### New Zealand WARNING STATEMENT

- This offer to New Zealand investors is a regulated offer made under Australian and New Zealand law. In Australia, this is Chapter 8 of the Corporations Act 2001 (Aust) and regulations made under that Act. In New Zealand, this is subpart 6 of Part 9 of the Financial Markets Conduct Act 2013 and Part 9 of the Financial Markets Conduct Regulations 2014.
- This offer and the content of the offer document are principally governed by Australian rather than New Zealand law. In the main, the Corporations Act 2001 (Aust) and the regulations made under that Act set out how the offer must be made.
- There are differences in how financial products are regulated under Australian law. For example, the disclosure of fees for managed investment schemes is different under the Australian regime.
- The rights, remedies, and compensation arrangements available to New Zealand investors in Australian financial products may differ from the rights, remedies, and compensation arrangements for New Zealand financial products.
- Both the Australian and New Zealand financial markets regulators have enforcement responsibilities in relation to this offer. If you need to make a complaint about this offer, please contact the Financial Markets Authority, New Zealand (<http://www.fma.govt.nz>). The Australian and New Zealand regulators will work together to settle your complaint.
- The taxation treatment of Australian financial products is not the same as for New Zealand financial products.
- If you are uncertain about whether this investment is appropriate for you, you should seek the advice of an appropriately qualified financial adviser.
- The offer may involve a currency exchange risk. The currency for the financial products is not New Zealand dollars. The value of the financial products will go up or down according to changes in the exchange rate between that currency and New Zealand dollars. These changes may be significant.
- If you expect the financial products to pay any amounts in a currency that is not New Zealand dollars, you may incur significant fees in having the funds credited to a bank account in New Zealand in New Zealand dollars.
- The dispute resolution process described in this offer document is available only in Australia and is not available in New Zealand.

- the withdrawal amount in Australian dollars; or
- the number of units to be withdrawn.

We are unable to accept withdrawal amounts quoted in New Zealand dollars. Please note that the withdrawal amount paid to you will be in Australian dollars and may differ from the amount you receive in New Zealand dollars due to:

# Managing your investment

## Distributions

If New Zealand investors elect to have their distribution directly credited they will need to nominate a bank account held in their own name with an Australian domiciled bank. Cash distributions will only be paid in Australian dollars to such an account. When the distribution is reinvested, New Zealand investors will be allotted units in accordance with the terms and conditions set out in the PDS relating to the units in the Fund. Please see the PDS for a description of distributions and the terms and conditions of the reinvestment of distributions.

The distribution reinvestment plan described in the PDS is offered to New Zealand investors on the following basis:

- At the time the price of the units allotted pursuant to the distribution reinvestment plan is set, the Responsible Entity will not have any information that is not publicly available that would, or would be likely to, have a material adverse effect on the realisable price of the units if the information were publicly available.
- The right to acquire, or require the Responsible Entity to issue, units will be offered to all investors of the same class, other than those resident outside New Zealand who are excluded so as to avoid breaching overseas laws.
- Units will be issued on the terms disclosed to you, and will be subject to the same rights as units issued to all investors of the same class as you.

There is available from the Responsible Entity, on request and free of charge, a copy of the most recent annual report of the Fund, the most recent financial statements of the Fund, the auditor's report on those financial statements or, if those financial statements are not audited or reviewed by an auditor, a statement to that effect, the PDS and the Constitution for the Fund (including any amendments). Other than the Constitution, these documents may be obtained electronically from [www.pentalpha.com.au](http://www.pentalpha.com.au).

## Processing cut-off times

The processing cut-off times for applications and withdrawals referred to in the PDS are Australian Eastern Standard Time (Australian EST) and you should take this into account when sending instructions.

## Cooling off rights

Cooling off rights may apply to investors in New Zealand. If you wish to exercise your cooling off rights you should contact the Responsible Entity of the Fund. The PDS contains further information about the rights that may apply.

# Taxation

## New Zealand resident taxation

If you are a New Zealand resident wishing to invest in Australia, we strongly recommend that you seek independent professional tax advice. New Zealand resident investors will be taxed on their units under the foreign investment fund rules or ordinary tax rules, depending on their circumstances. Australian tax will be withheld at prescribed rates from distributions to non-residents to the extent that the distributions comprise relevant Australian sourced income or gains.

# 1. About Equity Trustees Limited

## The Responsible Entity

### Equity Trustees Limited

Equity Trustees Limited ABN 46 004 031 298 AFSL 240975, a subsidiary of EQT Holdings Limited ABN 22 607 797 615, which is a public company listed on the Australian Securities Exchange (ASX: EQT), is the Fund's responsible entity and issuer of this PDS. Established as a trustee and executorial service provider by a special Act of the Victorian Parliament in 1888, today Equity Trustees is a dynamic financial services institution which continues to grow the breadth and quality of products and services on offer.

Equity Trustees' responsibilities and obligations as the Fund's responsible entity are governed by the Fund's constitution ("Constitution"), the Corporations Act and general trust law. Equity Trustees has appointed Pentalpha Investment Management Pty Ltd ("Pentalpha" or "Investment Manager") as the investment manager of the Fund. Equity Trustees has appointed a custodian to hold the assets of the Fund. The custodian has no supervisory role in relation to the operation of the Fund and is not responsible for protecting your interests.

## The Investment Manager

### Pentalpha Investment Management Pty Ltd ("Pentalpha")

Pentalpha Investment Management Proprietary Limited (ABN 25 168 016 126) is an authorised representative of Pentalpha Holdings Proprietary Limited (ABN 41 168 015 889, AFSL 476920). Pentalpha is the investment manager for the Pentalpha Income for Life Fund.

Pentalpha is an Australian-based boutique investment manager established by its Managing Director, Denis Donohue. Before Pentalpha, Denis was Head of Australian Share Investments at Suncorp Metway Investment Management Limited ("Suncorp") before establishing Solaris Investment Management Limited ("Solaris") in 2008. Under his stewardship, Suncorp and Solaris grew considerably to over \$5 billion in funds under management by successfully servicing their clients in both the Australian institutional and retail markets.

# 2. How the Pentalpha Income for Life Fund - Ordinary Class works

The Fund is a registered managed investment scheme governed by the Constitution. The Fund comprises assets which are acquired in accordance with the Fund's investment strategy. Direct investors receive units in the Fund when they invest. In general, each unit represents an equal interest in the assets of the Fund subject to liabilities; however, it does not give investors an interest in any particular asset of the Fund.

If you invest in the Fund through an IDPS (as defined in the Reference Guide) you will not become an investor in the Fund. The operator or custodian of the IDPS will be the investor entered in the Fund's register and will be the only person who is able to exercise the rights and receive the benefits of a direct investor. Your investment in the Fund through the IDPS will be governed by the terms of your IDPS. Please direct any queries and requests relating to your investment to your IDPS Operator. Unless otherwise stated, the information in the PDS applies to direct investors.

## Applying for units

You can acquire units by completing the Application Form that accompanies this PDS. The minimum initial investment amount for the Fund is \$500,000, subject to the acceptance of such lower amount as determined by the Responsible Entity in their sole discretion.

Completed Application Forms should be sent along with your identification documents (if applicable) to:

Pentalpha Income for Life Fund - Ordinary Class  
c/o Link Fund Solutions  
GPO Box 5482  
Sydney NSW 2001

Please note that cash and cheques cannot be accepted.

We reserve the right to accept or reject applications in whole or in part at our discretion. We have the discretion to delay processing applications where we believe this to be in the best interest of the Fund's investors.

The price at which units are acquired is determined in accordance with the Constitution ("Application Price"). The Application Price on a Business Day is, in general terms, equal to the Net Asset Value ("NAV") of the Fund, divided by the number of units on issue and adjusted for transaction costs ("Buy Spread"). At the date of this PDS, the Buy Spread is 0.35%.

The Application Price will vary as the market value of assets in the Fund rises or falls.

## Making additional investments

You can make additional investments into the Fund at any time by sending us your additional investment amount together with a completed Application Form. The minimum additional investment into the Fund is \$50,000, subject to the acceptance of such lower amount as determined by the Responsible Entity in their sole discretion.

## Distributions

An investor's share of any distributable income is calculated in accordance with the Constitution and is generally based on the number of units held by the investor at the end of the distribution period.

The Fund usually distributes income quarterly at the end of June, September, December and March, however, Equity Trustees may change the distribution frequency without notice. Distributions are calculated effective the last day of each distribution period and are normally paid to investors as soon as practicable after the distribution calculation date.

Investors in the Fund can indicate a preference to have their distribution:

- reinvested back into the Fund; or
- directly credited to their Australian domiciled bank account.

Investors who do not indicate a preference will have their distributions automatically reinvested. Applications for reinvestment will be taken to be received immediately prior to the next Business Day after the relevant distribution period. There is no Buy Spread on distributions that are reinvested.

In some circumstances, the Constitution may allow for an investor's withdrawal proceeds to be taken to include a component of distributable income.

Indirect Investors should review their IDPS Guide for information on how and when they receive any income distribution.

New Zealand investors can only have their distribution directly credited if an AUD Australian domiciled bank account is provided, otherwise it must be reinvested (refer to the Pentalpha Income for Life Fund - Ordinary Class New Zealand Investor Information Sheet).

## Access to your money

Investors in the Fund can generally withdraw their investment by completing a written request to withdraw from the Fund and mailing it to:

Pentalpha Income for Life Fund - Ordinary Class  
c/o Link Fund Solutions  
GPO Box 5482  
Sydney NSW 2001

The minimum withdrawal amount is \$50,000, subject to the acceptance of such lower amount as determined by the Responsible Entity in their sole discretion. Once we receive and accept your withdrawal request, we may act on your instruction without further enquiry if the instruction bears your account number or investor details and your (apparent) signature(s), or your authorised signatory's (apparent) signature(s).

Equity Trustees will generally allow an investor to access their investment within 3 days of acceptance of a withdrawal request by transferring the withdrawal proceeds to such investors' nominated bank account. However, Equity Trustees is allowed to reject withdrawal requests, and also to make payment up to 21 days after acceptance of a request (which may be extended in certain circumstances) as outlined in the Constitution and Reference Guide.

We reserve the right to accept or reject withdrawal requests in whole or in part at our discretion.

The price at which units are withdrawn is determined in accordance with the Constitution ("Withdrawal Price"). The Withdrawal Price on a Business Day is, in general terms, equal to the NAV of the Fund, divided by the number of units on issue and adjusted for transaction costs ("Sell Spread"). At the date of this PDS, the Sell Spread is 0.35%.

The Withdrawal Price will vary as the market value of assets in the Fund rises or falls.

Equity Trustees reserves the right to fully redeem your investment if your investment balance in the Fund falls below \$400,000, subject to the acceptance of such lower amount as determined by the Responsible Entity in their sole discretion as a result of processing your withdrawal request. In certain circumstances, for example, when there is a freeze on withdrawals, where accepting a withdrawal is not in the best interests of investors in the Fund including due to one or more circumstances outside its control or where the Fund is not liquid (as defined in the Corporations Act), Equity Trustees can deny or suspend a withdrawal request and you may not be able to withdraw your funds in the usual processing times or at all. When the Fund is not liquid, an investor can only withdraw when Equity Trustees makes a withdrawal offer to investors in accordance with the Corporations Act. Equity Trustees is not obliged to make such offers.

If you are an Indirect Investor, you need to provide your withdrawal request directly to your IDPS Operator. The time to process a withdrawal request will depend on the particular IDPS Operator and the terms of the IDPS.

### Unit pricing discretions policy

Equity Trustees has developed a formal written policy in relation to the guidelines and relevant factors taken into account when exercising any discretion in calculating unit prices (including determining the value of the assets and liabilities). A copy of the policy and, where applicable and to the extent required, any other relevant documents in relation to the policy will be made available free of charge on request.

### Additional information

If and when the Fund has 100 or more direct investors, it will be classified by the Corporations Act as a 'disclosing entity'. As a disclosing entity, the Fund will be subject to regular reporting and disclosure obligations. Investors would then have a right to obtain a copy, free of charge, of any of the following documents:

- the most recent annual financial report lodged with ASIC ("Annual Report");
- any subsequent half yearly financial report lodged with ASIC after the lodgement of the Annual Report; and
- any continuous disclosure notices lodged with ASIC after the Annual Report but before the date of this PDS.

Equity Trustees will comply with any continuous disclosure obligation by lodging documents with ASIC as and when required.

Copies of these documents lodged with ASIC in relation to the Fund may be obtained from ASIC through ASIC's website.

### Significant benefits:

- access to Pentalpha's investment expertise;
- access to fundamental stock selection and derivative based risk-management;
- generally investing for less cost than ordinary investors can achieve individually;
- the ability to generally add to or withdraw your investment daily;

## 4. Risks of managed investment schemes

All investments carry risks. Different investment strategies may carry different levels of risk, depending on the assets acquired under the strategy. Assets with the highest long-term returns may also carry the highest level of short-term risk. The significant risks below should be considered in light of your risk profile when deciding whether to invest in the Fund. Your risk profile will vary depending on a range of factors, including your age, the investment time frame (how long you wish to invest for), your other investments or assets and your risk tolerance.

The Responsible Entity and the Investment Manager do not guarantee the liquidity of the Fund's investments, repayment of capital or any rate of return or the Fund's investment performance. The value of the Fund's investments will vary. Returns are not guaranteed and you may lose money by investing in the Fund. The level of returns will vary and future returns may differ from past returns. Laws affecting managed investment schemes may change in the future. The structure and administration of the Fund is also subject to change.

In addition, we do not offer advice that takes into account your personal financial situation, including advice about whether the Fund is suitable for your circumstances. If you require personal financial or taxation advice, you should contact a licensed financial adviser and/or taxation adviser.

### Market risk

Changes in legal and economic policy, political events, technology failure, changes in interest rates, economic cycles, investor sentiment and social climate can all directly or indirectly create an environment that may influence (negatively or positively) the value of your investment in the Fund. In addition, a downward move in the general level of the equity market can have a negative influence on the performance of the Fund.

### **Interest rate risk**

Changes in official interest rates can directly and indirectly impact (positively or negatively) on investment returns. Generally, an increase in interest rates has a contractionary effect on the state of the economy and the valuation of securities. For example, rising interest rates can have a negative impact on a company's value as increased borrowing costs may cause earnings to decline. As a result, the company's share price may fall.

### **Company specific risk**

There may be instances where the value of a company's securities will fall because of company specific factors (for example, where a company's major product is subject to a product recall). The value of a company's securities can also vary because of changes to management, product, distribution or the company's business environment. This risk is somewhat mitigated by the knowledge and experience of the Investment Manager.

### **Liquidity risk**

There may be times when investments may not be readily sold (for example, in a falling market where some traded securities may become less liquid). Moreover, some securities may be thinly traded and there may not be sufficient market depth to facilitate the efficient realisation of those assets at all times. However, in the Investment Manager's opinion, trading volumes of investments are generally sufficient to satisfy liquidity requirements when necessary. The Fund generally invests in highly liquid investments which are traded in an active market, and can be readily disposed of. The Investment Manager attempts to mitigate the liquidity risk factor by ensuring that the Fund has sufficient cash exposure to meet liquidity requirements. Note that neither the Responsible Entity nor the Investment Manager guarantees the liquidity of the Fund's investments.

### **Regulatory Risk**

This is the risk that domestic or international laws or regulations (including tax laws) are changed adversely or that regulatory supervision of transactions and reporting is performed by the Investment Manager at less than an appropriate standard. The Investment Manager aims to manage this risk by regularly and closely reviewing changes in the regulatory and tax environment.

### **Security selection risk**

The Investment Manager may make investment decisions that result in low or no returns. This risk is mitigated to some extent by the knowledge and experience of the Investment Manager.

### **Concentration risk**

The Fund is expected to have a concentrated portfolio of assets. Lower diversification and active stock selection can result in greater than average percentage investment in individual companies. Such concentration can give rise to more risk than where investments are spread over a large number of companies.

Whilst this may increase the potential gains, this concentration of exposure and lack of diversification may also substantially increase the risk of loss to the Fund.

### **Derivatives risk**

The Investment Manager may use derivatives to enhance a securities yield or to hedge its risk.

A derivative is a financial instrument whose value depends on underlying variables. In the Fund, the most common derivatives are exchange traded options. A derivative is essentially a contract whose payoff depends on the value of something else, such as a benchmark or the price of a security or currency. There is often leverage inherent in derivative positions, as only a small initial margin is usually required to establish positions in most derivatives. Risks associated with derivatives may include adverse movement in the physical asset or benchmark underlying the derivative, potential illiquidity of the derivative, the Fund being unable to meet payment obligations as they arise and the counterparty to any derivative contract not being able to meet its obligations under the contract.

These risks are mitigated to some extent through leverage and counterparty exposure being monitored closely by the Investment Manager and strictly controlled to achieve the aims of the Fund by closely monitoring the financial health of counterparties.

### **Counterparty risk**

Counterparty risk refers to the fact that a counterparty may default on its obligations. This may result in a loss to the Fund.

### **Credit risk**

There is a risk that a party to a credit transaction fails to meet its obligations, such as a counterparty defaulting under a derivative contract or a securities lender failing to deliver a borrowed security. The Custodian will have general custody of the Fund's assets. The failure of the Custodian to secure custody of the Fund's assets may result in adverse consequences for the assets held by the Fund and may in turn have an adverse effect on the NAV per unit.

### **Fund risk**

As with all managed funds, there are risks particular to the Fund, including the possibility it could terminate, fees and expenses could change, the Responsible Entity or the Investment Manager may be replaced or key investment professionals could change. There is also a risk that investing in the Fund may give different results than investing directly in the Fund's underlying investments because of income or capital gains accrued in the Fund and the consequences of investment and withdrawal by other investors. We aim to keep fund risk to a minimum by monitoring the Fund and acting in the unit holder's best interests.

### **Key personnel risk**

Pentalpha is dependent to some extent upon the expertise of its existing investment team. Consequently, the Fund's performance could be adversely affected if key members of the investment team do not continue to provide their services to Pentalpha.

## **5. How we invest your money**

**Warning:** Before choosing to invest in the Fund you should consider the likely investment returns, the risks of investing and your investment time frame.

### **Investment objective**

The Fund aims to achieve a before fees total return in excess of 6% per annum and distribute at least 1% of the return on a quarterly basis.

### **Benchmark**

The Fund looks to deliver consistent total returns each year in excess of 6% per annum based on the investment objective, rather than a return relative to some market index or benchmark.

### **Minimum suggested time frame**

The suggested investment timeframe is at least 5 years

### **Risk level of the Fund**

Medium.

The Fund should be considered as a medium risk strategy investment. It is not intended as a complete investment program. The Fund is designed only for informed and educated investors who can bear the economic risks of the loss of their investment in the Fund and who have a limited need for liquidity in their investment. There can be no assurance that the Fund will achieve its investment objective or that any investor will get their money back.

## Investor suitability

The Fund is designed to deliver an attractive, consistent and growing income stream with modest capital growth. It is better suited to investors who are looking to benefit from their wealth utilisation phase. The Fund is focussed on maximising the outcome for investors able to fully utilise franking credits received from Australian shares. It may also be suited to superannuation funds, foundations, not for profits and charitable trusts.

## Investment style and approach

The Fund's strategy is to actively manage a high conviction, income focussed, long only, tax aware and risk adverse Australian share portfolio. Using fundamental stock selection and derivative based risk-management, a portfolio of 10-20 stocks can deliver a higher than average after-tax running yield, modest capital growth, lower volatility and no leverage. Only Exchange Traded Options (ETOs) on stocks held in the portfolio are used to provide risk mitigation and yield enhancement.

The investment universe is limited to Australian shares with actively traded ETOs (over 70 stocks). This universe is then screened for sustainably high franked dividends reducing the universe to around 30 stocks. Applying an intrinsic value screen reduces this list to a "buy list" of around 20 well valued fundamentally attractive stocks. Stocks are selected from this "buy list" to optimise for intrinsic value and diversification producing a portfolio of 10-20 stocks.

## Asset allocation

The defensive nature of the Fund may result in its cash holding being up to 100% of the portfolio. The Fund can take positions in instruments from a number of asset classes including, but not limited to:

- Securities listed on the Australian Securities Exchange (0 - 100%);
- Derivatives including, but not limited to, Exchange Traded Options which are cash and /or asset backed (0 - 100%);
- Cash and cash equivalent instruments (0 - 100%)

The Fund invests in assets located in Australia. Fund assets will be held by the Custodian which is located in Australia.

## Changing the investment strategy

The investment strategy and asset allocation parameters may be changed. If a change is to be made, investors in the Fund will be notified in accordance with the Corporations Act.

## Labour, environmental, social and ethical considerations

Neither Equity Trustees nor Pentalpha takes labour standards or environmental, social or ethical considerations into account when making their investment decisions. However, where those factors may negatively impact the investment performance or company stability, Pentalpha's investment team will generally discuss these matters with company management and/or review the decision to hold the specific investment. No specific methodology is used for such reviews nor are there pre-determined views about the extent to which such factors will be taken into account in a review.

## Fund performance

Fund performance is available by calling Pentalpha on 1300 155 664. Please note that due to the historical nature of performance information and the volatility of returns, future returns may differ from past returns.

# 6. Fees and costs

## DID YOU KNOW?

Small differences in both investment performance and fees and costs can have a substantial impact on your long-term returns.

For example, total annual fees and costs of 2% of your account balance rather than 1% could reduce your final return by up to 20% over a 30 year period (for example, reduce it from \$100,000 to \$80,000).

You should consider whether features such as superior investment performance or the provision of better member services justify higher fees and costs.

You may be able to negotiate to pay lower contribution fees and management costs where applicable. Ask the fund or your financial adviser.

## TO FIND OUT MORE

If you would like to find out more, or see the impact of the fees based on your own circumstances, the **Australian Securities and Investments Commission (ASIC)** website ([www.moneysmart.gov.au](http://www.moneysmart.gov.au)) has a managed funds fee calculator to help you check out different fee options.

The information in the following template can be used to compare costs between different simple managed investment schemes. Fees and costs can be paid directly from an investor's account or deducted from investment returns. For information on tax please see Section 7 of this PDS.

TYPE OF FEE OR COST	AMOUNT
<b>Fees when your money moves in or out of the Fund</b>	
Establishment fee	Nil
Contribution fee	Nil
Withdrawal fee	Nil
Termination fee	Nil
<b>Management costs</b>	
The fees and costs for managing your investment <sup>1</sup>	<b>Management fees:</b> 0.92% p.a. of the NAV of the Fund <sup>2</sup>

<sup>1</sup> All fees quoted above are inclusive of Goods and Services Tax (GST) and net of any Reduced Input Tax Credits (RITC). See below for more details as to how management costs are calculated.

<sup>2</sup> Management fees can be negotiated. See "Differential fees" below.

## Additional Explanation of fees and costs

### What do the management costs pay for?

Management costs comprise the additional fees or costs that an investor incurs by investing in the Fund rather than by investing directly in the underlying assets of the Fund.

Management costs include management fees. In addition, management costs do not include transactional and operational costs (i.e. costs associated with investing the underlying assets, some of which may be met by Buy/Sell Spreads).

## Management fees

The management fees of 0.92% p.a. of the NAV of the Fund are payable to the Responsible Entity of the Fund for managing the assets and overseeing the operations of the Fund. The management fees are accrued daily and paid from the Fund monthly in arrears and reflected in the unit price. As at the date of this PDS, ordinary expenses such as investment management fees, custodian fees, administration and audit fees, and other ordinary expenses of operating the Fund are covered by the management fees at no additional charge to you.

The management fees shown above do not include extraordinary expenses (if they are incurred in future), such as litigation costs and the costs of convening investor meetings.

## Transactional and operational costs

In managing the assets of the Fund, the Fund may incur transactional and operational costs such as brokerage, settlement costs, clearing costs and applicable stamp duty when assets are bought and sold, and the costs of derivatives used for hedging purposes (if applicable). This generally happens when the assets of the Fund are changed in connection with day-to-day trading or when there are applications or withdrawals which cause net cash flows into or out of the Fund.

The Buy/Sell Spread reflects the estimated transaction costs incurred in buying or selling assets of the Fund when investors invest in or withdraw from the Fund. The Buy/Sell Spread is an additional cost to the investor but is incorporated into the unit price and incurred when an investor invests in or withdraws from the Fund and is not separately charged to the investor. The Buy Spread is paid into the Fund as part of an application and the Sell Spread is left in the Fund as part of a redemption and not paid to Equity Trustees or the Investment Manager. The estimated Buy/Sell Spread is 0.35% upon entry and 0.35% upon exit. The dollar value of these costs based on an application or a withdrawal of \$500,000 is \$1,750 for each individual transaction. The Buy/Sell Spread can be altered by the Responsible Entity at any time. The Responsible Entity may also waive the Buy/Sell Spread in part or in full at its discretion.

Transactional costs which are incurred other than in connection with applications and withdrawals arise through the day-to-day trading of the Fund's assets and are reflected in the Fund's unit price. As these costs are factored into the NAV of the Fund and reflected in the unit price, they are an additional implicit cost to the investor and are not a fee paid to the Responsible Entity. These costs can arise as a result of bid-offer spreads (the difference between an asset's bid/buy price and offer/ask price) being applied to securities traded by the Fund. Liquid securities generally have a lower bid-offer spread while less liquid assets have a higher bid-offer spread reflecting the compensation taken by market makers in providing liquidity for that asset.

We estimate that the total transaction costs for the Fund over the first full financial year will be 0.40% of the NAV of the Fund, of which 100% of these transaction costs is reasonably estimated to be recouped via the Buy/Sell Spread when applications or redemptions take place, resulting in a net transaction cost to the Fund of 0% p.a.

However, actual transactional and operational costs for future years may differ.

## Can the fees change?

Yes, all fees can change without investor consent, subject to the maximum fee amounts specified in the Constitution. Equity Trustees has the right to recover all reasonable expenses incurred in relation to the proper performance of its duties in managing the Fund and as such these expenses may increase or decrease accordingly. We will generally provide investors with at least 30 days' notice of any proposed change to the management costs. In most circumstances, the Constitution defines the maximum level that can be charged for fees described in this PDS. Expense recoveries may change without notice, for example, when it is necessary to protect the interests of existing members and if permitted by law.

## Payments to IDPS Operators

Subject to the law, annual payments may be made to some IDPS Operators because they offer the Fund on their investment menus. Product access is paid by the Investment Manager out of its investment management fee and is not an additional cost to the investor. If the payment of annual fees to IDPS Operators is limited or prohibited by the law, Equity Trustees will ensure the payment of such fees is reduced or ceased.

## Differential fees

The Responsible Entity or Investment Manager may from time to time negotiate a different fee arrangement (by way of a rebate or waiver of fees) with certain investors who are Australian Wholesale Clients.

## Example of annual fees and costs for the Fund

This table gives an example of how the fees and costs for this managed investment product can affect your investment over a 1 year period. You should use this table to compare this product with other managed investment products.

EXAMPLE – Pentalpha Income for Life Fund - Ordinary Class		
BALANCE OF \$500,000 WITH A CONTRIBUTION OF \$5,000 DURING THE YEAR		
Contribution Fees	Nil	For every additional \$5,000 you put in, you will be charged \$0
Plus Management costs	0.92% p.a.	<b>And</b> , for every \$500,000 you have in the Fund you will be charged \$4,600 each year
Equals Cost of Fund		If you had an investment of \$500,000 at the beginning of the year and you put in an additional \$5,000 during that year, you would be charged fees of: \$4,600* <b>What it costs you will depend on the fees you negotiate.</b>

This example assumes the \$5,000 contribution occurs at the end of the first year, therefore management costs are calculated using the \$500,000 balance only.

\* Additional fees may apply. Please note that this example does not capture all the fees and costs that may apply to you such as the Buy/Sell Spread.

**Warning: If you have consulted a financial adviser, you may pay additional fees. You should refer to the Statement of Advice or Financial Services Guide provided by your financial adviser in which details of the fees are set out.**

ASIC provides a fee calculator on [www.moneysmart.gov.au](http://www.moneysmart.gov.au), which you may use to calculate the effects of fees and costs on account balances.

## 7. How managed investment schemes are taxed

**Warning: Investing in a registered managed investment scheme (such as the Fund) is likely to have tax consequences. You are strongly advised to seek your own professional tax advice about the applicable Australian tax (including income tax, GST and duty) consequences and, if appropriate, foreign tax consequences which may apply to you based on your particular circumstances before investing in the Fund.**

The Fund is an Australian resident for tax purposes and does not generally pay tax on behalf of its investors. Australian resident investors are assessed for tax on any income and capital gains generated by the Fund to which they become presently entitled or, where the Fund has made a choice to be an Attribution Managed Investment Trust ("AMIT") and the choice is effective for the income year, are attributed to them.

### Further reading

You should read the important information in the Reference Guide about Taxation under the "Other important information" section before making a decision. Go to the Reference Guide which is available at [www.eqt.com.au/insto](http://www.eqt.com.au/insto). The material relating to these matters may change between the time when you read this PDS and the day when you acquire the product.

## 8. How to apply

To invest please complete the Application Form accompanying this PDS, send funds (see details in the Application Form) and your completed Application Form to:

Pentalpha Income for Life Fund - Ordinary Class  
c/o Link Fund Solutions  
GPO Box 5482  
Sydney NSW 2001

Please note that cash and cheques cannot be accepted and all applications must be made in Australian dollars.

### Who can invest?

Eligible persons (as detailed in the 'About this PDS' section) can invest, however individual investors must be 18 years of age or over.

Investors investing through an IDPS should use the application form provided by their IDPS Operator.

### Cooling off period

If you are a Retail Client who has invested directly in the Fund, you may have a right to a 'cooling off' period in relation to your investment in the Fund for 14 days from the earlier of:

- confirmation of the investment being received; and
- the end of the fifth business day after the units are issued.

A Retail Client may exercise this right by notifying Equity Trustees in writing. A Retail Client is entitled to a refund of their investment adjusted for any increase or decrease in the relevant Application Price between the time we process your application and the time we receive the notification from you, as well as any other tax and other reasonable administrative expenses and transaction costs associated with the acquisition and termination of the investment.

The right of a Retail Client to cool off does not apply in certain limited situations, such as if the issue is made under a distribution reinvestment plan, switching facility or represents additional contributions required under an existing agreement. Also, the right to cool off does not apply to you if you choose to exercise your rights or powers as a unit holder in the Fund during the 14 day period. This could include selling part of your investment or switching it to another product.

Indirect Investors should seek advice from their IDPS Operator as to whether cooling off rights apply to an investment in the Fund by the IDPS. The right to cool off in relation to the Fund is not directly available to an Indirect Investor. This is because an Indirect Investor does not acquire the rights of a unit holder in the Fund. Rather, an Indirect Investor directs the IDPS Operator to arrange for their monies to be invested in the Fund on their behalf. The terms and conditions of the IDPS Guide or similar type document will govern an Indirect Investor's investment in relation to the Fund and any rights an Indirect Investor may have in this regard.
