities that others may miss.

Heitman believes that as a key component of managing a portfolio of real estate securities is a thorough understanding of the current investment landscape in which the companies are operating, Heitman begins with an in depth analysis of the long term fundamentals of global real estate markets. Real estate securities are selected for the investment universe using GICS. Heitman screens all the securities within this universe based upon free float market capitalization for size and a daily trading volume threshold for liquidity, Heitman's company analysts then conduct screening using a combination of qualitative and quantitative tools to identify those companies that have more than 75% of their gross asset value in prime markets and more than 50% of their assets under management in prime assets.

The portfolio is rebalanced on a quarterly basis.

Asset allocation

The Trust seeks to invest across prime markets primarily in North America, Europe and Asia-Pacific; property types; and professional management teams. The portfolio will generally comprise between 60-100 stocks and includes Equity Real Estate Investment Trusts (REITs), landlords and developers. The Trust will not invest directly in real estate.

The Trust is not managed relative to any global real estate securities index for portfolio construction, risk management or relative return.

The base currency of the Trust is the Australian dollar (AUD). No management of the foreign currency exposure relative to the Australian dollar is undertaken for the Trust.

Asset classes and asset allocation ranges

	Minimum**	Maximum**
Cash*	0%	10%
Global Listed Real Estate Securities	90%	100%

* Including cash equivalent securities.

** The investment guidelines provide an indication of the intended holdings in the Trust and may be higher or lower from time to time.

Changing the investment strategy

The investment strategy and asset allocation parameters may be changed. If a change is to be made, investors in the Trust will be notified in accordance with the Corporations Act.

Labour, environmental, social and ethical considerations

Equity Trustees and Heitman do not take into account labour standards or environmental, social or ethical considerations for the purpose of selecting, retaining or realising investments of the Trust.

Trust performance

Please see www.heitman.com for information about the Trust's performance, including performance history.

Due to the historical nature of performance information and the volatility of returns, past returns are not a reliable indicator of future returns.

6. Fees and costs

DID YOU KNOW?

Small differences in both investment performance and fees and costs can have a substantial impact on your long-term returns.

For example, total annual fees and costs of 2% of your account balance rather than 1% could reduce your final return by up to 20% over a 30 year period (for example, reduce it from \$100,000 to \$80,000).

You should consider whether features such as superior investment performance or the provision of better member services justify higher fees and costs.

You may be able to negotiate to pay lower contribution fees and management costs where applicable. Ask the fund or your financial adviser.

TO FIND OUT MORE

If you would like to find out more, or see the impact of the fees based on your own circumstances, the **Australian Securities and Investments Commission (ASIC)** website (www.moneysmart.gov.au) has a managed funds fee calculator to help you check out different fee options.

The information in the following template can be used to compare costs between different simple managed investment schemes. Fees and costs can be paid directly from an investor's account or deducted from investment returns. For information on tax please see Section 7 of this PDS.

TYPE OF FEE OR COST	AMOUNT
Fees when your money moves in or out of the Trust	
Establishment fee	Nil
Contribution fee	Nil
Withdrawal fee	Nil
Termination fee	Nil
Management costs	
The fees and costs for managing your investment ¹	Management fees: 0.44% p.a. of the NAV of the Class ²

¹ All fees quoted above are inclusive of Goods and Services Tax (GST) and net of any Reduced Input Tax Credits (RITC). See below for more details as to how management costs are calculated.

² Management fees can be negotiated. See "Differential fees" below.

Additional Explanation of fees and costs

What do the management costs pay for?

Management costs comprise the additional fees or costs that an investor incurs by investing in the Trust rather than by investing directly in the underlying assets of the Trust.

Management costs include management fees. In addition, management costs do not include transactional and operational costs (i.e. costs associated with investing the underlying assets, some of which may be met by Buy/Sell Spreads).

Management fees

The management fees of 0.44% p.a. of the NAV of the Class are payable to the Responsible Entity of the Trust for managing the assets and overseeing the operations of the Trust. The management fees are accrued daily and paid from the Trust monthly in arrears and reflected in the unit price. As at the date of this PDS, ordinary expenses such as investment management fees, custodian fees, administration and audit fees, and other ordinary expenses of operating the Trust are covered by the management fees at no additional charge to you.

The management fees shown above do not include extraordinary expenses (if they are incurred in future), such as litigation costs and the costs of convening investor meetings.

Transactional and operational costs

In managing the assets of the Trust, the Trust may incur transactional and operational costs such as brokerage, settlement costs, clearing costs and applicable stamp duty when assets are bought and sold, and the costs of derivatives used for hedging purposes (if applicable). This generally happens when the assets of the Trust are changed in connection with day-to-day trading or when there are applications or withdrawals which cause net cash flows into or out of the Trust.

The Buy/Sell Spread reflects the estimated transaction costs incurred in buying or selling assets of the Trust when investors invest in or withdraw from the Trust. The Buy/Sell Spread is an additional cost to the investor but is incorporated into the unit price and incurred when an investor invests in or withdraws from the Trust and is not separately charged to the investor. The Buy Spread is paid into the Trust as part of an application and the Sell Spread is left in the Trust as part of a redemption and not paid to Equity Trustees or the Investment Manager. The estimated Buy/Sell Spread is 0.20% upon entry and 0.20% upon exit. The dollar value of these costs based on an application or a withdrawal of \$500,000 is \$1,000 for each individual transaction. The Buy/Sell Spread can be altered by the Responsible Entity at any time. The Responsible Entity may also waive the Buy/Sell Spread in part or in full at its discretion.

Transactional costs which are incurred other than in connection with applications and withdrawals arise through the day-to-day trading of the Trust's assets and are reflected in the Trust's unit price. As these costs are factored into the NAV of the Trust and reflected in the unit price, they are an additional implicit cost to the investor and are not a fee paid to the Responsible Entity. These costs can arise as a result of bid-offer spreads (the difference between an asset's bid/buy price and offer/ask price) being applied to securities traded by the Trust. Liquid securities generally have a lower bid-offer spread while less liquid assets have a higher bid-offer spread reflecting the compensation taken by market makers in providing liquidity for that asset.

We estimate that the total transaction costs for the Trust over the first full financial year will be 0.41% of the NAV of the Trust, of which 48.78% of these transaction costs is reasonably estimated to be recouped via the Buy/Sell Spread when applications or redemptions take place, resulting in a net transaction cost to the Trust of 0.21% p.a.

However, actual transactional and operational costs for future years may differ.

Can the fees change?

Yes, all fees can change without investor consent, subject to the maximum fee amounts specified in the Constitution. Equity Trustees has the right to recover all reasonable expenses incurred in relation to the proper performance of its duties in managing the Trust and as such these expenses may increase or decrease accordingly. We will generally provide investors with at least 30 days' notice of any proposed change to the management costs. In most circumstances, the Constitution defines the maximum level that can be charged for fees described in this PDS. Expense recoveries may change without notice, for example, when it is necessary to protect the interests of existing members and if permitted by law.

Payments to IDPS Operators

Subject to the law, annual payments may be made to some IDPS Operators because they offer the Trust on their investment menus. A reasonable fee for services may be paid by the Investment Manager out of its investment management fee and is not an additional cost to the investor. If the payment of such a fee to IDPS Operators is limited or prohibited by the law, Equity Trustees will ensure the payment of such fees is reduced or ceased.

Differential fees

The Responsible Entity or Investment Manager may from time to time negotiate a different fee arrangement (by way of a rebate or waiver of fees) with certain investors who are Australian Wholesale Clients.

Example of annual fees and costs for the Trust

This table gives an example of how the fees and costs for this managed investment product can affect your investment over a 1 year period. You should use this table to compare this product with other managed investment products.

EXAMPLE – Heitman Global Prime Real Estate Trust - Class B		
BALANCE OF \$500,000 WITH A CONTRIBUTION OF \$5,000 DURING THE YEAR		
Contribution Fees	Nil	For every additional \$5,000 you put in, you will be charged \$0
Plus Management costs	0.44% p.a.	And, for every \$500,000 you have in the Trust you will be charged \$2,200 each year
Equals Cost of Trust		If you had an investment of \$500,000 at the beginning of the year and you put in an additional \$5,000 during that year, you would be charged fees of: \$2,200* What it costs you will depend on the fees you negotiate.

This example assumes the \$5,000 contribution occurs at the end of the first year, therefore management costs are calculated using the \$500,000 balance only.

* Additional fees may apply. Please note that this example does not capture all the fees and costs that may apply to you such as the Buy/Sell Spread.

Warning: If you have consulted a financial adviser, you may pay additional fees. You should refer to the Statement of Advice or Financial Services Guide provided by your financial adviser in which details of the fees are set out.

ASIC provides a fee calculator on www.moneysmart.gov.au, which you may use to calculate the effects of fees and costs on account balances.

7. How managed investment schemes are taxed

Warning: Investing in a registered managed investment scheme (such as the Trust) is likely to have tax consequences. You are strongly advised to seek your own professional tax advice about the applicable Australian tax (including income tax, GST and duty) consequences and, if appropriate, foreign tax consequences which may apply to you based on your particular circumstances before investing in the Trust.

The Trust is an Australian resident for tax purposes and does not generally pay tax on behalf of its investors. Australian resident investors are assessed for tax on any income and capital gains generated by the Trust to which they become presently entitled or, where the Trust has made a choice to be an Attribution Managed Investment Trust ("AMIT") and the choice is effective for the income year, are attributed to them.

You should read the important information in the Reference Guide about Taxation under the "Other important information" section before making a decision. 8. How to apply

To invest please complete the Application Form accompanying this PDS, send funds (see details in the Application Form) and your completed Application Form to:

Heitman Global Prime Real Estate Fund - Class B
c/o Link Fund Solutions
GPO Box 5482
Sydney NSW 2001

Please note that cash and cheques cannot be accepted and all applications must be made in Australian dollars.

Who can invest?

Eligible persons (as detailed in the 'About this PDS' section) can invest, however individual investors must be 18 years of age or over.

Investors investing through an IDPS should use the application form provided by their IDPS Operator.

Cooling off period

No cooling off period applies to the offer made in this PDS, as the units offered under this PDS are only available to Wholesale Clients.

Indirect Investors should seek advice from their IDPS Operator as to whether cooling off rights apply to an investment in the Trust by the IDPS. The right to cool off in relation to the Trust is not directly available to an Indirect Investor. This is because an Indirect Investor does not acquire the rights of a unit holder in the Trust. Rather, an Indirect Investor directs the IDPS Operator to arrange for their monies to be invested in the Trust on their behalf. The terms and conditions of the IDPS Guide or similar type document will govern an Indirect Investor's investment in relation to the Trust and any rights an Indirect Investor may have in this regard.

***Terms and conditions for collection of Tax File Numbers (TFN) and Australian Business Numbers (ABN)**

Collection of TFN and ABN information is authorised and its use and disclosure strictly regulated by tax laws and the Privacy Act. Investors must only provide an ABN instead of a TFN when the investment is made in the course of their enterprise. You are not obliged to provide either your TFN or ABN, but if you do not provide either or claim an exemption, we are required to deduct tax from your distribution at the highest marginal tax rate plus Medicare levy to meet Australian taxation law requirements.

For more information about the use of TFNs for investments, contact the enquiries section of your local branch of the ATO. Once provided, your TFN will be applied automatically to any future investments in the Fund/Trust where formal application procedures are not required (e.g. distribution reinvestments), unless you indicate, at any time, that you do not wish to quote a TFN for a particular investment. **Exempt investors should attach a copy of the certificate of exemption.** For super funds or trusts list only the applicable ABN or TFN for the super fund or trust.

When you sign this Application Form you declare that you have read, agree to and make the declarations above
