

MFS Funds

Annual report

For the year ended 30 June 2023

This financial report covers the following MFS Funds:

MFS Hedged Global Equity Trust

ARSN 112 310 442

MFS Global Equity Trust

ARSN 093 197 221

MFS Emerging Markets Equity Trust

ARSN 157 689 668

MFS Funds

Annual report

For the year ended 30 June 2023

Contents

Directors' report
Auditor's independence declaration
Statements of comprehensive income
Statements of financial position
Statements of changes in equity
Statements of cash flows
Notes to the financial statements
Directors' declaration
Independent auditor's report to the unit holders of MFS Funds

This annual report covers the following Funds as individual entities:

MFS Hedged Global Equity Trust

MFS Global Equity Trust

MFS Emerging Markets Equity Trust

The Responsible Entity of the Funds is Equity Trustees Limited (ABN 46 004 031 298) (AFSL 240975).

The Responsible Entity's registered office is:

Level 1, 575 Bourke Street
Melbourne, VIC 3000.

Directors' report

The directors of Equity Trustees Limited, the Responsible Entity of the MFS Funds (the "Funds"), present their report together with the financial statements of the following Funds for the year ended 30 June 2023.

MFS Hedged Global Equity Trust

MFS Global Equity Trust

MFS Emerging Markets Equity Trust

The Funds are collectively known as the "MFS Funds".

Principal activities

The principal activity of each Fund is to invest in accordance with the investment objective and guidelines as set out in the respective Funds' current Product Disclosure Statement and its Constitution.

The Funds did not have any employees during the year.

There were no significant changes in the nature of the Funds' activities during the year.

The various service providers for the Funds are detailed below:

Service	Provider
Responsible Entity	Equity Trustees Limited
Investment Manager	MFS International Australia Pty Ltd
Custodian and Administrator	State Street Australia Limited
Statutory Auditor	Deloitte Touche Tohmatsu

Directors

The following persons held office as directors of Equity Trustees Limited during or since the end of the year and up to the date of this report:

Philip D Gentry	Chairman
Michael J O'Brien	
Russell W Beasley	
Mary A O'Connor	
David B Warren	(appointed 6 March 2023)

Directors' report (continued)

Review and results of operations

During the year, the Funds continued to invest their funds in accordance with their Product Disclosure Statement and the provisions of their Funds' Constitution.

The Funds' performance and Funds' benchmark return for the year ended 30 June 2023 were as follows:

Fund name	Benchmark	Net return (net of fees)	Benchmark return
MFS Hedged Global Equity Trust	MSCI World Index (with net dividends reinvested before fees) fully hedged in AUD	12.32%	16.53%
MFS Global Equity Trust	MSCI World Index (with net dividends reinvested before fees)	19.57%	22.43%
MFS Emerging Markets Equity Trust	MSCI Emerging Markets Index (with net dividends reinvested before fees)	10.89%	5.11%

The Funds' performance are calculated based on the percentage change in the Funds' redemption price over the year (with any distributions paid during the year reinvested). Returns are disclosed after fees and expenses but before taxes.

The performance of each Fund, as represented by the results of their operations, was as follows:

	MFS Hedged Global Equity Trust		MFS Global Equity Trust		MFS Emerging Markets Equity Trust	
	Year ended		Year ended		Year ended	
	30 June 2023	30 June 2022	30 June 2023	30 June 2022	30 June 2023	30 June 2022
Profit/(loss) for the year (\$'000)	105,275	(140,043)	700,255	(498,191)	1,565	(31,888)
Distributions paid and payable (\$'000)	-	38,705	713,538	732,427	450	2,003
Distributions (cents per unit)*	-	3.65	20.56	21.99	3.41	-

*Distributions (cents per unit) exclude special distributions paid during the year. The cents per unit figure for special distributions are disclosed at Note 11 to the financial statements.

Directors' report (continued)

Significant changes in the state of affairs

David B Warren was appointed as a director of Equity Trustees Limited on 6 March 2023.

In the opinion of the directors, there were no other significant changes in the state of affairs of the Funds that occurred during the financial year.

Matters subsequent to the end of the financial year

No matter or circumstance has arisen since 30 June 2023 that has significantly affected, or may have a significant effect on:

- (i) the operations of the Funds in future financial years; or
- (ii) the results of those operations in future financial years; or
- (iii) the state of affairs of the Funds in future financial years.

Likely developments and expected results of operations

The Funds will continue to be managed in accordance with the investment objectives and guidelines as set out in the Product Disclosure Statement and the provisions of the Funds' Constitution.

The results of the Funds' operations will be affected by a number of factors, including the performance of investment markets in which the Funds invest. Investment performance is not guaranteed and future returns may differ from past returns. As investment conditions change over time, past returns should not be used to predict future returns.

Indemnification and insurance of officers

No insurance premiums are paid for out of the assets of the Funds in regards to insurance cover provided to the officers of Equity Trustees Limited. So long as the officers of Equity Trustees Limited act in accordance with the Funds' Constitution and the Law, the officers remain indemnified out of the assets of the Funds against losses incurred while acting on behalf of the Funds.

Indemnification of auditor

The auditor of the Funds is in no way indemnified out of the assets of the Funds.

Fees paid to and interests held in the Funds by the Responsible Entity and its associates

Fees paid to the Responsible Entity and its associates out of Funds' property during the year are disclosed in Note 17 to the financial statements.

No fees were paid out of Funds' property to the directors of the Responsible Entity during the year.

The number of interests in the Funds held by the Responsible Entity or its associates as at the end of the financial year are disclosed in Note 17 to the financial statements.

Directors' report (continued)

Interests in the Funds

The movement in units on issue in the Funds during the year is disclosed in Note 10 to the financial statements.

The value of the Funds' assets and liabilities is disclosed in the statements of financial position and derived using the basis set out in Note 2 to the financial statements.

Environmental regulation

The operations of the Funds are not subject to any particular or significant environmental regulations under Commonwealth, State or Territory law.

Rounding of amounts to the nearest thousand dollars

Amounts in the Directors' report have been rounded to the nearest thousand dollars in accordance with *ASIC Corporations (Rounding in Financial Directors' Reports) Instrument 2016/191*, unless otherwise indicated.

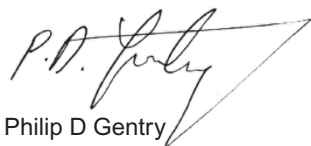

Financial statements presentation

The Funds are entities of the kind referred to by *ASIC Corporations (Related Scheme Reports) Instrument 2015/839* and in accordance with that Instrument, Funds with a common Responsible Entity (or related Responsible Entities) can include their financial statements in adjacent columns in a single set of financial reports.

Auditor's independence declaration

A copy of the Auditor's independence declaration as required under section 307C of the *Corporations Act 2001* is set out on page 6.

This report is made in accordance with a resolution of the directors of Equity Trustees Limited through a delegated authority given by the Equity Trustees Limited's Board.

Philip D Gentry
Chairman

Melbourne
14 September 2023

14 September 2023

The Board of Directors
Equity Trustees Limited
Level 1, 575 Bourke Street
MELBOURNE VIC 3000

Dear Board Members,

Independence Declaration – MFS Funds

In accordance with section 307C of the *Corporations Act 2001*, I am pleased to provide the following declaration of independence to the Directors of Equity Trustees Limited, the Responsible Entity, regarding the financial reports of MFS Emerging Markets Equity Trust, MFS Hedged Global Equity Trust (formerly known as “MFS Fully Hedged Global Equity Trust”) and MFS Global Equity Trust (collectively the “MFS Funds” or the “Funds”).

As lead audit partner for the audits of the financial statements of the Funds for the financial year ended 30 June 2023, I declare that to the best of my knowledge and belief, there have been no contraventions of:

- (i) the auditor independence requirements of the *Corporations Act 2001* in relation to the audit; and
- (ii) any applicable code of professional conduct in relation to the audit.

Yours faithfully

DELOITTE TOUCHE TOHMATSU

1 General information

These financial statements cover the below Funds (the “Funds”) as individual entities. The Funds are Australian registered managed investment schemes which were constituted on the dates in the below table and will terminate in accordance with the provisions of the Funds’ Constitution or by Law.

MFS Hedged Global Equity Trust	22 December 2004
MFS Global Equity Trust	22 April 1997
MFS Emerging Markets Equity Trust	05 April 2012

The Responsible Entity of the Funds is Equity Trustees Limited (ABN 46 004 031 298) (AFSL 240975) (the “Responsible Entity”). The Responsible Entity’s registered office is Level 1, 575 Bourke Street, Melbourne, VIC 3000. The financial statements are presented in the Australian currency unless otherwise noted.

The principal activity of each Fund is to invest in accordance with the investment objective and guidelines as set out in the respective Fund’s current Product Disclosure Statement and its Constitution.

The financial statements were authorised for issue by the directors on the date the Directors’ declaration was signed. The directors of the Responsible Entity have the power to amend and reissue the financial statements.

2 Summary of significant accounting policies

The principal accounting policies applied in the preparation of these financial statements are set out below. These policies have been consistently applied to all years presented, unless otherwise stated in the following text.

(a) Basis of preparation

These general purpose financial statements have been prepared in accordance with Australian Accounting Standards and Interpretations issued by the Australian Accounting Standards Board (AASB) and the *Corporations Act 2001* in Australia. The Funds are for-profit entities for the purpose of preparing the financial statements.

The financial statements are prepared on the basis of fair value measurement of assets and liabilities, except where otherwise stated.

The statements of financial position are presented on a liquidity basis. Assets and liabilities are presented in decreasing order of liquidity and do not distinguish between current and non-current. All balances are expected to be recovered or settled within 12 months, except for investments in financial assets and liabilities and net assets attributable to unit holders.

The Funds manage financial assets at fair value through profit or loss based on the economic circumstances at any given point in time, as well as to meet any liquidity requirements. As such, it is expected that a portion of the portfolio will be realised within 12 months, however, an estimate of that amount cannot be determined as at reporting date.

In the case of net assets attributable to unit holders, the units are redeemable on demand at the unit holder’s option. However, holders of these instruments typically retain them for the medium to long term. As such, the amount expected to be settled within 12 months cannot be reliably determined.

2 Summary of significant accounting policies (continued)

(a) Basis of preparation (continued)

(i) Compliance with International Financial Reporting Standards (IFRS)

The financial statements of the Funds also comply with IFRS as issued by the International Accounting Standards Board (IASB).

(ii) New and amended standards adopted by the Funds

There are no standards, interpretations or amendments to existing standards that are effective for the first time for the financial year beginning 1 July 2022 that have a material impact on the amounts recognised in the prior periods or that will affect the current or future periods.

(iii) New standards and interpretations not yet adopted

A number of new standards, amendments to standards and interpretations are effective for annual periods beginning after 1 July 2023 and have not been early adopted in preparing these financial statements.

None of these are expected to have a material effect on the financial statements of the Funds.

(b) Financial instruments

(i) Classification

- Financial assets

The Funds classify their financial assets in the following measurement categories:

- those to be measured at fair value through profit or loss; and
- those to be measured at amortised cost.

The Funds classify their financial assets based on their business model for managing those financial assets and the contractual cash flow characteristics of the financial assets.

The Funds' portfolios of financial assets are managed and their performance is evaluated on a fair value basis in accordance with the Funds' documented investment strategy. The Funds' policy is for the Investment Manager to evaluate the information about these financial assets on a fair value basis together with other related financial information.

For debt securities the contractual cash flows are solely payments of principal and interest, however they are neither held for collecting contractual cash flows nor held both for collecting contractual cash flows and for sale. The collection of contractual cash flows is only incidental to achieving the Fund's business objective. Consequently, the debt securities, including short-term debt securities with maturities of up to one year from the date of acquisition, are measured at fair value through profit and loss.

2 Summary of significant accounting policies (continued)

(b) Financial instruments (continued)

(i) Classification (continued)

For equity securities, unit trusts, warrants and derivatives, the contractual cash flows of these instruments do not solely represent payments of principal and interest. Consequently, these investments are measured at fair value through profit or loss.

For cash and cash equivalents, receivables and due from brokers, these assets are held in order to collect the contractual cash flows. The contractual terms of these assets give rise, on specified dates, to cash flows that are solely payments of principal and interest on the principal amount outstanding. Consequently, these are measured at amortised cost.

- Financial liabilities

Derivative contracts that have a negative fair value are presented as liabilities at fair value through profit or loss.

For financial liabilities that are not classified and measured at fair value through profit or loss, these are classified as financial liabilities at amortised cost (distributions payable, due to brokers, management fees and costs payable, redemption payable, withholding tax payable and other payables).

Recognition and derecognition

The Funds recognise financial assets and financial liabilities on the date they become party to the contractual agreement (trade date) and recognise changes in the fair value of the financial assets or financial liabilities from this date.

Financial assets are derecognised when the rights to receive cash flows from the financial assets have expired or the Funds have transferred substantially all the risks and rewards of ownership. Financial liabilities are derecognised when the obligation under the liability is discharged, cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the statements of comprehensive income.

(ii) Measurement

- Financial instruments at fair value through profit or loss

At initial recognition, the Funds measure a financial asset and a financial liability at its fair value. Transaction costs of financial assets and liabilities carried at fair value through profit or loss are expensed in the statements of comprehensive income.

Subsequent to initial recognition, all financial assets and liabilities at fair value through profit or loss are measured at fair value. Gains and losses arising from changes in the fair value of 'financial assets or liabilities at fair value through profit or loss' category are presented in the statements of comprehensive income within 'net gains/(losses) on financial instruments at fair value through profit or loss' in the period in which they arise.

For further details on how the fair value of financial instruments is determined please see Note 5 to the financial statements.

2 Summary of significant accounting policies (continued)

(b) Financial instruments (continued)

(ii) Measurement (continued)

- Financial instruments at amortised cost

For financial assets and financial liabilities at amortised cost, they are initially measured at fair value including directly attributable costs and are subsequently measured using the effective interest rate method less any allowance for expected credit losses.

Cash and cash equivalents, due from brokers and receivables are carried at amortised cost.

(iii) Impairment

At each reporting date, the Funds shall estimate a loss allowance on each of the financial assets carried at amortised cost (cash and cash equivalents, due from brokers and receivables) at an amount equal to the lifetime expected credit losses if the credit risk has increased significantly since initial recognition. If, at the reporting date, the credit risk has not increased significantly since initial recognition, the Funds shall measure the loss allowance at an amount equal to 12-month expected credit losses. Significant financial difficulties of the counterparty, probability that the counterparty will enter bankruptcy or financial reorganisation, and default in payments are all considered indicators that the asset is credit impaired. If the credit risk increases to the point that it is considered to be credit impaired, interest income will be calculated based on the net carrying amount adjusted for the loss allowance. A significant increase in credit risk is defined by management as any contractual payment which is more than 30 days past due. Any contractual payment which is more than 90 days past due is considered credit impaired.

The expected credit loss (ECL) approach is based on the difference between the contractual cash flows due in accordance with the contract and all the cash flows that the Funds expect to receive. The shortfall is then discounted at an approximation to the asset's original effective interest rate.

The amount of the impairment loss is recognised in the statements of comprehensive income within other expenses. When a trade receivable for which an impairment allowance had been recognised becomes uncollectible in a subsequent period, it is written off against the allowance account. Subsequent recoveries of amounts previously written off are credited against other expenses in the statements of comprehensive income.

(iv) Offsetting financial instruments

Financial assets and liabilities are offset and the net amount is reported in the statements of financial position when the Funds have a legally enforceable right to offset the recognised amounts, and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously.

Financial assets and liabilities that have been offset are disclosed in Note 4 to the financial statements.

(c) Net assets attributable to unit holders

Units are redeemable at the unit holders' option; however, applications and redemptions may be suspended by the Responsible Entity if it is in the best interests of the unit holders.

2 Summary of significant accounting policies (continued)

(c) Net assets attributable to unit holders (continued)

The units can be put back to the Funds at any time for cash based on the redemption price, which is equal to a proportionate share of the Funds' net asset value attributable to the unit holders.

The units are carried at the redemption amount that is payable at the reporting date if the holder exercises the right to put the units back to the Funds.

The Funds' units are classified as equity as they satisfy the following criteria under AASB 132 *Financial Instruments: Presentation*:

- the puttable financial instrument entitles the holder to a pro-rata share of net assets in the event of the Funds' liquidation;
- the puttable financial instrument is in the class of instruments that is subordinate to all other classes of instruments and class features are identical;
- the puttable financial instrument does not include any contractual obligations to deliver cash or another financial asset, or to exchange financial instruments with another entity under potentially unfavourable conditions to the Funds, and is not a contract settled in the Funds' own equity instruments; and
- the total expected cash flows attributable to the puttable financial instrument over the life are based substantially on the profit or loss.

(d) Cash and cash equivalents

For the purpose of presentation in the statements of cash flows, cash and cash equivalents includes cash on hand and deposits held at call with financial institutions.

Payments and receipts relating to the purchase and sale of investment securities are classified as cash flows from operating activities, as trading of these securities represents the Funds' main income generating activity.

(e) Investment income

(i) Interest income

Interest income from financial assets at amortised cost is recognised using the effective interest method and includes interest from cash and cash equivalents.

The effective interest method is a method of calculating the amortised cost of a financial asset and of allocating the interest income over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments or receipts throughout the expected life of the financial instrument, or a shorter period where appropriate, to the net carrying amount of the financial asset. When calculating the effective interest rate, the Funds estimate cash flows considering all contractual terms of the financial instruments (for example, prepayment options) but do not consider future credit losses. The calculation includes all fees paid or received between the parties to the contract that are an integral part of the effective interest rate, including transaction costs and all other premiums or discounts.

2 Summary of significant accounting policies (continued)

(e) Investment income (continued)

(ii) Dividends and distributions

Dividend income is recognised on the ex-dividend date with any related foreign withholding tax recorded as an expense. The Funds currently incur withholding tax imposed by certain countries on investment income. Such income is recorded gross of withholding tax in the statements of comprehensive income.

Trust distributions are recognised on an entitlement basis.

(f) Expenses

All expenses are recognised in the statements of comprehensive income on an accruals basis.

Management fees and costs covers certain ordinary expenses such as Responsible Entity fees, investment management fees, custodian fees, and administration and audit fees.

(g) Income tax

Under current legislation, the Funds are not subject to income tax provided they attribute the entirety of their taxable income to their unit holders.

The Funds currently incur withholding taxes imposed by certain countries on investment income and capital gains. Such income or gains are recorded gross of withholding taxes in the statements of comprehensive income. Withholding taxes are included in the statements of comprehensive income as an expense.

(h) Distributions

The Funds may distribute their distributable income, in accordance with the Funds' Constitution, to unit holders by cash or reinvestment. The distributions are recognised in the statement of changes in equity.

(i) Foreign currency translation

(i) Functional and presentation currency

Balances included in the Funds' financial statements are measured using the currency of the primary economic environment in which it operates (the "functional currency"). This is the Australian dollar which reflects the currency of the economy in which the Funds compete for funds and is regulated. The Australian dollar is also the Funds' presentation currency.

2 Summary of significant accounting policies (continued)

(i) Foreign currency translation (continued)

(ii) Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translations at year end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognised in the statements of comprehensive income.

Non-monetary items that are measured at fair value in a foreign currency are translated using the exchange rates at the date when fair value was determined.

The Funds do not isolate that portion of unrealised gains or losses on financial instruments at fair value through profit or loss which is due to changes in foreign exchange rates. Such fluctuations are included in the net gains/(losses) on financial instruments at fair value through profit or loss.

(j) Due from/to brokers

Amounts due from/to brokers represent receivables for securities sold and payables for securities purchased that have been contracted for but not yet delivered by year end. The due from brokers balance is held for collection and is recognised initially at fair value and subsequently measured at amortised cost.

(k) Receivables

Receivables may include amounts for interest, dividends and trust distributions. Dividends and trust distributions are accrued when the right to receive payment is established. Where applicable, interest is accrued on a daily basis. Amounts are generally received within 30 days of being recorded as receivables.

(l) Payables

Payables include liabilities and accrued expenses owed by the Funds which are unpaid as at the end of the reporting period.

A separate distribution payable is recognised in the statements of financial position.

Distributions declared effective 30 June in relation to unit holders who have previously elected to reinvest distributions are recognised as reinvested effective 1 July of the following financial year.

(m) Applications and redemptions

Applications received for units in the Funds are recorded net of any entry fees payable prior to the issue of units in the Funds. Redemptions from the Funds are recorded gross of any exit fees payable after the cancellation of units redeemed.

2 Summary of significant accounting policies (continued)

(n) Goods and services tax (GST)

The GST incurred on the costs of various services provided to the Funds by third parties such as management, administration and custodian services where applicable, have been passed on to the Funds. The Funds qualify for Reduced Input Tax Credits (RITC) at a rate of at least 55%. Hence, fees for these services and any other expenses have been recognised in the statements of comprehensive income net of the amount of GST recoverable from the Australian Taxation Office (ATO). Amounts payable are inclusive of GST. The net amount of GST recoverable from the ATO is included in receivables in the statements of financial position. Cash flows relating to GST are included in the statements of cash flows on a gross basis.

(o) Use of estimates and judgements

The Funds make estimates, assumptions and judgements that affect the reported amounts of assets and liabilities within the current and next financial year. Estimates and judgements are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

For the majority of the Funds' financial instruments, quoted market prices are readily available. However, certain financial instruments, for example over-the-counter derivatives or unquoted securities, are fair valued using valuation techniques. Where valuation techniques (for example, pricing models) are used to determine fair values, they are validated and periodically reviewed by experienced personnel of the Investment Manager.

Models use observable data, to the extent practicable. However, areas such as credit risk (both own and counterparty), volatilities and correlations, require management to make estimates and judgements. Changes in assumptions about these factors could affect the reported fair value of financial instruments.

The Funds estimate that the resultant expected credit loss (ECL) derived from using the impairment model, has not materially impacted the Funds. Please see Note 3 for more information on credit risk.

For more information on how fair value is calculated refer to Note 5 to the financial statements.

(p) Rounding of amounts

The Funds are entities of a kind referred to in *ASIC Corporations (Rounding in Financial/Directors' Reports) Instrument 2016/191* relating to the "rounding off" of amounts in the financial statements. Amounts in the financial statements have been rounded to the nearest thousand dollars, unless otherwise indicated.

(q) Comparative revisions

Comparative information has been revised where appropriate to enhance comparability. Where necessary, comparative figures have been adjusted to conform with changes in presentation in the current year.

3 Financial risk management

The Funds' activities expose them to a variety of financial risks including market risk (which incorporates price risk, foreign exchange risk and interest rate risk), credit risk and liquidity risk.

The Funds' overall risk management programme focuses on ensuring compliance with the Funds' Product Disclosure Statement and the investment guidelines of the Funds. It also seeks to maximise the returns derived for the level of risk to which the Funds are exposed and seeks to minimise potential adverse effects on the Funds' financial performance. The Funds' policy allows them to use derivative financial instruments in managing their financial risks.

All investments present a risk of loss of capital. The maximum loss of capital on equity securities and unit trusts is limited to the fair value of those positions. The maximum loss of capital on derivatives is limited to the notional contract values of those positions. On equities sold short, the maximum loss of capital can be unlimited.

The investments of the Funds, and associated risks, are managed by a specialist Investment Manager, MFS International Australia Pty Ltd ("MFS") under an Investment Management Agreement (IMA) approved by the Responsible Entity, and containing the investment strategy and guidelines of the Funds, consistent with those stated in the Product Disclosure Statement.

The Funds use different methods to measure different types of risk to which they are exposed. These methods are explained below.

(a) Market risk

(i) Price risk

The Funds are exposed to price risk on equity securities listed or quoted on recognised securities exchanges (For MFS Global Equity Fund and MFS Emerging Markets Equity Trust). MFS Hedged Global Equity Trust is exposed indirectly to price risk on equity securities (through their investment in units of MFS Global Equity Trust (the "Underlying Fund")). The Funds are also exposed to price risk on derivative securities which include forward currency contracts. Price risk arises from investments held by the Funds for which prices in the future are uncertain. Where non-monetary financial instruments are denominated in currencies other than the Australian dollar, the price in the future will also fluctuate because of changes in foreign exchange rates which are considered a component of price risk.

At the portfolio level, price risk is controlled through diversification across markets. At the individual security level, price risk is controlled through diversification across markets and adhering to the mandate guidelines of the Underlying Fund (For MFS Hedged Global Equity Trust). At the Underlying Fund's individual security level, given MFS' focus on bottom up security selection, company specific risk, such as weaknesses in a firm's statement of financial position or management turnover, is carefully evaluated in the course of its research. MFS will not purchase a security whose fundamentals indicate an unacceptably high level of risk in relation to potential capital appreciation, and will generally sell a stock when its fundamentals decline. Price targets for selling a security are set at purchase and serve as a means of prompting continual review.

The table at Note 3(b) summarises the sensitivities of the Funds' assets and liabilities to price risk.

MFS Hedged Global Equity Trust

The analysis is based on the reasonably possible shift that the investment portfolio in which the Fund invests moves by +/-15% (2022: +/-15%).

3 Financial risk management (continued)

(a) Market risk (continued)

(i) Price risk (continued)

MFS Global Equity Trust

The analysis is based on the reasonably possible shift that the investment portfolio in which the Fund invests moves by +/-14% (2022: +/-15%).

MFS Emerging Markets Equity Trust

The analysis is based on the reasonably possible shift that the investment portfolio in which the Fund invests moves by +/-15% (2022: +/-23%).

(ii) Foreign exchange risk

The Funds operate internationally and hold both monetary and non-monetary assets denominated in currencies other than the Australian dollar. Foreign exchange risk arises as the value of monetary securities denominated in other currencies fluctuate due to changes in exchange rates. The foreign exchange risk relating to non-monetary assets and liabilities is a component of price risk and not foreign exchange risk. However, the Investment Manager monitors the exposure of all foreign currency denominated assets and liabilities.

In keeping with the bottom up approach to selecting what MFS believes to be high quality stocks, all MFS analysts examine currency exposure as an integral part of the individual company valuation process. When looking at downside risk associated with any company, currency plays an important role in the stress testing conducted by the analysts. Stress tests are run for all companies, which examine the potential risk on a company's bottom line earnings associated with any move in relevant currencies and the subsequent impact on the stock's performance. In this way, potential currency impacts are built into the MFS valuation process through their fundamental, bottom up research at the individual stock level. However, at the portfolio level, MFS does not seek to actively manage currencies and would hedge only for defensive purposes in rare circumstances. The Funds use forward currency contracts to manage foreign exchange risk.

However, for accounting purposes, the Funds do not designate any derivatives as hedges in a hedging relationship, and hence, these derivative financial instruments are classified as at fair value through profit or loss.

3 Financial risk management (continued)

(a) Market risk (continued)

(ii) Foreign exchange risk (continued)

The tables below summarise the fair value of the Funds' financial assets and liabilities, monetary and non-monetary, which are denominated in a currency other than the Australian dollar.

For MFS Hedged Global Equity Trust, the tables at Note 3(b) summarises the sensitivities of the Funds' monetary assets and liabilities to foreign exchange risk. The analysis is based on the reasonably possible shift that the Australian dollar weakened or strengthened by 0% (2022: +/-1%) against the material foreign currencies to which the Funds are exposed. For MFS Global Equity Trust, the tables at Note 3(b) summarises the sensitivities of the Funds' monetary assets and liabilities to foreign exchange risk. The analysis is based on the reasonably possible shift that the Australian dollar weakened or strengthened by 3% (2022: +/-1%) against the material foreign currencies to which the Funds are exposed. For MFS Emerging Markets Equity Trust, the table at Note 3(b) summarises the sensitivities of the Fund's monetary assets and liabilities to foreign exchange risk. The analysis is based on the reasonably possible shift that the Australian dollar weakened or strengthened by 6% (2022: +/-10%) against the material foreign currencies to which the Fund is exposed.

(iii) Interest rate risk

The Fund is exposed to cash flow interest rate risk on financial instruments with variable interest rates. Financial instruments with fixed rates expose the Fund to fair value interest rate risk.

3 Financial risk management (continued)

The Funds' interest bearing financial instruments expose it to risks associated with the effects of fluctuations in the prevailing market interest rates on its financial position and cash flows. The risk is measured using sensitivity analysis. The impact of interest rate risk on the profit and net assets attributable to unit holders and operating profit is considered immaterial to the Funds and thus is not included in the sensitivity analysis below.

Interest rate risk management is undertaken by maintaining as close to a fully invested position as possible thus limiting the exposure of the Funds to interest rate risk.

(b) Summarised sensitivity analysis

The following tables summarise the sensitivity of the Funds' operating profit and net assets attributable to unit holders to market risks. The reasonably possible movements in the risk variables have been determined based on management's best estimate, having regard to a number of factors, including historical levels of changes in foreign exchange rates, interest rates and the historical correlation of the Funds' investments with the relevant benchmark and market volatility. However, actual movements in the risk variables may be greater or less than anticipated due to a number of factors, including unusually large market movements resulting from changes in the performance of and/or correlation between the performances of the economies, markets and securities in which the Funds invest. As a result, historic variations in risk variables should not be used to predict future variances in the risk variables.

MFS Hedged Global Equity Trust	Impact on operating profit/net assets attributable to unit holders			
	Price risk		Foreign exchange risk	
	+15%	-15%	+0%	-0%
	\$'000	\$'000	\$'000	\$'000
As at 30 June 2023	123,230	(123,230)	-	-
As at 30 June 2022	122,169	(122,169)	(9,847)	9,847

The sensitivity factors for 30 June 2022 were +/-15% for price risk and +/-1% for foreign exchange risk.

3 Financial risk management (continued)

(b) Summarised sensitivity analysis (continued)

MFS Global Equity Trust	Impact on operating profit/net assets attributable to unit holders			
	Price risk		Foreign exchange risk	
	+14% \$'000	-14% \$'000	+3% \$'000	-3% \$'000
As at 30 June 2023	536,253	(536,253)	759	(759)
As at 30 June 2022	708,003	(708,003)	746	(746)

The sensitivity factors for 30 June 2022 were +/-15% for price risk and +/-1% for foreign exchange risk.

MFS Emerging Markets Equity Trust	Impact on operating profit/net assets attributable to unit holders			
	Price risk		Foreign exchange risk	
	+15% \$'000	-15% \$'000	+6% \$'000	-6% \$'000
As at 30 June 2023	2,387	(2,387)	8	(8)
As at 30 June 2022	3,378	(3,378)	29	(29)

The sensitivity factors for 30 June 2022 were +/-23% for price risk and +/-10% for foreign exchange risk.

(c) Credit risk

The Funds are exposed to credit risk, which is the risk that a counterparty will be unable to pay their obligations in full when they fall due, causing a financial loss to the Funds.

The Funds do not have a significant concentration of credit risk that arises from an exposure to a single counterparty or group of counterparties having similar characteristics. The main concentration of credit risk, to which the Funds are exposed, arises from cash and cash equivalents and amounts due from brokers' balances. None of these assets are impaired nor past their due date. The maximum exposure to credit risk is the carrying amount of these balances at the reporting date.

3 Financial risk management (continued)

(c) Credit risk (continued)

The Funds determine credit risk and measure expected credit losses for financial assets measured at amortised cost using probability of default, exposure at default and loss given default. Management considers both historical analysis and forward looking information in determining any expected credit loss. At 30 June 2023 and 30 June 2022, all receivables, amounts due from brokers, cash and short-term deposits are held with counterparties with an investment grade and are either callable on demand or due to be settled within 1 week. Management considers the probability of default to be close to zero as these instruments have a low risk of default and the counterparties have a strong capacity to meet their contractual obligations in the near term. As a result, no loss allowance has been recognised based on 12-month expected credit losses as any such impairment would be wholly insignificant to the Funds.

MFS aims to reduce credit risk by following the Funds' investment objectives in terms of the assets they can invest in.

(d) Liquidity risk

Liquidity risk is the risk that the Funds may not be able to generate sufficient cash resources to settle their obligations in full as they fall due or can only do so on terms that are materially disadvantageous.

Exposure to liquidity risk for the Funds may arise from the requirement to meet daily unit holder redemption requests or to fund foreign exchange related cash flow requirements as well as indirect liquidity risk via investment in underlying fund for MFS hedged.

Liquidity risk is managed by monitoring and maintaining a predominantly liquid portfolio.

The Investment Manager monitors and manages the level of liquidity in the Funds.

In order to manage the Funds' overall liquidity, the Responsible Entity has the discretion to reject an application for units and to defer or adjust redemption of units if the exercise of such discretion is in the best interests of unit holders. The Responsible Entity did not reject any applications or withhold any redemptions during 2023 and 2022.

(i) *Maturities of non-derivative financial liabilities*

All non-derivative financial liabilities of the Fund in the current period have maturities of less than 1 month.

3 Financial risk management (continued)

(d) Liquidity risk (continued)

(ii) Maturities of net settled derivative financial instruments

The tables below analyse the Funds' net settled derivative financial instruments based on their contractual maturity. The Funds may, at their discretion, settle financial instruments prior to their original contractual settlement date, in accordance with their investment strategy, where permitted by the terms and conditions of the relevant instruments.

MFS Hedged Global Equity Trust

	Less than 1 month \$'000	1-6 months \$'000	6-12 months \$'000	Over 12 months \$'000	Total \$'000
As at 30 June 2023					
Net settled derivatives					
Forward currency contracts	(5,474)	776	-	-	(4,698)
Total net settled derivatives	(5,474)	776	-	-	(4,698)
As at 30 June 2022					
Net settled derivatives					
Forward currency contracts	-	(29,944)	-	-	(29,944)
Total net settled derivatives	-	(29,944)	-	-	(29,944)

3 Financial risk management (continued)

Net settled derivatives					
Forward currency contracts	30	-	-	-	30
Warrants	-	1,995	-	-	1,995
Total net settled derivatives	30	1,995	-	-	2,025
As at 30 June 2022					
Net settled derivatives					
Forward currency contracts	2	-	-	-	2
Warrants	-	-	-	822	822
Total net settled derivatives	2	-	-	822	824

The net asset value of the forward currency contract held by MFS Emerging Markets Equity Trust as at 30 June 2023 was \$25 (30 June 2022: \$9), which does not reflect in the financial statements due to rounding.

4 Offsetting financial assets and financial liabilities

Financial assets and liabilities are offset and the net amount reported in the statement of financial position when there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously. The gross and net positions of financial assets and liabilities that have been offset in the statement of financial position are disclosed in the first three columns of the tables below.

MFS Hedged Global Equity Trust	Effects of offsetting on the statement of financial position			Related amounts not offset		
	Gross amounts of financial instruments	Gross amounts set off in the statement of financial position	Net amount of financial instruments presented in the statement of financial position	Amounts subject to master netting arrangements	Collateral pledged/ received	Net amount
	\$'000	\$'000	\$'000	\$'000	\$'000	\$'000
As at 30 June 2023

4 Offsetting financial assets and financial liabilities (continued)

(a) Master netting arrangement – not currently enforceable

Agreements with derivative counterparties are based on the International Swaps and Derivatives Association (ISDA) Master Agreement. Under the terms of these arrangements, only when certain credit events occur (such as default), the net position owing/receivable to a single counterparty in the same currency will be taken as owing and all the relevant arrangements terminated. As the Funds do not presently have a legally enforceable right of set-off, these amounts have not been offset in the statements of financial position, but have been presented separately in the above tables.

5 Fair value measurement

The Funds measure and recognise financial assets and financial liabilities at fair value through profit or loss on a recurring basis.

- Financial assets/liabilities at fair value through profit or loss (see Note 6 and Note 7)
- Derivative financial instruments (see Note 8)

The Funds have no assets or liabilities measured at fair value on a non-recurring basis in the current reporting period.

AASB 13 *Fair Value Measurement* requires disclosure of fair value measurements by level of the following fair value measurement hierarchy:

- Quoted prices (unadjusted) in active markets for identical assets or liabilities (level 1);
- Inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly or indirectly (level 2); and
- Inputs for the asset or liability that are not based on observable market data (unobservable inputs) (level 3).

The Funds value their investments in accordance with the accounting policies set out in Note 2 to the financial statements. For the majority of their investments, the Funds rely on information provided by independent pricing services for the valuation of their investments.

(a) Fair value in an active market (level 1)

The fair value of financial assets and liabilities traded in active markets is subsequently based on their quoted market prices at the end of the reporting period without any deduction for estimated future selling costs.

The quoted market price used for financial assets held by the Funds is the current last traded price; the quoted market price for financial liabilities is the current asking price. When the Funds hold derivatives with offsetting market risks, it uses mid-market prices as a basis for establishing fair values for the offsetting risk positions and applies this last traded or asking price to the net open position, as appropriate.

5 Fair value measurement (continued)

(a) Fair value in an active market (level 1) (continued)

A financial instrument is regarded as quoted in an active market if quoted prices are readily and regularly available from an exchange, dealer, broker, industry group, pricing service, or regulatory agency, and those prices represent actual and regularly occurring market transactions on an arm's length basis.

An active market is a market in which transactions for the asset or liability take place with sufficient frequency and volume to provide pricing information on an ongoing basis.

(b) Fair value in an inactive or unquoted market (level 2 and level 3)

The fair value of financial assets and liabilities that are not traded in an active market is determined using valuation techniques. These include the use of recent arm's length market transactions, reference to the current fair value of a substantially similar other instrument, discounted cash flow techniques, option pricing models or any other valuation technique that provides a reliable estimate of prices obtained in actual market transactions.

The fair value of derivatives that are not exchange traded is estimated at the amount that the Funds would receive or pay to terminate the contract at the end of the reporting period taking into account current market conditions (volatility and appropriate yield curve) and the current creditworthiness of the counterparties. The fair value of a forward currency contract is determined as a net present value of estimated future cash flows, discounted at appropriate market rates as at the valuation date.

Investments in unlisted unit trusts are recorded at the redemption value per unit as reported by the investment Managers of such funds. The Funds may make adjustments to the value based on considerations such as: liquidity of the Investee Fund or their underlying investments, the value date of the net asset value provided, or any restrictions on redemptions and the basis of accounting.

Some of the inputs to these models may not be market observable and are therefore estimated based on assumptions. The output of a model is always an estimate or approximation of a value that cannot be determined with certainty, and valuation techniques employed may not fully reflect all factors relevant to the positions the Funds hold. Valuations are therefore adjusted, where appropriate, to allow for additional factors including liquidity risk and counterparty risk.

5 Fair value measurement (continued)

(c) Recognised fair value measurements

The table below presents the Funds' financial assets and financial liabilities measured and recognised at fair value as at 30 June 2023.

	MFS Hedged Global Equity Trust				MFS Global Equity Trust

(d) Transfer between levels

Management's policy is to recognise transfers into and transfers out of fair value hierarchy levels as at the end of the reporting period.

For MFS Hedged Global Equity Trust, there were no transfers between levels in the fair value hierarchy at the end of the reporting period (2022: Nil).

For MFS Global Equity Trust, there were no transfers between levels in the fair value hierarchy at the end of the reporting period (2022: Nil).

For MFS Emerging Markets Equity Trust, there were no transfers between levels in the fair value hierarchy at the end of the reporting period. As at 30 June 2022, the fund held level 1 investment of Lukoil (total value \$63,004 as at 5 April 2022) and level 2 investments of Sberbank of Russia (total value \$84,163 as at 6 March 2022) and Moscow Exchange (total value \$81,166 as at 6 March 2022), which were transferred to level 3 with the nil fair value.

5 Fair value measurement (continued)

(d) Transfer between levels (continued)

Russia and Ukraine Conflict

The MFS Emerging Markets Equity Trust (the "Fund") invests in securities and/or derivative instruments that are economically tied to Russia and/or Ukraine. Escalation of the conflict between Russia and Ukraine in late February 2022 caused market volatility and disruption in the tradability of Russian securities, including closure of the local securities market, temporary restriction on securities sales by non-residents, and disruptions to clearance and payment systems. To the extent that the Fund is unable to sell securities, whether due to market constraints or to the sanctions imposed on Russia by the United States and other countries, those securities are considered illiquid and the value of those securities reflects their illiquid classification. Management continues to monitor these events and to evaluate the related impacts on Fund performance.

(e) Financial instruments not carried at fair value

The carrying values of cash and cash equivalents, receivables and payables approximate their fair values due to their short-term nature.

6 Financial assets at fair value through profit or loss

An overview of the risk exposures and fair value measurements relating to financial assets at fair value through profit or loss is included in Note 3 and Note 5 to the financial statements.

7 Financial liabilities at fair value through profit or loss

	MFS Hedged Global Equity Trust As at	
	30 June 2023 \$'000	30 June 2022 \$'000
Derivatives	7,855	30,156
Total financial liabilities at fair value through profit or loss	7,855	30,156

An overview of the risk exposures and fair value measurements relating to financial liabilities at fair value through profit or loss is included in Note 3 and Note 5 to the financial statements.

MFS Emerging Markets Equity Trust and MFS Global Equity Trust did not have any financial liabilities held at fair value through profit and loss at 30 June 2023 and 30 June 2022.

8 Derivative financial instruments

In the normal course of business, the Funds enter into transactions in various derivative financial instruments which have certain risks. A derivative is a financial instrument or other contract which is settled at a future date and whose value changes in response to the change in a specified interest rate, financial instrument price, commodity price, foreign exchange rate, index of prices or rates, credit rating or credit index or other variable.

Derivative financial instruments require no initial net investment or an initial net investment that is smaller than would be required for other types of contracts that would be expected to have a similar response to changes in market factors.

Derivative transactions include many different instruments such as forward currency contracts, futures and options. Derivatives are considered to be part of the investment process and the use of derivatives is an essential part of the Funds' portfolio management. Derivatives are not managed in isolation. Consequently, the use of derivatives is multifaceted and includes:

- hedging to protect an asset or liability of the Funds against a fluctuation in market values, foreign exchange risk or to reduce volatility;
- a substitution for trading of physical securities; and
- adjusting asset exposures within the parameters set in the investment strategy and adjusting the duration of fixed interest portfolios or the weighted average maturity of cash portfolios.

8 Derivative financial instruments (continued)

While derivatives are used for trading purposes, they are not used to gear (leverage) a portfolio. Gearing a portfolio would occur if the level of exposure to the markets exceeds the underlying value of the Funds.

The Funds hold the following derivatives:

(a) Forward currency contracts

Forward currency contracts are primarily used by the Funds to economically hedge against foreign currency exchange rate risks on its non-Australian dollar denominated trading securities. The Funds agree to receive or deliver a fixed quantity of foreign currency for an agreed upon price on an agreed upon future date. These contracts are valued and translated at the prevailing spot bid price at the end of each reporting period. The Funds recognise a gain or loss equal to the change in fair value at the end of each reporting period.

(b) Warrants

Warrants are an option to purchase additional securities from the issuer at a specified price during a specified period. Warrants are valued at the prevailing market price at the end of each reporting period. The Funds recognise a gain or loss equal to the change in fair value at the end of each reporting period.

8 Derivative financial instruments (continued)

The Funds' derivative financial instruments measured at fair value at year end are detailed below:

	MFS Hedged Global Equity Trust			MFS Global Equity Trust		
	Contractual/ notional \$'000	Assets \$'000	Liabilities \$'000	Contractual/ notional \$'000	Assets \$'000	Liabilities \$'000
As at 30 June 2023						
Forward currency contracts	2,794,594	3,157	7,855	8,869	30	-
Warrants	-	-	-	38,387	1,995	-
Total derivatives	2,794,594	3,157	7,855	47,256	2,025	-
As at 30 June 2022						
Forward currency contracts	984,710	212	30,156	996	2	-
Warrants	-	-	-	45,881	822	-
Total derivatives	984,710	212	30,156	46,877	824	-

8 Derivative financial instruments (continued)

	MFS Emerging Markets Equity Trust		
	Contractual/ notional \$'000	Assets \$'000	Liabilities \$'000
As at 30 June 2023			
Forward currency contracts	12	-	-
Total derivatives	12	-	-
As at 30 June 2022			
Forward currency contracts	7	-	-
Total derivatives	7	-	-

The net asset value of the forward currency contract held by MFS Emerging Markets Equity Trust as at 30 June 2023 was \$25 (30 June 2022: \$9), which does not reflect above due to rounding of the financial statements.

Information about the Funds' exposure to credit risk, foreign exchange risk, interest rate risk and about the methods and assumptions used in determining fair values is provided in Note 3 and Note 5 to the financial statements. The maximum exposure to credit risk at the end of the reporting period is the carrying amount of each class of derivative financial instruments disclosed above.

9 Structured entities

A structured entity is an entity that has been designed so that voting or similar rights are not the dominant factor in deciding who controls the entity, and the relevant activities are directed by means of contractual arrangement.

MFS Emerging Markets Equity Trust considers all investments in managed investment schemes (the "Schemes") to be structured entities. The Funds invest in Schemes for the purpose of capital appreciation and/or earning investment income.

The exposure to investments in related party Schemes at fair value, and any related party amounts recognised in the statement of comprehensive income is disclosed at Note 17(i) to the financial statements.

There was no exposure to investments in unrelated Schemes at fair value during the year (2022: nil).

10 Net assets attributable to unit holders - equity

Under AASB 132 *Financial Instruments: Presentation*, puttable financial instruments are classified as equity where certain criteria are met. The Funds shall classify a financial instrument as an equity instrument from the date when the instrument has all the features and meets the conditions. The Funds' units are classified as equity as they meet the definition of a financial instrument to be classified as equity.

Movements in the number of units and net assets attributable to unit holders during the year were as follows:

	MFS Hedged Global Equity Trust				MFS Global Equity Trust

Profit/(loss) for the year	-	1,565	-	(31,888)
Closing balance	13,214	15,560	13,704	14,975

As stipulated within the Funds' Constitution, each unit represents a right to an individual share in the Funds and does not extend to a right in the underlying assets of the Funds.

There are no separate classes of units and each unit has the same rights attaching to it as all other units of the Funds.

Units are redeemed on demand at the unit holder's option. However, holders of these instruments typically retain them for the medium to long term. As such, the amount expected to be settled within twelve months after the end of the reporting period cannot be reliably determined.

Capital risk management

The Funds consider their net assets attributable to unit holders as capital, notwithstanding that net assets attributable to unit holders are classified as equity. The amount of net assets attributable to unit holders can change significantly on a daily basis as the Funds are subject to daily applications and redemptions at the discretion of unit holders.

Daily applications and redemptions are reviewed relative to the liquidity of the Funds' underlying assets on a daily basis by the Responsible Entity. Under the terms of the Funds' Constitution, the Responsible Entity has the discretion to reject an application for units and to defer or adjust redemption of units if the exercise of such discretion is in the best interests of unit holders.

11 Distributions to unit holders

The distributions declared during the year were as follows:

	MFS Hedged Global Equity Trust				MFS Global Equity Trust			
	Year ended		Year ended		Year ended		Year ended

*For the MFS Global Equity Trust, the May 2022 distribution (CPU: 103.78) , the July 2022 distribution (CPU: 60.15) and the August 2022 distribution (CPU: 63.93) represents a special distribution paid by the Fund. The total amount of \$877,883,172 was satisfied as in-specie asset transferred. For the MFS Emerging Markets Equity Trust, the June 2022 distribution (CPU: 2.22) represents a special distribution paid by the Fund. These special distributions were due to a unit holder redemption in each Fund of greater than 5% of the net assets of the Funds. Due to these redemption, as outlined in the Product Disclosure Statement, a portion of the withdrawal proceeds represented attributable income to the redeeming unit holder. Refer to the Funds' Product Disclosure Statement for details on special distributions.

The auditors' remuneration is borne by the Funds. Fees are stated exclusive of GST.

17 Related party transactions

The Responsible Entity of the MFS Funds is Equity Trustees Limited (ABN 46 004 031 298) (AFSL 240975). Accordingly, transactions with entities related to Equity Trustees Limited are disclosed below.

17 Related party transactions (continued)

The Responsible Entity has contracted services to MFS International Australia Pty Ltd to act as Investment Manager for the Funds and State Street Australia Limited to act as Custodian and Administrator for the Funds. The contracts are on normal commercial terms and conditions.

(a) Key management personnel

(i) Directors

Key management personnel include persons who were directors of Equity Trustees Limited at any time during or since the end of the financial year and up to the date of this report.

Philip D Gentry	Chairman
Michael J O'Brien	
Russell W Beasley	
Mary A O'Connor	
David B Warren	(appointed 6 March 2023)

(ii) Responsible Entity

Other than fees paid to the Responsible Entity, there were no other transactions.

(iii) Other key management personnel

There were no other key management personnel with responsibility for planning, directing and controlling activities of the Funds, directly or indirectly during the financial year.

(b) Transactions with key management personnel

There were no transactions with key management personnel during the reporting period.

(c) Key management personnel unit holdings

Key management personnel did not hold units in the Funds as at 30 June 2023 (30 June 2022: nil).

(d) Key management personnel compensation

Key management personnel are paid by EQT Services Pty Ltd. Payments made from the Funds to Equity Trustees Limited do not include any amounts directly attributable to the compensation of key management personnel.

17 Related party transactions (continued)

(e) Key management personnel loans

The Funds have not made, guaranteed or secured, directly or indirectly, any loans to key management personnel or their personally related entities at any time during the reporting period.

(f) Other transactions within the Funds

Apart from those details disclosed in this note, no key management personnel have entered into a material contract with the Funds during the financial year and there were no material contracts involving management personnel's interests existing at year end.

(g) Responsible Entity fees, Investment Manager's fees and other transactions

Equity Trustees Limited does not charge fees for the services performed in relation to MFS Hedged Global Equity Trust.

The transactions during the year and amounts payable as at year end between the Funds, the Responsible Entity and the Investment Manager were as follows:

	MFS Hedged Global Equity Trust		MFS Global Equity Trust		MFS Emerging Markets Equity Trust

For information on how management and performance fees are calculated please refer to the Fund's Product Disclosure Statement. The management fees borne by the Fund are paid to the Investment Manager, who in turn provides the on-payment of the fees to the respective service providers. Expense recoveries include Responsible Entity fees, Custodian and Administrator fees and other expenses.

17 Related party transactions (continued)

(g) Responsible Entity fees, Investment Manager's fees and other transactions (continued)

The Investment Manager has voluntarily undertaken to reimburse the MFS Hedged Global Equity Trust, MFS Global Equity Trust and MFS Emerging Markets Equity Trust from its own resources on a quarterly basis for the cost of investment research embedded in the transactions costs. This agreement may be rescinded at any time.

Under the terms of the Fund's Constitution and Product Disclosure Statement, management fees and costs includes responsible entity fees paid to the Responsible Entity, management fees paid to the Investment Manager and other costs (such as custody fees, administration fees and audit fees) paid to other unrelated parties.

Management fees reimbursed represent monies put into the Fund to ensure that the Fund's overall management costs remain within that disclosed in the Product Disclosure Statement.

(h) Related party unit holdings

Parties related to the Fund (including Equity Trustees Limited, its related parties and other schemes managed by Equity Trustees Limited and the Investment Manager) held no units in the MFS Emerging Markets Equity Trust as at 30 June 2023 (30 June 2022: nil).

Parties related to the Funds (including Equity Trustees Limited, their related parties and other schemes managed by Equity Trustees Limited and the Investment Manager) hold units in the Funds, as follows:

18 Events occurring after the reporting period

No significant events have occurred since the end of the year which would impact the financial position of the Funds as disclosed in the statements of financial position as at 30 June 2023 or on the results and cash flows of the Funds for the year ended on that date.

19 Contingent assets and liabilities and commitments

There were no outstanding contingent assets, liabilities or commitments as at 30 June 2023 and 30 June 2022.

Directors' declaration

In the opinion of the directors of the Responsible Entity:

- (a) The financial statements and notes set out on pages 7 to 58 are in accordance with the *Corporations Act 2001*, including:
 - (i) complying with Australian Accounting Standards, the *Corporations Regulations 2001* and other mandatory professional reporting requirements; and
 - (ii) giving a true and fair view of the Funds' financial position as at 30 June 2023 and of their performance for the financial year ended on that date.
- (b) There are reasonable grounds to believe that the Funds will be able to pay their debts as and when they become due and payable; and
- (c) Note 2(a) confirms that the financial statements also comply with the International Financial Reporting Standards as issued by the International Accounting Standards Board.

This declaration is made in accordance with a resolution of the directors of Equity Trustees Limited through a delegated authority given by Equity Trustees Limited's Board.

Independent Auditor's Reports to the Unit Holders of MFS Funds

Opinion

We have audited the financial reports of MFS Emerging Markets Equity Trust, MFS Hedged Global Equity Trust (formerly known as "MFS Fully Hedged Global Equity Trust") and MFS Global Equity Trust (collectively the "MFS Funds" or the "Funds") which comprises the statements of financial position as at 30 June 2023, the statements of comprehensive income, the statements of cash flows and the statements of changes in equity for the year ended on that date, and notes to the financial statements, including a summary of significant accounting policies and other explanatory information, and the Directors' declaration.

In our opinion, the accompanying financial reports of the Funds are in accordance with the *Corporations Act 2001*, including:

- (i) giving a true and fair view of the Funds' financial position as at 30 June 2023 and of its financial performance for the year then ended; and
- (ii) complying with Australian Accounting Standards and the *Corporations Regulations 2001*.

Basis for Opinion

We conducted our audits in accordance with Australian Auditing Standards. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Reports* section of our reports. We are independent of the Funds in accordance with the auditor independence requirements of the *Corporations Act 2001* and the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 *Code of Ethics for Professional Accountants (including Independence Standards)* (the "Code") that are relevant to our audits of the financial reports in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

We confirm that the independence declaration required by the *Corporations Act 2001*, which has been given to the directors of the Responsible Entity of the Funds (the "Directors"), would be in the same terms if given to Directors as at the time of this auditor's reports.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Other Information

The Directors are responsible for the other information. The other information comprises the information included in the Directors' reports for the year ended 30 June 2023, but does not include the financial reports and our auditor's reports thereon.

Our opinion on the financial reports does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audits of the financial reports, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial reports or our knowledge obtained in the audits, or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the Directors for the Financial Reports

The Directors are responsible for the preparation of the financial reports that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the Directors determine is necessary to enable the preparation of the financial reports that gives a true and fair view and is free from material misstatements, whether due to fraud or error.

In preparing the financial reports, the Directors are responsible for assessing the ability of the Funds to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Directors either intend to liquidate the Funds or to cease operations, or has no realistic alternative but to do so.

Auditor's Responsibilities for the Audits of the Financial Reports

Our objectives are to obtain reasonable assurance about whether the financial reports as a whole are free from material misstatements, whether due to fraud or error, and to issue an auditor's reports that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Australian Auditing Standards will always detect a material misstatements when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial reports.

As part of an audit in accordance with the Australian Auditing Standards, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatements of the financial reports, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatements resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audits in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Funds' internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Directors.
- Conclude on the appropriateness of the Directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Funds' ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's reports to the related disclosures in the financial reports or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's reports. However, future events or conditions may cause the Funds to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial reports, including the disclosures, and whether the financial reports represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the Directors regarding, among other matters, the planned scope and timing of the audits and significant audit findings, including any significant deficiencies in internal control that we identify during our audits.
