About the Trustee

Equity Trustees Limited

Equity Trustees was established in 1888, by an Act of the Victorian Parliament, to provide trustee and executor services.

The company has evolved into a sophisticated financial services provider offering a broad range of products and services to a diverse client base. In addition to traditional trustee and estate management duties, the range of services offered by Equity Trustees includes portfolio management, superannuation, philanthropy and responsible entity services for external fund managers.

Equity Trustees' responsibilities and obligations as the Trustee of the Fund are governed by the Fund's Trust Deed as well as the general trust law.

Equity Trustees has appointed Supervised Investments Australia Limited to act as the investment manager of the Fund and Mainstream Fund Solutions Pty Ltd to act as the administrator of the Fund.

About the Investment Manager

Supervised Investments Australia Limited

Equity Trustees has appointed Supervised Investments Australia Limited as the investment manager of the Fund.

The Investment Manager was established in May 2007 and launched the Fund in December 2007. It also launched the Supervised Global Income Fund in April 2009, which invests in the global debt markets. The Investment Manager also received its first institutional mandate in March 2017, which invests in US CLOs.

The firm is privately owned by the Directors and senior staff (and their associated interests). For more information on Supervised Investments Australia Limited please visit their website: www.supervisedinvestments.com

About the Administrator

Mainstream Fund Services Pty Ltd

The Trustee has appointed Mainstream Fund Services Pty Ltd to act as administrator for the Fund. In such capacity, the Administrator performs all general administrative tasks for the Fund, including keeping financial books and records and calculating the Net Asset Value of the Fund.

The Trustee has entered into an Administration Agreement with the Administrator, which governs the services that will be provided by the Administrator to the Fund.

The Investment Manager may at any time, in consultation with the Trustee, select any other administrator to serve as administrator to the Fund.

About the Fund Investments

Investment Objectives

The Fund seeks to provide investors with an annual return which outperforms the Benchmark of 5% p.a. whilst minimising the risk of a permanent loss of capital.

Investment Strategy

- The Investment Manager calls its investment strategy 'The Supervised System'.
- The investment team seeks to construct a portfolio which provides investors with an annual return that outperforms other assets with similar risk profile whilst minimising permanent loss of capital. The investment team will invest on a global basis but has a natural tendency to focus on the Australian market. Capital can be allocated to equities, option contracts, foreign exchange derivatives, debt securities and commodities. However, at least 85% of capital is allocated to listed equity investments and cash at any given time. The net assets of the Fund will not be geared; however, the Fund may hold leveraged positions through commodities and foreign exchange contracts from time to time.
- The Investment Manager believes that equity markets are inefficient and therefore offer excellent investment opportunities. The inefficiencies arise due to excesses in investor emotion, short term investment horizons, and a disproportionate focus on one of the least important aspects of a company's financial health – a single year's profit and loss statement.
- Conventional thinking is that holding more stocks reduces stock specific risk. Research, however, shows that 93% of stock specific risk can be eliminated by holding 20 stocks; each stock added to a portfolio beyond 20 is likely to have a decreasing impact on risk reduction (Elton and Gruber 2002). This means that effective diversification can be achieved in concentrated portfolios.
- Adding investments to a portfolio requires rigorous risk identification analyses. A manager has a greater chance of finding 20 great investments than 100 great investments and

each additional investment brings in new risks. Focusing on fewer positions enables for a greater understanding of each thesis and allows for increased expected return on the portfolio. It is for these reasons the portfolio is generally concentrated with 15-25 core positions.

- The investment style would be considered 'bottom up' analysis rather than 'top down'. Being a 'bottom up' investor does not mean that the Investment Manager doesn't need to take a view on the market or the economy – the big picture impacts the probability of different investment cases playing out.

Investment Guidelines

The Investment Manager will endeavour to work within the portfolio weighting guidelines as set out below. However, these should be viewed as objectives only, not as absolute limits. Where the guidelines are exceeded for any reason the Investment Manager will endeavour to make adjustments in order to comply with the limits.

Portfolio Weighting Guidelines:

- No more than 15% of net assets invested in a single position (by cost value).
- At least 85% of the portfolio invested in listed equities and cash.
- Cash weighting of 5 - 30% of net assets.
- No leverage within the portfolio – i.e. no gearing of equity positions.
- No more than 10% of capital allocated (at cost) to hedging activities. This capital is inclusive of any hedge deposits required.
- Foreign currency exposures will typically be hedged back to Australian dollars.

The Investment Manager may amend these rules from time to time, without notice to or approval by unit holders in the Fund. Any changes will be communicated to unit holders via the Fund's monthly performance report.

Managing risk

Investment in any fund carries risks, including volatility of returns. Volatility refers to the degree to which returns may fluctuate around their long-term average. Each asset class, whether it is cash, fixed interest, property or Australian or international shares has associated investment risks and the return achieved by each will vary accordingly.

You should be aware that an investment in the Fund contains risks and neither the performance of the Fund nor the security of your investment is guaranteed by Equity Trustees or the Investment Manager. Investments in the Fund are generally subject to risks, including possible delays in the payment of withdrawal proceeds and loss of income and/or capital. The following discussion of certain risk factors does not purport to be an exhaustive list or a complete explanation of all the risks involved in an investment in the Fund. We recommend you talk to an adviser about the risks involved in investing in the Fund and how it might impact on your individual financial circumstances.

Market risk

Investors should be aware that there are risks inherent in the holding of securities:

An investment may fall in value due to changes in market sentiment or economic, technological, political or legal conditions.

Past performance is no guide to the future. The value of units, and any income from them, can go down as well as up, particularly in the short term, meaning that an investment may not be returned in full.

The tax treatment of the Fund may change and such changes cannot be foreseen.

Where regular investments are made with the intention of achieving a specific capital sum in the future, this will normally be subject to maintaining a specified level of investment.

International investments

The Fund can invest in international investments which may involve certain risks, including fluctuations in foreign exchange rates, future political and economic developments and the possible imposition of exchange controls or other governmental laws or restrictions. Security prices in different countries are subject to different economic, financial, political and social factors. In addition, investments may be subject to non-recoverable withholding taxes.

Liquidity risk

Investments that trade less can be more difficult or more costly to buy, or to sell, than more liquid or active investments. It may not be possible to sell or otherwise dispose of illiquid securities both at the price and within a time period deemed desirable by the Investment Manager.

Portfolio turnover risk

The Fund does not intend to trade, directly or indirectly, portfolio securities for the purpose of realising short-term profits. However, the Investment Manager will adjust the Fund's portfolio as considered advisable in view of prevailing or anticipated market conditions and the Fund's investment objective, and there is no limitation on the length of time securities must be held, directly or indirectly, by the Fund prior to being sold. Portfolio turnover rate will not be a limiting factor and will vary from year to year. Higher portfolio turnover rates involve correspondingly higher transaction costs, which are borne directly or indirectly by the Fund. In addition, the Fund may realise significant short term and long-term capital gains.

Derivatives risk

The Fund may use futures, options, swaps, forwards and other derivative instruments for investment purposes and for the purposes of hedging against either price or currency fluctuations. The Investment Manager's ability to use such strategies may be limited by market conditions, regulatory limits and tax considerations. Use of derivatives involves certain special risks, including (i) imperfect correlation between movements in the securities or currency on which a futures or options contract is based and movements in the securities or currencies in the Fund; (ii) the absence of a liquid market for any particular instrument at any particular time; (iii) while the Fund may not be geared in any way through the use of derivatives, the degree of leverage inherent in futures trading, i.e., the low margin deposits normally required in futures trading, means that futures trading may be highly leveraged; accordingly, a relatively small price movement in a futures contract may result in an immediate and substantial loss to the Fund; and (iv) possible impediments to the ability to meet redemption requests or other short-term obligations because of the percentage of the Fund's assets segregated to cover its obligations. Hedging strategies necessarily add costs to the Fund.

For derivative instruments other than purchased options, any loss suffered may exceed the amount of the initial investment made or the premium received by the Fund. OTC derivative instruments involve an enhanced risk that the counterparty will fail to perform its contractual obligations. If a Fund enters into a transaction in OTC markets, a Fund is exposed to the credit of its counterparties, and their ability to satisfy the terms of such contracts. For example, a Fund may enter into agreements, or use other derivative techniques, each of which exposes a Fund to the risk that the counterparty may default on its obligations to perform under the relevant contract. In the event of bankruptcy, or insolvency of a counterparty, a Fund could experience delays in liquidating the position and significant losses, including declines in the value of its investment during the period in which the Fund seeks to enforce its rights, inability to realise any gains on its investment during such a period and fees and expenses incurred in enforcing its rights. There is also a possibility that the above-mentioned agreements and derivative techniques are terminated due, for instance, to bankruptcy, supervening illegality or change of tax or accounting laws relative to those at the time the agreement was originated. In such circumstances investors may be unable to recover any losses incurred.

Some derivative instruments are not readily marketable or may become illiquid under adverse market conditions. In addition, during periods of market volatility, a commodity exchange may suspend or limit trading in an exchange-traded derivative instrument which may make the contract temporarily illiquid and difficult to price. Commodity exchanges may also establish daily limits on the amount that the price of a futures contract or an option thereon can vary from the previous day's settlement price. Once the daily limit is exceeded, no trades may be made that day at a price beyond the limit. This may prevent the Fund from closing out positions and limiting its losses.

Fixed interest securities risk

Fixed interest securities are particularly affected by trends in interest rates and inflation. If interest rates increase, capital values may fall and vice versa. Inflation will erode the real value of capital. In addition, companies may not be able to honour repayment on bonds they issue.

Foreign exchange and currency risk

The NAV of the Fund will be computed in the base currency whereas the investments held for the account of the Fund may be acquired in other currencies. The Fund's NAV may change

significantly when the currencies other than the base currency in which some of the Fund's investments are denominated strengthen or weaken against the base currency. Currency exchange rates generally are determined by supply and demand in the foreign exchange markets and the perceived relative merits of investments in different countries. Currency exchange rates can also be affected unpredictably by intervention by government or central banks or by currency controls or political developments.

In addition, currency hedging transactions, while potentially reducing the currency risks to which the Fund would otherwise be exposed, involve certain other risks, including the risk of a default by a counterparty. In addition, where the Fund enters into "cross-hedging" transactions (e.g., utilising a currency different from the currency in which the security being hedged is denominated), the Fund will be exposed to the risk that changes in the value of the currency used to hedge will not correlate with changes in the value of the currency in which the securities are denominated, which could result in loss on both the hedging transaction and the Fund securities.

Forward currency contracts and currency futures involve the possibility that the market for them may be limited with respect to certain currencies and, upon a contract's maturity, the possible inability to negotiate with the dealer to enter into an offsetting transaction. There is no assurance that an active forward currency contract market will always exist. These factors

restrict the ability to hedge against the risk of devaluation of currencies in which a substantial quantity of securities are being held for the Fund and are unrelated to the qualitative rating that may be assigned to any particular security.

Emerging markets risk

Investment in emerging markets carries a higher risk than investing in mature markets. This is mainly because of the volatility of the markets and local regulations, and custody and registration arrangements, which may be less developed than in more mature markets.

Legal risk

There is a risk that laws, including tax laws, might change or become difficult to enforce.

Net Asset Value

Whilst the Fund may use the latest available published price in respect of each investment in order to calculate the NAV, it reserves the right to use more recent valuations where this is considered appropriate. Such valuations may be based on an estimate of a more recent price of any unit or share in an underlying investment fund or other collective investment undertaking in which the Fund invests obtained from or calculated on the basis of more recent information received from the underlying fund or undertaking or any of its service providers or agents.

You will not be entitled to any interest on your application money in this circumstance.

Valuation of the Fund and application price of Units

The value of the investments of the Fund and Unit prices are generally determined monthly.

The value of a Unit reflects the value of the assets of the Fund less the liabilities of the Fund and is determined in accordance with the Trust Deed. The application price of a Unit is, in general terms, based on the NAV of the Fund divided by the number of Units on issue. The NAV per Unit can be increased by the Trustee to make an allowance for transaction costs required for buying investments; this is known as the Buy Spread.

The Buy Spread is currently 0.40%.

The Trustee has no intention to issue additional classes of units at the time of issuing the IM.

Making a redemption

Subject to the redemption limitations described in this IM, Unit holders of the Fund can redeem all or a portion of their investments by completing a written request and mailing it to:

Mainstream Fund Services Pty Ltd
Attn: Client Services Registry Team
GPO Box 4968
Sydney NSW 2001

Or email it to: registry@mainstreamgroup.com

Or fax it to: +61 2 9251 3525

The minimum redemption amount is \$100,000. Refer below for "Terms and conditions for redemptions".

Redemption price

The redemption price of a Unit is based on the NAV of the Fund divided by the number of Units on issue.

As with the issue of Units, where Units in the Fund have been issued in a class of Units to which specific assets in the Fund are directly referable, the redemption price will be calculated on the basis of the NAV of the assets of the Fund which are directly referable to the class of Units. The NAV per Unit can be reduced by the Trustee to make an allowance for the transaction costs required for selling investments which is known as the Sell Spread.

The Sell Spread is currently 0.40%.

The amount a Unit holder will receive on the redemption of their Units will be the redemption price, less any redemption charge which is applicable.

Access to funds on redemption

Redemption requests need to be received in writing at least 21 days prior to the end of each month.

In the ordinary course of business, it is expected that proceeds from redemptions will be available within 10 business days. However, the Fund Constitution allows 60 days from the redemption date within which to return the proceeds of a redemption request. Under the Fund Constitution, the Trustee may also, at any time, suspend the redemption of units and the payment for the redemption of units if it believes it is in the best interest of the unitholders as a whole.

Fund liquidity

The Fund may invest, indirectly, a significant proportion of its assets in unlisted illiquid investments. Accordingly, the Trustee may not be able to satisfy redemption requests received from time to time.

If redemption requests representing more than 20% (or such percentage as Equity Trustees may determine) of the units on issue are received in respect of any Redemption Day, Equity Trustees may reduce each redemption request in respect of the units prorated to ensure that only 20% (or such percentage as Equity Trustees may determine) of the units are redeemed and may defer the residual redemption request in excess of that amount by treating items as though they were received for the next redemption day (subject again to the 20% restriction for that redemption).

Equity Trustees may at any time, suspend the redemption of units and the payment of fees if Equity Trustees considers it to be in the best interest of the unitholders as a whole.

Under the Trust Deed, the Trustee has the power to deny any redemption request. The Trustee and Investment Manager are not required to and may not be in a position to give Unit holders any prior notice before redemption requests are denied or temporarily suspended.

Terms and conditions for redemptions

The Trustee may deny a redemption request if it is for less than the minimum amount determined by the Trustee from time to time and does not relate to the balance of a Unit holder's investment.

Equity Trustees has the right to fully redeem a Unit holder's investment in the Fund after giving the Unit holder notice, where their holding falls below the minimum balance amount. At the time of this IM, the minimum balance is \$200,000.

Equity Trustees will refuse to comply with any redemption request if the requesting party does not satisfactorily identify themselves as the Unit holder. Redemption payments will not be made to third parties (including authorised nominees) and will only be paid directly to the Unit holder's bank account held in the name of the Unit holder at a branch of an Australian domiciled bank. By lodging a facsimile redemption request the Unit holder releases, discharges and agrees to indemnify Equity Trustees from and against any and all losses, liabilities, actions, proceedings, account claims and demands arising from any facsimile redemption request.

The Unit holder also agrees that any payment made in accordance with a facsimile redemption request shall be a complete satisfaction of the obligations of Equity Trustees, notwithstanding any fact or circumstance including that the payment was made without the Unit holder's knowledge or authority. The Unit holder agrees that if the payment is made in accordance with a facsimile redemption request, the Unit holder and any person claiming through or under them shall have no claim against Equity Trustees in relation to the payment.

Distributions

Distributions are intended to be made by the Fund annually (i.e. "Distribution Period") as at 30 June. A distribution comprises a Unit holder's share of any distributable income earned by the Fund (or the relevant class of Units in the Fund in which a Unit holder has invested). A Unit holder's share of any distributable income is generally based on the number of Units held by the Unit holder at the end of the Distribution Period.

Generally, the income entitlements of Unit holders of the Fund will be distributed within 15 days after the date they are determined, although the distribution at the end of a financial year (i.e. 30 June) may take longer (for example, if there is a delay in completing an audit). Under the Trust Deed, the Trustee has 2 months after the end of any Distribution Period to make any distributions.

If you are a Unit holder in the Fund, you can:

- have your distribution reinvested back into the Fund; or
- have your distribution directly credited to your nominated bank account.

If you do not make an election when completing your application form, your distribution will automatically be reinvested and will be taken to be received and accepted on the day you become entitled to the distribution. The Trust Deed provides for money payable to a Unit holder to be reinvested or where the Trustee attempts to pay the money by electronic transfer and the electronic transfer fails by cheque.

Appointment of authorised nominee to operate account

Unit holders may elect to appoint an authorised nominee to operate their account. If you wish to appoint an authorised nominee, then the relevant sections in the application form which is attached to this IM need to be completed, including the name and signature of the authorised nominee, the signature of the Unit holder and the date. Only Unit holders can appoint authorised nominees. If you appoint an authorised nominee we suggest that you ensure that:

- they cannot appoint another nominee; and
- the appointment lasts until cancelled by you in writing or by the Trustee.

If the Trustee determines that the circumstances require, the Trustee may cancel an appointment by giving the Unit holder 14 days' notice in writing. If an appointment is cancelled, the Trustee will not be obliged to act on the instructions of the authorised nominee. If the instructions are varied, the Trustee will act only in accordance with the varied instructions. By completing and lodging the relevant sections on authorised nominees in the application form you release, discharge and agree to indemnify the Trustee from and against any and all losses, liabilities, actions, proceedings, account claims and demands arising from the Trustee acting on the instructions of your authorised nominee.

You also agree that any instructions of your authorised nominee to the Trustee, which are followed by the Trustee, shall be a complete satisfaction of the obligations of the Trustee, notwithstanding any fact or circumstance, including that the instructions were made without your knowledge or authority. You agree that if the authorised nominee's instructions are followed by the Trustee, you and any person claiming through or under you shall have no claim against the Trustee in relation to the instructions.

Powers of an authorised nominee

An authorised nominee can, among other things:

- apply for additional investment Units;
- request that distribution instructions be altered;
- change bank account details,
- request redemption of all or part of your investment; and
- enquire as to the status of your investment and obtain copies of statements.

Redemption payments will not be made to third parties. If a company is appointed as an authorised nominee, the powers will extend to any director and authorised officer of the company. If a partnership, the powers will extend to all partners.

Keeping track of your investments

Regular, simple to read reports are provided to Unit holders in the Fund. These reports comprise:

Fees and other costs

Management costs

The management costs include trustee fees, custody fees, administration fees, audit fees and other ordinary expenses related to the establishment and operation of the Fund.

The management costs of the Fund are as follows:

Management costs: 2.05% p.a. (including GST and net of RITC) of the gross asset value of the Fund. The management costs are reflected in the NAV and in the Unit price of the Fund. Management costs do not include transaction costs and abnormal expenses.

In addition to the management costs set out above, the Trustee may also charge any transaction costs and abnormal expenses to the Fund.

Performance fees

The Investment Manager is entitled to a performance fee equal to 20% (plus GST) of the Fund's return in excess of the Benchmark. The Fund's return is calculated net of the Management cost, and represents the increase in value of the Fund over the period.

The fee is accrued monthly, payable semi-annually, as at 30 June and 31 December.

Importantly, there is a 'High Water Mark' used in calculating the performance fee. This ensures that any under-performance of the Benchmark has to be recouped by the Investment Manager before any future Performance Fee can be earned."

Further information regarding fees and other costs

What do the management costs pay for?

The management costs include trustee fees, investment management fees, custodian fees, administration fees and other expenses of the Fund. The management costs are calculated and accrued daily based on the NAV of the Fund. The accrued fees are paid in arrears from the assets of the Fund within 14 days of the end of each month. The management costs reduce the NAV of the Fund and are reflected in the unit price.

Transaction and other costs

All government taxes such as stamp duty and GST will be deducted from the Fund as appropriate. RITCs will also be claimed by the Fund where appropriate to reduce the cost of GST to the Fund.

Buy/Sell Spread

The Buy/Sell Spread reflects the estimated transaction costs associated with buying and selling the assets of the Fund when Unit holders invest in, or redeem from, the Fund. The Buy/Sell

Taxation

Investing in a wholesale unit trust scheme (such as this Fund) is likely to have tax consequences. You are strongly advised to seek your own professional tax advice about the applicable Australian tax (including income tax, GST and duty) consequences and, if appropriate, foreign tax consequences which may apply to you based on your particular circumstances before investing in the Fund.

The Fund is an Australian resident for tax purposes and does not pay tax on behalf of its members. Australian resident Unit holders are assessed for tax on income and capital gains generated by the Fund to which they become entitled.

Spread is an additional cost to the Unit holder but is included in the Unit price and incurred when a Unit holder invests in or redeems Units from the Fund and is not charged as an additional fee.

Where a fee or transaction cost is specifically applicable to a particular class of Units, the Trustee may allocate the cost to that particular class of Units.

The Buy/Sell Spread is paid into the Fund and not retained by Equity Trustees or the Investment Manager. At the date of this IM, the Buy/Sell Spread for the Fund is 0.40%/-0.40%.

Abnormal expenses

In addition to the management costs, the Trustee may additionally recover abnormal expenses (such as the costs of Unit holders' meetings, legal advice/proceedings and other irregular expenses). The Trust Deed does not place any limit on the amount of the abnormal expenses that can be paid from the Fund.

Alternative forms of remuneration

As a member of the Financial Services Council, the Trustee maintains an Alternate Forms of Remuneration Register. The register, which you can review by contacting us, outlines some alternative forms of remuneration that we may pay to or receive from Australian Financial Services licensees, fund managers or representatives (if any are paid or received at all in relation to the Fund).

Can the fees change?

All fees can change without Unit holder consent, subject to the maximum fee amounts specified in the Trust Deed of the Fund. Reasons might include changing economic conditions and changes in regulation. Equity Trustees have the right to recover all proper expenses incurred in managing the Fund and as such these expenses may increase or decrease accordingly. We will notify Unit holders of any changes to fees and expenses in accordance with the law and the Trust Deed. The Trust Deed in some circumstances defines the maximum fees that can be charged for some fees described in this IM.

Apportionment of fees and costs

In circumstances where the Trustee issues different classes of Units in the Fund, the fees and costs will generally be apportioned by the Trustee across all Unit classes (on a pro-rata basis, having regard to the value of the assets in the Fund).

However, fees and expenses which are directly referable to a particular class of Units will be charged to Unit holders in that particular class of Units.

Other important information

Registration as a registered scheme under the Corporations Act

The Fund is not registered as a managed investment scheme under the Corporations Act and there is currently no intention to register the Fund as a managed investment scheme.

Cooling off period

No cooling off period applies to Units offered under this IM.

Unit holder's liability

The Trust Deed for the Fund provides that unless there is a separate agreement with a Unit holder, no Unit holder can be called on to contribute to the assets of the Fund or to its creditors if the Fund is liquidated or becomes insolvent. Therefore it is expected that Unit holders will not be under any obligation if a deficiency in the assets of the Fund was to occur. However, this view has not been fully tested and so it is not possible to give an absolute assurance that a Unit holder's liability will be limited in all circumstances.

In general, the liability of a Unit holder is limited to the amount (if any) which remains unpaid in relation to their subscription for Units and certain amounts in respect of tax. The Trustee is permitted to deduct certain amounts owed to the Trustee from amounts payable to Unit holders.

Non-listing of Units

The Units of the Fund are not listed on any stock exchange and no application will be made to list the Units of the Fund on any stock exchange.

Termination of the Fund

The Trustee may resolve at any time to terminate, liquidate and wind up the Fund in accordance with the Fund's Trust Deed. The Fund may otherwise terminate if required by law. A notice will be provided to Unit holders advising of the Fund's termination. Upon termination and after conversion of Fund assets into cash and payment of, or provision for, all costs and liabilities (actual and anticipated), the net proceeds will be distributed pro-rata amongst all Unit holders according to the number of Units they hold in the Fund.

Our legal relationship with you

You will receive Units when you invest. Subject to the rights, obligations and liabilities of a class, each Unit represents an equal proportionate beneficial interest in the assets of the Fund as a whole subject to liabilities, but does not give you an interest in any particular assets or property of the Fund. We note in this regard that the Trustee may determine that it is appropriate to issue Units of different classes and may determine that specific assets of the Fund should be directly referable to particular classes of Units.

Equity Trustees' responsibilities and obligations, as the Trustee of the Fund, are governed by the Trust Deed of the Fund as well as general trust law. The Trust Deed contains a number of provisions relating to the rights, terms, conditions and obligations imposed on both Equity Trustees, as the Trustee, and Unit holders. Some of the provisions of the Trust Deed are discussed elsewhere in this IM. Other provisions relate to a Unit holder's rights under the Trust Deed, and include:

- a Unit holder's right to share in any Fund income, and how we calculate it;
- what you are entitled to receive when you redeem or if the Fund is wound up;

- a Unit holder's right to redeem from the Fund - subject to the times when we can cease processing redemptions - such as if the Fund becomes 'illiquid';
- the nature of the Units - identical rights attach to all Units within a class; and
- a Unit holder's rights to attend and vote at meetings.

There are also provisions governing our powers and duties, including:

- how we calculate Unit prices, the maximum amount of fees we can charge and expenses we can recover;
- when we can amend the Trust Deed - generally we can only amend the Trust Deed by deed, although we will generally only do so where we reasonably believe that the changes will not adversely affect Unit holders' rights or if the amendments are approved at a meeting of Unit holders;
- when we can retire as the Trustee of the Fund - when permitted by law;
- when we can be removed as the Trustee of the Fund - which is when required by law; and
- our broad powers to invest, borrow money and generally manage the Fund - we do not currently intend to borrow funds to acquire assets for the Fund, although this is permitted under the Trust Deed of the Fund.

The Trust Deed also deals with our liabilities in relation to the Fund and when we can be reimbursed out of the Fund's assets, for example:

- we are not liable for acting in reliance and good faith on professional advice;
- we are not liable for any loss unless we fail to act in good faith or we act negligently; and
- we can be reimbursed for any liabilities we incur in connection with the proper performance of our powers and duties in respect of the Fund.

Copies of the Trust Deed are available, free of charge, on request from Equity Trustees.

Indemnity

Equity Trustees, as the Trustee of the Fund, is indemnified out of the Fund against all liabilities incurred by it in properly performing or exercising any of its powers or duties in relation to the Fund. To the extent permitted by law, this indemnity includes any liability incurred as a result of any act or omission of a delegate or agent appointed by the Trustee. Equity Trustees may retain and pay out any monies in its hands all sums necessary to effect such an indemnity.

Related party transactions

The Trustee and its associates are entitled to enter into or be interested on their own account in any transactions entered into on behalf of the Fund or with any company or body in which the Fund is invested or who provides services to the Fund. Any such transactions will be on arm's length commercial terms. The Trustee and its associates are also permitted to hold Units in any capacity.

Indemnification of the Trustee

Under the terms of the Trust Deed, Equity Trustees is entitled to be indemnified out of the assets of the Fund for any liability incurred by Equity Trustees by reason of Equity Trustees acting as trustee of the Fund. Equity Trustees will not, however, be entitled to be indemnified in relation to any such liability to the extent to which Equity Trustees' right of indemnity out of the assets of the Fund is reduced by reason of Equity Trustees' negligence, fraud or dishonesty.

Indemnification of the Investment Manager

Under the terms of the Investment Management Agreement, Equity Trustees, in its capacity as trustee of the Fund, indemnifies and agrees to hold harmless the Investment Manager against any loss or liabilities reasonably incurred by the Investment Manager, and any direct costs, charges and expenses incurred by the Investment Manager by reason of the Investment Manager performing its duties and obligations under the Investment Management Agreement. Information on underlying investments

Information regarding the underlying investments of the Fund will be provided to a Unit holder in the Fund on request, to the extent Equity Trustees is satisfied that such information is required to enable the Unit holder to comply with its statutory reporting obligations. This information will be supplied within a reasonable timeframe having regard to these obligations.

Anti-Money Laundering and Counter Terrorism Financing ("AML/CTF")

Australia's AML/CTF laws require Equity Trustees to adopt and maintain an AML/CTF Program. A fundamental part of the AML/CTF Program is that Equity Trustees knows certain information about investors in the Fund.

To meet this legal requirement, we need to collect certain identification information and documentation ("KYC Documents") from new investors. Existing investors may also be asked to provide KYC Documents as part of a re-identification process to comply with AML/CTF laws. Processing of applications will be delayed or refused if investors do not provide the applicable KYC Documents when requested.

Under the AML/CTF laws, Equity Trustees is required to submit regulatory reports to AUSTRAC. This may include the disclosure of your personal information. Equity Trustees may not be able to tell you when this occurs.

The Responsible Entity shall not be liable for any loss you may suffer because of compliance with the AML/CTF laws.

Foreign Account Tax Compliance Act ("FATCA")

In April 2014, the Australian Government signed an intergovernmental agreement ("IGA") with the United States of America ("U.S."), which requires all Australian financial institutions to comply with the FATCA Act enacted by the U.S. in 2010.

Under FATCA, Australian financial institutions are required to collect and review their information to identify U.S. residents that invest in assets through non-U.S. entities. This information is reported to the Australian Taxation Office ("ATO"). The ATO may then pass that information onto the U.S. Internal Revenue Service.

In order to comply with the FATCA obligations, we may request certain information from you. Failure to comply with FATCA obligations may result in the Fund, to the extent relevant, being subject to a 30% withholding tax on payment of U.S. income or gross proceeds from the sale of certain U.S. investments. If the Fund suffers any amount of FATCA withholding and is unable to obtain a refund for the amounts withheld, we will not be required to compensate unitholders for any such withholding and the effect of the amounts withheld will be reflected in the returns of the Fund.

Common Reporting Standard ("CRS")

The CRS is a standardised set of rules developed by the Organisation of Economic Co-operation and Development that requires certain financial institutions resident in a participating jurisdiction to document and identify reportable accounts and implement due diligence procedures. These financial institutions will also be required to report certain information on reportable accounts to their relevant local tax authorities.

Australia signed the CRS Multilateral Competent Authority Agreement and has enacted provisions within the domestic tax legislation to implement CRS in Australia. Australian financial institutions need to document and identify reportable accounts, implement due diligence procedures and report certain information with respect to reportable accounts to the ATO. The ATO may then exchange this information with foreign tax authorities in the relevant signatory countries.

In order to comply with the CRS obligations, we may request certain information from you. Unlike FATCA, there is no withholding tax that is applicable under CRS. However, penalties may apply for failing to comply with the CRS obligations.
