1. About Equity Trustees Limited

The Responsible Entity

Equity Trustees Limited

Equity Trustees Limited ABN 46 004 031 298 AFSL 240975, a subsidiary of EQT Holdings Limited ABN 22 607 797 615, which is a public company listed on the Australian Securities Exchange (ASX: EQT), is the Trust's responsible entity and issuer of this PDS. Established as a trustee and executorial service provider by a special Act of the Victorian Parliament in 1888, today Equity Trustees is a dynamic financial services institution which continues to grow the breadth and quality of products and services on offer.

Equity Trustees' responsibilities and obligations as the Trust's responsible entity are governed by the Trust's constitution ("Constitution"), the Corporations Act and general trust law. Equity Trustees has appointed MFS International Australia Pty Ltd as the investment manager of the Trust. Equity Trustees has appointed a custodian to hold the assets of the Trust. The custodian has no supervisory role in relation to the operation of the Trust and is not responsible for protecting your interests.

The Investment Manager

MFS International Australia Pty Ltd

MFS International Australia Pty Ltd ("MFSIA") is the investment manager of the Trust and a member of the MFS Investment Management group of companies ("MFS"). Established in 1924, MFS is an active, global asset manager with investment offices in Boston, Hong Kong, London, Mexico City, São Paulo, Singapore, Sydney, Tokyo and Toronto. MFSIA has delegated the investment management of the Trust to another member of MFS, MFS Institutional Advisors, Inc., a US SEC registered investment adviser. MFS is a member of the Sun Life Financial group of companies.

2. How the MFS Concentrated Global Equity Trust works

The Trust is a registered managed investment scheme governed by the Constitution. The Trust comprises assets which are acquired in accordance with the Trust's investment strategy. Direct investors receive units in the Trust when they invest. In general, each unit represents an equal interest in the assets of the Trust subject to liabilities; however, it does not give investors an interest in any particular asset of the Trust.

If you invest in the Trust through an IDPS (as defined in the Reference Guide) you will not become a unitholder in the Trust. The operator or custodian of the IDPS will be the unitholder entered in the Trust's register and will be the only person who is able to exercise the rights and receive benefits of a unitholder. Please direct any queries and requests relating to your investment to your IDPS Operator. Unless otherwise stated, the following explanation applies to direct investors.

Applying for units

You can acquire units by completing the Application Form that accompanies this PDS. The minimum initial investment amount for the Trust is \$500,000.

Completed Application Forms should be sent along with your identification documents (if applicable) to:

MFS International Australia Pty Ltd,
Applications and Withdrawals,
C/- Unit Registry,
Level 14, 420 George Street,
Sydney, NSW 2000.

Please note that cash cannot be accepted.

We reserve the right to accept or reject applications in whole or in part at our discretion. We have the discretion to delay processing applications where we believe this to be in the best interest of the Trust's investors.

The price at which units are acquired is determined in accordance with the Constitution ("Application Price"). The Application Price on a Business Day is, in general terms, equal to the Net Asset Value ("NAV") of the Trust, divided by the number of units on issue and adjusted for transaction costs ("Buy Spread"). At the date of this PDS, the Buy Spread is 0.25%.

The Application Price will vary as the market value of assets in the Trust rises or falls.

Making additional investments

You can make additional investments into the Trust at any time by sending us your additional investment amount together with a completed Application Form. There is no minimum additional investment into the Trust.

Distributions

An investor's share of any distributable income is calculated in accordance with the Constitution and is generally based on the number of units held by the investor at the end of the distribution period.

The Trust usually distributes income annually at 30 June. Distributions are calculated effective the last day of each distribution period and are normally paid to investors as soon as practicable after the distribution calculation date.

Investors in the Trust can indicate a preference to have their distribution:

- reinvested back into the Trust; or
- directly credited to their Australian domiciled bank account.

Investors who do not indicate a preference will have their distributions automatically reinvested. Applications for reinvestment will be taken to be received immediately prior to the next Business Day after the relevant distribution period. There is no Buy Spread on distributions that are reinvested.

In some circumstances, the Constitution may allow for an investor's withdrawal proceeds to be taken to include a component of distributable income.

Indirect Investors should review their IDPS Guide for information on how and when they receive any income distribution.

New Zealand investors can only have their distribution paid in cash if an AUD Australian domiciled bank account is provided, otherwise it must be reinvested (refer to the MFS Trusts New Zealand Wholesale Investor Fact Sheet).

Access to your money

Investors in the Trust can generally withdraw their investment by completing a written request to withdraw from the Trust and mailing it to:

MFS International Australia Pty Ltd,
Applications and Withdrawals,
C/- Unit Registry,
Level 14, 420 George Street,
Sydney, NSW 2000.

Or sending it by fax to +612 9323 6411

The minimum withdrawal amount is \$50. Once we receive and accept your withdrawal request, we may act on your instruction without further enquiry if the instruction bears your account number or investor details and your (apparent) signature(s), or your authorised signatory's (apparent) signature(s).

Equity Trustees will generally allow an investor to access their investment within 3 Business Days of acceptance of a withdrawal request by transferring the withdrawal proceeds to such investors' nominated bank account. However, Equity Trustees is allowed to reject withdrawal requests, and also to make payment up to 30 days after acceptance of a request (which may be extended in certain circumstances) as outlined in the Constitution and Reference Guide.

We reserve the right to accept or reject withdrawal requests in whole or in part at our discretion.

The price at which units are withdrawn is determined in accordance with the Constitution (“Withdrawal Price”). The Withdrawal Price on a Business Day is, in general terms, equal to the NAV of the Trust, divided by the number of units on issue and adjusted for transaction costs (“Sell Spread”). At the date of this PDS, the Sell Spread is 0.25%.

The Withdrawal Price will vary as the market value of assets in the Trust rises or falls.

Equity Trustees reserves the right to fully redeem your investment if your investment balance in the Trust falls below \$500,000 as a result of processing your withdrawal request. In certain circumstances, for example, when there is a freeze on withdrawals, where accepting a withdrawal is not in the best interests of investors in the Trust including due to one or more circumstances outside its control or where the Trust is not liquid (as defined in the Corporations Act), Equity Trustees can deny or suspend a withdrawal request and you may not be able to withdraw your funds in the usual processing times or at all. When the Trust is not liquid, an investor can only withdraw when Equity Trustees makes a withdrawal offer to investors in accordance with the Corporations Act. Equity Trustees is not obliged to make such offers.

If you are an Indirect Investor, you need to provide your withdrawal request directly to your IDPS Operator. The time to process a withdrawal request will depend on the particular IDPS Operator and the terms of the IDPS.

Unit pricing discretions policy

Equity Trustees has developed a formal written policy in relation to the guidelines and relevant factors taken into account when exercising any discretion in calculating unit prices (including determining the value of the assets and liabilities). A copy of the policy and, where applicable and to the extent required, any other relevant documents in relation to the policy will be made available free of charge on request.

Additional information

If and when the Trust has 100 or more direct investors, it will be classified by the Corporations Act as a ‘disclosing entity’. As a disclosing entity, the Trust will be subject to regular reporting and disclosure obligations. Investors would then have a right to obtain a copy, free of charge, of any of the following documents:

- the most recent annual financial report lodged with ASIC (“Annual Report”);
- any subsequent half yearly financial report lodged with ASIC after the lodgement of the Annual Report; and
- any continuous disclosure notices lodged with ASIC after the Annual Report but before the date of this PDS.

Equity Trustees will comply with any continuous disclosure obligation by lodging documents with ASIC as and when required.

Copies of these documents lodged with ASIC in relation to the Trust may be obtained from ASIC through ASIC’s website.

3. Benefits of investing in the MFS Concentrated Global Equity Trust

An investment in the Trust provides the benefits of professional research and management, diversification and liquidity.

MFS has a strong collaborative approach to building better insights for clients. These insights are derived from three guiding principles – integrated research, global collaboration, and active risk management. The firm believes the application of these principles and the combined insights across fundamental equity, quantitative and credit perspectives is what enables it to deliver sustainable, long-term returns for clients.

The firm’s key competitive advantage is its team-based, collaborative culture. Strong firm culture develops through years of experience and through the collective contributions of the people who enjoy working for the organisation. MFS believes this culture is a catalyst for its results and distinguishes it from its competitors.

Style Consistency MFS seeks to identify investments that provide above average, sustainable growth and returns at attractive valuations relative to the market.

Seeks Strong Risk Adjusted Returns MFS believes that stock selection, based upon Fundamental Research, is the main driver to long-term performance, and can potentially lead to strong risk-adjusted returns. For an explanation of “Fundamental Research”, please see the Glossary in the Reference Guide.

Global Research Integrated research is the foundation of MFS’ approach to investing. A culture based on collaboration and teamwork enables MFS to have a globally integrated network of research analysts and portfolio managers based in Boston and eight other sites around the world (Hong Kong, London, Mexico City, São Paulo, Singapore, Sydney, Tokyo and Toronto) that serves as the basis for all investment decisions.

Risk Management MFS focuses on the sustainability of growth and returns and on downside risk, which MFS believes helps to avoid investing in stocks whose growth promises may prove too good to be true.

Efficient Portfolio Management MFS’ size as a firm provides the depth of resources and access to company management required to be a successful global manager while, at the portfolio level, MFS is able to quickly and efficiently take advantage of opportunities across all market capitalisation ranges.

4. Risks of managed investment schemes

All investments carry risks. Different investment strategies may carry different levels of risk, depending on the assets acquired under the strategy. Assets with the highest long-term returns may also carry the highest level of short-term risk. The principal risks below should be considered in light of your risk profile when deciding whether to invest in the Trust. Your risk profile will vary depending on a range of factors, including your age, the investment time frame (how long you wish to invest for), your other investments or assets and your risk tolerance.

The Responsible Entity and the Investment Manager do not guarantee the liquidity of the Trust’s investments, repayment of capital or any rate of return or the Trust’s investment performance. The value of the Trust’s investments will vary. Returns are not guaranteed and you may lose money by investing in the Trust. The level of returns will vary and future returns may differ from past returns. Laws affecting managed investment schemes may change in the future. The structure and administration of the Trust is also subject to change.

In addition, we do not offer advice that takes into account your personal financial situation, including advice about whether the Trust is suitable for your circumstances. If you require personal financial or taxation advice, you should contact a licensed financial adviser and/or taxation adviser.

Concentration Risk

Because the Trust invests in a limited number of issuers, the Trust's performance will be affected by the economic, industry, political, regulatory, geopolitical, and other conditions that impact one issuer or issuers, and could be more volatile than the performance of more diversified funds.

Counterparty Risk

Counterparty risk is the risk that any of Equity Trustees' or MFS' counterparties, including any derivative counterparties, custodians, any issuer or guarantor of securities held by the Trust, or other third party responsible for servicing a security or effecting a transaction, becomes insolvent or cannot or will not otherwise perform in accordance with the terms of the transaction or arrangement.

Currency Risk

The value of foreign currencies relative to the Australian dollar fluctuates in response to market, economic, industry, political, regulatory, geopolitical, and other conditions, and changes in currency exchange rates impact the financial condition of companies or other issuers and may change the value in Australian dollars of investments denominated in foreign currencies.

Derivatives Risk

Derivatives can be highly volatile and involve risks in addition to, and potentially greater than, the risks of the underlying indicator(s) on which the derivative is based. Gains or losses from Derivatives can be substantially greater than the Derivatives' original cost and can sometimes be unlimited. Derivatives can involve leverage.

Equity Market/Company Risk

Equity markets are volatile and can decline significantly in response to, or investor perceptions of, issuer, market, economic, industry, political, regulatory, geopolitical, and other conditions. These conditions can affect a single issuer or type of security, issuers within a broad market sector, industry or geographic region, or the equity markets in general. Certain events can have a dramatic adverse effect on equity markets and may lead to periods of high volatility in an equity market or a segment of an equity market.

Focus Risk

Issuers in a single industry, sector, country, or region can react similarly to market, currency, political, economic, regulatory, geopolitical, and other conditions, and the Trust's performance will be affected by the conditions in the industries, sectors, countries and regions to which the Trust is exposed.

Foreign and Emerging Markets Risk

Exposure to foreign markets, especially emerging markets, through issuers or currencies can involve additional risks relating to market, economic, industry, political, regulatory, geopolitical, and other conditions. These factors can make foreign investments, especially those in emerging markets, more volatile and less liquid than Australian investments. In addition, foreign markets can react differently to these conditions than the Australian market. Emerging markets can have less developed markets, greater custody and operational risk, less developed legal, regulatory, and accounting systems, and greater political, social, and economic instability than developed markets.

Investment Selection Risk

MFS' investment analysis and its selection of investments may not produce the intended results and/or can lead to an investment focus that results in the Trust underperforming other funds with similar investment strategies and/or underperforming the markets in which the Trust invests.

Legal Risk

The Trust may be affected by the actions of governments and regulatory bodies. Legislation (including legislation relating to tax) or regulation may be introduced which inhibits the Trust from pursuing its strategy or which renders an existing strategy less profitable than anticipated.

Liquidity Risk

It may be difficult to value, and it may not be possible to sell, certain investments, types of investments, and/or investments in certain segments of the market, and the Trust may have to sell certain of these investments at a price or time that is not advantageous in order to meet redemptions or other cash needs.

Operational Risk

Operational risk addresses the risk of trading and back office or administration issues that may result in a loss to the Trust. This could be the result of oversight, ineffective security processing procedures, computer system problems or human error. Equity Trustees and MFS have instituted certain practices and processes within their respective operations and business administrations designed to wherever possible mitigate the operational risk consequences that arise.

Trust Risk

As with all managed funds, there are risks particular to the Trust including: that the Trust could be terminated, the fees and expenses could change, Equity Trustees is replaced as Responsible Entity or that MFS is replaced as Investment Manager.

Further Reading...

You should read the important information in the Reference Guide "Principal risks" section before making an investment decision. Go to the Reference Guide at www.eqt.com.au/insto. The material relating to risks may change between the time when you read this PDS and the day when you acquire the product.

5. How we invest your money

Warning: Before choosing to invest in the Trust you should consider the likely investment returns, the risks of investing and your investment time frame.

Investment objective

The Trust aims to seek capital appreciation over the longer term by investing in a concentrated portfolio of global shares and aims to outperform its Benchmark over a full market cycle, before taking into account fees and expenses.

Benchmark

MSCI World Index (with net dividends reinvested before fees) measured in AUD.

Minimum suggested time frame

The minimum suggested investment timeframe for the Trust is 5 years.

Risk level of the Trust

High.

There is a risk investors may lose some or all of their initial investment. Higher risk investments tend to fluctuate in the short term but can produce higher returns than lower risk investments over the long term.

Investor suitability

The Trust is designed for investors seeking the potential for capital appreciation over the longer term by investing in a concentrated portfolio of global shares (unhedged).

Investment style and approach

Companies with sustainable above-average growth and returns, and whose prospects are not reflected in their valuation, will outperform over the long run. The value of compounding high returns on capital and above-average growth rates over long time periods is often underestimated by the market. Through fundamental analysis, MFS seeks to identify enduring businesses, focusing on operational risks and the long-term potential for change. MFS considers whether the valuation reflects the long-term growth and returns of the company, and to what extent it adequately incorporates risk.

Currency Hedging is rare and usually only undertaken for defensive purposes and as a part of the security selection process. Therefore, the Trust does not systematically employ currency management techniques and is thus considered to be “unhedged”.

Investments held

The Trust invests primarily in common stock and related securities of US and non-US issuers. The Trust may invest in issuers located in Emerging Markets countries (as defined by MFS). The Trust may utilise derivatives as a routine means to accomplish exposures to various equities or markets.

Asset allocation

Asset	Range
Global equities	90-100%
Cash & cash equivalents	0-10%

Labour, environmental, social and ethical considerations

Decisions about the selection, retention or realisation of investments for the Trust are primarily based on company and industry fundamentals. MFS is a signatory to the United Nations-supported Principles for Responsible Investment (PRI). PRI signatories commit to embed environmental, social (including labour standards) and corporate governance (ESG) factors in their investment analysis, decision-making processes, own ownership policies and practices. Equity Trustees and MFS take into account labour standards, environmental, social or ethical issues when making these decisions to the extent that these issues have a material impact on either investment risk or return. MFS believes that certain environmental, social and corporate governance (“ESG”) issues may impact the sustainable value of businesses. In exercising its authority as Investment Manager of the Trust, MFS integrates ESG factors into its investment process and ownership practices to the extent that the integration of such factors is consistent with the investment objectives and the economic interests of the Trust.

Trust performance

Up to date information on the performance of the Trust is available by calling MFS Client Services on +612 9228 0400 or by visiting the MFS website at www.mfs.com.

Changing the investment strategy

The investment strategy and asset allocation parameters may be changed. If a change is to be made, investors in the Trust will be notified in accordance with the Corporations Act.

6. Fees and costs

DID YOU KNOW?

Small differences in both investment performance and fees and costs can have a substantial impact on your long-term returns.

For example, total annual fees and costs of 2% of your account balance rather than 1% could reduce your final return by up to 20% over a 30 year period (for example, reduce it from \$100,000 to \$80,000).

You should consider whether features such as superior investment performance or the provision of better member services justify higher fees and costs.

You may be able to negotiate to pay lower contribution fees and management costs where applicable. Ask the fund or your financial adviser.

TO FIND OUT MORE

If you would like to find out more, or see the impact of the fees based on your own circumstances, the **Australian Securities and Investments Commission (ASIC)** website (www.moneysmart.gov.au) has a managed funds fee calculator to help you check out different fee options.

The information in the following template can be used to compare costs between different simple managed investment schemes. Fees and costs can be paid directly from an investor's account or deducted from investment returns. For information on tax please see Section 7 of this PDS.

TYPE OF FEE OR COST	AMOUNT
Fees when your money moves in or out of the Trust	
Establishment fee	Nil
Contribution fee	Nil
Withdrawal fee	Nil
Termination fee	Nil
Management costs	
The fees and costs for managing your investment ¹	Management fees: 0.90% p.a. of the NAV of the Trust ²

¹ All fees quoted above are inclusive of Goods and Services Tax (GST) and net of any Reduced Input Tax Credits (RITC). See below for more details as to how management costs are calculated.

² Management fees can be negotiated. See “Differential fees” below. Until further notice, the Management costs are capped, except for extraordinary expenses. If the total Management costs exceed the cap, MFS will reimburse the amount of the excess costs to the Trust unless the excess is due to an extraordinary expense.

Additional Explanation of fees and costs

What do the management costs pay for?

Management costs comprise the additional fees or costs that an investor incurs by investing in the Trust rather than by investing directly in the underlying assets of the Trust.

Management costs include management fees. In addition, management costs do not include transactional and operational costs (i.e. costs associated with investing the underlying assets, some of which may be met by Buy/Sell Spreads).

Management fees

The management fees of 0.90% p.a. of the NAV of the Trust are payable to the Responsible Entity of the Trust for managing the assets and overseeing the operations of the Trust. The management fees are accrued daily and paid from the Trust monthly in arrears and reflected in the unit price. As at the date of this PDS, ordinary expenses such as investment management fees, custodian fees, administration and audit fees, and other ordinary expenses of operating the Trust are covered by the management fees at no additional charge to you.

The management fees shown above do not include extraordinary expenses (if they are incurred in future), such as litigation costs and the costs of convening investor meetings.

Transactional and operational costs

In managing the assets of the Trust, the Trust may incur transactional and operational costs such as brokerage, settlement costs, clearing costs and applicable stamp duty when assets are bought and sold, and the costs of derivatives used for hedging purposes (if applicable). This generally happens when the assets of the Trust are changed in connection with day-to-day trading or when there are applications or withdrawals which cause net cash flows into or out of the Trust.

The Buy/Sell Spread reflects the estimated transaction costs incurred in buying or selling assets of the Trust when investors invest in or withdraw from the Trust. The Buy/Sell Spread is an additional cost to the investor but is incorporated into the unit price and incurred when an investor invests in or withdraws from the Trust and is not separately charged to the investor. The Buy Spread is paid into the Trust as part of an application and the Sell Spread is left in the Trust as part of a redemption and not paid to Equity Trustees or the Investment Manager. The estimated Buy/Sell Spread is 0.25% upon entry and 0.25% upon exit. The dollar value of these costs based on an application or a withdrawal of \$500,000 is \$1,250 for each individual transaction. The Buy/Sell Spread can be altered by the Responsible Entity at any time. The Responsible Entity may also waive the Buy/Sell Spread in part or in full at its discretion.

Transactional costs which are incurred other than in connection with applications and withdrawals arise through the day-to-day trading of the Trust's assets and are reflected in the Trust's unit price. As these costs are factored into the NAV of the Trust and reflected in the unit price, they are an additional implicit cost to the investor and are not a fee paid to the Responsible Entity. These costs can arise as a result of bid-offer spreads (the difference between an asset's bid/buy price and offer/ask price) being applied to securities traded by the Trust. Liquid securities generally have a lower bid-offer spread while less liquid assets have a higher bid-offer spread reflecting the compensation taken by market makers in providing liquidity for that asset.

During the financial year ended 30 June 2018, the Trust's total transaction costs were estimated to be 0.11% of the NAV of the Trust, of which 100% were offset by the Buy/Sell Spread.

Can the fees change?

Yes, all fees can change without investor consent, subject to the maximum fee amounts specified in the Constitution. Equity Trustees has the right to recover all reasonable expenses incurred in relation to the proper performance of its duties in managing the Trust and as such these expenses may increase or decrease accordingly. We will generally provide investors with at least 30 days' notice of any proposed change to the management costs. In most circumstances, the Constitution defines the maximum level that can be charged for fees described in this PDS. Expense recoveries may change without notice, for example, when it is necessary to protect the interests of existing members and if permitted by law.

Payments to IDPS Operators

Subject to the law, annual payments may be paid to some IDPS Operators because they offer the Trust on their investment menus. Product access is paid by the Investment Manager out of its management fees and is not an additional cost to the investor. If the payment of annual fees to IDPS Operators is limited or prohibited by law, Equity Trustees will ensure the payment of such fees is reduced or ceased.

Differential fees

The Responsible Entity or Investment Manager may from time to time negotiate a different fee arrangement (by way of a rebate or waiver of fees) with certain investors who are Australian Wholesale Clients or New Zealand Wholesale Investors.

Example of annual fees and costs for the Trust

This table gives an example of how the fees and costs for this managed investment product can affect your investment over a 1 year period. You should use this table to compare this product with other managed investment products.

EXAMPLE – MFS Concentrated Global Equity Trust		
BALANCE OF \$500,000 WITH A CONTRIBUTION OF \$5,000 DURING THE YEAR		
Contribution Fees	Nil	For every additional \$5,000 you put in, you will be charged \$0
Plus Management costs	0.90% p.a.	And , for every \$500,000 you have in the Trust you will be charged \$4,500.00 each year
Equals Cost of Trust		If you had an investment of \$500,000 at the beginning of the year and you put in an additional \$5,000 during that year, you would be charged fees of: \$4,500.00* What it costs you will depend on the fees you negotiate.

This example assumes the \$5,000 contribution occurs at the end of the first year, therefore management costs are calculated using the \$500,000 balance only.

* Additional fees may apply. Please note that this example does not capture all the fees and costs that may apply to you such as the Buy/Sell Spread.

Warning: If you have consulted a financial adviser, you may pay additional fees. You should refer to the Statement of Advice or Financial Services Guide provided by your financial adviser in which details of the fees are set out.

ASIC provides a fee calculator on www.moneysmart.gov.au, which you may use to calculate the effects of fees and costs on account balances.

7. How managed investment schemes are taxed

Warning: Investing in a registered managed investment scheme (such as the Trust) is likely to have tax consequences. You are strongly advised to seek your own professional tax advice about the applicable Australian tax (including income tax, GST and duty) consequences and, if appropriate, foreign tax consequences which may apply to you based on your particular circumstances before investing in the Trust.

The Trust is an Australian resident for tax purposes and does not generally pay tax on behalf of its investors. Australian resident investors are assessed for tax on any income and capital gains generated by the Trust to which they become presently entitled or, where the Trust has made a choice to be an Attribution Managed Investment Trust (“AMIT”) and the choice is effective for the income year, are attributed to them.

Cooling off period

No cooling off period applies to the offer made in this PDS, as the units offered under this PDS are only available to Wholesale Clients in Australia and Wholesale Investors in New Zealand.

Indirect Investors should seek advice from their IDPS Operator as to whether cooling off rights apply to an investment in the Trust by the IDPS. The right to cool off in relation to the Trust is not directly available to an Indirect Investor. This is because an Indirect Investor does not acquire the rights of a unit holder in the Trust. Rather, an Indirect Investor directs the IDPS Operator to arrange for their monies to be invested in the Trust on their behalf. The terms and conditions of the IDPS Guide or similar type document will govern an Indirect Investor’s investment in relation to the Trust and any rights an Indirect Investor may have in this regard.

***Terms and conditions for collection of Tax File Numbers (TFN) and Australian Business Numbers (ABN)**

Collection of TFN and ABN information is authorised and its use and disclosure strictly regulated by tax laws and the Privacy Act. Once provided, your TFN will be applied automatically to any future investments in the Trust where formal application procedures are not required (e.g. distribution reinvestments) unless you indicate, at any time, that you do not wish to quote a TFN for a particular investment. Exempt investors should attach a copy of the certificate of exemption. For super funds or trusts list only the applicable ABN or TFN for the super fund or trust.
