1. About Equity Trustees Limited

Equity Trustees Limited

Equity Trustees Limited ABN 46 004 031 298 AFSL 240975 ("Equity Trustees"), a subsidiary of EQT Holdings Limited ABN 22 607 797 615, which is a public company listed on the Australian Securities Exchange (ASX: EQT), is the Fund's Responsible Entity and issuer of this PDS. Established as a trustee and executorial service provider by a special Act of the Victorian Parliament in 1888, today Equity Trustees is a dynamic financial services institution which continues to grow the breadth and quality of products and services on offer. Equity Trustees' responsibilities and obligations as the Fund's Responsible Entity are governed by the Fund's constitution ("Constitution"), the Corporations Act and general trust law.

Equity Trustees has appointed Contrarius Investment Management Limited as the investment manager of the Fund. Equity Trustees has appointed a custodian to hold the assets of the Fund. The custodian has no supervisory role in relation to the operation of the Fund and is not responsible for protecting your interests.

Contrarius Investment Management Limited

Equity Trustees has appointed Contrarius Investment Management Limited ("Contrarius"), a company incorporated in Jersey and licensed by the Jersey Financial Services Commission, to invest and manage the Fund's assets according to the investment guidelines in this PDS. The sole distributor of the Fund in Australia is Contrarius Investment Advisory Pty Limited ABN 48 618 145 449 ("Contrarius Australia"), an Australian-incorporated company with AFSL No. 506315. Contrarius and Contrarius Australia are part of the Contrarius Group. The Contrarius Group was established in 2008.

The Contrarius Group has offices in Jersey (Channel Islands), Bermuda, United Kingdom, Australia and South Africa, and manages assets of approximately \$3.3 billion as at the end of June 2023. More information about the Contrarius Group is available at www.contrarius.com.

2. How the Contrarius Global Equity Fund (Australia Registered) works

The Fund is a registered managed investment scheme governed by the Constitution. The Fund comprises assets which are acquired in accordance with the Fund's investment strategy. When you invest your money in the Class, your money is pooled together with other investors' money. Contrarius uses this pool to buy investments and manage them on behalf of all investors in the Class in accordance with the Fund's investment strategy set out in section 5 'How we invest your money'. Your return will mirror the return of the Class' underlying investments, after expenses.

Direct investors receive units in the Class when they invest. In general, each unit represents an equal interest in the assets of the Class subject to liabilities; however, it does not give investors an interest in any particular asset of the Class or the Fund.

If you invest in the Class through an IDPS (as defined in the Reference Guide) you will become an indirect investor in the Class. The operator or custodian of the IDPS will be the direct investor entered in the Fund's register and will be the only person who is able to exercise the rights and receive the benefits of a direct investor. Your investment in the Class through the IDPS will be governed by the terms of your IDPS. Please direct any queries and requests relating to your investment to your IDPS Operator. Unless otherwise stated, the information in the PDS applies to direct investors.

Units and unit prices

The price at which units are acquired is determined in accordance with the Constitution ("Application Price"). The Application Price on a Business Day (as defined in the Reference Guide) is, in general terms, equal to the Net Asset Value ("NAV") of the Class, divided by the number of units on issue and adjusted for transaction costs ("Buy Spread"). At the date of this PDS, the Buy Spread is 0.25%. The Application Price will vary as the market value of assets in the Fund associated with the Class rises or falls.

The price at which units are withdrawn is determined in accordance with the Constitution ("Withdrawal Price"). The Withdrawal Price on a Business Day is, in general terms, equal to the NAV of the Class, divided by the number of units on issue and adjusted for transaction costs ("Sell Spread"). At the date of this PDS, the Sell Spread is 0.25%. The Withdrawal Price will vary as the market value of assets in the Fund associated with the Class rises or falls.

Equity Trustees has developed a formal written policy in relation to the guidelines and relevant factors taken into account when exercising any discretion in calculating unit prices (including determining the value of the assets and liabilities). A copy of the policy and, where applicable and to the extent required, any other relevant documents in relation to the policy will be made available free of charge on request.

Investing in the Fund

You can acquire Institutional Class A units in the Fund by sending us a correctly completed Application Form together with the required supporting identification documentation. The minimum initial investment amount for the Class is \$25,000,000. The minimum additional investment in the Class is \$100,000. All amounts are in Australian dollars unless otherwise specified. Refer to section 8 'How to apply' for more information on investing in the Class.

Distributions

An investor's share of any distributable income is calculated in accordance with the Constitution and is generally based on the number of units held by the investor at the end of the distribution period. The Fund usually distributes income annually at the end of June. Distributions are calculated effective the last day of the accounting period and are normally paid to investors as soon as practicable after the distribution calculation date. Investors in the Class can indicate a preference to have their distribution reinvested back into the Class; or directly credited to their Australian domiciled bank account. Investors who do not indicate a preference will have their distributions automatically reinvested.

Applications for reinvestment will be taken to be received prior to the next Business Day after the relevant distribution period. There is no Buy Spread on distributions that are reinvested. In some circumstances, where an investor makes a large withdrawal request (i.e. the withdrawal request is in respect of 5% or more of the Fund's NAV), their withdrawal proceeds may be taken to

include a component of distributable income.

Indirect Investors should review their IDPS Guide for information on how and when they receive any income distribution before investing in the Fund.

Withdrawing your investment in the Fund

You can generally redeem some or all of your investment at any time, as long as the withdrawal request is for at least \$100,000. To do this, please send to us a completed written withdrawal request. You can request a specified dollar amount to be withdrawn, a specified number of units to be withdrawn, or a full withdrawal of your investment in the Class. If your withdrawal request results in your remaining investment in the Class falling below \$25,000,000, we may require you to withdraw your entire balance.

Equity Trustees will generally allow an investor to receive payment within 7 Business Days of acceptance of a withdrawal request by transferring the withdrawal proceeds to such investor's nominated Australian domiciled bank account. However, the Constitution allows Equity Trustees to reject withdrawal requests in whole or in part in our discretion and also to make payment up to 21 days after acceptance of a request (which may be extended in certain circumstances) as outlined in the Constitution and Reference Guide.

Equity Trustees can deny or suspend a withdrawal request in certain circumstances, including where accepting the request is not in the best interests of investors in the Fund or where the Fund is not liquid (as defined in the Corporations Act). When the Fund is not liquid, an investor can only withdraw when Equity Trustees makes a withdrawal offer to investors in accordance with the Corporations Act. Equity Trustees is not obliged to make such offers.

If you are an Indirect Investor, you need to provide your withdrawal request directly to your IDPS Operator. The time to process a withdrawal request will depend on the particular IDPS Operator and the terms of the IDPS.

Minimum investment and withdrawal amounts and the cut-off times for processing transactions

Initial investment	Minimum of \$25,000,000. See section 8 'How to apply'.
Additional investments	Minimum of \$100,000. See section 8 'How to apply'.
Withdrawal	Minimum of \$100,000. We normally pay withdrawal proceeds within 7 Business Days after receipt of a valid withdrawal request. Under some circumstances, such as if there is a freeze on withdrawals, you may not be able to redeem from the Fund when you wish to.
Processing applications or withdrawals (cut-off times)	If we receive all applicable application or withdrawal documents before or at 2pm (Sydney time) on a Business Day, we will process the transaction using that day's application or withdrawal price. Requests received after 2pm (Sydney time) on a Business Day or non-Business Day will generally be treated as having been received before the cut-off time on the next Business Day. A day will not be a Business Day if it is a Saturday, Sunday or a public holiday in Sydney or New York. See section 8 'How to apply'.

3. Benefits of investing in the Contrarius Global Equity Fund (Australia Registered)

Significant features

The Fund aims to achieve over the long-term higher returns than the average of the world's equity markets, as represented by the MSCI World Index (including reinvested net income) without greater risk of loss. The following are significant features of the Fund:

- A contrarian, valuation-based investment philosophy that relies on fundamental bottom-up research with a long-term investment horizon.
- Securities are selected using proprietary investment research.
- Substantially invested in selected global equities and equity-related securities at all times.
- The Fund does not seek to replicate the Benchmark. The Fund is actively managed and its holdings may differ materially from the Benchmark in order to achieve its objective.
- The Fund has no sector, geographic or other market investment targets.
- Currency exposure can significantly influence returns.

Significant benefits

Investing in the Fund offers investors a range of benefits, including:

- Access to a consistent investment approach – Contrarius has more than fifteen years of proven experience in managing global equities.
- Access to global investment expertise – Contrarius has investment analysts located in various offices that allows independent

thinking and different perspectives to inform our proprietary research effort.

- Access to global investment opportunities that may not otherwise be easily accessible by individual investors.

4. Risks of managed investment schemes

All investments carry risks. Different investment strategies may carry different levels of risk, depending on the assets acquired under the strategy. Assets with the highest long-term returns may also carry the highest level of short-term risk. The significant risks below should be considered in light of your risk profile when deciding whether to invest in the Class. Your risk profile will vary depending on a range of factors, including your age, the investment time frame (how long you wish to invest for), your other investments or assets and your risk tolerance.

The Responsible Entity and Investment Manager do not guarantee the liquidity of the Fund's investments, repayment of capital or any rate of return or the Fund's investment performance. The value of the Fund's investments will vary. Returns are not guaranteed and you may lose money by investing in the Class. The level of returns will vary and future returns may differ from past returns. Laws affecting managed investment schemes may change in the future. The structure and administration of the Fund is also subject to change.

In addition, we do not offer advice that takes into account your personal financial situation, including advice about whether the Class is suitable for your circumstances. If you require personal financial advice, you should contact a licensed financial adviser.

Borrowing risk: This is the risk associated with the Fund being unable to repay borrowings. The Fund is not permitted to borrow other than to meet withdrawals, with such borrowing limited to 10% of the net assets of the Fund and repayable within 90 days.

Company specific risk: Investments by the Fund in a company's securities will be subject to many of the risks to which that particular company is itself exposed. These risks may impact the value of the securities of that company. These risks include factors such as changes in management, actions of competitors and regulators, changes in technology and market trends.

Concentration risk: As the Fund will hold a concentrated portfolio of investments, returns of the Class may be dependent upon the performance of individual companies. The concentrated exposure may lead to increased volatility in the Class' unit price, and increased risk of poor performance.

Counterparty risk: The Fund may have credit exposure to counterparties by virtue of investment positions in options, repurchase transactions and forward exchange rate and other contracts held by the Fund. To the extent that a counterparty defaults on its obligation and the Fund is delayed or prevented from exercising its rights with respect to the investments in its portfolio, it may experience a decline in the value of its position, lose income and incur costs associated with asserting its rights.

Currency risk: As the Fund's assets are not specifically hedged in Australian dollar, a movement in the Australian dollar relative to other currencies may negatively impact investment values and returns. Currency markets can be extremely volatile and are subject to a range of unpredictable forces. The investment manager may or may not try to mitigate this risk by using financial instruments. Any use of forward foreign currency contracts is to hedge currency risk and is not intended to create a short position in a currency.

Derivatives risk: The value of a derivative is derived from the value of an underlying asset and can be highly volatile. Changes in the value of derivatives may occur due to a range of factors that include rises or falls in the value of the derivative in line with movements in the value of the underlying asset, potential liquidity of the derivative and counterparty credit risk. A range of financial derivatives, for example futures and options, may be used to manage risk in the Fund, subject to guidelines.

Fund risk: Fund risk refers to specific risks associated with the Fund, such as termination and changes to fees and expenses. The performance of the Fund or the security of an investor's capital is not guaranteed. There is no guarantee that the investment strategy of the Fund will be managed successfully, or will meet its objectives. Failure to do so could negatively impact the performance of the Fund. An investment in the Fund is governed by the terms of the Fund's Constitution and this PDS, each as amended from time to time. Equity Trustees may elect, in accordance with the Fund's Constitution and the Corporations Act 2001, to terminate the Fund for any reason.

Key personnel risk: The skill and performance of Contrarius as investment manager can have a significant impact (both directly and indirectly) on the investment returns of the Fund. Changes in key personnel and resources of Contrarius may also have a material impact on investment returns on the Fund.

Liquidity of investments risk: Whilst the Fund is exposed to listed entities which are generally considered to be liquid investments, under extreme market conditions there is a risk that such investments cannot be readily converted into cash or at an appropriate price. In such circumstances, the Fund may be unable to liquidate sufficient assets to meet its obligations, including payment of withdrawals, within required timeframes or it may be required to sell assets at a substantial loss in order to do so. Neither Equity Trustees nor the Investment Manager guarantees the liquidity of the Fund's investments.

Market risk: There is a risk that the market price of the Fund's assets will fluctuate. This may be as a result of factors such as economic conditions, government regulations, market sentiment, local and international political events, pandemic outbreaks, environmental and technological issues. In addition, the Fund may invest in markets considered to be 'emerging'. Such markets are generally less mature and developed than those in advanced countries and there are significant risks involved.

Performance risk: There is a risk that the Fund may not achieve its investment objectives.

Further reading You should read the important information in the Reference Guide under "Risks of managed investment schemes" before making an investment decision. Go to the Reference Guide which is available at www.contrarius.com or www.eqt.com.au/insto. The material relating to risks may change between the time you read this PDS and the day when you acquire the product.

5. How we invest your money

Warning Before choosing to invest in the Class you should consider the likely investment returns, the risks of investing in the Fund and your investment time frame.

Fund investment profile	
Investment objective	To achieve higher returns than the average of the world's equity markets, without greater risk of loss over the long term.
Benchmark	MSCI World Index (with net dividends reinvested), expressed in AUD.
Investment approach	Valuation based We seek to buy stocks that we believe are trading below their underlying intrinsic value.
	Contrarian We are often attracted to shares that are disliked by others, but only if we believe the company offers value as an investment.
	Long-term We focus on understanding a company's intrinsic value, rather than trying to forecast the next share price move.
	Fundamental We concentrate on 'bottom up' research to determine the underlying intrinsic value of an investment.
Investment strategy	The Fund relies on Contrarius' valuation-based, contrarian investment philosophy to identify global investments, based on defined investment restrictions.
Fund prices and performance	The Fund is priced in Australian dollars. Currency exposure is not specifically hedged against AUD. For up-to-date information on the performance of the Fund, including daily unit prices and performance history, please visit www.contrarius.com .
Fund restrictions	
Issuers	No more than 5% of the Fund's net asset value will be invested in securities issued by one issuer except that positions of up to 10% are allowed as long as not more than 40% in total is invested in positions of more than 5%.
Holdings	The Fund will not hold more than 10% of a company's issued voting shares.
Listed securities	No more than 10% of the Fund's net asset value may be invested in securities which are not listed on or dealt in Regulated Markets.
Collective investment schemes	No more than 10% of the Fund's net asset value may be invested in collective investment schemes.
Options	No more than 5% of the Fund's net asset value may be actively invested in listed call warrants or listed call options, unless sufficient cash or near cash/cash equivalents is set aside to provide for the aggregate exercise prices of such warrants or options.
Derivatives	The Fund may only use foreign exchange (currency) contracts to manage exchange risk and exchange traded derivatives to more efficiently gain an economic exposure. The Fund does not enter into a derivatives transaction to reduce its exposure to overall world stock markets and does not actively target net negative currency exposures. The Fund may, however, use foreign exchange (currency) contracts to switch its exposure from one currency to another. The Fund may not transact in uncovered equity derivatives.
Borrowing	The Fund may not borrow other than to meet withdrawals. Such borrowing is limited to 10% of the Fund's net asset value and must be repaid within 90 days.
Investment grade	Any investment by the Fund in interest-bearing non-equity linked securities is restricted to investment grade securities.
Labour standards or environmental, social and ethical considerations	EQT has delegated the investment function (including ESG responsibilities) to the Investment Manager and the Investment Manager has contemplated that 'Labour, Environmental, Social and Ethical considerations may be taken into account in relation to the investment of the Fund'. Labour standards and environmental, social and ethical considerations are only taken into account to the extent that they may have a material impact on the long-term financial value of an investment. Contrarius does not apply formal environmental, social and governance ("ESG") standards in selecting, retaining or realising investments and has not developed a methodology or weighting system for considering how ESG impacts an investment decision.
Variation	Contrarius is allowed to make an investment which is not consistent with the investment restrictions if Equity Trustees and Contrarius agree that the investment is not a material departure from the investment restrictions.
Investor profile	
Investor suitability	An investment in the Class is intended for investors who are seeking a portfolio that is substantially fully invested in and exposed to global stocks at all times and who therefore accept exposure to movements in world markets.
Risk level of the Fund	High
Investment duration	The minimum suggested time frame for investment in the Fund is more than 5 years.

6. Fees and costs

DID YOU KNOW?

Small differences in both investment performance and fees and costs can have a substantial impact on your long-term returns.

For example, total annual fees and costs of 2% of your investment balance rather than 1% could reduce your final return by up to 20% over a 30-year period (for example, reduce it from \$100,000 to \$80,000).

You should consider whether features such as superior investment performance or the provision of better member services justify higher fees and costs.

You may be able to negotiate to pay lower fees. Ask the fund or your financial adviser.

TO FIND OUT MORE.

If you would like to find out more, or see the impact of the fees based on your own circumstances, the **Australian Securities and Investments Commission (ASIC) Moneysmart website** (www.moneysmart.gov.au) has a managed funds fee calculator to help you check out different fee options.

Fees and other costs

This section shows fees and other costs that you may be charged. These fees and costs may be deducted from your money, from the returns on your investment or from the assets of the managed investment scheme as a whole.

Example of annual fees and costs for an investment option

This table gives an example of how the ongoing annual fees and costs for the investment option for this product can affect your investment over a one-year period. You should use this table to compare this product with other products offered by managed investment schemes.

Example – Contrarius Global Equity Fund (Australia Registered) – Institutional Class A		Balance of \$25,050,000 with a contribution of \$100,000 during the year
Contribution fee	Nil	For every additional \$100,000 you put in, you will be charged \$0.
<u>plus</u> Management fees and costs	0.70% p.a.	And for every \$25,050,000 you have in the Class you will be charged \$175,350 each year.
<u>plus</u> Performance fees	0.04% p.a.	And, you will be charged or have deducted from your investment \$10,020 in performance fees each year.
<u>plus</u> Transaction costs	0.17% p.a.	And, you will be charged or have deducted from your investment \$42,585 in transaction costs.
<u>equals</u> Cost of Contrarius Global Equity Fund (Australia Registered) – Institutional Class A	0.91% p.a.	If you had an investment of \$25,050,000 at the beginning of the year and you put in an additional \$100,000 during that year, you would be charged fees from \$227,955. [†] What it costs you will depend on the investment option you choose and the fees you negotiate.

[†] Additional fees may apply. Please note that this example does not capture all the fees and costs that may apply to you such as the buy/sell spread. This example assumes the \$100,000 additional contribution occurs on the last Business Day of that year and that the value of the investment is otherwise consistent, and therefore fees and costs are calculated on the \$25,050,000 investment only.

Warning If you have consulted a financial adviser, you may pay additional fees. You should refer to the Statement of Advice or Financial Services Guide provided by your financial adviser in which details of the fees are set out.

ASIC provides a fee calculator on www.moneysmart.gov.au, which you may use to calculate the effects of fees and costs on account balances. The performance fees stated in this table are based on the average performance fee for the Class, generally over the previous five financial years. The performance of the Class for this financial year, and the performance fees, may be higher or lower or not payable in the future. It is not a forecast of the performance of the Class or the amount of the performance fees in the future.

The indirect costs and other expenses component of management fees and costs and transaction costs may also be based on estimates. As a result, the total fees and costs that you are charged may differ from the figures shown in the table.

Further reading You should read the important information in the Reference Guide under "Additional information on fees and costs" about the fees and costs associated with investing in the Fund before making an investment decision. Go to the Reference Guide which is available at www.contrarius.com or www.eqt.com.au/insto. The material relating to these matters may change between the time when you read this PDS and the day when you acquire the product.

7. How managed investment schemes are taxed

Warning Investing in a registered managed investment scheme (such as the Fund) is likely to have tax consequences. You are strongly advised to seek your own professional tax advice based on your specific circumstances before investing in the Fund.

The Fund is an Australian resident for tax purposes and does not generally pay tax on behalf of its investors. Australian resident investors are assessed for tax on any income and capital gains generated by the Fund to which they become presently entitled or, where the Fund has made a choice to be an Attribution Managed Investment Trust ("AMIT"), and the choice is effective for the income year, are attributed to them.

Further reading. If applicable, you should read the important information in the Reference Guide under "Important information" about AMIT before making an investment decision. Go to the Reference Guide which is available at www.contrarius.com or www.eqt.com.au/insto. HELP

Tell me about tax residence

You can be a resident of more than one country for tax purposes. Whether you are tax resident of a particular country for tax purposes is often based on the amount of time you spend in a country and the location of your residence and/or place of work. If you pay tax or have a tax liability somewhere, you are probably a tax resident there. Dual citizenship often brings dual tax residency. It depends on the country. For the US, tax residency can be as a result of citizenship or residency for tax purposes. (incl. Green Card holders and residency under the substantial presence test).

If you're unsure, ask someone who knows, usually your accountant.

HELP

What is a TIN?

This is short for Taxpayer Identification Number, an identification number issued or used by tax authorities. In Australia, the equivalent is the tax file number (TFN). For the US, it could for example be a US Social Security Number, a US Individual Taxpayer Identification Number or a US Employer Identification Number. In other countries, it may have a different name.

Other than the US or Australia.

What is a financial institution?

This includes:

1. **an investment entity** - any entity that conducts certain activities or operations for or on behalf of a customer, including:
 - 'trading in money market instruments' and other relevant instruments
 - 'individual and collective portfolio management'
 - 'investing, administering, or managing funds or money on behalf of other persons'.

However, any trading, investing, administering or managing of financial assets on behalf of other persons must be done as a business. Note that financial assets does not include direct interests in real property.

An entity is also an investment entity if it is managed by another investment entity, depository institution, custodial institution or other prescribed entity and its gross income is primarily attributable to investing reinvesting or trading in financial assets.

So, as general rules:

- managed investment schemes are investment entities
- trusts with professional corporate trustees (and often professional corporate investment managers) often are investment entities, such as unregistered (wholesale) managed investment schemes
- discretionary family trusts are not usually investment entities, even if they have someone managing the trust's assets for them.

The ATO gives some help in this, and it's worth seeking advice if you are unsure: ato.gov.au/General/International-tax-agreements/In-detail/International-arrangements/FATCA-detailed-guidance

2. **a depository institution**
you accept deposits in the ordinary course of a banking or similar business e.g. a bank
3. **a custodial institution**
a substantial portion of your business (20% or more of gross income) has been held in financial assets for the account of others for the previous three years or since the establishment of the entity e.g. a custodian
4. **certain prescribed entities**
e.g. types of insurance companies that have cash value products or annuities.

This stands for Global Intermediary Identification Number. GIINs are 19 digits long, issued by US tax authorities (the IRS) to non-US financial institutions and sponsoring entities for purposes of identifying their registration with the IRS under US tax laws (called FATCA).

HELP

What is 'Active' and 'Passive'?

A Non-Financial Entity (NFE) is any entity that is not a financial institution as defined above.

You will be a Passive NFE if you are not an Active NFE.

Generally, you will be an Active NFE if:

- your stock (or a related entity's stock) is regularly traded on established securities market
- less than 50% of your gross income for the previous reporting period was passive income and less than 50% of your assets during that period produce or were held to produce passive income
- you are a Governmental entity, an international organisation, a central bank or an entity wholly owned by one of the above
- you are exempt from income tax in your residential jurisdiction and were established and operated exclusively for religious, charitable, scientific, artistic, athletic or educational purposes and meet certain other specific criteria, or
- you have not been a financial institution in the past five years and are in the process of liquidating your assets or reorganising with the intent to recommence operations other than as a financial institution.

If you are unsure whether you are an Active or Passive NFE, please get advice.

3.6 If you are Passive NFE, do you have any 'Controlling Persons' who are resident of another country for tax purposes?

- I am passive, and **YES** I do have Controlling Persons who are resident of another country for tax purposes
- If you ticked the above box, please complete the Controlling Persons details on the next page. If there is not enough room in the table, or in case there are more than four Controlling Persons, please copy the page and attach it to your completed form. ► then go to **Section 4 Signatures**
- I am passive, but **NO** I do not have controlling persons who are resident of another country for tax purposes
- It would be unusual to think of no-one. Please read the **HELP** box. If you're sure ► go to **Section 4 Signatures**

HELP

Controlling persons

The term 'Controlling Persons' (under CRS and FATCA) means the natural persons who exercise control over an entity. For an Entity that is a legal person, control over an Entity is generally exercised by the natural person(s) who ultimately has a controlling ownership interest in the Entity. A controlling ownership interest depends on the ownership structure of the legal person and may be identified on the basis of a threshold, e.g. including only persons owning more than a certain percentage of the Entity. Where no natural person(s) exercises control through ownership interest, the Controlling Person(s) of the Entity will be the natural person(s) who exercises control of the Entity through other means. Where no natural person(s) is identified as exercising control of the Entity, the Controlling Person(s) of the Entity will be the natural person(s) who holds the position of senior managing official.

In the case of a trust, the term Controlling Persons means the settlor(s), the trustee(s), the protector(s) (if any), the beneficiary(ies) or class(es) of beneficiaries, and any other natural person(s) exercising ultimate effective control over the trust. The settlor(s), the trustee(s), the protector(s) (if any), and the beneficiary(ies) or class(es) of beneficiaries, must always be treated as Controlling Persons of a trust, regardless of whether or not any of them exercises control over the trust. In the case of a legal arrangement other than a trust, Controlling Person(s) means persons in equivalent or similar positions.

- For companies, use 25% as a touchstone – if a person holds 25% or more of the issued capital or voting rights, best to list them.
- For trusts (other than discretionary trusts), the law requires that you list all beneficiaries, and also requires that you drill down through the chain of control or ownership to find the natural person(s) that ultimately control the trust.
- Where no natural person(s) exercise control through ownership, consider who might exercise control through other means – directors and perhaps senior managing officials.

Tell me about tax residence

You can be a resident of more than one country for tax purposes. Whether you are tax resident of a particular country for tax purposes is often based on the amount of time you spend in a country and the location of your residence and/or place of work. If you pay tax or have a tax liability somewhere, you are probably a tax resident there. Dual citizenship often brings dual tax residency. It depends on the country. For the US, tax residency can be as a result of citizenship or residency for tax purposes. (incl. Green Card holders and residency under the substantial presence test).

If you're unsure, ask someone who knows, usually your accountant.

HELP

What is a TIN?

This is short for Taxpayer Identification Number, an identification number issued or used by tax authorities. In Australia, the equivalent is the tax file number (TFN). For the US, it could for example be a US Social Security Number, a US Individual Taxpayer Identification Number or a US Employer Identification Number. In other countries, it may have a different name.

What is a financial institution?

This includes:

1. **an investment entity** - any entity that conducts certain activities or operations for or on behalf of a customer, including:
 - 'trading in money market instruments' and other relevant instruments
 - 'individual and collective portfolio management'
 - 'investing, administering, or managing funds or money on behalf of other persons'.

However, any trading, investing, administering or managing of financial assets on behalf of other persons must be done as a business. Note that financial assets does not include direct interests in real property.

An entity is also an investment entity if it is managed by another investment entity, depository institution, custodial institution or other prescribed entity and its gross income is primarily attributable to investing reinvesting or trading in financial assets.

So, as general rules:

- managed investment schemes are investment entities
- trusts with professional corporate trustees (and often professional corporate investment managers) often are investment entities, such as unregistered (wholesale) managed investment schemes
- discretionary family trusts are not usually investment entities, even if they have someone managing the trust's assets for them.

The ATO gives some help in this, and it's worth seeking advice if you are unsure: ato.gov.au/General/International-tax-agreements/In-detail/International-arrangements/FATCA-detailed-guidance

2. **a depository institution**
you accept deposits in the ordinary course of a banking or similar business e.g. a bank
3. **a custodial institution**
a substantial portion of your business (20% or more of gross income) has been held in financial assets for the account of others for the previous three years or since the establishment of the entity e.g. a custodian
4. **certain prescribed entities**
e.g. types of insurance companies that have cash value products or annuities.

What is 'Active' and 'Passive'?

A Non-Financial Entity (NFE) is any entity that is not a financial institution as defined above.

You will be a Passive NFE if you are not an Active NFE.

Generally, you will be an Active NFE if:

- your stock (or a related entity's stock) is regularly traded on established securities market
- less than 50% of your gross income for the previous reporting period was passive income and less than 50% of your assets during that period produce or were held to produce passive income
- you are a Governmental entity, an international organisation, a central bank or an entity wholly owned by one of the above
- you are exempt from income tax in your residential jurisdiction and were established and operated exclusively for religious, charitable, scientific, artistic, athletic or educational purposes and meet certain other specific criteria, or
- you have not been a financial institution in the past five years and are in the process of liquidating your assets or reorganising with the intent to recommence operations other than as a financial institution.

If you are unsure whether you are an Active or Passive NFE, please get advice.

3.6 If you are Passive NFE, do you have any 'Controlling Persons' who are resident of another country for tax purposes?

- I am passive, and **YES** I do have Controlling Persons who are resident of another country for tax purposes
- If you ticked the above box, please complete the Controlling Persons details on the next page. If there is not enough room in the table, or in case there are more than four Controlling Persons, please copy the page and attach it to your completed form. ► then go to **Section 4 Signatures**
- I am passive, but **NO** I do not have controlling persons who are resident of another country for tax purposes
- It would be unusual to think of no-one. Please read the **HELP** box. If you're sure ► go to **Section 4 Signatures**

HELP

Controlling persons

The term 'Controlling Persons' (under CRS and FATCA) means the natural persons who exercise control over an entity. For an Entity that is a legal person, control over an Entity is generally exercised by the natural person(s) who ultimately has a controlling ownership interest in the Entity. A controlling ownership interest depends on the ownership structure of the legal person and may be identified on the basis of a threshold, e.g. including only persons owning more than a certain percentage of the Entity. Where no natural person(s) exercises control through ownership interest, the Controlling Person(s) of the Entity will be the natural person(s) who exercises control of the Entity through other means. Where no natural person(s) is identified as exercising control of the Entity, the Controlling Person(s) of the Entity will be the natural person(s) who holds the position of senior managing official.

In the case of a trust, the term Controlling Persons means the settlor(s), the trustee(s), the protector(s) (if any), the beneficiary(ies) or class(es) of beneficiaries, and any other natural person(s) exercising ultimate effective control over the trust. The settlor(s), the trustee(s), the protector(s) (if any), and the beneficiary(ies) or class(es) of beneficiaries, must always be treated as Controlling Persons of a trust, regardless of whether or not any of them exercises control over the trust. In the case of a legal arrangement other than a trust, Controlling Person(s) means persons in equivalent or similar positions.

- For companies, use 25% as a touchstone – if a person holds 25% or more of the issued capital or voting rights, best to list them.
- For trusts (other than discretionary trusts), the law requires that you list all beneficiaries, and also requires that you drill down through the chain of control or ownership to find the natural person(s) that ultimately control the trust.
- Where no natural person(s) exercise control through ownership, consider who might exercise control through other means – directors and perhaps senior managing officials.
